# EFFECTIVE & RESPONSIBLE WASTE MANAGEMENT

At World Petroleum Corporation, we have more than 30 years of experience in Oil-Fuel processing and Environmental/Industrial services. Every year we handle more than 20 million gallons of waste fuel oil and related waste through our processing plant. Our customized waste-management plans translate into greater overall operational efficiency for our clients

We are fully licensed, insured, bonded and permitted to handle:

- Sludge/Disposal
- Tank Cleaning
- Recycling Services
- Wastewater/oily waste & bilge waste removal and disposal
- Bulk waste transportation and disposal for hazardous and non-hazardous waste streams
- Decontamination services

# A Plan for Moving Forward with Excellence

## A Message from Jonathan Daniels, Chief Executive and Port Director

**O**n the heels of COVID-19, a prohibition on cruising, and revenue reductions across the board, my first priority as the Port's new Chief Executive and Port Director was to visit our employees and Port customers to understand their perspectives on all levels. I asked for input on the economic strategy that the Port should be considering, as well as their views on both the design and execution of possible or proposed process changes.

It quickly became apparent that the Port community was excited to be a part of the planning for Port activities as they collectively overcame the impacts of the pandemic. We decided the best way to capture everyone's ideas would be to craft a strategic business plan focusing on economics.

The Port needed a set of guiding economic objectives and strategies, useful for addressing short-term operational goals, that linked a 30-month future to the present day.

To launch the Economic Strategic Business Plan (ESBP) within the workforce, employee teams identified trends and probable events (both within the Port and external to it) by discussing strengths, weaknesses, opportunities, threats, and trends (SWOTT). This helped define priorities, consider the allocation of resources, and propose organization changes to efficiently meet their objectives.

All data from the employee teams and the customer surveys were assessed and objectives, strategies and tactics suggested.

Jonathan T. Daniels

Key drivers emerged as most critical to impacting the Port businesses and our customers businesses. These drivers were labeled 'Core Values.' Finally, major objectives were identified to meet the goals of each Core Value.

A final interesting point about the Ports ESBP was the decision to use a Scorecard versus a Progress Report or Milestone Record to measure and compare performance against goals. The scorecard method evaluates progress compared to expectations as it tracks the advancement of a set strategy and measures the efficiency of a particular team, division or department. By asking each division assigned to specific objectives, to mark their scorecard indicating if

they are on track, aggressively assessing trends and patterns, and utilizing their resources in the most efficient way possible, we will have a quick, concise way to indicate how well each division and the Port as an organization is working to achieve stated targets. The Port has committed to making scorecard results transparent.

The ESBP process was also the intense morale boost our staff severely needed to refocus from the pandemic, close-call hurricanes, the untimely death of Chief Executive Steve Cernak, and months of flux during Steve's succession. I look forward to our staff engaging enthusiastically in the coming 30 months as we exercise the ESBP with our customers. ■

### Vision

Port Everglades is prosperous and sustainable due to innovative multimodal trade and travel partnerships, strategic business diversifications, and focused investments fueling vigorous growth.

### Mission

Port Everglades works creatively and competitively to expand the revenue positions of our trade, cruise, and energy customers which in turn creates economic, social, and environmental value for our community.

# Un Plan para Avanzar con Excelencia

## Carta de Jonathan Daniels

**P**isándole los talones a la pandemia del COVID-19, una prohibición de cruceros, y reducciones de ganancias en términos generales, mi primera prioridad como nuevo Ejecutivo en Jefe y Director del Puerto fue visitar a nuestros empleados y clientes del Puerto para entender sus perspectivas a todo nivel. Pedí sus aportes a la estrategia económica que el Puerto debería considerar, así como también sus opiniones sobre el diseño y ejecución de posibles o propuestos cambios en nuestro proceso.

Rápidamente se me hizo evidente que la comunidad del Puerto estaba emocionada en tomar parte en la planificación de actividades del Puerto a medida que, por medio de un esfuerzo colectivo, superaban los impactos de la pandemia. Decidimos que la mejor manera de capturar las ideas de todos sería hacer un plan estratégico de negocios centrado en la economía. El Puerto estaba en necesidad de un conjunto de objetivos y estrategias económicas de orientación, útil para tratar las metas operacionales a corto plazo, que enlazaran un futuro de 30 meses con el día de hoy.

Para lanzar el Plan Económico de Estrategias Comerciales (ESBP, *por sus siglas en inglés*) dentro de nuestra fuerza laboral, equipos de empleados identificaron tendencias y eventos probables (dentro del Puerto y en las afueras del mismo) por medio de una diálogo sobre nuestros puntos fuertes, debilidades, oportunidades, amenazas y tendencias (SWOTT, *por sus siglas en inglés*). Esto nos ayudó a definir prioridades, considerar la asignación de recursos, y proponer cambios de organización para cumplir con los objetivos establecidos de un modo eficaz.

Todos los datos provenientes de los equipos de empleados y las encuestas a los clientes fueron evaluados y se sugirieron objetivos, estrategias y tácticas. Ciertos objetivos claves de

negocios emergieron como los más críticos en su impacto en los negocios del Puerto y de nuestros clientes. Estos objetivos de negocios fueron denominados nuestros 'Valores Fundamentales.' Finalmente, objetivos sustanciales fueron identificados para cumplir con las metas de cada Valor Fundamental.

Un punto final interesante sobre el ESBP del Puerto fue la decisión de utilizar una Tarjeta de Puntuación en lugar de un Informe de Progreso o un Registro de Hitos, para medir el desempeño y compararlo con las metas. El método de la Tarjeta de Puntuación evalúa el progreso comparado con las expectativas, a medida que hace un seguimiento de la trayectoria de avance de una estrategia establecida y mide la eficacia de un equipo, división o departamento en particular. Al pedirle a cada división asignada a completar objetivos específicos que marque su tarjeta de puntuación señalando si están encaminados según lo planeado, si están determinando tendencias y patrones fuertemente, y utilizando sus recursos en el modo más eficaz a su alcance, tendremos una manera rápida y concisa de discernir cuán bien están trabajando cada división y el Puerto, como una organización, para lograr las metas establecidas. El Puerto ha adoptado un compromiso de transparencia en los resultados de las tarjetas de puntuación.

El proceso del ESBP también sirvió de intenso aumento en la moral, lo cual nuestro personal laboral necesitaba seriamente para recentrar sus esfuerzos desde que fuimos azotados por la pandemia, los sustos de huracanes que nos pasaron muy cerca, la muerte prematura del Ejecutivo en Jefe Steve Cernak, y meses de incertidumbre durante la suplencia de Steve. Anticipo con anhelo que nuestro personal laboral participe entusiastamente en los siguientes 30 meses a medida que implementamos el ESBP con nuestros clientes. ■

## Visión

Port Everglades es próspero y sostenible debido a colaboraciones innovadoras en las áreas de intercambio multimodal de carga y viajes de pasajeros, diversificaciones estratégicas de negocios, e inversiones enfocadas que fomentan un crecimiento vigoroso.

## Misión

Port Everglades trabaja de un modo creativo y competitivo para expandir las posiciones de ganancias de nuestros clientes de transporte de carga, cruceros y abastecimiento de energía, lo cual en torno crea beneficios económicos, sociales y medioambientales para nuestra comunidad.

# Port Everglades Buoyed Up

## Port Everglades is in an Era of Unprecedented Change

**A**dvancements in transportation technology and services – including the demands of ever larger ships, shifting global trade flows, corporate consolidation, and escalating consumer expectations – are compelling factors for port modernization. Continued facility and service improvements will build on the Port’s global reputation, attracting more businesses that bring bigger, better benefits to Broward County.

The Port is already an economic powerhouse. It is a hub for massive volumes of cargo and cruise passengers and the lifeline for more than 196,000 Florida jobs. Planned and ongoing developments will transform the Port landscape with more diversified lines of business to withstand market ups and downs and capitalize on opportunity.

## ESBP to Spur Organic Growth – Helping Our Own

The new *Economic Strategic Business Plan’s* (ESBD) recommendations stem from a vision of Port Everglades as prosperous and sustainable due to innovative multimodal trade and travel partnerships, strategic business diversifications, and focused

investments fueling vigorous growth. The plan underscores the importance of Port Everglades working creatively and competitively to expand the revenue positions of trade, cruise and energy customers. That, in turn, creates economic, social and environmental value for the community.

Essentially, the Port aims to maintain and strengthen interactions with existing customers to grow their businesses, while identifying and attracting new opportunities.

Port Everglades Chief Executive and Port Director, Jonathan Daniels said, “working hand-in-hand with the existing tenant base ensures port efforts support opportunities identified by industry. It helps solidify the Port’s role on its leading north-south trades, allows for diversification, and ultimately leads to more business, job creation and benefits for Broward County.”

The long-term elements of the Port’s original 2018-2022 Strategic Business Plan remain in place, aligning with the Broward County Commission’s goals and those that contain work in progress, but a wealth of new plan elements are introduced in the ESBP. They are designed to be nimble, responsive, achievable and sensitive to available resources during the ongoing pandemic recovery.

## Layered Goals

The new ESBP plan redoubles support for customer initiatives. It also aims to find ways to generate multiple outcomes from major initiatives. Yesterday’s port project may have focused on meeting a single demand, often for greater capacity for a particular commodity. Today, stakeholders or customers expect so much more from a port project, and indeed from almost any port initiative.

Port Everglades is an agent of change. It is a springboard for innovation, efficiency, sustainability and resiliency. It is busy optimizing economic contributions to the region, but does so while also integrating elements to ensure safety and security, efficient technologies, aesthetics, and environmental and community-based equity.

## Core Values

Guiding goals for Port Everglades:

- Advance Sustainable Development
- Invest to Improve our Environment and Quality of Place
- Foster Creativity and Innovations
- Provide Services and Facilities to Meet Customer Growth Goals
- Support the Workforce
- Brand Our Vision

## Sustainable Business Model

An overriding theme of all port development and operations is enhancing the environment.

The Port has taken a leadership role in protecting coastal ecosystems. This isn't just lip service – the Port often goes far beyond mandated responsibilities, as it did when it established a voluntary air quality assessment program. The Port strives to adhere to the Do No Harm philosophy and mitigates extensively when its trade and transportation mandates conflict with ecological priorities. See example on Page 27.

## All Buoyed Up

After a year of transition, Port Everglades is all buoyed up, ready to tackle new opportunities. It is greeting the world in a different way, with wisdom hard-earned during the pandemic years. It has introduced a comprehensive new health and safety program for staff, visitors and cruise guests that puts the people of the Port and community first, shares best practices and maintains spotless touch points.

Port Everglades logged a number of successes despite the pandemic. New ocean cargo services were announced,

## Remastering Strategy

During this recent period of rapid change, Port Everglades staff joined forces to remaster the Port's strategic plans, honing in on opportunity with optimism and originality. The result ... the *2021-2023 Economic Strategic Business Plan*, or ESBP, which sets out a new vision, short-term goals and priority objectives while keeping those initiatives from the older, ongoing plan that still made sense.

including a marine highway initiative that can take a thousand truck miles off US highways for every container handled, and European and Asian container services that expand markets for regional exporters and sourcing options for importers. Most port development projects progressed, including the Southport Turning Notch Extension development, the petroleum infrastructure at Slip 1, and the much-anticipated channel deepening and widening, which received the coveted "New Start" designation in the U.S. Army Corp of Engineers Fiscal Year 2020 Work Plan. ■

## Developments Dovetail

In the summer of 2020, as the pandemic ravaged in many regions, Port Everglades' *20-year Master/Vision Plan Update* was approved by the Broward County Board of County Commissioners. Its comprehensive blueprint for 10 and 20 years of development and capital improvements are on course. These projects create capacity, efficiency and generate billions of dollars of economic activity and thousands of jobs. They are the economic backbone of Broward County.

## Harbor Deepening and Widening Allows Upsizing

The harbor deepening and widening and the Southport extension projects are critical to future growth.

To address future growth and safely accommodate the upsized vessels that mark the most economical and sustainable of supply chains, Port Everglades must deepen its navigation channels from 42 feet to 48-50 feet and widen narrower sections.

The biggest news of 2020 was that the Port received a much-coveted "New Start" designation in 2020. The deepening and widening project is expected to commence in 2023.

## Southport Project Introduces Container Capacity

The \$471 million Southport Turning Notch expansion will be completed in late 2022. This project:

- Lengthens the Notch from 900 to 2,400 feet
- Allows for four new container berths
- Increases Port container capacity by 730,000 TEUs (upon completion)

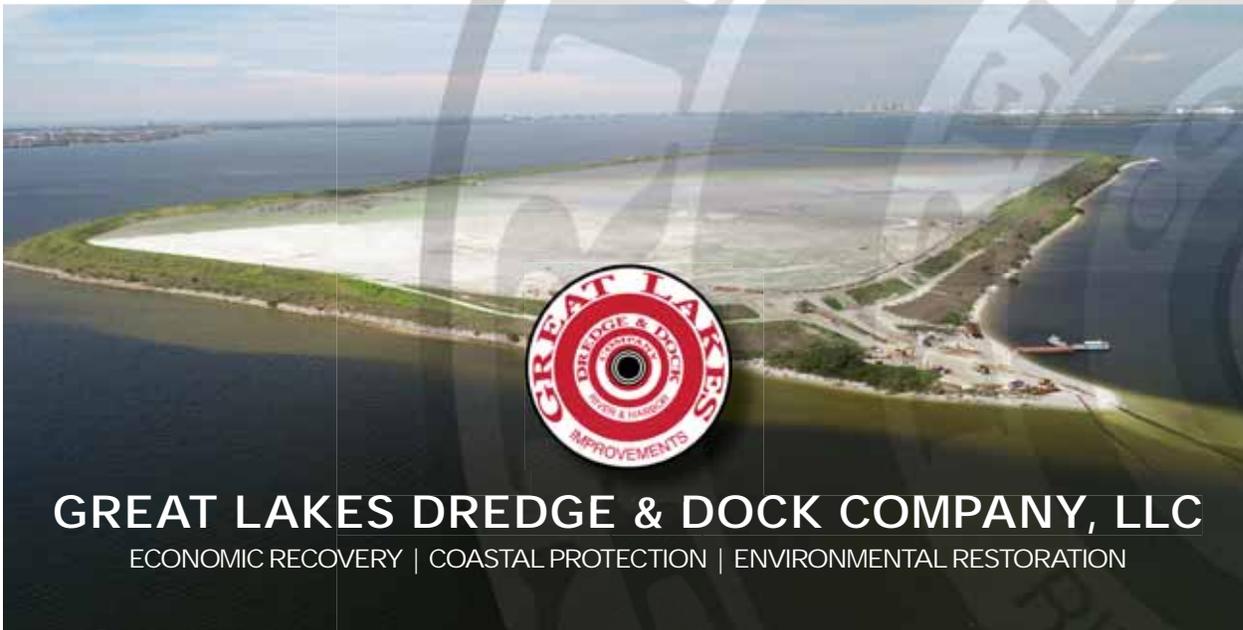

The berths will be served by three new \$14 million low-profile super post-Panamax gantry cranes:

- Customized to respect the nearby airport's flight space
- Maximizing crane reach (22 containers across and 8 high) and lift (65 tons).

The cranes were commissioned in March 2021, with an option for three more. The lift capacity of existing cranes in Southport will also be upgraded to 65 tons, allowing twin picks.

# Port Everglades A Flote

## Port Everglades está en una era de cambio sin precedente

Los avances en la tecnología y servicios de transporte – incluyendo la demanda de barcos cada vez más grandes, los cambios en los flujos globales de intercambio comercial, la consolidación de corporaciones, y el aumento de las expectativas de los consumidores – son factores convincentes para la implementación continua de las operaciones de modernización del Puerto. Las mejoras continuas de nuestras instalaciones y servicios serán cimentadas sobre la reputación global del Puerto, atrayendo más negocios que a su vez representan mayores y mejores beneficios para el Condado de Broward.

El Puerto ya es una potencia económica. Es una central de transporte de volúmenes masivos de carga y pasajeros de cruceros y el sustento para más de 196.000 trabajos en la Florida. Los adelantos planeados y en curso transformarán el panorama del Puerto con más líneas diversificadas de negocios para poder soportar subidas y caídas del mercado e implementar la capitalización de oportunidades emergentes.

## ESBP para Estimular Crecimiento Orgánico – Ayudando a Nuestra Propia Gente

Las recomendaciones de nuestro nuevo *Plan Económico de Estrategias Comerciales* (ESBD, por sus siglas en inglés) provienen de una visión de Port Everglades como un emprendimiento próspero y sostenible gracias a colaboraciones comerciales innovadoras en las áreas de transporte multimodal de carga y viajes de pasajeros, diversificaciones comerciales estratégicas e inversiones encaminadas a impulsar un crecimiento vigoroso. El plan acentúa la importancia de Port Everglades laborando con creatividad y competitivamente para ampliar las oportunidades de sus clientes de devengar mayores utilidades en las industrias de transporte de carga, de cruceros y de abastecimiento de energía. Eso, en torno,

crea beneficios económicos, sociales y medioambientales para la comunidad.

Esencialmente, el Puerto tiene como objetivo mantener y consolidar interacciones con sus clientes existentes para crecer sus negocios, a medida que identifica y capta nuevas oportunidades.

El Ejecutivo en Jefe y Director de Port Everglades, Jonathan Daniels expresó, “trabajar en conjunto con la base existente de arrendatarios asegura que los esfuerzos del Puerto le brindan apoyo a las oportunidades identificadas por la industria. Ayuda a solidificar el papel del puerto en sus principales intercambios comerciales entre norte y sur, abre el camino a la diversificación, y en última instancia conduce a más negocios, creación de empleos y beneficios para el Condado de Broward.”

Los elementos a largo plazo del Plan Estratégico de Negocios original de 2018-2022 del Puerto siguen en orden, en línea con las metas de la Comisión del Condado de Broward y aquellas que contienen trabajo en curso, pero una abundancia de nuevos elementos del plan es incorporada en el ESBP. Dichos elementos están diseñados para ser rápidos, responsivos, realizables y sensibles a los recursos disponibles durante el periodo activo de recuperación a la pandemia.

## Los Matices de las Metas

El nuevo plan de ESBP reitera el apoyo a las iniciativas de nuestros clientes. También plantea un objetivo de encontrar maneras de generar múltiples resultados de iniciativas importantes. El proyecto del Puerto en el ayer se enfocaba en satisfacer una sola demanda, siendo esta con gran frecuencia la exigencia de los clientes de aumento de capacidad portuaria, para procesar mayores volúmenes de ciertas mercancías en particular. Hoy en día, las partes interesadas o los clientes esperan mucho más de un proyecto portuario, y de hecho de casi cualquier iniciativa implementada por el Puerto.

Port Everglades es un agente de cambio. Es una plataforma para la innovación, eficacia, sostenibilidad y adaptación. Su tarea es realizar contribuciones económicas óptimas para la región, pero lo hace al mismo tiempo que integra elementos para asegurar seguridad y bienestar, tecnologías eficaces, estética, y equidad basada en el medioambiente y la comunidad.

## Modelo de Negocios Dedicado a Sostenibilidad

Un tema predominante de todas las operaciones y desarrollo del Puerto es un compromiso de realzar el medioambiente.

El Puerto ha tomado un papel de liderazgo en la protección de

## Valores Fundamentales

Metas de partida para Port Everglades:

- Desarrollo Sostenible Avanzado
- Invertir para Mejorar nuestro Medioambiente y la Calidad del Sitio
- Fomentar Creatividad e Innovaciones
- Proporcionar Servicios e Instalaciones para Satisfacer las Metas de Crecimiento de Nuestros Clientes
- Apoyar a Nuestro Personal Laboral
- Desarrollar la Imagen de Nuestra Visión

los ecosistemas costeros. Éstas no son apenas falsas promesas – el Puerto va a menudo va más allá de las responsabilidades impuestas, como lo hizo cuando estableció un programa voluntario de evaluación de la calidad del aire. El Puerto se esfuerza en adherirse a una filosofía de *No Hacer Daño* y realiza esfuerzos extensivos de mitigación y atenuación cuando sus disposiciones de comercio y transporte están en conflicto con prioridades ecológicas. Ver el ejemplo en la página 27.

## Todo A Flote

Después de un año de transición, Port Everglades está todo a flote, preparado para abordar nuevas oportunidades. Está recibiendo al mundo de una manera distinta, con un nivel de sabiduría obtenida con arduos esfuerzos durante los años de pandemia. Ha introducido un nuevo programa comprensivo de salud y seguridad para el personal laboral, los visitantes y huéspedes de cruceros que colocan a las personas del Puerto y la comunidad en primer lugar, comparte mejores prácticas y mantiene los puntos de contacto en una condición impecable.

Port Everglades se apuntó un número de éxitos a pesar de la pandemia. Se anunciaron nuevos servicios de carga oceánica, incluyendo una iniciativa de carretera marina que puede restarle

mil millas de recorrido en camión por las carreteras de los EE.UU. a cada contenedor transportado, y servicios de contenedores europeos y asiáticos que amplían mercados para exportadores regionales y establecen una fuente de opciones para importadores. La mayoría de los proyectos de desarrollo del Puerto progresaron, incluyendo el desarrollo de la Ampliación de la Muesca de Giro de Southport (donde los barcos dan la vuelta), la infraestructura petrolera en el Muelle 1, y el enormemente anticipado proyecto de profundización y ensanchamiento del canal de navegación, el cual recibió la codiciada designación “New Start” en el Plan de Labores del Cuerpo de Ingenieros del Ejército de los EE.UU para el Año Fiscal 2020.

## Estrategia de Reconfiguración

Durante este reciente período vertiginoso de cambio, el personal laboral de Port Everglades consolidó sus esfuerzos para reconfigurar los planes estratégicos del Puerto, concentrándose en aprovechar las oportunidades con optimismo y originalidad. El resultado... el *Plan Económico de Estrategias Comerciales 2021-2023*, o ESBP, el cual establece una nueva visión, metas y objetivos prioritarios a corto plazo, y resguarda aquellas iniciativas del plan anterior aun siendo implementadas porque continúan haciendo sentido. ■

## Desarrollos que Concuerdan

En el verano de 2020, mientras la pandemia hacía estragos en muchas regiones, la *Actualización del Plan Maestro/De Visión de 20 Años* de Port Everglades fue aprobado por la Junta de Comisionados del Condado de Broward. Su modelo comprensivo para 10 y 20 años de desarrollo y mejoras de capital ya está en curso. Estos proyectos crean capacidad, eficacia y generan miles de millones de dólares de actividad económica y miles de trabajos. Son la base económica del Condado de Broward.

## La Profundización y Extensión del Puerto Permite el Crecimiento

Los proyectos de profundización y extensión del canal de navegación y extensión de Southport son críticos para el crecimiento del Puerto en el futuro.

Para abordar el tema del crecimiento en el futuro y acomodar con seguridad los navíos de mayor envergadura que marcan las cadenas de surtido más económicas y sostenibles, Port Everglades debe profundizar sus canales de navegación de 42 pies a 48-50 pies y ensanchar las secciones más estrechas.

La noticia más grande de 2020 fue que el Puerto recibió una designación muy codiciada de “New Start” en 2020. Se anticipa que el proyecto de profundización y extensión comenzará en 2023.

## El Proyecto de Southport Introduce Capacidad de Contenedores

La extensión de la Muesca de Giro de Southport (donde los barcos dan la vuelta) a un costo de \$471 millones será terminada en finales de 2022. Este proyecto:

- Alarga la Muesca de 900 a 2.400 pies
- Abre espacio para cuatro nuevos embarcaderos de contenedores
- Representa un aumento de la capacidad de contenedores del Puerto de 730.000 TEUs (al completarse la obra)

Los embarcaderos serán servidos por tres grúas pórtico de perfil bajo super post-Panamax de \$14 millones:

- Modificadas para respetar los requisitos de espacio de vuelo bajo del aeropuerto cercano
- Maximizando el alcance de las grúas (22 contenedores a lo largo y 8 de altura) y una capacidad de alzar carga de (65 toneladas).

Las grúas fueron comisionadas en marzo de 2021, con una opción para comprar tres más. La capacidad de levantar carga de las grúas existentes en Southport también aumentará a 65 toneladas, permitiendo operaciones al máximo.

# Cruising Returns

## What a Difference a Year Makes

**O**n December 1, 2019, Port Everglades set a new world record for serving the most passengers in a single day – 55,964. A few short months later, cruising came to a complete and total standstill. Fortunately, the unsurpassed advantages of South Florida as a welcoming, scenic and uniquely located home port are still in place, and ready for returning cruise lines and passengers.

## Always Aiming for the Best Year Ever

The Port was having its best cruise year ever, with passenger counts up about 15 percent for the first half of fiscal year 2020, putting the Port in the enviable and solid growth position when the COVID-19 pandemic hit. As cruise lines adjust their capacity and service offerings to enhance passenger safety in 2021 and beyond, the cruise season may look different, but there is no doubt Port Everglades will stay on top of the market as cruising remains a mainstream vacation choice for Americans and global tourists.

## The Bright Spots

The year without cruise was not a year without progress. Improvements to the cruise experience came fast and furious, driven by lines, support industries and the Port itself.

**Baleària Caribbean:** One highlight was the relaunch of *Baleària Caribbean*, a fast-ferry service (exempt from the cruise shutdown, but on hold due to the lockdown in the Bahamas) that linked Greater Fort Lauderdale to Grand Bahama and to Bimini. In July 2020, the company had an excellent restart before Bahamian COVID-19 policy put them on hold, but in early 2021 it restarted with comprehensive and pioneering health and safety protocols in place.

**Heron Garage:** While the cruise industry was paused, the Port wasn't. Port Everglades accelerated construction of its innovative and eco-friendly cruise parking structure.

The \$120 million, 1,818-space Heron Garage, serving Cruise Terminals 2 and 4, also has a new automated parking system complete with license tag readers and the ability for cruise guests

to pre-pay their parking prior to exiting the garage, alleviating traffic congestion.

The facility's solar arrays collect and send energy to the grid, offsetting the cost of energy used to run the garage and landscape lights, elevators and air-conditioning.

A unique feature of the Heron Garage is the elevated pedestrian bridge with moving sidewalks; it is both functional and welcoming, as passengers are given a bird's eye view of the spectacular working waterfront as they make their way to Cruise Terminal 2.

The garage was named to reflect the Port's ecological commitment, spotlighting Florida native species via public art.

**Wayfinding:** Port Everglades began installing a comprehensive wayfinding system (electronic overhead messaging, signs and roadway marking) that blends more Florida wildlife art with directional functionality for cruise guests.

**Industry Advancements:** The cruise industry accelerated efforts to be a leader in responsible tourism, underscoring initiatives

related to sustainability. It embraced new collaborations with local governments and communities. It introduced 19 new vessels, 44 percent of which will have LNG-fueled propulsion, and most of the others have exhaust gas cleaning systems known as scrubbers. All newbuilds will have advanced waste water treatment systems, and 88 percent will have or be configured for shore power, according to Cruise Lines International Association.

## Cruising's Restart

As cruising restarts:

- Safety initiatives will be foremost, and rules will continue to evolve
- Port Everglades will continue to work closely with industry partners to ensure seamless cruise terminal experiences
- Cruise community will continue to work tirelessly and collaboratively to bring about the safe return of cruising

For information about the cruise offerings from Port Everglades, visit [porteverglades.net](http://porteverglades.net) to view the latest online *Port Everglades Cruise Guide* or download the Port Everglades Cruise App (available on iOS only) for daily updates. ■

The state-of-the-art Heron Garage has an automated parking system that will allow cruise passengers to easily and swiftly exit the facility.

# Vuelven Los Cruceros

## Una Gran Diferencia en Solo un Año

**E**l 1 de diciembre de 2019, Port Everglades estableció un nuevo récord mundial para la mayor cantidad de pasajeros servidos en un solo día – 55.964. Unos pocos meses después, los cruceros fueron parados de una manera completa y total. Afortunadamente, las ventajas sin paralelo del sur de la Florida como un puerto de origen acogedor, escénico y únicamente situado aún son las mismas y seguimos preparados para el regreso de las líneas de cruceros y sus pasajeros.

## Siempre Apuntando a Tener un Mejor Año que Nunca

El Puerto estaba pasando por el mejor año de cruceros de su historia, con conteos de pasajeros por encima de aproximadamente un 15 por ciento para la primera mitad del año fiscal 2020, posicionando al puerto en un margen de crecimiento envidiable y sólido cuando súbitamente nos abatió el brote de la pandemia COVID-19. A medida que las líneas de cruceros ajustan su capacidad y mantienen ofertas de servicios para realzar la seguridad de los pasajeros en 2021 y en adelante, la temporada de viajes de cruceros puede que tenga una apariencia distinta, pero no hay duda que Port Everglades permanecerá a la vanguardia del mercado, siempre y cuando los viajes en barcos de cruceros continúen siendo una opción popular de vacaciones para los turistas norteamericanos y globales.

## Detalles Positivos

El año sin cruceros no fue un año sin progreso. Las mejoras a la

experiencia de los viajes de cruceros se presentaron a un paso rápido y energético, impulsadas por las líneas de cruceros, la industria que las respalda y el Puerto mismo.

**Baleària Caribbean:** Algo que cabe recalcar fue el relanzamiento de *Baleària Caribbean*, un servicio de ferry rápido (exento del paro de los cruceros, pero suspendido debido al cierre de emergencia en las Bahamas) que servía de enlace entre Fort Lauderdale, Grand Bahama y Bimini. En julio de 2020, la compañía experimentó un reinicio excelente de sus actividades antes de que la política de COVID-19 adoptada por las Bahamas los pusiera en suspensión, pero a principios de 2021 reinició sus actividades con la implementación de nuevos protocolos de salud y seguridad comprensivos y a la vanguardia.

**Heron Garage:** Mientras la industria de cruceros estuvo detenida, el Puerto no lo estuvo. Port Everglades aceleró la obra de construcción de su estructura innovadora y ecológica de estacionamiento de automóviles para la industria de cruceros.

El *Heron Garage*, un garaje de estacionamiento con un costo de \$120 millones y 1.818 espacios de estacionamiento, sirviendo a las Terminales de Cruceros 2 y 4, también consta con un nuevo sistema que parqueo automatizado equipado con lectores de placas y con la capacidad de permitirles a los huéspedes de cruceros pagar por su estacionamiento por adelantado, antes de salir del garaje, así aliviando la congestión del tráfico.

Los conjuntos de paneles solares de la instalación recolectan y envían energía a la red eléctrica, compensando el costo de

electricidad utilizado para operar las luces, los elevadores y el aire acondicionado del garaje.

Una característica única del *Heron Garage* es el puente peatonal elevado con aceras móviles; el mismo es funcional y al mismo tiempo acogedor, pues le presenta a los pasajeros una perspectiva elevada de la espectacular ribera y sus actividades mientras avanzan hacia su destino de la Terminal de Cruceros 2.

El garaje fue nombrado "*Heron*" (*Garza, en español*) para reflejar el compromiso ecológico del Puerto, poniendo en foco de atención las especies nativas de la Florida por medio de arte público.

### Marcaciones Direccionales

**(Wayfinding):** Port Everglades comenzó a instalar un sistema comprensivo de direcciones (mensajes electrónicos elevados, carteles y señales en las vías) que, con una mezcla de arte representando la fauna nativa de la Florida y una funcionalidad direccional, asegura que los huéspedes de cruceros siempre puedan orientarse en nuestras instalaciones.

**Avances de la Industria:** La industria de cruceros aceleró sus esfuerzos para convertirse en un líder de turismo responsable, subrayando iniciativas relacionadas con la sostenibilidad de los recursos. Cifó nuevas colaboraciones con los gobiernos y comunidades locales. Introdujo 19 nuevos navíos, 44 por ciento de los cuales tendrán propulsión de combustible de Gas Natural Licuado, (LNG, *por sus siglas en inglés*), y la mayor parte de los otros constan con sistemas de limpieza de gas de escape conocidos en la industria como depuradores. Todas las nuevas embarcaciones tendrán sistemas avanzados de tratamiento de aguas residuales, y 88 por ciento tendrán o serán configurados para utilizar energía producida por equipos en-sitio, diseñados para abastecimiento de energía, de acuerdo a la Asociación Internacional de Líneas de Cruceros.

### Reinicio de Cruceros

A medida que los cruceros reinician sus operaciones:

- Las iniciativas de seguridad tomarán el primer lugar y las reglas continuarán evolucionando
- Port Everglades continuará trabajando estrechamente con socios de la industria

para asegurar experiencias íntegras de terminales de cruceros

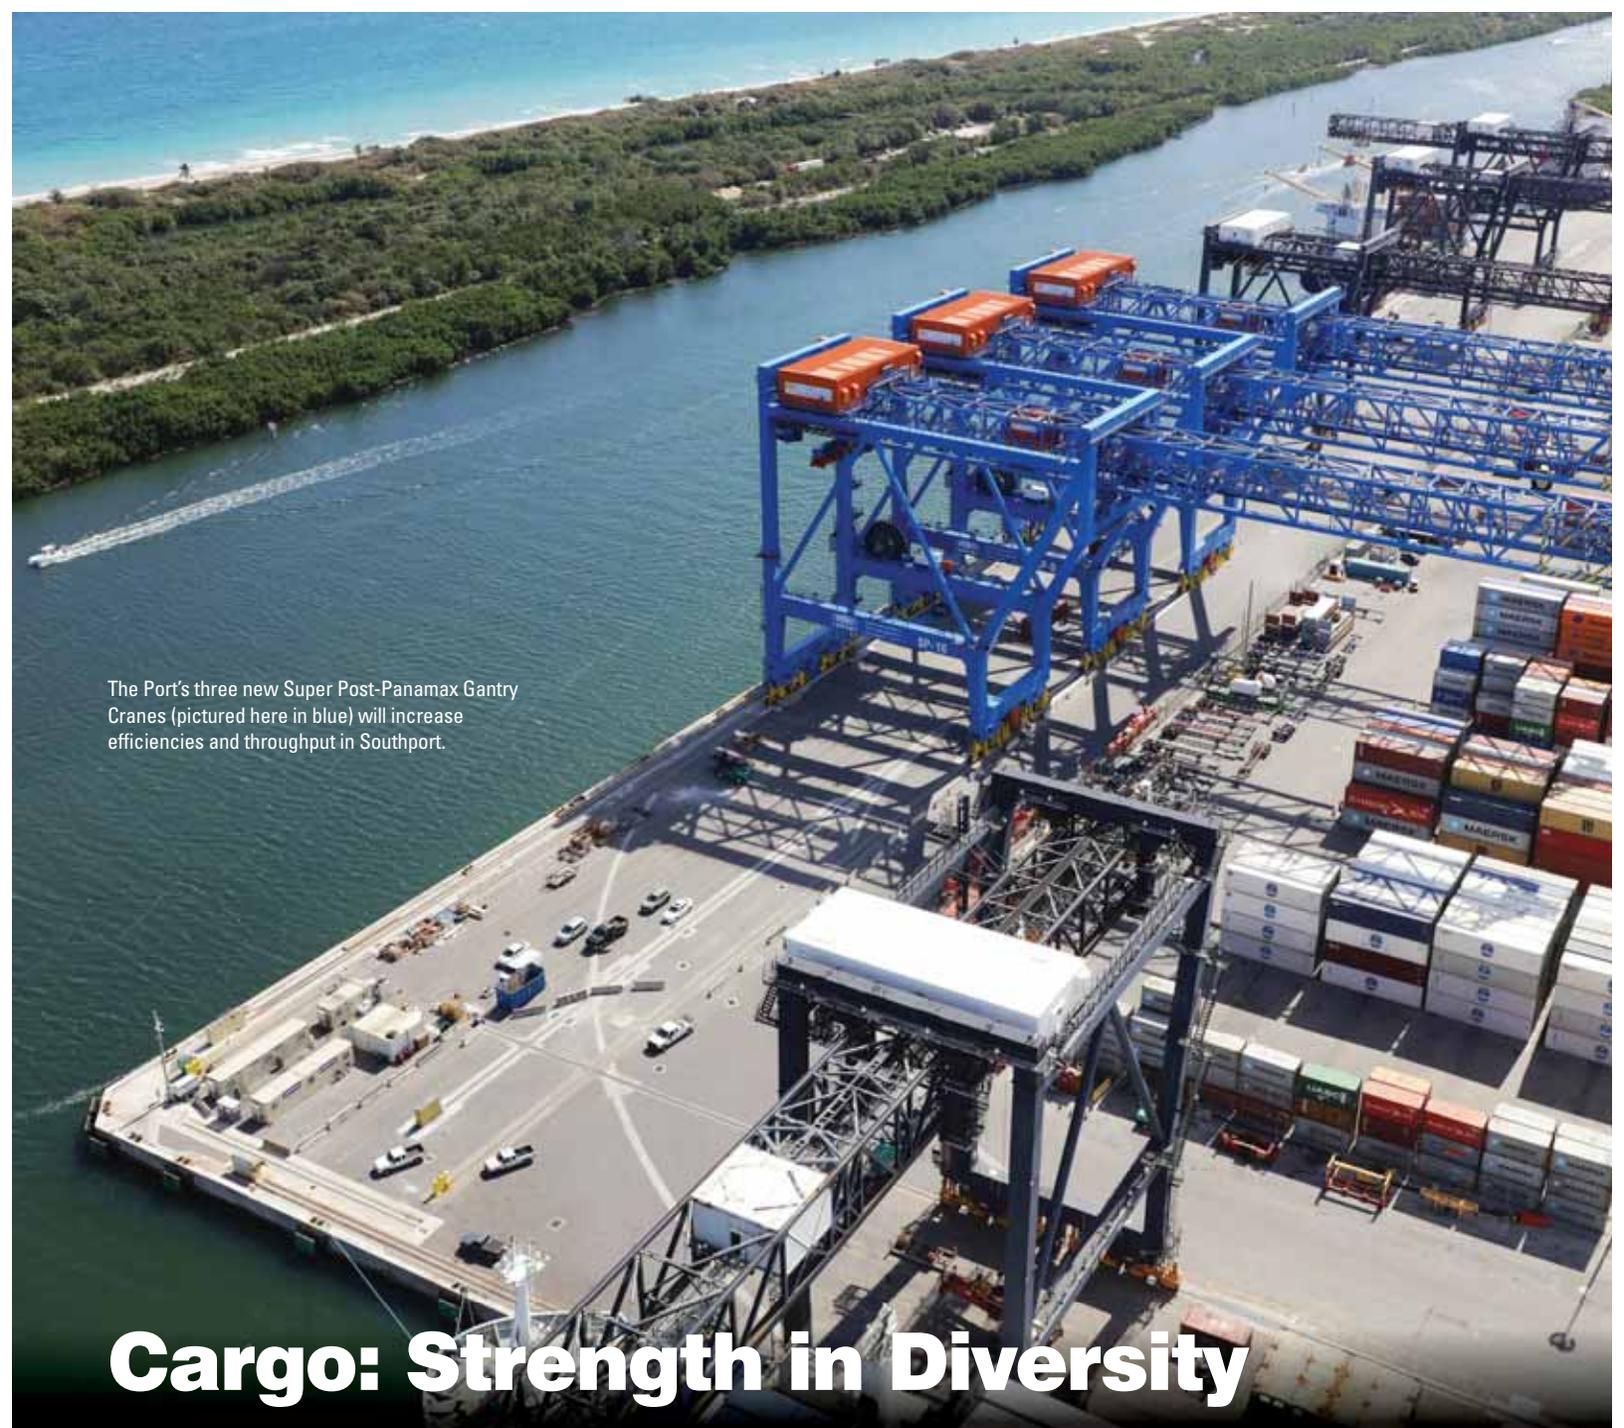

- La comunidad de cruceros continuará trabajando incansablemente y en colaboración para implementar el retorno seguro de los viajes de cruceros

Para obtener información sobre las ofertas de cruceros de Port Everglades, visite [porteverglades.net](http://porteverglades.net) para ver la *Guía de Cruceros de Port Everglades* más reciente o para descargar la Aplicación de Cruceros de Port Everglades (Port Everglades Cruise App, solamente disponible en iOS) para ver las actualizaciones diarias. ■

**We See The World Differently**

**CenterPoint**

**Reimagine What's Possible In Industrial Real Estate**  
Investment | Development | Asset Management

The Port's three new Super Post-Panamax Gantry Cranes (pictured here in blue) will increase efficiencies and throughput in Southport.

## Cargo: Strength in Diversity

**T**he diversity of Port Everglades' cargo commodities takes the sting out of a downturn. Fortunately, the pandemic-related cargo lull of 2020 is largely over and done, and in its wake are opportunities fostered by an all-hands effort to set a new path forward, redefining capital improvements and other strategic priorities that support business development.

### Calling All Customers – Your Priorities are Our Business Development Goals

The new 30-Month Economic Strategic Business Plan (ESBP) carefully considers ambitions. Customers will find new opportunities for cargo growth as the Port works to:

- Expand transshipping by coordinating **value-added supply**

**chain** incentives – including warehousing and storage, reconsolidation and distribution

- Analyze Foreign-Trade Zone (FTZ) costs per transaction and other benefits, then seek new FTZ customers who will benefit the most from free-trade incentives
- Seek P3 (public-private partnership) participation to construct a state-of-the-art **pest elimination phytosanitary irradiation** facility, as an alternative to methyl bromide
- Produce and disseminate **digital marketing** in partnership with Port customers to advance their business objectives and the Port's.
- Support Port customer marketing efforts, share information about the maritime industry and its jobs, and support businesses to **create high-paying jobs** at the Port

## Come for Speed to Market

Cargo moves to market quickly through Port Everglades. Cargo owners need that speed in today's market. The Port's modal links include:

- Less than a mile from the Atlantic Shipping Lane
- Direct access to multi-modal inland connections through direct interstate and state highway systems
- Near-port Intermodal Container Transfer Facility (ICTF) operated by Florida East Coast Railway
- Fort Lauderdale-Hollywood International Airport, located right next door – one of the fastest growing airports in the nation

## Let's Awaken New Markets Together

The Port is dedicated to its current customers and thrilled to help tap new opportunities. Its 'wheelhouse' is expanding. Going forward, larger ships that will be able to ply the Port's wider, deeper channel will open up markets in Asia for many cargoes, creating excellent opportunities.

The Port is diversifying further by:

- lengthening its inland reach
- expanding international markets
- serving beneficial cargo owners in the U.S. Southeast and beyond
- collaborating to build utilization of the near-dock ICTF – now cargo can reach Atlanta and Charlotte within two days and 70 percent of the U.S. population within four days ■

## Good News

**Upsurge in Vehicles:** The number of vehicles carried on pure car carriers rose 25 percent in FY 2020 to more than 63,000 units – including new vehicles moving in from Mexico and U.S. origins.

**NSA's Sustainable Model:** In January 2021, Port Everglades welcomed the first cargo ship to travel the newly designated U.S. Maritime Administration's Marine Highway, M-10, from Houston to Port Everglades and onward to Puerto Rico. The route knocks off long-haul trucking mileage and provides a fast-transit direct link from South Florida to Puerto Rico trade.

## A Winning Business Model

Port Everglades' Advantages:

- More than **20 shipping lines** and **11 terminal operators**
- **Facilities for almost every cargo type**
- An enviable **import-export ratio**, attracting carriers with backhaul
- Top Florida port for **temperature-controlled cargoes with a total of 2,052 reefer plugs among the Port's terminal operators**
- Million TEU container port, in a typical year - making Port Everglades the **13th busiest container port** in the nation, by volume
- Strong north-south cargo flow – top trade lanes are Central America, the Caribbean, West Coast South America and East Coast South America, which represent more than 93 percent of its business
- The Port's special niches include **super yachts**, a cargo beloved by locals in the Venice of the Americas – Fort Lauderdale.
- The acceleration of ecommerce triggered by the pandemic is slowly buoying the Americas' trades. By early 2021, cargo-related revenues and volumes were almost trending at pre-pandemic levels.

# Carga: Nuestra Diversidad Nos Fortalece

La diversidad de carga de Port Everglades hace que la caída en el volumen de negocios sea menos dolorosa. Afortunadamente, el tiempo de decaída en transporte de carga relacionado con la pandemia de 2020 ya ha, en gran parte, llegado a su fin y terminado, y en su estela quedan oportunidades comerciales fomentadas por un esfuerzo conjunto por establecer una nueva trayectoria hacia el futuro, redefiniendo mejoras de capital y otras prioridades estratégicas que les brindan apoyo al desarrollo comercial.

## Atención a Todos Nuestros Clientes – Sus Prioridades son Nuestras Metas de Desarrollo Comercial

El nuevo Plan de Negocios y Estrategias Económicas de 30-Meses (ESBP, *por sus siglas en inglés*) considera cuidadosamente las ambiciones de negocios. Los clientes hallarán nuevas oportunidades para el crecimiento de sus operaciones comerciales de carga a

medida que el Puerto labora para:

- Ampliar las operaciones de trasbordo coordinando incentivos en **una cadena de suministro de valor agregado** incluyendo servicios de depósito y almacenamiento, reconsolidación y distribución
- Analizar los costos de la Zona Franca de Comercio Internacional (FTZ, *por sus siglas en inglés*) y otros beneficios y después buscar nuevos clientes de FTZ que devengarán un mayor beneficio de los incentivos del libre comercio
- Buscar participación de sociedades entre el sector público y el sector privado (P3 – *public-private partnership*) para construir una instalación de vanguardia para la **eliminación de alimañas e irradiación fitosanitaria**, como alternativa a la utilización de bromuro metílico
- Producir y diseminar esquemas de **mercadeo digital** en

**DIRECT QUALITY SERVICE**

sociedad con los clientes del Puerto para adelantar sus objetivos comerciales y los del Puerto

- Ofrecer apoyo a los esfuerzos de mercadeo de los clientes del Puerto, compartir información sobre la industria marítima y sus empleos, y brindar apoyo a los negocios **para crear empleos bien remunerados** en el Puerto

## Venga por la Rápida Comercialización

La mercancía es trasladada al mercado con rapidez por medio de Port Everglades. En el mercado de hoy en día, los propietarios de cargamentos requieren de esa rapidez de comercialización. Los enlaces modales del Puerto incluyen:

- Ubicación a menos de una milla de la Vía Marítima del Atlántico
- Acceso directo a conexiones multimodales en tierra por medio de sistemas de conexiones directas de carreteras interestatales y estatales
- Instalación Intermodal de Transferencia de Contenedores (ICTF, *por sus siglas en inglés*) adyacente al Puerto operada por el Ferrocarril de la Costa Oriental de Florida (*Florida East Coast Railway*)
- Aeropuerto Internacional de Fort Lauderdale-Hollywood, localizado al lado del Puerto - uno de los aeropuertos de más rápido crecimiento de la nación

## Estimulemos Nuevos Mercados

El Puerto está dedicado a sus clientes actuales y entusiasmado en ayudar a aprovechar nuevas oportunidades. Sus áreas de especialización siguen ampliándose. En nuestro futuro, barcos de mayor envergadura podrán surcar el canal del Puerto más ancho y profundo, abriendo mercados en Asia para muchos cargamentos, creando excelentes oportunidades.

El Puerto está diversificándose aún más al:

- extender su alcance en tierra
- ampliar mercados internacionales
- servir a propietarios de cargas beneficiosas en los EE.UU. al Sureste y más allá
- colaborar para edificar la utilización de la ICTF adyacente al muelle – ahora los cargamentos pueden llegar a Atlanta y Charlotte dentro de dos días y a 70 por ciento de la población de los EE.UU. dentro de un plazo de cuatro días ■

## Un Patrón de Negocios Exitoso

Ventajas de Port Everglades:

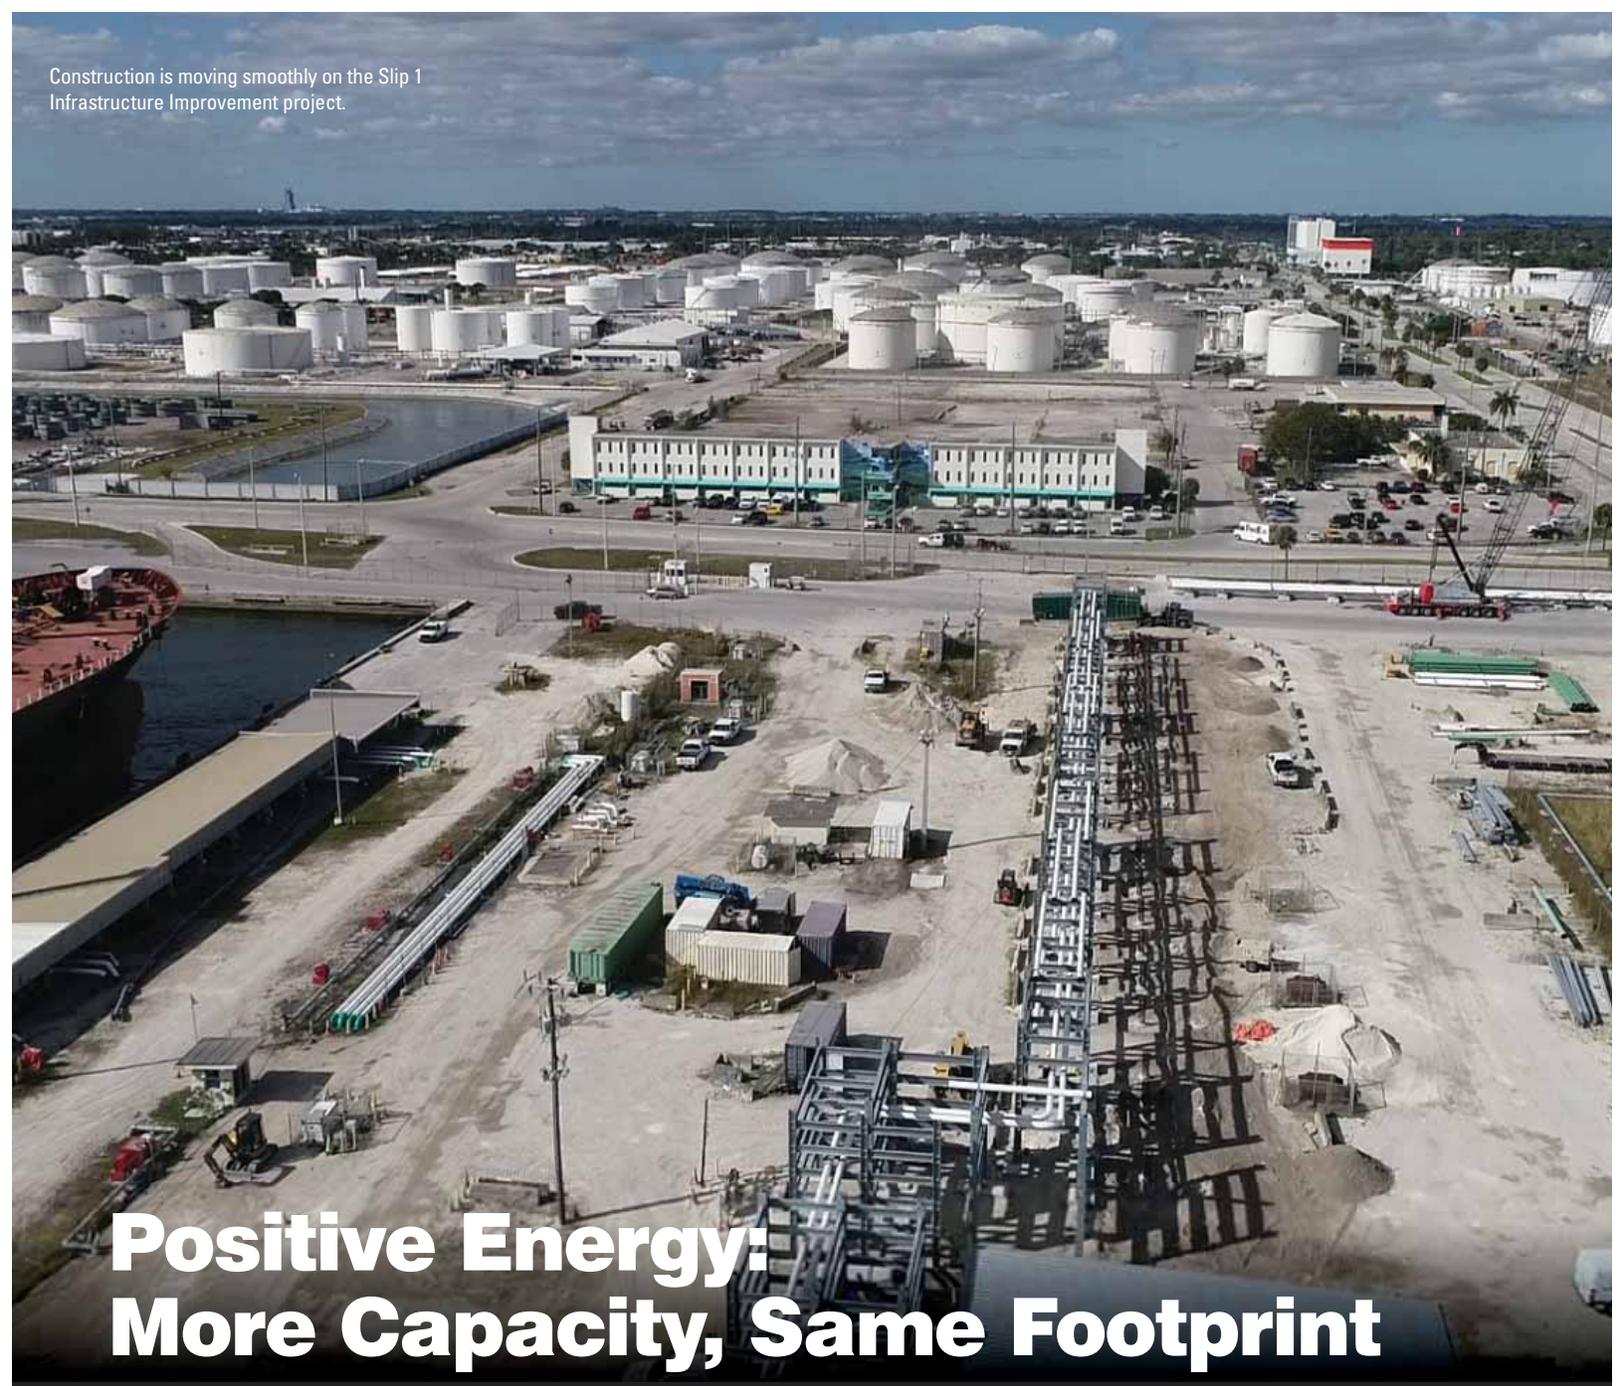

- Más de **20 compañías navieras y 11 operadores de terminales**
- **Instalaciones para casi todo tipo de carga**
- **Una tasa envidiable de importación/exportación** atrayendo transportadores con cargas de retorno
- Puerto principal de la Florida para **cargas de temperatura controlada con un total de 2.052 tomacorrientes de transporte refrigerado entre los operadores de terminales del Puerto**
- Puerto con capacidad de un Millón de TEUs, en un año típico – haciendo de Port Everglades el **decimotercer puerto de contenedores más activo** de la nación, en base a volúmenes de carga
- Flujo de carga **fuerte entre norte y sur** – las líneas principales de intercambio comercial son América Central, el Caribe, Costa Occidental de Suramérica y Costa Oriental de Suramérica, lo que representa más de 93 por ciento de sus negocios
- Los nichos especiales del Puerto incluyen **super yates**, una carga apreciada por los locales en la Venecia de las Américas – Fort Lauderdale.
- La aceleración del comercio por Internet impulsada por la pandemia está alentando lentamente el intercambio comercial de las Américas. Para principios de 2021, las utilidades y volúmenes relacionados con carga exhibían casi la misma tendencia de los niveles existentes antes de la pandemia.

## Buenas Noticias

**Aumento en Vehículos:** El número de vehículos transportados en transportadores de puros carros aumentó en un 25 por ciento en el año fiscal, FY 2020 a un total por encima de 63.000 unidades – incluyendo vehículos nuevos ingresando con orígenes en México y los EE.UU.

**Modelo Sostenible de NSA:** En enero de 2021, Port Everglades le dio la bienvenida al primer barco de carga para viajar en la nuevamente diseñada Carretera Marina de la Administración Marítima de EE.UU., M-10, de Houston a Port Everglades y continuando hasta Puerto Rico. La ruta corta el millaje de viajes a larga distancia en camión y proporciona un enlace directo de tránsito rápido para el intercambio comercial de la Florida del Sur con Puerto Rico.

Construction is moving smoothly on the Slip 1 Infrastructure Improvement project.

# Positive Energy: More Capacity, Same Footprint

Florida is America's picture-perfect state. Port Everglades plays an important role in keeping it that way. More than one-fifth of the petroleum that Florida uses daily enters through the Port and is stored and distributed by private energy partners.

## Operating on Renewables

While Port Everglades energy cargo is mostly comprised of fossil fuels, so far, its operational energy looks toward the future.

- The Port is replacing and upgrading equipment and cranes with electrified versions
- It is introducing renewable fuels for certain operations.
- Wind and solar-powered terminal lighting have proven effective
- A 360-panel photovoltaic array capable of producing 136 kilowatts of electricity was installed in the Port's newest parking garage

## Making Room for Resiliency

- The Port's Slip 1 project is the first of many to roll-out a new resiliency strategy
- Sustainable infrastructure is the future
- The berths surrounding Slip 1 will be raised along with Pier 1, which provides resiliency after emergency events such as hurricanes
- The design allows for additional increases in bulkhead elevation in future decades, addressing future sea-level rise head on.
- Private industry is upgrading the petroleum receiving infrastructure on Pier 1 in preparation for the Port's Slip 1 widening project

## Energy Spotlight Project: Slip One

Port Everglades' infrastructure investment program includes a multi-phased Slip 1 expansion that will allow the Port to safely serve the petroleum industry with greater capacity, efficiency, sustainability and resiliency.

The current seawall is due for replacement, not designed for sea-level rise, and in the upland area of the pier will need remediation from historical petroleum contamination.

**Big Need:** The \$184 million Slip 1 project is critical. The rebuilt facility will allow larger tankers to dock and offload more cargo per ship at a faster rate. Larger ships are more economical and more environmentally friendly. Fewer ships mean lower emissions.

**Big Project:** Slip 1 is a textbook private-public partnership, with the civil infrastructure being constructed by the Port and mechanical components being installed by private partners. Private industry has already begun its investment by relocating and upsizing piping and constructing a new central manifold, updating valve systems and elevating piping. The multi-product, multi-receiver manifold will facilitate product sharing, optimizing off-loading. The new manifold system is larger and has additional interconnecting lines.

Port Everglades will reconstruct a cutting-edge 150-foot wider, 1,200-foot-long seawall slip with new fenders, mooring bollards and a roadway.

**Uninterrupted Cargo Flows:** Completing the project by late 2025, while maintaining safe operations and uninterrupted critical cargo movements, requires meticulous coordination with multiple partners. Port berths 9 and 10 will be out of service for three years, and berths 5 and 6 will be used as alternative berth to handle the demand.

**Project Status:** Slip 1 is in permitting. The manifold is completed, and in use. Pipelines are being put in place on the above-ground rack. Additional pipelines will be relocated, then work on widening Slip 1 will begin Summer 2022 with completion in late 2025.

**Big Vessels:** The completed Slip 1 facility will accommodate vessels that are roughly twice the cargo capacity as current callers, without increasing the Port's overall footprint. ■

## Port Everglades' Energy Mix

### Top Products

- Gasoline
- Jet fuel
- Diesel fuel
- Fuel oil
- Ethanol
- Liquid asphalt
- Plus more

### Markets:

- Most fuel is sourced domestically
- Products are distributed throughout South Florida

### Volumes:

Every day, about 12.5 million gallons of petroleum products move through the Port

### Trending Soon:

LNG - the world is embracing low-carbon fuels. Port Everglades and its partners are exploring distribution options for this clean fuel

# Energía Positiva: Más Capacidad, el Mismo Impacto Ecológico

**E**l Estado de la Florida es como una foto perfecta de Norteamérica. Port Everglades desempeña un papel importante en mantenerlo así. Más de una quinta parte de los derivados del petróleo que la Florida utiliza a diario entra a través del Puerto y es almacenado y distribuido por socios en la industria de energía del sector privado.

## Operando con Recursos Renovables

Mientras la carga que Port Everglades procesa para clientes del sector de energía consiste en su mayoría de hidrocarburos, hasta ahora, la energía operacional del Puerto apunta hacia un compromiso de una visión del futuro.

- El Puerto está reemplazando y modernizando sus equipos y grúas con versiones que operan con energía eléctrica
- Está introduciendo combustibles renovables para ciertas operaciones.

- La iluminación de las terminales con electricidad producida por paneles solares y viento ha resultado ser un sistema eficaz
- Un sistema fotovoltaico de 360 paneles con capacidad de producción de 136 kilovatios de electricidad fue instalado en el garaje de estacionamiento más nuevo del Puerto

## Abriendo Espacio para Adaptación a los Cambios Climáticos

- El proyecto del Embarcadero 1 del Puerto es el primero de muchos diseñados para habilitar una nueva estrategia de adaptación a los cambios climáticos
- Una infraestructura sostenible es el futuro
- Los muelles alrededor del Embarcadero 1 serán elevados junto con el Muelle 1, lo cual proporcionará resistencia después de acontecimientos de emergencias tales como huracanes

- El diseño permite aumentos adicionales en la elevación de sistemas de mamparos y tuberías en las décadas futuras, combatiendo de frente los aumentos del nivel del mar anticipados
- La industria privada está modernizando la infraestructura de recepción de productos petroleros en el Muelle 1 en preparación para el proyecto de expansión del Embarcadero 1 del Puerto

## Centro de Atención en Proyectos de Energía: Embarcadero 1

El programa de inversión en infraestructura de Port Everglades incluye una extensión multifacética del Embarcadero 1 que le permitirá al Puerto operar con seguridad en su prestación de servicios para la industria petrolera, con aumentos en la capacidad, eficacia, sostenibilidad y adaptación.

El rompeolas actual necesita ser reemplazado, ya que no fue diseñado para el aumento del nivel del mar, y el terreno elevado en el área del muelle requerirá remediación debido a una contaminación por petróleo acumulada a lo largo de los años.

**Gran Necesidad:** El proyecto del Embarcadero 1 a un costo de \$184 millones es crítico. La reconstrucción de la instalación permitirá que tanqueros petroleros más grandes atraquen y descarguen más producto por navío a una velocidad más rápida. Los buques más grandes son más económicos y amigables con el medioambiente. Menos buques significan niveles más bajos de escape de contaminantes.

**Gran Proyecto:** El Embarcadero 1 es un ejemplo clásico de colaboración entre el sector público y el sector privado, con la infraestructura civil siendo construida por el Puerto y los componentes mecánicos siendo instalados por socios del sector privado. La industria privada ya ha comenzado su inversión, reubicando y aumentando la capacidad de las tuberías y construyendo un nuevo distribuidor de flujo central, modernizando los sistemas de válvulas y elevando las tuberías. El distribuidor de flujo con capacidad de recepción de productos múltiples simultáneamente facilitará el proceso de compartir, optimizar y descargar productos. El nuevo sistema de distribuidor de flujo es más grande y consta de líneas interconectadas adicionales.

Port Everglades reconstruirá un rompeolas incorporando los últimos avances en tecnología con un borde 150 pies más ancho, de 1.200 pies de largo con nuevos parachoques, bolardos de amarre y una vía de tránsito.

**Flujos Ininterrumpidos de Carga:** Terminar el proyecto para finales de 2025, mientras mantenemos nuestras operaciones seguras y sin interrumpir los movimientos críticos de carga, requiere una coordinación meticulosa con múltiples socios. Los muelles 9 y 10 del Puerto estarán fuera de servicio por tres años, y el muelle 5

será utilizado como muelle alternativo para manejar la demanda.

**Condición del Proyecto:** El Embarcadero 1 se encuentra en la fase de obtención de permisos. El distribuidor de flujo está terminado, y en uso. Las tuberías están siendo instaladas en sus anaqueles elevados. Tuberías adicionales serán reubicadas y después las labores de expansión del Embarcadero 1 comenzarán en el verano de 2022 con terminación a finales de 2025.

**Grandes Barcos:** La instalación terminada del Embarcadero 1 acomodará navíos que tendrán aproximadamente el doble de capacidad de carga de los actuales, sin aumentar el impacto ecológico total del Puerto. ■

## Mezcla Energética de Port Everglades

### Productos Principales:

- Gasolina
- Combustible de aviación
- Combustible diésel
- Aceite para gasolina
- Etanol
- Asfalto líquido
- Y más

### Mercados:

- La mayoría del combustible proviene de fuentes nacionales (entre 80 y 90 por ciento)
- Los productos son distribuidos a lo largo de la Florida del Sur

### Volúmenes:

Diarios, cerca de 12.5 millones de galones de productos petroleros son movidos a través del Puerto

### Nueva Tendencia:

LNG (Gas Natural Licuado) - el mundo está adoptando combustibles de bajo carbono. Port Everglades y sus socios están explorando opciones de distribución para este combustible limpio

# Combatting Environmental Stressors: Small Steps, Whopping Rewards

**P**ort Everglades rests alongside lush, green semi-tropical habitats, azure waters, and a metro area of 6 million people and counting. Sustainability is its middle name.

## Stepping Up

It is prioritizing concerns and winning national awards for effectively balancing the interests of the environment and the Port.

- National Association of Environmental Professionals' 2020 Environmental Excellence Award
- North American Marine Environment Protection Association's

2020 Marine Environment Protection Award for Ports

- American Association of Port Authorities' 2020 Award of Excellence for the Port Everglades Comprehensive Environmental Management Program, or CEMP

Guided by its comprehensive plan for managing environmental programs, the Port adroitly addresses ecological challenges and opportunities. The secret is to integrate the environmental, social and economic dimensions of sustainability into every business strategy, capital project, and initiative to help sustain or improve air, land and water quality, as well as natural habitats for flora and fauna.

## Environmental Priorities for Our Time, Our Place

**Working Wisely:** At Port Everglades, an exterior lighting master plan is being developed and implemented to protect adjacent sea turtle nesting grounds. New landscaping embraces native Broward County vegetation and is assembled in representative ecological habitats, as opposed to being solely for anthropogenic aesthetics. Bee swarms are captured and provided to keepers in lieu of being exterminated. Berths are being rehabilitated to address sea-level rise and assure resiliency. Garages are being equipped with solar arrays. These efforts are sometimes compliance driven, but more often, are simply the right thing to do. Varying in degrees of complexity, most of the Port's environmental projects are achieved by working wisely and within existing operational, maintenance and construction budgets.

**Collaborating with academia:** The Port collaborates with universities, widely deploying interns in a win-win-win for the environment, the Port and the educational institutions. Interns are producing innovative research. Universities are too. For example, port operations resiliency studies have been conducted by the Florida Atlantic University and the University of Illinois Critical Infrastructure Institute.

**Partnering with the maritime community:** Port Everglades shares best practices and guidance with the maritime community. Terminal operators are encouraged to retrofit diesel-powered equipment with energy-efficient clean technology and to introduce hybrid and electric pool vehicles. New Port buildings are designed to meet U.S. Green Building Council LEED certification.

## Ingrained Respect for Sustainability

The benefits of environmental stewardship are respected at the Port. As climate change takes center stage across industries, the Port will leverage its experience and leadership to collaborate and guide others. Specifically, Port Everglades sees opportunity for improved wildlife initiatives, for getting trucks off the road, to cut on-port idling emissions, and to develop new technologies and practices when mitigating for unavoidable impacts.

The Port's reef mitigation for the Southport Turning Notch Extension project included relocating 814 coral colonies prior to construction.

The watchwords of the Port's future environmental efforts will be collaboration and innovation, sustainability and resiliency. Integrating efforts to combat environmental stressors in every Port project, large and small, will make a difference. The Port is part of the environment – the environment is not part of the Port. ■

## A Roundup of Select Environmental Initiatives

**Coral Reefs:** Coral reefs are integral to Florida's quality of life. They absorb wave energy, protect coastlines and, of course, support marine life. The Port's Southport development necessitated a reef mitigation project that included relocating 814 coral colonies, and broad collaboration to protect the infant reef.

**Oyster Gardens:** Eastern oyster beds in Broward County have been wiped out by the dredging and bulkheading of most tidal waters. The Port is in the early phases of a community oyster gardening project, working with environmental partners to nurture spat (oyster larvae) at appropriate locations to grow these hardworking sea creatures. Just one oyster can filter up to 50 gallons of water a day, removing pollutants and chemicals.

**Manatee Protection:** 2020 brought a record number of manatees to the Port – 609 on a single day completely blowing the previous 2010 record of 455 right out of the water. Manatees are a protected species with a U.S. population of approximately 13,000, growing tenfold since aerial surveys began in 1991.

**Cold Ironing:** Though the air at Port Everglades is considered a high air quality, the Port has been studying shore power for cruise vessels since building Terminal 18 in 2008-2009. Issues relate to high cost and massive electrical wattage that would be required by docked cruise ships during peak local usage hours. The Port did construct a substation for its new electric cranes and continues to work with the utility for long-term solutions for burgeoning electrical needs.

**LNG Supply:** Port Everglades is looking to welcome LNG-powered vessels. Demand is growing in the cruise market especially.

# Combatiendo Estresantes Medioambientales: Pequeños Pasos, Enormes Recompensas

**P**ort Everglades colinda con frondosos hábitats de vegetación semitropical, aguas azul celeste, y un área metropolitana de 6 millones de personas en constante crecimiento. Sostenibilidad es un aspecto que define al Puerto.

## Asumiendo Responsabilidad

Está priorizando las inquietudes y ganando galardones nacionales por mantener el equilibrio eficazmente entre los intereses del medioambiente y los del Puerto.

- Galardón de Excelencia Medioambiental para el 2020 de la

## Respeto Inculcado a la Sostenibilidad

Los beneficios de la administración medioambiental son respetados en el Puerto. A medida que los cambios climáticos pasan a ser centro principal de atención a lo largo de nuestras industrias, el Puerto utilizará la influencia de su experiencia y liderazgo para colaborar y conducir a los otros. Especialmente, Port Everglades percibe una oportunidad para la implementación de iniciativas actualizadas de protección de fauna y flora, para sacar camiones de las carreteras, para reducir emisiones de contaminantes por maquinarias y vehículos marchando en vacío en el Puerto, y para desarrollar nuevas tecnologías y prácticas en su intento por atenuar los impactos que son inevitables.

Los lemas de los futuros esfuerzos medioambientales del Puerto serán colaboración e innovación, sostenibilidad y adaptación. La integración de esfuerzos para combatir estresores medioambientales en todos los proyectos del Puerto, grandes y pequeños, marcarán una diferencia. El Puerto es parte del medioambiente – el medioambiente no es parte del Puerto.

### Un Compendio de Iniciativas Medioambientales Selectas

**Arrecifes de Coral:** Los arrecifes de coral son un factor integral para la calidad de vida de la Florida. Absorben la energía de las olas, protegen las costas y, por supuesto, apoyan a la vida marina. El desarrollo de Southport del Puerto hizo necesario un proyecto de mitigación de arrecifes que incluyó la reubicación de 814 colonias de corales, y amplia colaboración para proteger el arrecife infante.

**Huertos de Ostras:** Los osteros de Ostras Orientales en el condado de Broward han sido erradicados por el dragado y operaciones de retención de la mayoría de las aguas de marea. El Puerto se encuentra en las fases iniciales de un proyecto comunitario de cultivo de un huerto de ostras, trabajando con nuestros socios medioambientales para nutrir poslarvas (larvas de ostra) en ubicaciones apropiadas para criar a estas criaturas obreras del mar. Apenas una ostra puede filtrar hasta 50 galones de agua al día, removiendo agentes contaminadores y productos químicos.

**Protección de Manatíes:** 2020 trajo

un número récord de manatíes al Puerto – 609 en un solo día batiendo totalmente el récord anterior del año 2010 de 455 manatíes. Los Manatíes son especies protegidas con una población en los EE.UU. de aproximadamente 13.000, con un crecimiento de diez veces desde los estudios aéreos de sus poblaciones que comenzaron en 1991.

**Aprovisionamiento en Frío:** Aunque el aire en Port Everglades es considerado de una alta calidad, el Puerto ha estado estudiando abastecimiento de electricidad desde la orilla para los barcos de cruceros desde la obra de construcción de la Terminal 18 en 2008-2009. Los problemas están relacionados con el alto costo y el masivo vataje eléctrico que serían requeridos por los barcos de cruceros atracados durante las horas pico de máximo uso local de electricidad. El Puerto construyó una subestación eléctrica para sus nuevas grúas eléctricas y continúa laborando con las empresas de servicios públicos para establecer soluciones a largo plazo para nuestras crecientes necesidades eléctricas.

**Fuente de LNG:** Port Everglades está estudiando darles la bienvenida a navíos operados con LNG (Gas Natural Licuado). La demanda está creciendo, especialmente en el mercado de cruceros.

**WE BRING MORE "YES" TO YOUR PROJECT**

At Sunbelt Rentals, we provide the equipment, service, and expertise you need to get the job done. With more than 8,000 types of tools and equipment, and locations across the U.S. and Canada, you can count on us to make it happen. Unrivaled Availability. Unparalleled Reliability. Remarkable Ease. **That's the Sunbelt Promise.**

Visit [sunbeltrentals.com](http://sunbeltrentals.com) or call **800-667-9328** to bring more "Yes" to your project.

Asociación Nacional de Profesionales Medioambientales

- Galardón de Protección Medioambiental Marina para Puertos para el 2020 de la Asociación Norte Americana de Protección de Medioambientes Marinos.
- Galardón de Excelencia para El Programa Comprensivo de Administración Medioambiental de Port Everglades (o CEMP, *por sus siglas en inglés*) para el 2020 de la Asociación Americana de Autoridades Portuarias

Orientado por su plan comprensivo para la administración de programas medioambientales, el Puerto diestramente trata con desafíos y oportunidades ecológicas. El secreto es integrar las dimensiones ambientales, sociales y económicas de la sostenibilidad en *todas* las estrategias de negocios, proyectos de capital, e iniciativa para ayudar a resguardar la calidad del aire, tierra y agua, así como también los hábitats naturales de flora y fauna.

## Prioridades Medioambientales para Nuestro Tiempo, Nuestro Lugar

**Trabajo Sabio:** En Port Everglades, un plan maestro de iluminación de exteriores está desarrollándose e implementándose para proteger los terrenos adyacentes donde las tortugas de mar excavan sus nidos. Nuevo paisajismo envuelve la vegetación nativa del condado de Broward y está ensamblado en hábitats ecológicos representativos, en vez de ser solamente para propósitos de estética antropogénica. Los enjambres de abejas son capturados

y se les proporcionan a los apicultores en vez de ser exterminados. Los embarcaderos están siendo rehabilitados para lidiar con el aumento del nivel del mar y asegurar adaptación. Los garajes de estacionamiento están siendo equipados con conjuntos de paneles solares. Estos esfuerzos en ocasiones son impulsados por el cumplimiento con las normas, pero más a menudo, simplemente son lo correcto que hay que hacer. Con gran variación en los grados de complejidad, la mayor parte de los proyectos ambientales del Puerto son logrados por medio de la realización de labores de un modo sabio y adhiriéndose a las limitaciones presupuestarias de las operaciones, mantenimiento y construcción.

**Colaboración con academia:** El Puerto colabora con universidades, desplegando extensamente estudiantes de pasantía representando el éxito para el medioambiente, el Puerto y las instituciones educativas. Los pasantes están produciendo investigaciones innovadoras. Las universidades también lo hacen. Por ejemplo, estudios de adaptación de las operaciones del Puerto han sido conducidos por Florida Atlantic University y el Instituto de Infraestructura Crítica de la Universidad de Illinois.

**Colaboración con la comunidad marítima:** Port Everglades comparte mejores prácticas y orientación con la comunidad marítima. Los operadores de terminales son alentados a la retro adaptación de equipos de motor diésel con opciones de tecnología de energía limpia y eficiente y a que introduzcan vehículos híbridos y eléctricos a sus flotillas. Los nuevos edificios portuarios están siendo diseñados para adherirse a los requisitos de certificación LEED del Concilio de Edificios Verdes de EE.UU. (*U.S. Green Building Council*). ■

One example of the Port's environmental stewardship philosophy -- the Port is part of the environment, the environment is not part of the Port -- is the 16.5-acre mangrove upland enhancement, home to manatees, waterfowl, fish and other marine life.

## Public Art: Port Everglades Calling Card

**T**here is comfort to be found in the natural world. The gifts of nature sustain humanity. Even when a healthy dose of concrete and steel and asphalt are nearby, a little greenery, a bit of birdsong or a butterfly garden can boost the spirit and imprint memories.

### A Sense of Place

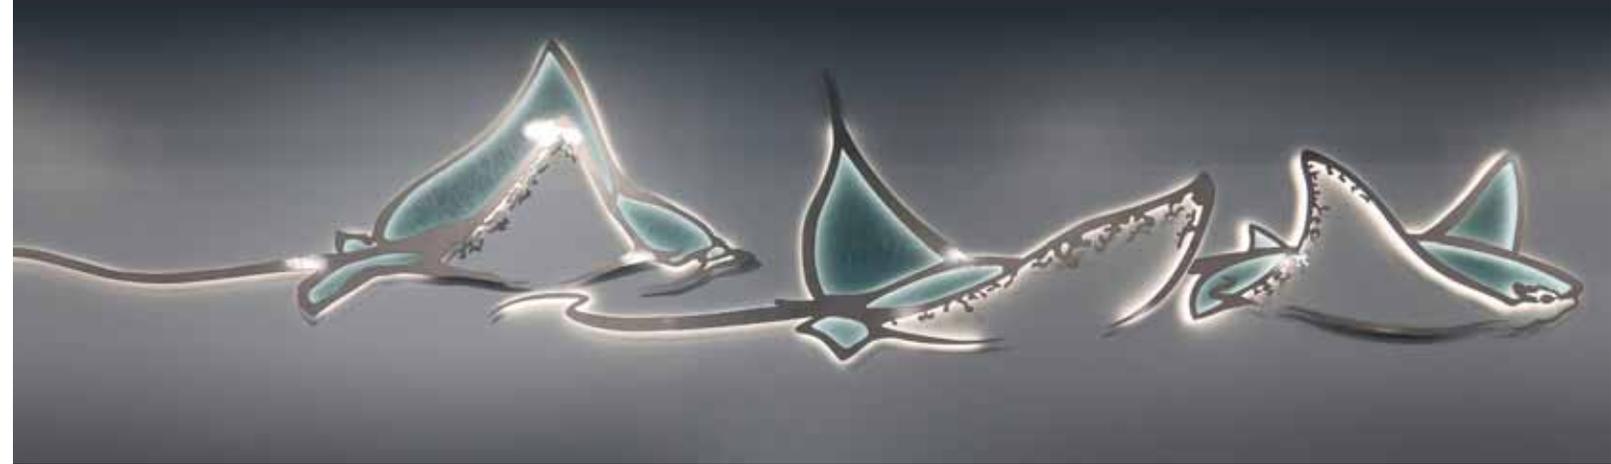

Public art that embraces and features Florida's native plant and animal species does the same. That is part of the rationale for Port Everglades' unrivaled multi-million-dollar public art program, which has become a true calling card. Artwork helps establish a sense of place. It welcomes Port guests and immediately shifts a cruise passenger's mindset into vacation mode.

From the giant ruby-throated hummingbird livening up the Harbormaster's Tower, to oversized backlit stingrays flying through a cruise terminal, to rainbow-colored fencing and

bollards that form a corridor of color to guide vehicle traffic round a bend, the Port and its global artists have found unique platforms and innumerable ways to take your breath away.

*Avian Odyssey* by Ernesto Maranje.

*Rays of Light* by Carrie Jadus and Mark Aeling welcomes cruise guests in Terminal 2.

## Hidden Purposes

The newly renamed Palm Garage in the Port's Midport area is branded with its namesake, and the new Heron Garage servicing Cruise Terminals 2 and 4 is about to be adorned by a 70-foot-tall heron peeking around the corner. The palm and heron images are used extensively on the Port's new wayfinding program. Directional signage employing animal and plant images are

*Artwork helps establish a sense of place. It welcomes Port guests and immediately shifts a cruise passenger's mindset into vacation mode.*

beautiful and are also more easily followed and remembered, which improves on-port traffic flows.

Artwork helps establish a sense of place. It welcomes Port guests and immediately shifts a cruise passenger's mindset into vacation mode.

Much of the Port's art serves a hidden purpose. The most recognizable installations have become landmarks, a useful

function for a port that has seen 55,000 passengers in a single day. Even security checkpoints are outfitted with decorative interpretations of indigenous Florida plants, animating what might otherwise be an imposing concrete structure with pattern, color and lighting to create a unique and gentle visitor welcome.

## The Gift of a Visual Paradox

Spanish street artist Nuria Mora's colorful floral artwork appears on canopies and wraps at security checkpoints. She dubbed the unlikely harmony created by her art as a "visual paradox for industry at the Port." Echoing the old maxim that opposites attract, industry and beauty can successfully coexist.

Of course, the Port sees beauty in its industry and vistas. So, in addition to continuing to invest up to 2 percent of its capital project budgets on public art, it has also improved access to stunning views of the working port, such as those enjoyed from its new moving walkway, connecting the Heron Garage and Cruise Terminal 2.

At Port Everglades, artwork is meant to beautify and to linger in the mind's eye. It helps make the Port a special place, one where visitors can pass through, spend a moment, and want to hurry back. ■

*Nature's Allure* by Rick Flores (a Port Everglades staff member and photographer), located in Terminal 29, captures the natural beauty of South Florida.

# Arte Público: Tarjeta de Presentación de Port Everglades

Existe un grado de confort dentro del mundo natural. Los regalos que ofrece la naturaleza son un sustento para la humanidad. Aun cuando existen cantidades considerables de concreto, acero y asfalto en proximidad, un poquito de vegetación, el cantar de unas aves o un jardín de mariposas puede elevar el espíritu y crear hermosas memorias.

## Un Sentido del Lugar

El arte público que rodea y presenta las especies de flora y fauna nativas de Florida hace lo mismo. Ése es parte del raciocinio de Port Everglades para la implementación de su programa multimillonario de arte público sin igual, el cual ha pasado a ser en una verdadera tarjeta de presentación. Las obras de arte ayudan a establecer un sentido del lugar. Les extienden la bienvenida a los huéspedes del Puerto e inmediatamente le reencamina el estado mental a un pasajero de cruceros hacia un ánimo de estar de vacaciones.

Desde el gigantesco colibrí de cuello rubí animando la Torre del Capitán del Puerto (*Harbormaster's Tower*), hasta las enormes mantarrayas retroiluminadas que parecen volar a lo largo de una terminal de cruceros, hasta el cercado y bolardos coloreados con los matices de un arcoíris formando un pasillo de colores para conducir el tráfico de vehículos alrededor de una curva, el Puerto y sus artistas de mundial renombre han hallado plataformas únicas y maneras innumerables de impactar a nuestros visitantes con sus exhibiciones de arte.

## Propósitos Ocultos

El nuevamente retitulado garaje de estacionamiento, Palm Garage (Garaje de las Palmas), en el área de Midport del Puerto, le hace honor a su nombre, y el nuevo Heron Garaje (Garaje de las Garzas), que le presta servicio a las Terminales de Cruceros 2 y 4, está a punto de ser adornado por una garza de 70 pies de altura asomándose a escondidas alrededor de la esquina. Las imágenes de palmas y garzas son utilizadas extensivamente en el nuevo programa de señalamiento de puntos direccionales del Puerto. Las señales direccionales que emplean imágenes de fauna y flora son hermosas y también más fáciles de seguir y recordar, lo cual causa mejoras de circulación en el tráfico del Puerto.

Las obras de arte ayudan a establecer un sentido del lugar. Les extienden la bienvenida a los huéspedes del Puerto e inmediatamente le reencamina el estado mental a un pasajero de cruceros hacia un ánimo de estar de vacaciones.

*Dazzle* by David Dahlquist.

Mucho del arte del Puerto sirve para un propósito oculto. Las instalaciones más reconocibles han pasado a ser puntos de referencia, una función útil para un puerto que ha visto circular 55.000 pasajeros en un solo día. Incluso los puntos de control de seguridad están adornados con interpretaciones decorativas de flora indígena de la Florida, dándole vida a lo que de otro modo podría simplemente lucir como estructuras imponentes de concreto, animándolas con patrones, colores e iluminación para crear una bienvenida única y apacible para nuestros visitantes.

## El Regalo de una Paradoja Visual

Las coloridas ilustraciones florales de la artista urbana española Nuria Mora, aparecen en los pabellones y barreras en los puntos de control de seguridad. Ella denominó la armonía improbable creada por su arte como una "paradoja visual para la industria en el Puerto." Haciendo eco del antiguo adagio que los opuestos se atraen, la industria y la belleza pueden coexistir exitosamente.

Por supuesto, el Puerto percibe belleza en su industria y sus vistas. Por lo tanto, además de continuar invirtiendo hasta un 2 por ciento de sus presupuestos de proyectos de capital en arte público, también ha mejorado el acceso a vistas imponentes de las labores del Puerto, tales como las que son disfrutadas desde de su nueva calzada móvil de peatones, conectando el Heron Garage y la Terminal de Cruceros 2.

En Port Everglades, las obras de arte están diseñadas con el objetivo de embellecer y quedar suspendidas en la imaginación. Ayudan a hacer del Puerto un lugar especial, donde los visitantes pueden transitar, pasarse un momento, e irse con el deseo de volver pronto. ■

# Seaport Security: To the Highest Standard

**S**eaport is hardening diverse targets – assets, businesses, customers, cargoes and communities – to keep those that would do us harm away. That’s a top-priority job at Port Everglades.

With a need to continually streamline, find efficiencies and enhance processes in a 24/7 customer-friendly manner, seaport security is a tall order – especially for a port that handles 4,000 ships, 4 million passengers and 25 million tons of diverse cargoes in a good year.

## Collaboration and Delegation

There is help. The Port works collaboratively with private security firms, tenants and law enforcement at every governmental level.

Port security relies heavily on technology, processes and procedures, but also requires boots on the ground in the right places at the right times. On a peak day, the Port can process up to 30,000 passengers in a four-hour window. Tremendous organizational talent and clear lines of responsibility help, whether the goal is checking cargo for radiation or simply examining credentials.

## The Security/Safety Overlap

In 2020, the pandemic blurred the lines between security and safety responsibilities. Fortunately, Port Everglades’ security forces were prepared to broaden their role. As the world watched the pandemic proliferate, the Port had a ready-made and comprehensive health and safety emergency plan at its fingertips, albeit one initially prepared for the Ebola outbreak of 2014. Nevertheless, Port Everglades was in the process of exercising the plan even before COVID-19 hit the region, and was able to implement it almost immediately. Procedures to set up a unified command capable of notifications, sharing best practices and decision making were ready to go.

That proved invaluable as cruise ships, carrying sick passengers were being turned away by other locations battling the disease. Port Everglades and its health and law enforcement partners in the Unified Command were able to quickly adapt existing procedures to safely move ill and contagious passengers to medical facilities or isolation, while managing access control and following Coast Guard-approved security measures. A top priority was ensuring vessel operators followed plans to mitigate risk to local populations. Lives were saved.

## All in a Day’s Work

Like law enforcement anywhere, port security forces and fire-rescue have to be prepared for almost any situation. For

example, when the Port hosts VIPs, security forces bear the burden of site prep and coordination with security details. The Broward Sheriff’s Office law enforcement and Fire Rescue have facilities onsite to deal with accidents and incidents that are sometimes unique to a maritime setting because they occur aboard ship. Occasionally Port security officers even administer first aid. In one heroic recent incident, Broward Sheriff’s officers were able to apply CPR to bring a shuttlebus driver in cardiac arrest back to life.

*Port security relies heavily on technology, processes and procedures, but also requires boots on the ground in the right places at the right times.*

To do its job well, the Port regularly replaces and upgrades aging and outdated security infrastructure:

- Port-wide camera systems were just upgraded
- High-speed access-gate arms are now standard
- Radiation portal monitors in outbound lanes are being enhanced
- New license plate recognition software is being deployed in partnership with the Broward County Sheriff’s Office
- Port is alert to the increasing threat of cyber-crime and has multiple tools to prevent and counter cyber-threats

Layered law enforcement efforts are best practice at Port Everglades, augmenting vigilance, prevention, detection and response. ■

# Seguridad del Puerto: Al Mayor Estándar

**E**l Puerto está fortaleciendo diversos objetivos – bienes, negocios, clientes, cargamentos y comunidades – para protegernos de aquellos que nos harían daño y mantenerlos a distancia. Eso es una labor de alta prioridad en Port Everglades.

Con una necesidad de optimización continua, encontrar eficacias y realzar procesos de una manera amigable para nuestros clientes 24 horas al día/7 días a la semana, la seguridad del Puerto presenta un gran reto – especialmente para un puerto que maneja 4.000 navíos, 4 millones de pasajeros y 25 millones de toneladas de diversos cargamentos al año.

## Colaboración y Delegación

Existe ayuda. El Puerto trabaja en colaboración con compañías de seguridad privadas, nuestros arrendatarios y las autoridades competentes a todo nivel gubernamental.

La seguridad portuaria depende en gran parte de tecnología, procesos y procedimientos, pero también requiere personal en-sitio en los lugares apropiados y los momentos correctos. En un día pico, el Puerto puede procesar hasta 30.000 pasajeros en un lapso de cuatro horas. Un enorme talento para la organización y líneas claras de responsabilidad son útiles, ya sea que el objetivo sea pesquisar carga para saber si existe radiación o simplemente inspeccionar credenciales.

## Superposición de Seguridad/Bienestar

En 2020, la pandemia hizo borrosas las líneas entre seguridad y responsabilidades de bienestar. Afortunadamente, las fuerzas de seguridad de Port Everglades estaban preparadas para ampliar su papel. A medida que el mundo observaba la pandemia proliferar, el Puerto tenía un plan elaborado y comprensivo de emergencias de salud y seguridad a su alcance inmediato, no obstante siendo un plan inicialmente preparado para el brote de Ébola de 2014. Sin embargo, Port Everglades se encontraba en el proceso de ejecución del plan incluso antes de que COVID-19 azotó la región, y pudo implementarlo casi inmediatamente. Procedimientos para establecer un comando unificado capaz de emitir notificaciones, compartir mejores prácticas y tomar decisiones estaban listos para ser implementados.

Esa preparación probó ser de un valor inestimable a medida que los barcos de cruceros, con pasajeros enfermos a bordo, eran rechazados por otros sitios batallando contra la enfermedad. Port Everglades y sus socios en la industria médica y autoridades de las fuerzas del orden público en el Comando Unificado pudieron adaptar rápidamente procedimientos

existentes para trasladar con seguridad a pasajeros enfermos y contagiosos a instalaciones médicas o de aislamiento, mientras administraban el control de acceso y medidas de seguridad aprobadas por los funcionarios de los Guardacostas de EE.UU. Una prioridad principal fue cerciorarse de que los operadores de embarcaciones siguieran los planes para atenuar el riesgo a las poblaciones locales. Se salvaron vidas.

## Son Gajes del Oficio

Como las fuerzas del orden público en dondequiera, las fuerzas de seguridad y bomberos rescatistas del Puerto tienen que estar preparadas para casi cualquier situación. Por ejemplo, cuando el Puerto recibe VIPs, las fuerzas de seguridad tienen la responsabilidad de la preparación de las instalaciones y coordinación con equipos de guardia. Los funcionarios del orden público de la Oficina del Alguacil del Condado de Broward y los Bomberos Rescatistas tienen sus propias instalaciones en el Puerto para tratar con accidentes e incidentes que a veces son únicos en un entorno marítimo porque ocurren a bordo de un barco. Ocasionalmente, los funcionarios de seguridad del Puerto incluso administran primeros auxilios. En un heroico incidente reciente, funcionarios de la Oficina del Alguacil del Condado de Broward pudieron aplicar Resucitación Cardiopulmonar (CPR) para traer de nuevo a la vida a un conductor de autobús que tuvo un ataque al corazón.

Para realizar su labor bien, el Puerto rutinariamente reemplaza y optimiza la infraestructura caducada o anticuada de seguridad:

- Los sistemas de cámaras de circuito cerrado del Puerto acaban de ser actualizados
- Brazos de alta velocidad en los puntos de acceso de vehículos ahora son estándar
- Los detectores de radiación en portales de salida están siendo actualizados
- Nuevos programas computarizados de reconocimiento de placas de vehículos se están desplegando en colaboración con la Oficina del Alguacil del Condado de Broward
- El Puerto está alerta a la amenaza en aumento del crimen cibernético y tiene herramientas múltiples para prevenir y contrarrestar las amenazas cibernéticas

Niveles intercalados en los esfuerzos de protección policiaca son una mejor práctica en Port Everglades, aumentando vigilancia, prevención, detección y respuesta. ■

## Terminal 2

- Total Square Footage: 85,504 sq. ft.
- Total Square Meters: 7,897 sq. m.
- Baggage Laydown: 35,956 sq. ft./ 3,251 sq. m.
- Passenger Waiting Area: 20,720 sq. ft./ 1,858 sq. m.
- Simultaneous Embark/ Debarck
- 2 Elevators/3 Escalators
- 25 Check-In Stations
- Free Wi-Fi
- Vending Machines
- Public Art Installation
- Parking in 1,818-space Heron Garage
- World's only Ocean Medallion cruise terminal

## Terminal 4

- Total Square Footage: 140,000 sq. ft.
- Total Square Meters: 13,006 sq. m.
- Baggage Laydown: 34,211 sq. ft./ 3,158 sq. m.
- Passenger Waiting Area: 19,917 sq. ft./ 1,765 sq. m.
- Simultaneous Embark/ Debarck
- 2 Elevators
- 2 Escalators
- 50 Check-In Stations
- Free Wi-Fi
- Vending Machines
- Public Art Installation
- Parking in 1,818-space Heron Garage

## Terminal 18

- Total Square Footage: 259,370 sq. ft.
- Total Square Meters: 24,061 sq. m.
- Baggage Laydown: 71,467 sq. ft./ 6,596 sq. m.
- Passenger Waiting Area: 76,198 sq. ft./ 7,060 sq. m.
- Simultaneous Embark/ Debarck
- 6 Elevators
- 7 Escalators
- 90 Check-In Stations
- VIP Area
- Free Wi-Fi
- Vending Machines
- Public Art Installation
- Secure parking in 600-space Parking Lot #18 and 404-space Parking Lot #19

# Facilities

## Terminal 19

- Total Square Footage: 95,000 sq. ft.
- Total Square Meters: 8,825 sq. m.
- Baggage Laydown: 45,612 sq. ft./ 4,180 sq. m.
- Passenger Waiting Area: 18,342 sq. ft./ 1,672 sq. m.
- Simultaneous Embark/Debark
- 2 Escalators
- 50 Check-In Stations
- VIP Area
- Free Wi-Fi
- Vending Machines
- Public Art Installation
- Secure parking in 404-space Parking Lot #19 and 2,000-space Palm Garage

## Terminal 21

- Total Square Footage: 138,700 sq. ft.
- Total Square Meters: 12,820 sq. m.
- Baggage Laydown: 32,373 sq. ft./ 2,972 sq. m.
- Passenger Waiting Area: 15,751 sq. ft./ 1,393 sq. m.
- Simultaneous Embark/Debark
- 4 Escalators
- 50 Check-In Stations
- VIP Area
- Free Wi-Fi
- Vending Machines
- Public Art Installation
- Secure, covered parking in the 2,000-space Palm Garage

## Terminal 25

- Total Square Footage: 157,800 sq. ft.
- Total Square Meters: 14,660 sq. m.
- Baggage Laydown: 23,130 sq. ft./ 2,149 sq. m.
- Passenger Waiting Area: 12,653 sq. ft./ 1,175 sq. m.
- Simultaneous Embark/Debark
- 4 Escalators
- 6 Escalators
- 48 Check-In Stations
- Free Wi-Fi
- Public Art Installation
- Secure, covered parking in the 2,000-space Palm Garage

## Terminal 26

- Total Square Footage: 115,518 sq. ft.
- Total Square Meters: 10,683 sq. m.
- Baggage Laydown: 39,654 sq. ft./ 3,623 sq. m.
- Passenger Waiting Area: 21,183 sq. ft./ 1,950 sq. m.
- Simultaneous Embark/Debar
- 4 Elevators
- 4 Escalators
- 25 Check-In Stations
- Free Wi-Fi
- Vending Machines
- Public Art Installation
- Secure, covered parking in the 2,000-space Palm Garage

## Terminal 29

- Total Square Footage: 80,200 sq. ft.
- Square Meters: 7,432 sq. m.
- Baggage Laydown: 28,177 sq. ft./ 2,601 sq. m.
- Passenger Waiting Area: 18,963 sq. ft./ 1,672 sq. m.
- 2 Elevators
- 1 Escalator
- 50 Check-In Stations
- Free Wi-Fi
- Vending Machines
- Secure, covered parking in the 2,000-space Palm Garage via free parking shuttle

Cargo, cruise and navy berths range in depth up to 42 feet at mean low water. Updated information can be obtained from the Harbormaster 954-468-0212.

## Open Yard Facilities

SITE	ACRES	USES
<b>SOUTHPORT</b> Southport Terminal	256	Containers/Trailers
<b>MIDPORT</b> Midport Container Yards	51	RO/RO/Containers
<b>NORTHPORT</b> Northport Container Yards	12	Containers

## Parking Facilities

Palm Parking Garage	2,000 spaces
Heron Parking Garage	1,818 spaces
Parking Lot 18	600 spaces
Parking Lot 19	404 spaces

## Reefer and Freezer

Port Everglades Cold Storage, a privately owned/operated refrigerated warehouse located in Midport, offers more than 1.6 million cubic feet of variable-temperature storage. Call 954-764-1781 for more information.

Approximately 2,052 reefer outlets are located within leased marine terminals throughout the seaport, primarily 3-phase, 480-volt, 60-cycle, 100-amp plugs.

## Port Berths & Services

The 32 berths currently available at the Port are located in three areas of operation—Southport, Midport and Northport. Total berthing space is 25,222 linear feet (7,688 meters).

## Services

- Portable brows, including six 30- and 32-foot straight brows for cruise ships. (Cruise terminals offer hydraulic passenger-loading bridges.)
- Pipeline hose connections for bunker fuels at berths 1–27, with all berths accessible by tank truck and barge.
- Linehandler services for docking, undocking and/or shifting of vessels (shift counts as two movements).
- Dockside lighting/high-mast lights for night operations at all berths (external suppliers offer portable diesel power generators).
- Shoreside metered hose connections for potable water at berths.
- Complete chandler and provision services from external suppliers.
- Radio communications with Port Harbormaster on channels 14 (156.7 MHz), 7A (156.35 MHz) and 18A (156.9 MHz).

## Foreign-Trade Zone No. 25

Foreign-Trade Zones (FTZ) provide special U.S. Customs and Border Protection benefits for U.S. companies engaged in international trade. Businesses can take advantage of duty-free, deferred and/or reduction programs. By using FTZ No. 25, businesses that import commodities can implement advantageous economic solutions for cargo storage, merchandise manipulation and manufacturing for redistribution outside of the U.S. FTZ No. 25 main office has moved into the new International Logistics Center. For more information, call 954-468-0214.

## Southport Gantry Cranes

### 7 - Samsung Post-Panamax, low-profile shuttle booms

Electrics: General Electric

Maximum capacity and speed:

- Rated capacity (below spreader), 46.5 long tons
- Rated capacity (under cargo hook), 57 long tons
- Trolley travel, 600 fpm
- Hoist speed unloaded, 380 fpm

Principal dimensions:

- Dock rail gauge, 100 ft.
- Maximum boom width, 30 ft.
- Overall portal clearance, 50 ft.
- Clear height under spreader over rail, 106 ft. 3 in.

### 3 - ZPMC Super Post-Panamax, low-profile shuttle booms

Electrics: TMEIC

Maximum capacity and speed:

- Rated capacity (below spreader), 65 long tons
- Rated capacity (under cargo hook), 100 LT restricted backreach/ outreach, 75 LT unrestricted
- Trolley travel, 804 fpm
- Hoist speed unloaded, 591 fpm
- Gantry travel, 150 fpm
- Lowering loaded, 295 fpm
- Lowering unloaded, 591 fpm
- Boom shuttle time, 3 minutes in or out

- Gantry travel, 150 fpm
- Lowering loaded, 180 fpm
- Lowering unloaded, 380 fpm
- Boom shuttle time, 2.5 minutes in or out
- Maximum gantry width (bumpers extended), 86 ft. 6 in.
- Total lift, 155 ft.
- Maximum workable backreach (all working positions), 45 ft.
- Workable outreach, 145 ft. 6 in.
- Overall height limit above rail, 151 ft. 3 in.

Principal dimensions:

- Dock rail gauge, 120 ft.
- Maximum boom width, 30 ft.
- Overall portal clearance, 50 ft.
- Clear height under spreader over rail, 133 ft.
- Maximum gantry width (bumpers extended), 86 ft. 6 in.
- Total lift, 193 ft.
- Maximum workable backreach (all working positions), 35 ft.
- Workable outreach, 205 ft.
- Overall height limit above rail, 175 ft.

## Midport Cranes

### 1 - Gottwald Mobile Harbor Crane Model 6407

Capacity and dimensions:

- 40.4 long tons under spreader in single-lift mode to maximum radius of 135 ft.
- 49.2 long tons under spreader in twin-lift mode to maximum radius of 118 ft.

- 100 long tons under cargo hook to maximum radius of 75 ft.
- Outreach 167 ft. from center of tower
- Lift 154 ft. from pier to bottom of hook

### 1 - Paceco Gantry Crane

Electrics: General Electric

Maximum capacity and speed:

- Rated capacity (below spreader), 50 long tons
- Rated capacity (below cargo hook), 58 long tons
- Hoist speed at rated capacity, 150 fpm
- Lower speed at rated capacity, 190 fpm
- Hoist acceleration at rated capacity, 2 second (approximately)

- Hoist speed with empty spreader, 360 fpm
- Trolley travel, 500 fpm
- Gantry travel, 150 fpm
- Boom travel (up or down), 5 minute

Principal dimensions:

- Dock rail gauge, 50 ft.
- Frame leg clearance, 60 ft.
- Total lift, top of rail to underside of spreader, 100 ft.
- Workable outreach, centerline waterside rail to centerline spreader, 135 ft.

- Backreach, centerline landside rail to centerline spreader, 75 ft.
- Maximum gantry width (bumpers extended), 95 ft.
- Total lift minimum, 100 ft.
- Boom stowed crane height, 270 ft.

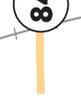

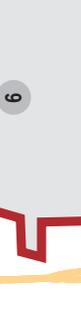

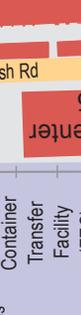

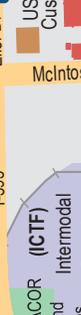

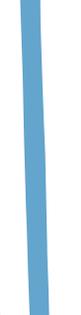

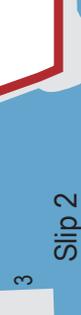

## Spreaders

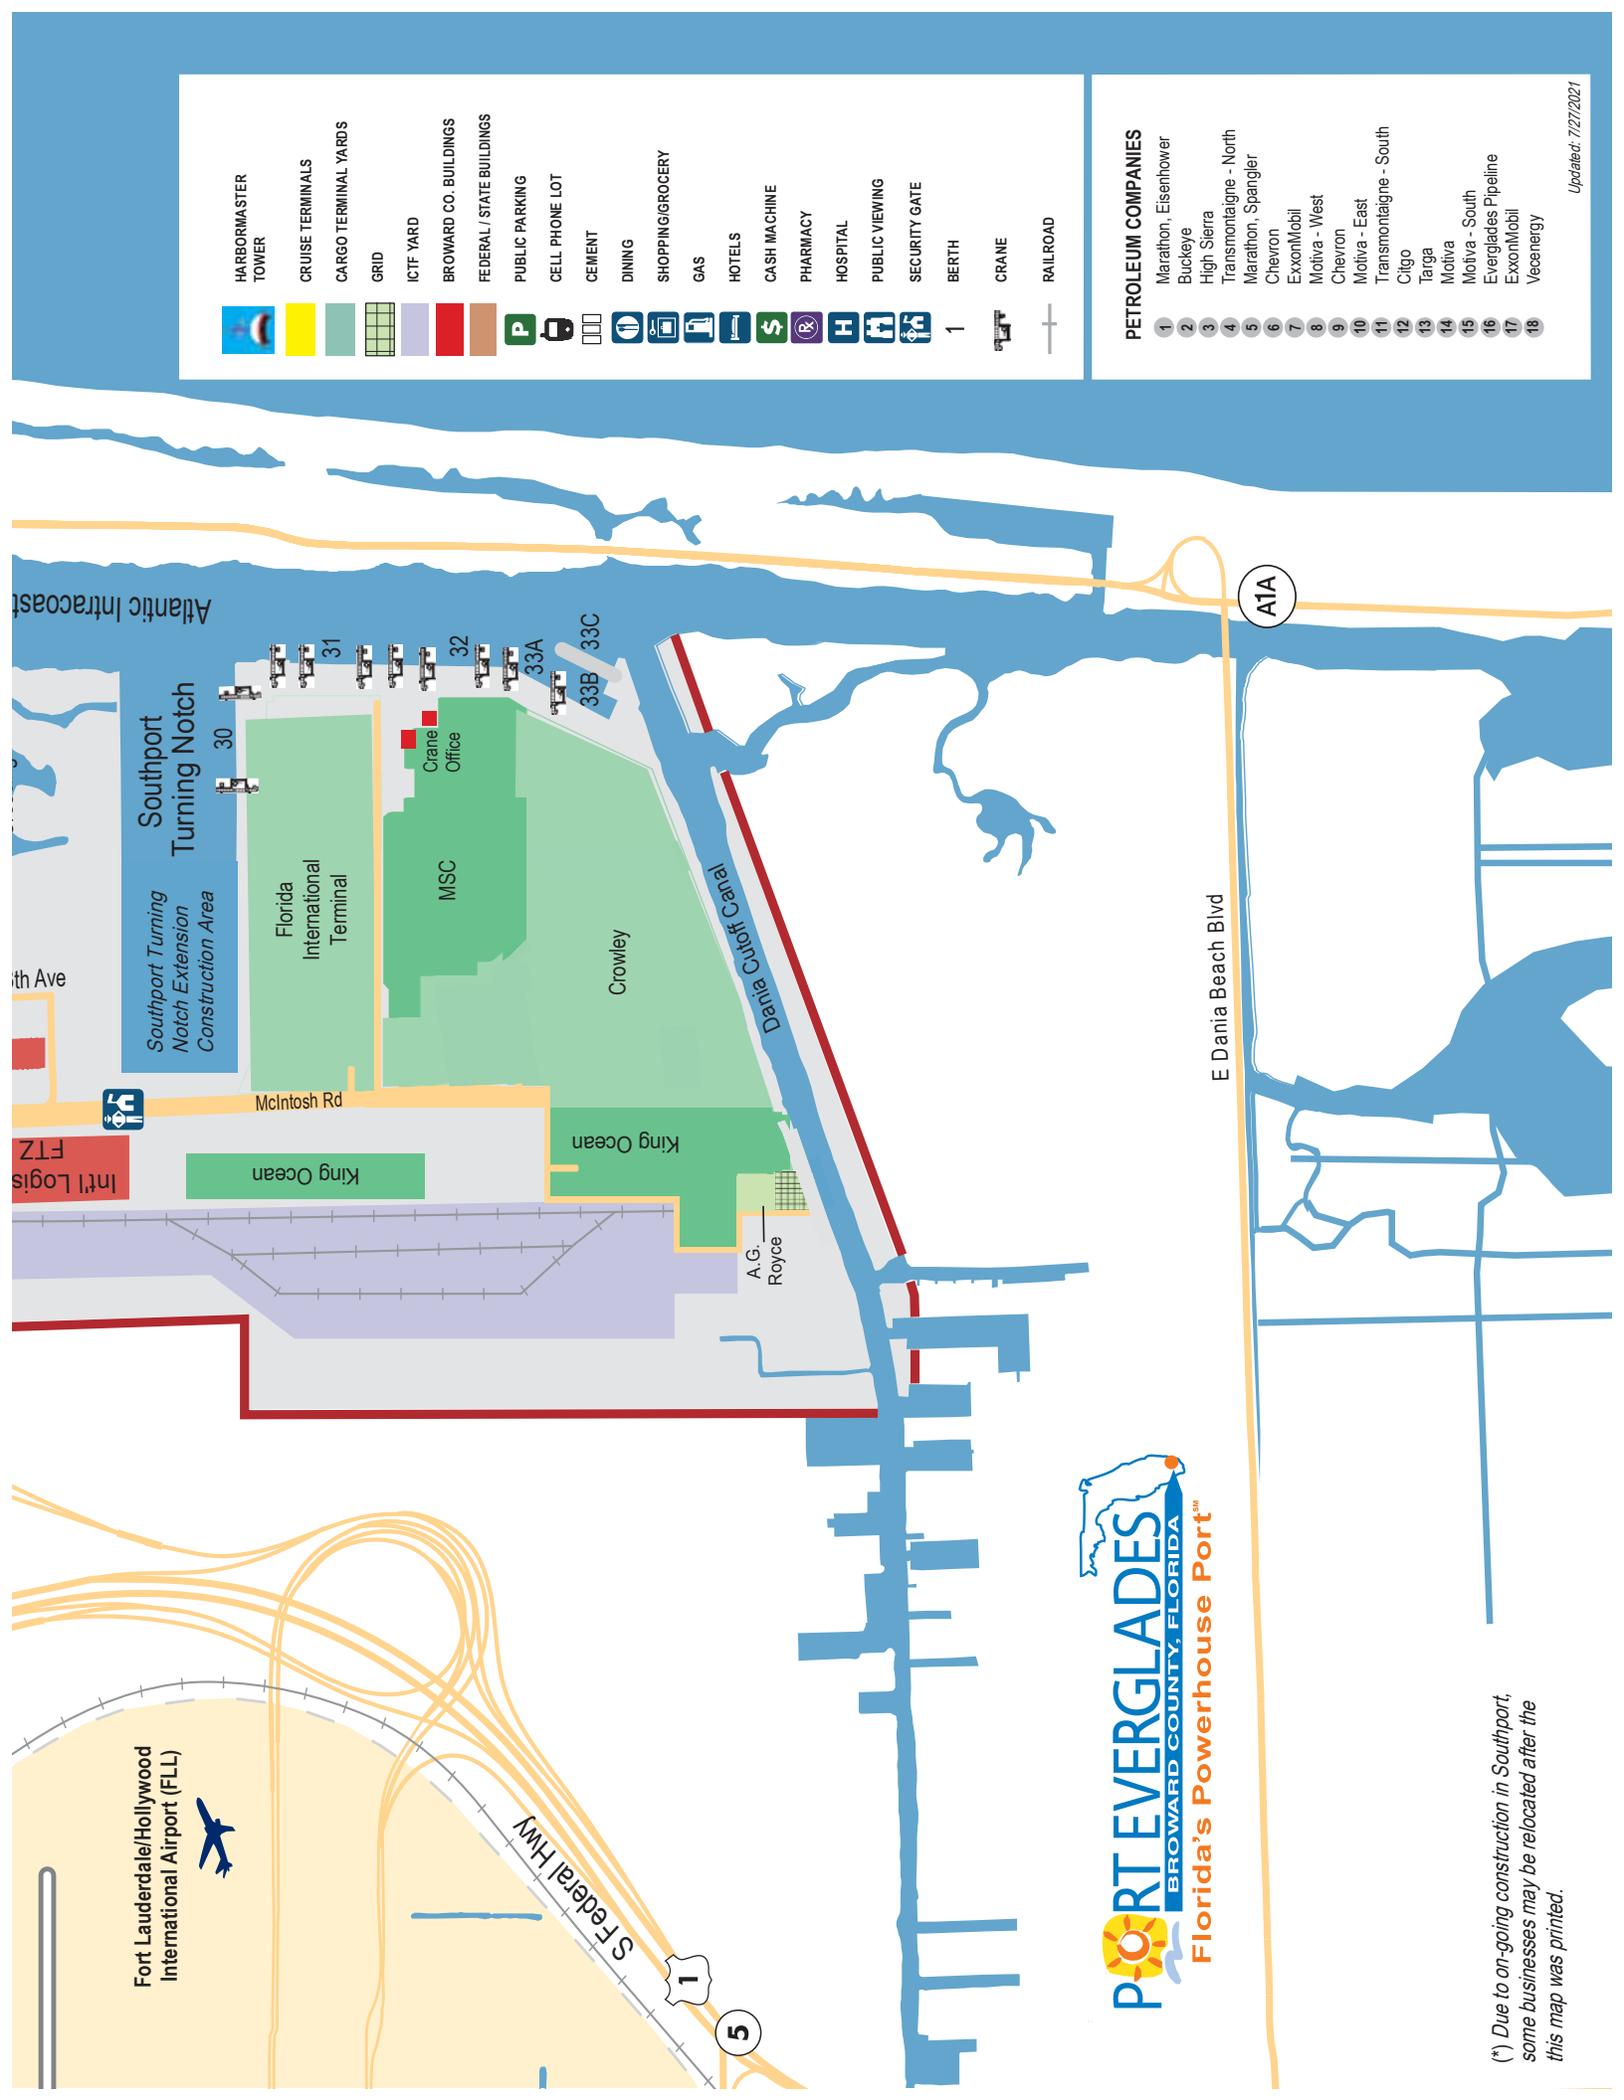

### 34 total

- 1 Bromma Telescopic 20 /40 /45 ft.
- 13 Bromma Telescopic 20/40/45 ft. twin pick
- 5 Bromma Telescopic 20/40/45 ft. separating twin pick

- 6 Bromma 6 ft. Overheight Attachments
- 6 Samsung Lifting Beams, 57 LT
- 3 ZPMC Lifting beams, 100 LT

## Port Director's Office

Tel: 954-523-3404; Fax: 954-523-8713

As administrative head of Port Everglades, the Chief Executive & Port Director has responsibility over proper administration of all seaport functions. The Deputy Port Director, as second in command, performs such duties in the Port Director's absence. Port planning, security and energy also operate under the Port Director's Office.

## Business Administration

Tel: 954-468-3502; Fax: 954-525-1910

Responsible for procurement, property management, business permits, franchises, human resources, labor relations, risk management, contract administration, Foreign-Trade Zone No. 25 operations, public records requests, parking, vending machines, and various other facets of general Port administration.

- Foreign-Trade Zone No. 25: 954-468-0214
- Leasing/Property Management: 954-468-3518
- Human Resources: 954-468-0110
- Permits/Franchises: 954-468-0112
- Procurement: 954-468-0117

## Business Development and Corporate Communications

Tel: 954-468-3521; Toll-free: 1-800-421-0188

Responsible for marketing, sales and public relations strategies to draw additional cruise business and containerized, dry and break bulk cargo to Port Everglades. Staff provides customer service to the cruise/cargo communities and markets other Port facilities to the maritime community. Corporate Communications, a section within the Business Development Division, handles public information, media relations, special events, publications, advertising, tours and website.

- Cargo Marketing: 954-468-0176
- Cruise Marketing: 954-468-0170
- Cruise General Information: 954-468-3720
- Corporate Communications: 954-468-3527

## Seaport Engineering & Facilities Maintenance

Tel: 954-468-0143; Fax: 954-468-3436

Capital improvement programs are developed and administered by this division, as well as maintaining County-owned assets and facilities. Responsibilities include architectural/engineering design, building code conformance, drainage, harbor maintenance, construction administration, engineering records, environmental programs, land development, marine facilities, roadways, surveys-land/bathymetric and utilities.

- Environmental Programs: 954-468-0164

## Finance

Tel: 954-468-3510; Fax: 954-765-4060

Responsible for all of the financial transactions including invoicing, collections, accounts payable, payroll, grants, capital projects, bond compliance, internal and external financial reporting and Port-wide data processing services.

- Information Technology: 954-468-0100

## County Attorney's Office

Tel: 954-468-3530; Fax: 954-468-3690

Legal advice and counsel for the seaport, as well as its officers, in performance of official duties, is the responsibility of the Broward County Attorney's Office.

## Operations

Tel: 954-468-0221; Fax: 954-522-0873

Oversees all vessel movement, harbormaster and linehandling services and scheduling crane use and operations.

- Harbormaster: 954-468-0212
- Gantry Cranes: 954-468-0201

## Port Security Administration

Tel: 954-468-0140

Ensures Port Everglades' compliance under international, federal and state security laws.

## Broward Sheriff's Office

### Law Enforcement

Non-emergency: 954-765-4511

Contracted through Broward County to provide landside and waterside security, as well as air patrol.

- BSO Dispatch Center: 954-468-3533
- ID Badges: 954-765-4225

### Fire/Rescue

Non-emergency: 954-765-4191

Operates a complete emergency rescue center at Port Everglades with firefighters and emergency medical services personnel trained to combat fires on land and sea, hazardous materials spills, truck rollovers, injuries and other emergencies.

## Port Everglades Waterborne Commerce Chart for the Ten Fiscal Years 2020 through 2011

FISCAL YEAR	2020	2019	2018	2017

<sup>4</sup>Vehicles & Yachts tonnage is presented in detail in its own section for informational purposes, but this tonnage is accounted for in other areas above

<sup>5</sup>Break Bulk tons FY 2018 include 25,237 Pure Car Carrier units, or 37,908 tons of vehicles & yachts and 3,738 Pure Car Carrier units or 6,866 tons of other break bulk cargo

<sup>6</sup>Petroleum does not include truck and rail volumes. FY 2020 Total Petroleum volume including Truck & Rail is 15,147,573 tons; 106,919,139 barrels.

# Port Everglades Fiscal Year 2020 Overview

**A**t the beginning of Fiscal Year 2020, Port Everglades was on its way to having a banner year. Cruise passenger counts were on track to break 4 million. Cargo and energy numbers were up. Then the pandemic hit. Cruise operations were suspended, lockdowns were implemented across the nation with people staying at home and not flying, driving or vacationing in the Caribbean. The Port's energy, cargo and cruise sectors suffered, and ports across the nation were negatively impacted.

Even though Port Everglades experienced a significant loss in revenue (down 54 percent in the 15-month period that spanned FY20 and FY21 when cruising was suspended), it was not as severely impacted as other ports that rely mainly on cruise revenues. Because of the Port's diverse lines of business, including cargo, energy and real estate, it was able to retain staff and reduce expenses. It is also the reason for the Port's swift recovery. Cruising returned in June 2021 and energy and cargo are back to pre-pandemic levels.

Overall revenue for Port Everglades declined by 15 percent in Fiscal Year 2020 (FY20), beginning October 1, 2019 and ending September 1, 2020. Overall revenue decreased from \$170,743,740 in FY19 to \$145,612,954 in FY20. Expenses fell by 23 percent to \$81,726,495 in FY20, for a gross margin of \$63,886,485.

FY20 was the first time in six consecutive years that Port Everglades container throughput did not hit one million TEUs (20-foot equivalent units, the industry's standard measurement for containers) with a total of 945,512 TEUs. This was a 10 percent drop from the previous fiscal year. Revenue from containerized cargo decreased by 8 percent at \$31,686,402 in FY20. Automobiles were the bright spot for the year as AMPORT (formerly Horizon Auto Logistics) and new-comer Rehoboth, increased the number of new vehicles moving through the Port by 25 percent year-over-year to 63,698.

Cruise took the biggest hit in Fiscal Year 2020, with just 2,539,542 passengers

sailing through the Port. All cruise operations were suspended in the United States on March 14, 2020 due to COVID-19. Cruise revenues dropped to \$41,316,814, a decrease of 30 percent over FY2019.

Energy volumes decreased 15 percent to 106,919,139 barrels (42 gallons in a barrel) in FY20, with revenues of \$33,017,514, a decrease of 12 percent compared to \$37,401,760 in FY2019. The decline in the energy sector was due to the reduced demand for gasoline and jet fuel caused by people working remotely and COVID-19's impact on the travel and tourism industries.

The total value of economic activity related to Port Everglades was more than \$29 billion in FY20. Florida jobs impacted by the Port exceeds 196,000, including 10,000 people who work for companies that provide direct services to Port Everglades. ■
