

Western Monarch Butterfly, Honey Bees, and Other Important Pollinators in Pismo Beach

- Butterflies, bees, moths, hummingbirds, bats, beetles, and many flies are all pollinators.
- Flowers' colors and scents attract pollinators.
- Without pollinators, foods that come from plants – such as fruit, vegetables, nuts, and grains – can't grow.
- Help and protect pollinators by planting native flowering plants without using harmful herbicides, insecticides, and fungicides.

COLOR THE POLLINATORS BY NUMBER, AS FOLLOWS:

- | | |
|----------|------------|
| 1. WHITE | 6. GREEN |
| 2. BLACK | 7. ORANGE |
| 3. BLUE | 8. PINK |
| 4. BROWN | 9. PURPLE |
| 5. GRAY | 10. RED |
| | 11. YELLOW |
