INDUSTRY BODIES, AGENCIES & ASSOCIATIONS

Local Government Authority (LGAs)

Local government has an economic development function and many work closely with RTOs and LTOs to develop tourism in the region. They also directly manage or are closely involved with key tourism assets – such as visitor centres, caravan parks and reserves.

How they can help:

- Close interface with local businesses in small towns
- Develop and deliver infrastructure projects to support tourism

Local Tourism Organisations (LTOs)

LTOs are usually membership-based bodies responsible for promoting their local area and its members. They also play a critical supporting role in tourism initiatives such as essential infrastructure, delivery of events, attractions and experiences, approvals of tourism development and policy and planning for a sustainable tourism future.

How can they help:

- Liaise with regional tourism authorities and state authorities on behalf of operators
- Provide opportunities to get involved in marketing campaigns

Local Visitor Centres

Visitor centres provide tourist information to visitors to encourage them to stay longer, spend more money, experience more attractions and revisit a region.

How they can help:

- Help promote your product directly to visitors
- Sell tourism products

Many of the Perth region LGAs, LTOs and Visitor Centres support Destination Perth through a partnership or membership with us. We work closely with these bodies to promote their regions to our audiences and develop marketing campaigns and activities to extend their reach. As a result, our operator members receive promotion through the activities and opportunities to participate.
