PORT EVERGLADES TARIFF NO. 12

Item No. 210−Assignment of Berth.

Issue No. 3

Effective Date: October 1, 2026

Unless otherwise provided by written contract or this tariff, all vessels are assigned berthing facilities by the Harbormaster on a first-come, first-served basis. Vessels engaged in active cargo operations will have berthing priority over vessels assigned to Lay-in status.

All vessels are assigned to Berths in the order in which they arrive at the sea buoy, provided they have fully complied with filing of Berth Application and notice provisions. Equal treatment will be afforded to all vessels in assigning Berths in the order of arrival at the sea buoy, except as provided for in this tariff or in individual written contracts that stipulate preferential berthing. In such cases, vessels working on Berth prior to the arrival of a preferentially assigned vessel must vacate the Berth in advance of the arrival of the preferential vessel within a time frame required by the Harbormaster. Should any vessel fail to vacate a Berth, the Port Everglades Department will cause the vessel to be moved at the vessel's own risk and expense, with the vessel's Franchised Steamship Agent or Vessel Representative responsible for such expenses.

The Harbormaster may direct any vessel assigned to Lay-in status to vacate or shift Berths, at the vessel’s sole cost and expense, when necessary to accommodate a vessel engaged in active cargo operations.

Notwithstanding the above, the Port Everglades Department reserves the right to assign Berths for the best utilization of Port Everglade’s facilities considering any and all factors that the Port Everglades Department, in its sole discretion, chooses to consider for achieving the best Berth and facilities utilization.
