Ms. Kinsella,

Thank you for your interest in Palm Beach International Airport.

We appreciate the opportunity to inform the surrounding communities that there has been “no change,” to the traditional and well established flight paths arriving and departing PBIA. Palm Beach County is a seasonal destination and this accounts for the increase in operations observed during our winter months.

Your neighborhood whose southern border of Hampton Road is just north of this flight path does experience over flights. The Airport Noise and Operations Monitoring Systems track the majority of these flights at a minimum altitude of 1000 feet when over this area.

Again thank you for your comments.

A new noise comment/suggestion has been added.

First Name: Janet

Last Name: Kinsella

Email: [Janet.kinsella@gmail.com](mailto:Janet.kinsella@gmail.com)

Airport: PBI

Phone Number: 5616023240

Street Address: 1010 Andrews Road

City: West Palm Beach

Zip Code: 33405

Comment/Suggestion:

I am concerned about what I perceive as an increase in iaur traffic over my house.

I would like to receive reports f latest flight tracks.
