- F. Final Shut-down Per Crane \$245.90 Flat Charge

The Port Everglades Department will be the sole judge as to whether it is appropriate to utilize a container gantry crane or mobile harbor crane to lift a particular classification of cargo. Rental rates, as stipulated in Part III, are applicable only in operations that are exclusively noncontainer. When general cargo, yachts, or Heavy Lifts are loaded or discharged in conjunction with containers, rates specified in Parts I and II will apply for all hours of container gantry crane rental.

Charges for Parts I, II, and III are computed on a quarter-hour basis with any fraction of a quarter-hour to count as a full quarter-hour. In the event of a mechanical malfunction, deductions of a quarter-hour or more and on a quarter-hour, basis thereafter are subtracted from the overall charges due.

Preference will be given to container operations in the assignment of container gantry cranes and mobile harbor cranes over all other classifications of cargo.
