

MEETING SPACE SPECS

The Phoenix Convention Center South Building is a modern, spacious, stand-alone building with over 143,000 square feet of customizable space. The design elements showcase colors and textures reminiscent of Arizona's landscape. Featuring two exhibit halls, ballroom with full production capabilities and performance stage, along with 18 meeting rooms, this versatile space is perfect for events of all types. Perhaps the most flexible of all the convention center spaces, the South Building's air walls can be configured to create multiple, unique combinations. For added ease of access, the loading dock is equipped with 14 truck bays and two loading ramps with 25'h x 26'w roll-up doors. The adjacent parking garage offer more than 2,800 parking spaces for guests along with a marshalling yard for event staging. The floor weight capacity for the exhibit hall is 600 pounds per square foot; rigging capacity is 250 pounds per point (from low steel only).
