Branding Details

Brand Foundations: Work through the building blocks of your brand essence to help gain clarity on your business purpose, values and overall brand personality. We will help you to map out a 'Brand Blueprint' that can be used as a guide throughout your business operations and will help to inform your design decisions.

Branding Package: Logo suite + colour variations, typography and colour palette, style guide

Brand Foundations + Branding Package: The ideal option for brands needing a well rounded brand essence. Combining both the Brand Foundations with the Branding Package will mean that your design solutions will be informed and guided by your brand's core essence, hence reflecting who you are more accurately and effectively. Information will then be compiled into a cohesive 'Brand Atlas.'
