

Dr. Sirninger,

Thank you for this comment via e-mail and the opportunity to discuss this matter with you by phone.

As we discussed by phone; the use of the crosswind runway is temporary. Lightening stuck several electrical components associated with the signs and lighting for the east west runway and as soon as they are repaired, we will be returning to our normal usage of that surface.

Thank you for your patience in this matter.

City: West Palm Beach

Zip Code: 33406

Comment/Suggestion:

To whom it may concern. I live in a residential subdivision (Del Rio Unrec On) at 4████ Santa Fe road in West Palm Beach, FL 33406. As of 08/10 we have been experiencing a steady stream of close flyovers from PBI that are extremely loud. This is a new occurrence that I was hoping to be an isolated incident, but once again this morning (08/11) our family was repeatedly woken up and our daily lives disrupted by these constant unnervingly loud flyovers. I am writing this as an official complaint and ask for PBI to return to their former flight paths and cease this disruption to our daily lives.

Thank you, Dr. Jeffrey R. Sirninger (561-319-██████)
