Talking Points for the 2020–2021 Fiscal Year

Talking points recommended for GRCVB staff, board members, economic development allies, stakeholders and area hospitality partners during the 2020–2021 fiscal year are three themelines that are core to the Raleigh, N.C., destination brand platform, as well as three themes that continue to reinforce the GRCVB Community Engagement Strategy with its target audiences this year (see GRCVB Community Engagement Strategy for more information).

RALEIGH, N.C., DESTINATION BRAND THEMELINES

Each of these major themelines encapsulates the strongest and most central attributes of the destination's brand, based on 2014–2015 research and articulation of brand strategy. (See the Raleigh, N.C., Destination Brand Strategy Manual at www.raleighncbrand.com for full information on messaging.)

Smart: Continually fueled by one of the world's most significant research and educational epicenters, Raleigh benefits from a stream of savvy students- and professionals-turned-residents who are collectively driving the city and area's cultural renaissance forth, creating experiences for enrichment and learning.

A Modern Establishment: Driven by the desire to innovate, a pursuit of prosperity and the need to live well, Raleigh's community is embracing a modern vision for their historic capital city area. This has given life to business big and small, new music, arts and cultural experiences that join Raleigh's existing cultural assets, expansive green spaces and institutions to create an appealing destination.

Undiscovered: Raleigh's unassuming stature as a destination has allowed it to develop organically and sustainably, evolving naturally for the greater good of those who live here and those who will visit. It is that genuine element that defines many of the destination's handcrafted experiences and provides the visitor with an assurance that discovery in Raleigh will always be authentic and unique—qualities rarely found in today's more established destinations.

COMMUNITY ENGAGEMENT THEMES FOR 2020

The Value of Tourism: Local audiences should grasp the multibillion-dollar impacts of area tourism-related economic development.

Destination 2028: Our Destination Strategic Plan report completed in 2018 sets out the 10-year tourism plan for Wake County (www.visitRaleigh.com/2028).

Destination Brand: Rearticulated in 2014–2015, the destination brand strategy must continue to be embedded into all touchpoints of area tourism such that visiting consumers sense, feel and share in it.

Destination Strategic Plan and Implementation for Destination 2028

In 2017, GRCVB commissioned a Destination Strategic Plan (DSP), to develop a platform through which destination partners can work together seamlessly to strengthen the area’s destination product and increase overnight visitation over 10 years (to the year 2028). The CVB engaged JLL’s Hospitality and Tourism Group to facilitate and lead this yearlong, countywide planning effort, which culminated with the Aug./Sept. 2018 release of the DSP final report and presentation of specific municipality plans to each of Wake County’s 12 municipalities.

The DSP final report identifies actions that destination partners, stakeholders and allies can take, in conjunction with GRCVB, to impact overnight visitation along three visitation channels: meetings and conventions, sporting events and leisure visitation. It is meant to serve now as a blueprint for the area’s destination development, with Wake County government, the 12 municipalities, GRCVB and many destination partners having collective and individual roles in its implementation, transforming Raleigh/Wake County into the ideal destination it can be in 2028. The final plan and the Destination 2028 implementation are organized according to eight priorities.

Throughout this 2020–2021 Business Plan, when departmental objectives, audiences and strategies directly relate to year-two implementation of any of the DSP priorities, they are marked with one or more of these symbols:

- ❶ Meetings & Conventions
- ❷ Sports
- ❸ Events
- ❹ Key Attractors
- ❺ Individual Leisure
- ❻ Destination Development
- ❼ Regional Demand Drivers
- ❽ Quality of Place

During the 2019–2020 fiscal year (officially implementation year-one), GRCVB leadership and staff—alongside a Destination 2028 Blue Ribbon Task Force—logged many accomplishments across the eight priorities. A summary (though not comprehensive in every detail for the sake of space) of strategic recommendations already being implemented or completed (as of April 2020) follows. More details and updates will be presented online at www.visitRaleigh.com/2028 and in the Bureau’s 2019–2020 Annual Report.

Marketing and Communications Department

The Marketing and Communications Department is responsible for the Bureau's integrated marketing communications efforts, through which various destination marketing tools work together to maximize their total impact on (mostly external) target consumers or stakeholders. Based on consumer market research and other GRCVB marketing data, these efforts comprise the advertising, brand communications, cooperative partner programming, publications and tourism strategies that lead to consideration of Raleigh, N.C., as a destination for the sports, convention and leisure tourism vertical markets. The primary goal of the department is to increase overall visitation to the destination and area hotel and restaurant revenues.

MARKETING OBJECTIVES

- Continue to grow Raleigh/Wake County's destination brand equity overall, as recommended in the Raleigh, N.C., Marketing Blueprint (2015), and build upon the Greater Raleigh Sports Alliance (GRSA) brand within the sports vertical market, according to GRSA's positioning statement.
- Increase hotel occupancy and revenue through compelling domestic or international marketing programs—advertising, online, packaging, promotions—targeted primarily at leisure tourists.
- Establish Raleigh, N.C., as the convention and sports destination of choice through compelling advertising, collateral and online marketing communications targeted to industry professionals (or local connections to outside industry professionals).
- Encourage visitors to do and spend more by creating accurate, compelling content showcasing what Raleigh, N.C., promises and delivers to its visitors and gain exposure for the official tourism content/promotions in visitor welcome centers, on mobile-friendly online and social media marketing platforms and in local areas with high visitor traffic.
- Increase visitor attendance for signature events/festivals, with signature experiences and at special performances and venues, as well as convert day-trippers to overnight visitors (when possible), through online messaging and content marketing strategy.
- Increase website traffic levels (sessions and users) through a research-based, user-optimized visitRaleigh.com/raleighsports.org presence and via search engine optimization, search engine marketing, content marketing and other tactics.
- Enact GRCVB's Digital Content Marketing Strategy to continue to establish visitRaleigh.com as the single, official source for the area's tourism, restaurant, hotel, attraction/experience and event, meeting, sports, travel media and partner/local resident information.

MARKETING STRATEGIES, ALL VERTICALS

- Steward the destination brand strategy for 2020–2021 and future years. Use the Raleigh, N.C., Destination Brand Strategy Manual and Marketing Blueprint to guide and reinforce well-aligned marketing, messaging/content and communication across all Bureau departments. Provide ongoing brand strategy education and more training resources for Bureau staff and other brand messengers, such as the 12 municipalities in the Raleigh area, each of which is forming a tourism task force or committee under Destination 2028. Continue to shape the Bureau's future as the “go-to” source or curator of a wide variety of tourism/destination content and for a wide variety of local and destination customer audiences. ③
- Collaborate with local economic development allies to build consistent messaging and synergy between their traditional economic development strategies and GRCVB's visitor-related economic development strategies, e.g., convention sales strategy, destination brand, joint public affairs tactics in the Raleigh area.

- Collaborate with the Destination Technology Department to optimize the implementation and usage of new messaging distribution software upgraded in 2019–2020.
- Continue to nurture new business relationships directly with select local producers or suppliers (entrepreneurs), providing GRCVB with brand-compliant promotional products for all verticals, while maintaining a business relationship with an outside promotional consultant who can facilitate all other product needs of Bureau departments. Explore deployment of an online retail store featuring products that reinforce the destination brand and that could be purchased by individuals or arriving groups. ⑤

- Constantly and strategically influence and inspire potential visitors at key touch-points through Internet platforms (e.g., articles and social media, email activations, search engines) and publications in order to

increase awareness of and preference for the Raleigh, N.C., destination brand and to inspire potential visitors to travel and/or stay overnight. Publish an inspirational, content- and photography-heavy Official Visitors Guide for 2021–2022 designed to send readers to visitRaleigh.com for detailed trip-planning/conversion.

- Use the 2020–2021 Editorial Calendar, the Digital Content Marketing Strategy and the Social Media Marketing Strategy as guides to continually steer all tourism marketing tactics (Internet marketing activities, point-of-sale initiatives) toward annual goals/objectives. - Strengthen area partner relationships to influence and guide creation of one-of-a-kind, signature experiences that will inspire memorable visits when marketed well; this includes building healthy, new relationships with area microentrepreneurs, non-profits or entrepreneurs/small businesses that can associate with GRCVB/the visitor sector or with People-First Tourism, Inc. (P1t), to begin serving visitors (tourists or groups) in uniquely brand-compliant ways. ⑤
- Strengthen relationships with hospitality partners and with area allies/municipalities (e.g., City of Raleigh Housing & Neighborhoods Department, Downtown Raleigh Alliance, Hillsborough Street Community Service Corporation, Midtown Raleigh Alliance, 12 town tourism task forces/committees) to collaborate in the best ways possible for content or tourism product to enhance the Raleigh, N.C., destination brand and attract or better serve visitors.

MARKETING STRATEGIES, PUBLIC RELATIONS AND INTERNATIONAL TOURISM

- Conduct a local-oriented visiting-friends-and-relatives (VFR) and brand ambassador campaign. Recruit "insiders" or individuals from all walks of life who can help create content, become destination brand ambassadors and provide local, authentic and unbiased advice on their Raleigh.  - Keep “attendance promotion” as the driving force for our servicing efforts and that the planners' key indicators of success (total attendance and overall attendee satisfaction) are met.
 - Revisit the services we provide to groups outside of the convention center campus, taking into account new sales strategies focused on hotel-anchored meeting districts. ❶
- Revisit the services we provide to weddings, reunions and group tours, as well as those provided to referral bookings (groups that book direct with venues and hotels that come to us for servicing); the goal is to service them effectively and efficiently yet preserve our resources for groups that yield higher ROI. Focus on tools that are “grab and go” while also moving these services to come through our VIC.

The primary goal of the department is to support the Destination Strategic Plan (DSP), organizational business plan and individual departments’ business objectives through the effective use of information technology and cloud-based services—providing the resources to support the destination management and marketing that attracts more visitors.

DESTINATION TECHNOLOGY OBJECTIVES

- Train, support and enable staff on all organization-related technology deployments in an effective manner, to promote productivity and empower staff with continuous learning opportunities via existing webinars and knowledge-base access.
- Identify, manage and solve/address all organizational technology-related opportunities.
- Automate the organization’s use of internal information to ensure that data are organized and shared in a manner that adds value, enhances productivity, protects against loss and promotes customer retention.

- Work closely day-to-day with the Marketing and Communications Department to implement Internet and content marketing strategies that ultimately attract more visitors and visitor spending.
- Maintain, support and upgrade infrastructure for GRCVB administrative offices and the official Visitor Information Center (VIC).
- Continue to maintain alternative methods of communication during crises or emergency situations in the destination or during unscheduled server downtimes.
- Increase website traffic levels (sessions and users) via search engine optimization and marketing.
- Establish visitRaleigh.com as the single, official source for the area’s tourism, restaurant, hotel, attraction/experience and event, meeting, sports, travel media and partner/local resident information through the effective application of new web technology.
- Maintain and support social media aggregation tools for user-generated content and a digital asset management system.

DESTINATION TECHNOLOGY STRATEGIES

- Closer to the end of the fiscal year, start the migration process to the new versions of Customer Relationship Management (CRM) software and business intelligence update for 2020–2021 with all Bureau departments; collaborate with all departments to maintain and support all destination vertical markets through these software solutions.
- Continue to support Marketing and Communications and Services Departments to technologically empower area partners to manage promotion of one-of-a-kind, signature experiences that will inspire memorable visits; this includes building healthy, new relationships with area microentrepreneurs, non-profits or entrepreneurs/small businesses and creating new online/offline experience fulfillment strategies and data reporting processes. Investigate kiosk device for booking capabilities at the VIC to help visitors book signature events when in the destination. ⑤

- Continue to support templating for all steps of the sales and sports marketing processes, enabling Sales and GRSA staff to deploy new prospecting, lead-nurturing, deal-closing, attendance-promoting or relationship-building emails or other tactics. Deploy a new version of the printed/online bid proposals used by Sales and GRSA staff with event planners.
- Work closely with Sports, Sales and Services to ensure that the integration, upgrades and communication between third-party online destination sales and marketing channels like website RFP submission and Cvent are seamless via the CRM and maintain a cohesive presence that represents our destination well.
- Research alternative solutions that will integrate with our CRM and dashboards for visitor device movement tracking. Allowing us to maintain traveler conversion, profiling and segmentation data through a research platform. ⑤

Align with Bureau departments to refine dashboards based on new functionality for layered metrics. Continue to evolve each municipality's, the Raleigh Convention Center's and overall future pace reporting to help with forecasting, feasibility, developer and municipal inquiries. Work closely with platform provider to align with DSP metric needs, providing another layer of what-if scenarios as staff examine data to understand trends and derive insights. Continue to collaborate with Sales/GRSA in developing a real-time dashboard for the convention center campus that will be used as a tool to provide instant access to gap analysis, compression and pace, to guide strategic business decisions utilizing the data contained in the Bureau CRM. ①
- Continue to maintain cybersecurity training and software needs by accessing current enterprise-system security to identify areas that are lacking controls and empowering staff with web-based continuous learning to be more aware of potential cyber threats either external or internal via network.
- Work closely with the PR Department to secure international visitor research and to ensure that the integration and communication between Cision, Google Analytics, CRM and destination dashboards are seamless and maintain data integrity, better representing our destination's PR reach.
- Continue to support and work with all departments on a Bureau-wide marketing communications automation platform to integrate with current platforms, allowing for the ability to track very specific behaviors and reach consumers and clients with approved, personalized messaging and electronic collateral from all integrated marketing communication channels; help departments redefine their prospecting processes by tracking key data points for meeting profiles, which will allow the teams to target specific new business based on rotation, industry and other demand drivers. ⑤
- Manage aspects related to visitRaleigh.com and raleighsports.org including updates and improvements to the Content Management System (CMS) and booking engine as well as Yelp, OpenTable, Google Maps, external data feeds and CVNC.org events API integrations. Also support all third-party integrations from a new marketing communications automation platform, Authorize.net, CVNC.org, Destinations International and pace reporting (ARENA).
- Continue to support all staff and partners with the CRM's DSP Event Impact Calculator (EIC) tool, streamlining the data collection process from Bureau staff and partners. This will allow a partner to submit raw/input data for EIC evaluation and for staff to manage the economic impact analysis and output process. ①

- Continue to support the CRM's integrated partner login with staff, with local hotels/meeting facilities and with local hospitality partners whose information is housed in the CRM. Evaluate customizations to the Partner Information eXchange Login (PIXL) system based on feedback.

GRCVB Community Engagement Strategy

Beyond annual Bureau-wide goals, objectives and strategies to increase visitor and convention business for Raleigh/Wake County directly through bookings and arrivals, GRCVB also joins the interests of travel suppliers, city/town/county governments, trade and civic associations and other local stakeholders in achieving overall tourism-related economic development.

Differing from Bureau staff's day-to-day relations with the area's 4,000+ hospitality partners (attractions, hotels, restaurants and other service providers), the GRCVB Community Engagement Strategy formalized in 2018–2019 (to be updated annually) comprises specific objectives for engaging target audiences other than traditional industry insiders/partners. These other audiences represent high- and mid-level community leaders, including key local influencers, who can advocate strategic talking points relating to Wake County's pursuit of tourism development. (See Talking Points for the 2020–2021 Fiscal Year.)

By engaging the community this way, the Community Engagement Strategy, as outlined each year by the Administration, Marketing and Communications and Public Relations Departments, can build awareness, relationships, support and resources for the Bureau and for Raleigh/Wake County's continued success as a tourism destination.

COMMUNITY ENGAGEMENT OBJECTIVES

- Educate locals (living or working in Wake County) on the mission, value, benefits and relevance of tourism and of the successful tourism-related economic development work of GRCVB.
- Increase the perceived value of the Bureau in the business community and in the municipalities, giving us "seats at more tables" and expanding the network of advocates and collaborators.
- Indirectly persuade our area hospitality partners to be more engaged with us as leaders, as well as create synergy among partners with similar or overlapping missions, bringing them into the overall fold of tourism-related economic development (developing product).

TARGET AUDIENCES

- Target audiences for 2020:
 - Destination 2028 Blue Ribbon Task Force and other standing GRCVB boards/committees
 - Former members of The Conference Table advisory board and their related organizations
 - Local elected officials, area chamber/municipal leaders and mid-level chamber/municipal managers
- Other important community audiences include:
 - Area residents
 - Local LGBTQ and other diverse communities of residents/workers
 - Colleges/universities
 - News media
 - Workforce (especially from non-hospitality industries)

COMMUNITY ENGAGEMENT STRATEGIES

- Produce the monthly Tourism Economic Development Report and charts, designed especially to articulate the benefits of tourism strategy and tourism economic development. Produce and disseminate the weekly Tourism Talk blog, designed especially for community engagement.
- Maintain a resource kit at visitRaleigh.com/tourismmatters that contains talking points, Tourism Talk blog posts, educational/training materials and white papers.
- Hold follow-up community conversations with all of GRCVB's standing advisory boards, boards and committees; update area hospitality partners (through meetings such as Tourism Talk Live) on what the new Community Engagement Strategy means and already has accomplished.

- Conduct work sessions annually with all Wake County-based town councils, chambers of commerce and business leaders. Share annual tourism report cards, powered by predefined data fields from the GRCVB CRM, and participate in strategic events with all 11 towns/chambers to reinforce engagement, collaboration and the value of tourism-related economic development.
- Organize and execute annual work sessions with Raleigh City Council and Wake County Board of Commissioners and their management staffs to discuss and strategize on tourism development initiatives.
- Pitch and secure local media coverage of GRCVB, including news releases and announcements that highlight the importance of tourism or sports tourism to the local economy. Collaborate with other economic development allies, such as Downtown Raleigh Alliance and Wake County Economic Development, on pitches and hosting of journalists.
- Continue executing a multilevel training program titled Tourism U (a set of in-person presentations for a speakers bureau), which starts with the basics of tourism in Wake County and its relationship to overall economic development goals and progresses to more in-depth information about visitor-generated tax revenues and Interlocal Fund priorities.
- In Late 2020, review results of a limited research project conducted with 2019–2020 target audiences to determine their current perceptions of the important role/impacts of tourism in Raleigh/Wake County as well their perceptions of GRCVB and willingness to engage as advocates for GRCVB’s mission.
- Based on research results, further tailor informational presentations and collateral to address any misconceptions or gaps in perception as the formal strategy moves forward through the new fiscal year.
