Ms. Kelly,

In response to your inquiry (below). We are working with Stellar Aviation in efforts to find a resolution to this activity.

Submitted: 1/30/2017

Within the last month or so, very large helicopters keep circling the neighbor of Atlantis. They are very low and VERY noisy. They are not simply landing or taking off - unless they do this repeatedly for hours on end. I was playing golf on Thursday morning, January 26, 2017 (just to mention one specific date) and they were constantly overhead from about 9am to 12pm. Unacceptable!!! This is a residential neighbor.

We apologize for the delayed response to your comment as we have made technical changes to the website.

Thank you for your comments.
