Email:	axylblu@gmail.com
Comments:	The helicopter training at the LNA facility is completely out of control. They are flying at less than 1000' directly over our homes in Atlantis with student pilots in control.

Good Afternoon Sir,

We have received your comments via the Website.

I have reviewed the patterns at LNA on November 16 and the helicopter traffic appears to be flying south of the airport. Please provide me with any additional information you may have regarding these flights i.e. dates, times helicopter colors you may have observed.

Thank you

Casandra R. Davis
