RE: L3Harris Symphony Noise Monitoring and Operational Management Systems (NOMS)

Dear Mr. Sypek:

Thank you for the invitation to discuss the L3Harris Noise and Operational Management Systems (NOMS) solutions with your Airport and Noise Community team members. Unfortunately, we are unable to attend in-person for the November 14th meeting due to schedule conflicts with our key NOMS personnel, along with L3Harris corporate guidance on restricted travel for the remainder of this calendar year (for both trade and publicly attended events).

Please instead accept the attached PowerPoint with details concerning the L3Harris PublicVue application as well as comprehensive reporting capabilities, powered by the L3Harris NextGen Data Feed*. We stand by for any questions or feedback that may arise after reviewing the materials and again, our sincerest apologies for our unavailability for this evening's meeting.

Sincerely,

A handwritten signature in black ink that reads "Rick A. Martin".

Rick Martin

Director of Sales, L3Harris Symphony

*L3Harris is the only airport NOMS provider with access to the NextGen Data Feed. More information on the L3Harris NextGen Data Feed can be found in the attached PowerPoint presentation.
