90 Day Forward Outlook

Overview

Destination Queenstown has developed a 90 day forward outlook chart indicating the current levels of accommodation occupancy in Queenstown. This is based on collated information from multiple data sets covering commercial and non-commercial accommodation. The 90 day forward outlook chart is weighted 80% on currently booked forward occupancy rates and 20% on predictive forward booking data.

The objective of this 90 day forward outlook chart is to assist local tourism businesses like activities, attractions, retail, bars and restaurants to manage their operating days/hours, supply and staffing in alignment with the forward outlook.

Frequency

There are weekly refreshes of the forward outlook chart which will be posted in the DQ Member (Visitor Demand Mapping) area of the DQ website. Members will receive fortnightly reminders through Special Remarks communications. Click [HERE](#) to access previous outlooks.
