Good Afternoon Ms. Pullum,
The volume of traffic was the reason for the flights over your area. There were 134 operations in a two hours period.
The tower was turning traffic to insure safe operational separation (please see attached).

Please contact me with any additional concerns .

Thank You

Casandra R. Davis

Noise Comments

Comments/Suggestions: Sunday June 8, 2019 Flights are heading north coming off the runway over El Cid today one right after the other. There is no weather factor and flights are not spaced to indicate that there is heavy traffic causing fanning. I can see/hear flights flying the gps headings out to the East and there are none. I have flights coming overhead on the north heading steadily. What is going on in the tower? Trump is not here. No excuses. Multiple flights from 2 pm on.

Incident Date: 01/06/2019

Incident Hour: 4

Incident Minute: 15

Incident AM PM: P.M.

Incident Involving: Aircraft, Off Flight Path
