Talking Points for the 2022–2023 Fiscal Year

Talking points recommended for GRCVB staff, board members, economic development allies, stakeholders and area hospitality partners during the 2022–2023 fiscal year are three themelines that are core to the Raleigh, N.C., destination brand platform.

RALEIGH, N.C., DESTINATION BRAND THEMELINES

Each of these major themelines encapsulates the strongest and most central attributes of the destination's brand, based on 2014–2015 research and articulation of brand strategy. (See the Raleigh, N.C., Destination Brand Strategy Manual at www.raleighncbrand.com for full information on messaging.)

Smart: Continually fueled by one of the world's most significant research and educational epicenters, Raleigh benefits from a stream of savvy students- and professionals-turned-residents who are collectively driving the city and area's cultural renaissance forth, creating experiences for enrichment and learning.

A Modern Establishment: Driven by the desire to innovate, a pursuit of prosperity and the need to live well, Raleigh's community is embracing a modern vision for their historic capital city area. This has given life to business big and small, new music, arts and cultural experiences that join Raleigh's existing cultural assets, expansive green spaces and institutions to create an appealing destination.

Undiscovered: Raleigh's unassuming stature as a destination has allowed it to develop organically and sustainably, evolving naturally for the greater good of those who live here and those who will visit. It is that genuine element that defines many of the destination's handcrafted experiences and provides the visitor with an assurance that discovery in Raleigh will always be authentic and unique—qualities rarely found in today's more established destinations.

Destination Strategic Plan and Implementation for Destination 2028

In 2017, GRCVB commissioned a Destination Strategic Plan (DSP), to develop a platform through which destination partners can work together seamlessly to strengthen the area's destination product and increase overnight visitation over 10 years (to the year 2028). The CVB engaged JLL's Hospitality and Tourism Group to facilitate and lead this yearlong, countywide planning effort, which culminated with the Aug./Sept. 2018 release of the DSP final report and presentation of specific municipality plans to each of Wake County's 12 municipalities.

The DSP final report identifies actions that destination partners, stakeholders and allies can take, in conjunction with GRCVB, to impact overnight visitation along three visitation channels: meetings and conventions, sporting events and leisure visitation. It is meant to serve now as a blueprint for the area's destination development, with Wake County government, the 12 municipalities, GRCVB and many destination partners having collective and individual roles in its implementation, transforming Raleigh/Wake County into the ideal destination it can be in 2028. The final plan and the Destination 2028 implementation are organized according to eight priorities.

Throughout this 2022–2023 Business Plan, when departmental objectives, audiences and strategies directly relate to year-four implementation of any of the DSP priorities, they are marked with one or more of these symbols:

- | | |
|--------------------------|---------------------------|
| ① Meetings & Conventions | ⑤ Individual Leisure |
| ② Sports | ⑥ Destination Development |
| ③ Events | ⑦ Regional Demand Drivers |
| ④ Key Attractors | ⑧ Quality of Place |

Business Planning for Post-Pandemic Tourism

Resulting from the international COVID-19 pandemic, coronavirus spread reached North Carolina and Raleigh in March 2020. Countywide visitor tracking analytics available to GRCVB quickly showed an almost total loss of area visitation as stay-at-home orders went into effect. By summer/fall 2020, the Bureau's initial rebuild and recovery plan for area tourism was underway, and calendar year 2021 recovery has been significant. Rebuild of overnight visitation, especially to pre-2020 tourism levels, continues as of this business planning cycle.

Global travel recovery insights and measurements of the U.S. travel industry, as well as of the broader economy, still fluctuate considerably as of this writing. However, the following departmental strategies and initiatives are based on COVID-19 conditions in March 2022, which indicate sustained tourism growth after the case spike from an omicron variant in Wake County and N.C. If area tourism forecasts should change by mid-year, GRCVB's strategies and initiatives will be revised and retargeted.

Marketing and Communications Department

The Marketing and Communications Department is responsible for the Bureau's integrated marketing communications efforts, through which various destination marketing tools work together to maximize their total impact on (mostly external) target consumers or stakeholders. Based on consumer market research and other GRCVB marketing data, these efforts comprise the advertising, brand communications, cooperative partner programming, publications and tourism strategies that lead to consideration of Raleigh, N.C., as a destination for the sports, convention and leisure tourism vertical markets. The primary goal of the department is to increase overall visitation to the destination and area hotel and restaurant revenues.

MARKETING OBJECTIVES

- Continue to grow Raleigh/Wake County's destination brand equity overall, as recommended in the Raleigh, N.C., Marketing Blueprint (2015), and build upon the Greater Raleigh Sports Alliance (GRSA) brand within the sports vertical market, according to GRSA's positioning statement.
- Increase hotel occupancy and revenue through compelling domestic or international marketing programs—advertising, online, packaging, promotions—targeted primarily at leisure tourists.
- Establish Raleigh, N.C., as the convention and sports destination of choice through compelling advertising, collateral and online marketing communications targeted to industry professionals (or local connections to outside industry professionals).
- Encourage visitors to do and spend more by creating accurate, compelling content showcasing what Raleigh, N.C., promises and delivers to its visitors and gain exposure for the official tourism content/promotions in visitor welcome centers, on mobile-friendly online and social media marketing platforms and in local areas with high visitor traffic.
- Increase visitor attendance for signature events/festivals, with signature experiences and at special performances and venues, as well as convert day-trippers to overnight visitors (when possible), through online messaging and content marketing strategy.
- Increase website traffic levels (sessions and users) through a research-based, user-optimized visitRaleigh.com/raleighsports.org presence and via search engine optimization, search engine marketing, content marketing and other tactics.
- Enact GRCVB's Digital Content Marketing Strategy to continue to establish visitRaleigh.com as the single, official source for the area's tourism, restaurant, hotel, attraction/experience and event, meeting, sports, travel media and partner/local resident information.

MARKETING STRATEGIES, ALL VERTICALS

- Steward the destination brand strategy for 2022–2023 and future years. Continue to shape the Bureau's future as the “go-to” source or curator of a wide variety of tourism/destination content and for a wide variety of local and destination customer audiences. ③
- Collaborate with local economic development allies to build consistent messaging and synergy between their traditional economic development strategies and GRCVB's visitor-related economic development strategies, e.g., convention sales strategy, destination brand, joint public affairs tactics in the Raleigh area. In 2022–2023, explore allies' willingness to participate in redevelopment of an area brand strategy for both tourism and other economic development uses. ③

This year’s approach also includes collaborating with Destination Technology to implement a new Customer Relationship Management (destination database) software version, mitigating any impacts of the change on partner and stakeholder relations. ⑤, ⑧
- Continue to nurture new business relationships directly with select local producers or suppliers (entrepreneurs), providing GRCVB with brand-compliant promotional products for all verticals, while maintaining a business relationship with an outside promotional consultant who can facilitate all other product needs of Bureau departments. Explore deployment of an online retail store featuring products that reinforce the destination brand and that could be purchased by individuals or arriving groups. ⑥

MARKETING STRATEGIES, CONVENTION SALES

- Continue collaborating with Destination Technology to template all the steps of the personal selling process, enabling convention sales and services staff to fully deploy prospecting, lead-nurturing, deal-closing, attendance-promoting or relationship-building emails or other tactics in accordance with the Bureau’s Digital Content Marketing Strategy and refined tactical steps of strategic selling.

- Work with Wake County municipalities, economic developers, and local planning organizations to continue to emphasize the need for tourism development assets and how to incorporate those assets into future developments and planning conversations. ❹

ADMINISTRATION STRATEGIES

- Host quarterly partner meetings with hotels, attractions, restaurants and other interested partners specific to GRCVB designated projects, programs and initiatives noted in the fiscal year 2022–2023 Business Plan.

Key to Destination 2028 symbols: ❶ Meetings & Conventions, ❷ Sports, ❸ Events, ❹ Key Attractors, ❺ Individual Leisure, ❻ Destination Development, ❼ Regional Demand Drivers, ❸ Quality of Place

- Maintain engagement with our technology partner to aggregate the data from our CRM system and provide a reporting and benchmarking dashboard for group sales transactions, with countywide hotels and the RCC via a group booking pace, interactive analytics from visitRaleigh.com/owned media and project management and tracking of the DSP implementation. This data will be shared with our hotel, facility partners, attractions and community stakeholders for forecasting, budgeting, feasibility studies and ROI measurement.
- Continue work with community and regional organizations to promote programs, information, planner resources and events that gain our partners recognition for their tourism economic development efforts and programs. This information will be aggregated and listed in a dynamic microsite on visitRaleigh.com/2028. Topics and partners will include those that are assisting in Destination 2028 and specific examples of the collaborative work going into each of the eight DSP Priorities.
- Serve in a proactive partnership and advocacy role with local economic development allies such as City of Raleigh Economic Development (ED), Wake County Economic Development (WCED), Raleigh and Wake County parks and recreation departments and the RDU Airport Authority specific to the following projects:
 - RDU Airport Authority and Regional Transportation Alliance
 - City of Raleigh Parks and Recreation Dix Master Plan
 - Town/municipal sports and leisure tourism master plans
 - Downtown Raleigh Alliance Master Plan Advisory Board
 - Imagine Wake Alliance for Affordable Housing
 - Vision Wake -Quality of Place Initiative

Also, the Destination 2028 Blue Ribbon Task Force will meet periodically in FY 2023 and will continue the advocacy and implementation of the 10-year DSP.

- Continue working with our elected city and county officials, municipal managers, their staffs and our hospitality partners to ensure that the Interlocal Fund review, project measurement, project selection and distribution of project funding via Room Occupancy and Prepared Food and Beverage Taxes are founded on visitation infrastructure that will deliver the best ROI and address facilities that we don't currently have in our countywide inventory. The DSP's implementation continues to provide strategic direction to various community stakeholders on the highest and best use of future visitation facilities over the next 10 years.
- Involve GRCVB staff with Regional Transportation Alliance, US Travel Association, Visit North Carolina, the N.C. Travel & Tourism Coalition, N.C. Travel Industry Association, Destinations International, N.C. Restaurant & Lodging Association and the American Society of Association Executives, to ensure that we have a voice on local, state and national issues impacting Wake County tourism.
- Under Destination 2028 and with GRCVB staff in four-three implementation mode, a continued strategic focus will guide the scope of services delivered by one contractor position within the GRCVB to achieve year-three implementation goals related to esports event activations.
- Continue to work with EDPNC and NC Department of Commerce on the implementation of the Esports Production Grant process and the planning of the Esports Production and Performance Center at NCSU. (Add tactics to GRSA section)
- Continue to identify signature event fund opportunities which will have measurable and significant impact on overnight visitation for the county through blockbuster exhibitions, festivals and competitions.
- Continue to work with national and state organizations such as US Travel and the NC Restaurant and Lodging Association to address the labor shortage in the hospitality sector.
- Work with national and local partners along with staff to ensure GRCVB is implementing and following best practices regarding diversity, equity and inclusion.
- Work with Wake County Economic Development and Wake County to create and execute a structured plan to help identify and address a county-wide vision to improve quality of place.

GRCVB Community Engagement Strategy

Beyond annual Bureau-wide goals, objectives and strategies to increase visitor and convention business for Raleigh/Wake County directly through bookings and arrivals, GRCVB also joins the interests of travel suppliers, city/town/county governments, trade and civic associations and other local stakeholders in achieving overall tourism-related economic development.

Differing from Bureau staff's day-to-day relations with the area's 4,200+ hospitality partners (attractions, hotels, restaurants and other service providers), the GRCVB Community Engagement Strategy formalized in 2018–2019 (to be updated annually) comprises specific objectives for engaging target audiences other than traditional partners. These other audiences represent high- and mid-level community leaders, including key local influencers, who can advocate strategic talking points relating to Wake County's pursuit of tourism development.

By engaging the community this way, the Community Engagement Strategy, as outlined each year by the Administration, Marketing and Communications and Public Relations Departments, can build awareness, relationships, support and resources for the Bureau and for Raleigh/Wake County's continued success as a travel destination.

COMMUNITY ENGAGEMENT OBJECTIVES

- Educate locals (living or working in Wake County) on the mission, shared value/benefits and relevance of tourism and of the successful economic development work of GRCVB.
- Increase the perceived value of the Bureau in the business community and in the municipalities, giving us "seats at more tables" and expanding the network of advocates and collaborators.
- Indirectly persuade our area hospitality partners to be more engaged with us as leaders, as well as create synergy among stakeholders and partners with similar or overlapping missions, bringing them into the overall fold of tourism-related economic development (developing product).

TARGET AUDIENCES

- Target audiences for 2022–2023:
 - Area alliance and chamber executives
 - Destination 2028 Blue Ribbon Task Force
 - GRCVB Board of Directors
 - GRSA Advisory Board
 - Key corporate/institutional leaders in the Raleigh area
 - Municipal elected officials and leaders
 - State and federal elected officials
 - University leaders from the area
 - Wake County Hospitality Alliance members
 - News media
- Other important community audiences include:
 - Area residents at large
 - Local LGBTQ and other diverse communities of residents/workers
 - Workforce from non-hospitality industries

COMMUNITY ENGAGEMENT STRATEGIES

- Participate in work sessions or provide updates annually with all Wake County-based town councils and chambers of commerce. Share annual tourism report cards, powered by predefined data fields from the GRCVB CRM, and participate in strategic events with all 11 towns/chambers to reinforce engagement, collaboration and the value of tourism-related economic development.
- Participate in an annual work session with the Raleigh City Council and with the Wake County Board of Commissioners and their management staffs to discuss and provide updates on tourism development initiatives and strategies.

- Based on results from a research project conducted with 2019–2020 target audiences, refine/expand and continue executing a multilevel training program titled Tourism U (a set of in-person presentations for a speakers bureau), which starts with the basics of tourism in Wake County and its relationship to overall economic development goals and progresses to more in-depth information about visitor-generated tax revenues and Interlocal Fund priorities.
- Finalize an Advocate Relationship Management (ARM) system within a new Community Engagement Strategy module of the Bureau's existing CRM system, to better document target stakeholders' attributes, their participation in/exposure to our community engagement tactics and their past tourism advocacy efforts.
- Enact a year-long outreach plan with identified stakeholder-advocates according to their preferred method of communication and with specific tactics determined in follow-up to "Tourism at the Table" survey work completed March–May 2022.
- Explore formation of an annual advocacy plan committee, possibly comprised of Bureau staff, board members or other leaders external to the Bureau, to identify specific advocacy needs, create an "ask" for those needs and match resources/advocates to those upcoming asks (through use of the ARM system etc.).
- Produce the monthly Tourism Economic Development Report and charts, designed especially to articulate the benefits of tourism strategy and tourism economic development. Produce and disseminate the weekly Tourism Talk blog, designed especially for community engagement.
- Maintain a resource kit at visitRaleigh.com/tourismmatters that contains talking points, Tourism Talk blog posts, educational/training materials and white papers.
- Pitch and secure local media coverage of GRCVB, including news releases and announcements that highlight the importance of tourism or sports tourism to the local economy. Collaborate with other economic development allies, such as Downtown Raleigh Alliance and Wake County Economic Development, on pitches and hosting of journalists.
