Mr. Lederman,

There were 703 operations (which is higher than usual) on Sunday. The traffic is assigned alternate headings during weather events, high volumes of traffic and/or safety issues - this is done to insure safe separation. The aircraft you noted over your area was assigned alternate headings due to a high volume of traffic. (Please review attached flight illustrations).

Please contact me if you have any additional concerns.  
Thank You

Casandra R. Davis
