# RHODE ISLAND COMMERCE CORPORATION MEETING OF DIRECTORS PUBLIC SESSION March 28, 2022

The Board of Directors of the Rhode Island Commerce Corporation (the "Corporation") met on March 28, 2022, in Public Session, beginning at 4:30 p.m., pursuant to the public notice of meeting, a copy of which is attached hereto as **Exhibit A**, as required by applicable Rhode Island law.

The following Directors were present and participated throughout the meeting as indicated: Governor Daniel J. McKee, Bernard Buonanno, III, David Chenevert, Michael McNally, George Nee, Donna Sams, Bill Stone, Vanessa Toledo-Vickers, and Karl Wadensten.

Also present were: Secretary of Commerce Stefan Pryor; Hilary Fagan, President & COO; and Christopher J. Fragomeni, Esq.

#### 1. CALL TO ORDER AND OPENING REMARKS.

The Governor called the meeting to order at 4:36 p.m., indicating that a quorum was present.

#### 2. TO CONSIDER FOR APPROVAL MEETING MINUTES.

Upon motion duly made by Mr. McNally and seconded by Ms. Toledo-Vickers, the following vote was adopted:

**VOTED:** To approve the public session meeting minutes for the March 4, 2022 meeting as presented to the Board.

### 3. TO CONSIDER AN INCREASE IN FUNDING TO THE TECHNICAL ASSISTANCE COMPONENT OF THE RI REBOUNDS INITIATIVE.

Daniela Fairchild, the Corporation's Director of Operations and Special Projects, recalled that the Board, at the January 14, 2022 meeting, established the RI Rebounds Initiative, which included the first phase—totaling \$1.5 million in grants—of a technical assistance program. Now, she explained, the staff is requesting that the Board fund the second phase of that program with an additional \$9 million, which funding is still subject to the approval of the State's Pandemic Recovery Office. She explained that the funding will assist small businesses with "back office"

operations, such as accounting, legal, IT, technology solutions, forecasting and planning, and e-commerce. The maximum award, she stated, will be \$10,000, and no awardee will be eligible to receive any more than \$20,000 in the aggregate from all the Corporation's programs.

In response to questions from Mr. Chenevert, Ms. Fairchild stated that the Corporation is utilizing an intermediary to assist with the capacity of the Corporation's staff, and to support sustainability of the program. She further stated that the intermediary will utilize gating criteria developed by the Corporation to review applicants. Mr. Chenevert noted the importance of assisting companies in applying for grants from the Corporation. In response to a question from Mr. Wadensten, Ms. Fairchild noted that information on the technical assistance program can be found on the Corporation's website at <a href="https://www.commerceri.com/rirebounds">www.commerceri.com/rirebounds</a>. She reiterated that the Corporation is asking the Board to approve the full funding of the program, totaling \$10.5 million, and to select intermediary to assist with the program.

Upon motion duly made by Mr. Chenevert and seconded by Mr. Stone, the following vote was adopted:

**VOTED:** To approve an increase in funding to the technical assistance component of the RI Rebounds Initiative pursuant to the resolution submitted to the Board.

Voting in favor of the foregoing were: David Chenevert, Michael McNally, George Nee, Bill Stone, Vanessa Toledo-Vickers, and Karl Wadensten.

Voting against the foregoing were: none.

A copy of the resolution is attached hereto as Exhibit B.

# 4. TO CONSIDER STUDLEY BUILDING ENTERPRISE, LLC & DMP STUDLEY, LLC, FOR AN AWARD UNDER THE REBUILD RHODE ISLAND TAX CREDIT PROGRAM.

Randy Nigrelli, Director of Real Estate Solutions Group, stated that Studley Building Enterprise, LLC and DMP Studley, LLC (collectively, "Studley") have proposed a \$18.3 million redevelopment of the vacant and historic, six-story Studley building in the downtown area into sixty-five residential apartments and approximately 4,000 square feet of retail space. The apartments, he stated, are small, ranging from 200-400 square feet, and twenty-two percent of the units will be for workforce housing, renting at one hundred percent of the area median income. Mr. Nigrelli indicated that Studley is seeking \$390,000 in incentives under the Rebuild Rhode Island Tax Credit program, which is only two percent of the estimated total project costs. He also gave an overview of other incentives that the project was receiving, including \$4 million in federal historic tax credits, and \$1.1 million from the State's workforce housing program. Mr. Stone and Mr. Nigrelli discussed the anticipated return to the developer. Mr. McNally noted the built-in protections for the taxpayers and the proposed, modest returns of the project.

Upon motion duly made by Mr. Stone and seconded by Ms. Toledo-Vickers, the following vote was adopted:

To approve Studley Building Enterprise, LLC & DMP Studley, LLC, for an VOTED: award under the Rebuild Rhode Island Tax Credit Program pursuant to the

resolution submitted to the Board.

Voting in favor of the foregoing were: David Chenevert, Michael McNally, George Nee, Bill Stone, Vanessa Toledo-Vickers, and Karl Wadensten.

Voting against the foregoing were: none.

A copy of the resolution is attached hereto as  $\underline{Exhibit C}$ .

#### 5. TO CONSIDER FLUX MARINE LTD, FOR AN AWARD UNDER THE QUALIFIED JOBS INCENTIVE TAX CREDIT PROGRAM.

Mr. Buonanno and Ms. Sams enter the meeting.

Jeff Miller, the Corporation's Vice President of Investments, stated that Flux Marine, Ltd. ("Flux Marine") is an electric, marine motor company—currently employing eight people in East Greenwich—that hopes to expand. The company, he stated, has reviewed incentives to expand in Connecticut and Bristol, Rhode Island and hire eighty new employees. He stated that the Corporation is proposing to award Flux Marine an award under the Qualified Jobs incentive tax program to ensure that the company stays in Rhode Island, pursuant to which the company could receive tax credits for up to one hundred forty newly created jobs. Ben Sorkin, Flux Marine's CEO and founder, noted that the State is a great place to grow and scale the company. In response to a question from Mr. Stone, Mr. Sorkin stated that the company has raised \$15 million in capital from, among others, Ocean Zero and Chris Anderson.

Upon motion duly made by Mr. Nee and seconded by Mr. Chenevert, the following vote was adopted:

To approve Flux Marine Ltd, for an award under the Qualified Jobs VOTED: Incentive Tax Credit Program pursuant to the resolution submitted to the Board.

Voting in favor of the foregoing were: Bernard Buonanno, III, David Chenevert, Michael McNally, George Nee, Donna Sams, Bill Stone, Vanessa Toledo-Vickers, and Karl Wadensten.

This agenda item was deferred.

# 7. TO CONSIDER THE RETENTION OF INKHOUSE, LLC FOR BUSINESS ATTRACTION ADVERTISING AND PUBLIC RELATIONS SERVICES AND DUFFY & SHANLEY FOR PUBLIC RELATIONS SERVICES FOR MARKETING AND BUSINESS DEVELOPMENT.

Anika Kimble-Huntley stated that the Corporation's staff was seeking authority from the Board to enter into one-year contracts with two marketing agencies, Inkhouse, LLC ("Inkhouse") and Duffy & Shanley ("D&S"). She recounted that the Corporation issued a request for proposals ("RFP") for those services, and the responses to the RFP were evaluated and unanimously approved. She explained that the Corporation is splitting marketing responsibilities by sector: Inkhouse will perform marketing and business development for biomedical, innovation, design, food, and custom manufacturing for a cost not to exceed \$402,000 annually; and D&S will provide marketing and business development for the blue economy sector for a cost not to exceed \$304,000 annually. Mr. Chenevert and Ms. Kimble-Huntley discussed how Inkhouse and D&S were selected, and Ms. Kimble-Huntley explained that the majority of D&S's fees are commissions on advertisement placements. Matt Sheaff noted D&S's prior, award-winning work in the blue economy sector.

Upon motion duly made by Mr. McNally and seconded by Ms. Sams, the following vote was adopted:

VOTED:

To approve the retention of Inkhouse, LLC for business attraction advertising and public relations services and Duffy & Shanley for public relations services for marketing and business development pursuant to the resolution submitted to the Board.

From:

Date:

Subject:

Rebuild Rhode Island Tax Credit Applications

The staff of the Rhode Island Commerce Corporation (the "Corporation") has informed the Office of Management and Budget ("OMB") that it intends to recommend to the Corporation's Board of Directors (the "Board") one project for the receipt of tax credits and sales and use tax exemptions under the Rebuild Rhode Island Tax Credit in an amount not to exceed \$600,000.00. That recommendation is as follows:

1. That the application submitted by the Studley Building be approved for tax credits in a maximum amount of \$600,000.00, which includes \$500,000.00 of sales and use tax exemptions.

As of OMB's September 27, 2021 memo, the Corporation had approved tax credits and sales and use tax exemptions under the program in the amount of \$206,910,291.69. This total includes one duplicate project that has been corrected in this memo. East Greenwich Partners, LLC was conditionally approved on June 22, 2020 and received final approval on June 28, 1021. The June 22, 2020 conditionally approved amount of \$724,714.00 was included in the prior OMB memo and has been removed from this memo. The approval of an additional \$600,000.00 in tax credits and sales and use tax exemptions, and the removal of a duplicate project of \$724,714.00, would bring the cumulative total of approved tax credits, sales and use tax exemptions, and/or loans to \$206,785,577.69. Currently \$134.7 million have been appropriated into the Rebuild Rhode Island Tax Credit Fund. Additional funding is expected in future legislative sessions and section 42-64.20-5(f) authorized aggregate tax credits, sales and use tax exemptions, and/or loans under the Rebuild Rhode Island Tax Credit program in an amount not to exceed \$210 million. Pursuant to section 42-64.20-6(a)(4), OMB confirms that the aggregate credits recommended by the Commerce Corporation do not exceed the maximum aggregate credits allowed under this chapter in accordance with § 42-64.20-5(f).

Page 2 December 17, 2021

Based on information provided by the Corporation, OMB anticipates the budget impact to the state of the tax credits, sales and use tax exemptions, and/or loans, if approved, in the year of application and in subsequent years will be as set forth in the attached Exhibit A

#### **Rhode Island Commerce Corporation** Streamlined Rebuild Rhode Island Tax Credits

#### Economic and tax revenue impacts of redeveloping the Studley Building, Providence

#### Introduction

The Rhode Island Commerce Corporation (the "Corporation") may provide \$100,000 in Rebuild Rhode Island tax credits to Studley Building Enterprises LLC and DMP Studley LLC (the "Sponsor"), in connection with redevelopment of the Studley Building - a landmark 45,000 square-foot commercial office building located at 86 Weybosset Street in Providence - and its conversion to primarily residential use. The redeveloped building would include 65 onebedroom, studio and mini-loft units (including 14 units with rents set at workforce housing levels), and 4,646 square feet of ground-floor retail space.

The Sponsor has also requested an exemption from approximately \$451,150 in State sales and use taxes on purchases of materials, equipment and furnishings used in the redevelopment

This analysis was prepared by Appleseed, a consulting firm with more than 25 years' experience in economic impact analysis.

#### **Jobs Analysis**

#### Construction jobs

The Sponsor estimates that redevelopment of the Studley Building will cost a total of \$18.81 million<sup>1</sup>. After excluding certain costs that would not have a direct impact on Rhode Island's economy during this period (such as the cost of property acquisition and interest paid during construction), Appleseed estimates that direct expenditures of \$14.28 million will directly and indirectly support:

- 136 job-years<sup>2</sup> of work in Rhode Island, with \$9.06 million in earnings (in 2022 dollars);
- Approximately \$17.13 million in statewide economic output; and
- A one-time increase of \$12.08 million in Rhode Island's GDP.

These impacts are summarized below in Table 1.

<sup>&</sup>lt;sup>1</sup> \$18.313 million if the property basis is adjusted to \$2.75 million per the most recent appraisal.

<sup>&</sup>lt;sup>2</sup> A job-year is equivalent to a job lasting one year. It could represent the work of two people who are each employed for six months; or the work of one person who is employed half-time for two years.

The activity reflected in Table 1 will occur primarily during 2022 and 2023.

In addition to the impacts on employment, earnings, output and state GDP cited in Table 1, direct spending of \$14.28 million would generate a projected one-time increase of approximately \$313,00 in taxes paid to the State during construction, including:

- \$175,000 in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project
- \$116,000 in state sales taxes paid by these workers on taxable household spending
- \$22,000 in state business taxes

#### Annual operations

Based on information provided by the Sponsor, Appleseed estimates that after construction is completed, ongoing operations at the Studley Building – including building operations and maintenance, and the operations of commercial tenants – will directly and indirectly support:

- 24 jobs in Rhode Island, with \$792,500 in earnings (in 2023 dollars)
- Nearly \$2.13 million in statewide economic output; and
- An increase of \$1.22 million in Rhode Island's annual GDP.

These impacts are summarized below in Table 2.

 $<sup>^{\</sup>rm 3}$  Includes 20 workers employed by ground-floor restaurant and retail workers, and 1 employed in building operation and maintenance.

In addition to the impacts on employment, earnings, output and state GDP cited above, building operations and maintenance and the operations of tenant businesses would in 2023 generate a projected increase of approximately \$67,200 in annual state tax revenues (in 2023 dollars), including:

- \$44,000 in state sales taxes on restaurant and retail sales<sup>4</sup>
- \$11,400 in state personal income taxes paid by workers newly employed at the Studley Building, or by Rhode Island workers whose jobs are indirectly attributable to the Company's new Rhode Island facility
- \$10,400 in state sales taxes paid on those workers' taxable household spending; and
- \$1,400 in state business taxes.

During construction and the twelve years following completion of the project, redevelopment and ongoing operations at the Studley Building are thus expected to generate approximately \$1.119 million in state tax revenues.

In addition to the impacts summarized above, redevelopment of the Studley Building will benefit Rhode Island by:

- Providing additional housing opportunities (including workforce housing) for both current and prospective Rhode Island residents
- Preserving and productively reusing an historic, nearly 120-year-old building
- Increasing local government tax revenues

<sup>&</sup>lt;sup>4</sup> Assumes that 50 percent of restaurant and retail sales at the Studley Building represent "net new" sale in Rhode Island.

### **Rhode Island Commerce Corporation**

### Qualified Jobs Incentive Tax Credits – Economic Impact Analysis

Flux Marine, Ltd. Application

#### Introduction

The Rhode Island Commerce Corporation (the "Corporation") may issue Qualified Jobs Incentive tax credits to Flux Marine Ltd. ("the Company"), a manufacturer of electric outboard engines. The Company was founded in Massachusetts in 2018 and in 2020 moved East Greenwich, Rhode Island, where it currently employs 8 workers. The Company is requesting that the Corporation issue the tax credits in conjunction with a proposed expansion of its Rhode Island operations that would increase the number of workers it employs in Rhode Island from 8 to 48 in 2022, 68 in 2023 and a minimum of 88 by the end of 2024. The new jobs would be split between the Company's current location in East Greenwich and newly-leased space in Bristol.

The Company is expected to request Qualified Jobs Incentive tax credits with an estimated value of \$1,857,750 over ten years, along with a \$50,000 Rhode Island Innovation Grant. As explained below, the Company could in 2024 qualify for additional credits by increasing the number of direct new jobs it adds in Rhode Island, beyond the minimum of 80 cited above.

This analysis was prepared by Appleseed, a consulting firm with twenty-five years' experience in economic impact analysis.

#### Jobs Analysis

#### Initial capital costs

As Table 1 shows, the costs incurred by the Company in support of its expansion from 2022 through 2024 would include improvements to its leased space totaling \$860,000, and approximately \$3.8 million. For purposes of this analysis, we assume that all of the Company's new equipment will be procured from sources outside the state.

Table 1: Initial capital costs (in \$ thousands of 2022 dollars)

Build-o	ut of leas	ed spac	e \$860
			Cost

Equipment	\$3,800
Total	\$4,660

Using the IMPLAN input-output modeling system, a modeling tool commonly used in economic impact analyses, Appleseed estimates (as shown in Table 2) that \$860,000 in construction spending will directly and indirectly support:

- 7 jobs in Rhode Island in construction and related industries, with \$467,000 in earnings (in 2022 dollars);
- \$1.047 million in statewide economic output; and
- A one-time increase of \$570,000 in Rhode Island's GDP.

Table 2: Direct, indirect and total annual impact of initial capital spending (income, value-added and output in thousands of 2022 dollars)

		\$467	\$570	\$1,047
Indirect	1	66	41	204
Direct	6	\$401	\$459	\$843
	Jobs	Earnings	Value added	

We further estimate that the projected expenditure of \$860,000 on construction would directly and indirectly generate approximately \$34,500 in State personal income, sales and business taxes (including sales and use taxes paid on materials used in construction).

#### Annual operations

As noted above, the Company plans to add minimum of 80 qualifying jobs in Rhode Island from 2022 through the end of 2024. Table 3 summarizes the categories in which the Company expects to create these jobs, and the anticipated median salary for each category.

Table 3: Projected minimum employment, year-end 2024

Job category	(as of 2024)	Median salary
Marketing and admin staff	12	\$81,660
Technicians	16	\$45,490
Engineers	43	\$99,590
Managers	9	\$154,470
T-4-71	80	\$99,680
Total		

Based on data provided by the Company, Appleseed estimates that by the end of 2024, ongoing operations associated with the 80 new jobs the Company would be committed to maintaining in Rhode Island for twelve years will directly and indirectly support:

- 148 jobs in Rhode Island;
- \$17.25 million in annual earnings (in 2024 dollars);
- \$53.52 million in statewide economic output; and
- An increase of \$23.39 million in Rhode Island's annual GDP.

These impacts are summarized below in Table 4. The *direct impact* of the Company's operations reflects the Company's direct employment, its direct spending on wages and salaries, the value its operations add to Rhode Island's GDP, and the total value of the goods and services it produces. Its *indirect impact* is the effect of the Company's spending on purchases of goods and services from other in-state businesses on employment, earnings, value-added and output in Rhode Island.

Table 4: Direct, indirect and total annual impact of ongoing operations (income, value-added and output in millions of 2024 dollars)

	Jobs	Earnings	Value added	Output
Direct	80	\$9.64	\$12.38	\$29.80
Indirect	22	1.72	3.03	5.46
Total	102	\$11.36	\$15.41	\$35.26

In addition to the impacts on employment, earnings, output and state GDP cited above, the Company's new operations in Rhode Island would by the end of 2024 make a projected increase of approximately \$433,500 in annual state tax revenues, including:

- \$268,400 in state personal income taxes paid by workers newly employed by the Company in its expanded Rhode Island operations; or by Rhode Island workers whose jobs are indirectly attributable to the Company's expanded Rhode Island operations;
- \$131,200 in state sales taxes paid on those workers' taxable household spending; and
- \$33,900 in state business taxes.

As noted above, the 80 new direct jobs cited in Table 4 represent the minimum number of jobs the Company would be committed to adding by the end of 2024 and maintaining for a minimum of twelve years. The Company could become eligible for additional Qualified Jobs tax credits by increasing from 80 to at least 95 the number of new jobs added in Rhode Island; and for still more credits by further increasing the number of new workers employed in its Rhode Island operations from 95 to 110.

#### Hiring

Candidates for engineering jobs at Flux Marine are asked to prepare and deliver a fifteenminute presentation to a panel of engineers on a project that demonstrates their technical skills and the strengths they would bring to the Company. The presentation is followed by a questionand-answer session, and several one-on-one interviews.

#### **Benefits**

Employee benefits offered by the Company include a medical plan with vision and dental options and paid time off, including 15 holidays and (for new employees) 14 days of PTO.

#### **Impact**

The state fiscal impact of the requested tax credits is estimated to be approximately \$1,857,750 in forgone state revenue. Direct and indirect economic and fiscal benefits of the proposed project include the estimated increase in annual state GDP of \$15.41 million in 2024, the estimated associated job creation, and a gross increase of approximately \$4.877 million in personal income, sales and business tax revenues during construction and during the twelve-year commitment period beginning in 2023. These benefits are detailed in the foregoing analysis.

In addition to the economic and tax revenue impacts cited above, the proposed expansion of the Company's operations would benefit Rhode Island in other ways, including:

- Highlighting Rhode Island's attractiveness as a location for companies that are actively engaged in the transition from carbon-based fuels to electricity
- Highlighting the state's role as a center of "the blue economy"
- Adding to local governments' personal property tax base

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the Qualified Jobs Incentive program mitigate risk to the state; and the value of Qualified Jobs Incentive tax credits would be determined on the basis of the number of people actually employed and the wages actually paid by the Company.

Subject:

Rebuild Rhode Island Tax Credit Applications

The staff of the Rhode Island Commerce Corporation (the "Corporation") has informed the Office of Management and Budget ("OMB") that it intends to recommend to the Corporation's Board of Directors (the "Board") one project for the receipt of tax credits and sales and use tax rebates under the Rebuild Rhode Island Tax Credit in an amount not to exceed \$15,000,000.00. That recommendation is as follows:

1. That the application submitted by High Rock Westminster Street, LLC be approved for total tax credits in a maximum amount of \$15,000,000.00.

As of OMB's December 17, 2021 memo, the Corporation had approved tax credits and sales and use tax rebates under the program in the amount of \$206,785,577.69. Since that memo, OMB has received information and documentation from the Corporation about the status of prior projects. These updates have reduced total utilized Rebuild credits and sales tax rebates by \$17,088,121.97, meaning total tax credits and sales tax rebates are \$189,697,455.72. These updates are as follows, with more information in the "Project Updates" section below:

- The certification of 17 projects, reducing total credits and sales tax rebates by \$5,851,217.81.
- The termination of six projects, reducing total credits and sales tax rebates by \$10,863,842.00.
- A revision to one project (Studley Building) which occurred after OMB's December 20, 2021 memo but before the project went before the Board, reducing sales tax rebates by \$200,000.00.
- Technical corrections to several projects, reducing sales tax rebates by \$173,062.16.

The approval of an additional \$15,000,000.00 in tax credits and sales and use tax rebates, coupled with the aforementioned project updates, would bring the cumulative total of approved tax credits, sales and use tax rebates, and/or loans to \$204,697,455.72. Currently \$134.7 million has been appropriated into the Rebuild Rhode Island Tax Credit Fund. Additional funding is expected in future legislative sessions. R.I. General Laws Section 42-64.20-5(h) authorized aggregate tax credits, sales and use tax rebates, and/or loans under the Rebuild Rhode Island Tax Credit program in an amount not to exceed \$210 million. Pursuant to section 42-64.20-6(a)(4), OMB confirms that the aggregate credits recommended by the Commerce Corporation do not exceed the maximum aggregate credits allowed under this chapter in accordance with § 42-64.20-5(h).

Based on information provided by the Corporation, OMB anticipates the budget impact to the state of the tax credits, sales and use tax rebates, and/or loans, if approved, in the year of application and in subsequent years will be as set forth in the attached Exhibit A.

#### **Project Updates**

There are four categories of updates that are included in this memo: changes to awarded credits based on final project certification, termination of projects, changes in anticipated redemption schedules, and conditionally approved projects. There is also one project where the sales tax rebate amount was revised since the previous OMB memo. There are also several technical corrections of sales tax rebate data presented in previous OMB memos.

#### Adjustments to Final Certified Projects

Final project certification means the project has completed and the Corporation has certified the final tax credits awarded for that project. These awarded tax credits cannot change now that the project is certified.

For five of these 17 total certified projects, the final certification lowered the tax credit amounts. In total, these certifications reduced the total awarded Rebuild tax credits by \$1,680,541.00 and the sales tax rebates by \$681,478.70 for a total reduction of \$2,362,019.70. These projects also have revised award schedules. Those applicants are:

- Bourne Capital Partners: credits reduced by \$600,286.00; first credit award shifted from FY 2018 to FY 2021.
- Providence Capital III: credits reduced by \$194,591.00; first credit award shifted from FY 2020 to FY 2021.
- SSL Partner, LLC: credits reduced by \$786,164.00; first credit award shifted from FY 2020 to FY 2021.
- Union Mill LLC: sales tax rebates reduced by \$87,557.70, first credit award shifted from FY 2018 to FY 2020.
- TPG 100 Sabin Hotel, LLC: credits reduced by \$99,500.00 and sales tax rebates reduced by \$593,921.00; first credit award shifted from FY 2019 to FY 2021.

The applicants of six of the 17 certified projects have elected to redeem their tax credits as payments at 90% of their full value, as allowed under R.I. Gen. Laws § 42-64.20-5(p). These awarded tax credits, and the decision to elect for redemption, cannot change now that the project is certified. The timing of credit awards also changed for these six projects. The final certification of these projects reduced the total awarded Rebuild tax credits by \$2,644,183.19 and sales tax rebates by \$168,245.78 for a total reduction of \$2,812,428.97. This reduction is a function of both the certification of final project costs and the election of the 90% redemption option. Those applicants are:

- John M. Corcoran & Co.: credits reduced by \$1,098,333.62; first credit award shifted from FY 2018 to FY 2020.
- 78 Fountain JV Owner, LLC: credits reduced by \$611,511.90 and sales tax rebates reduced by \$48,295.95, first credit award shifted from FY 2018 to FY 2021.
- D'Ambra Warwick Hotel LLC: credits reduced by \$304,560.89; first credit award shifted from FY 2018 to FY 2019.
- Waldorf Capital Partners LLC: credits reduced by \$381,941.78 and sales tax rebates reduced by \$119,949.83; first credit award shifted from FY 2019 to FY 2022.
- City of Newport: credits reduced by \$237,835.00; first credit award shifted from FY 2020 to FY 2022.
- 30 Kennedy Partners, LLC: credits reduced by \$10,000.00; first credit award shifted from FY 2021 to FY 2022.

Among the 17 certified projects are five that elected to certify on an annual basis. Because these projects have completed, the total utilized credits cannot change. What can change annually is whether the applicant elects the 90% redemption option. For any years where the applicant has elected to take the 90% redemption option, that 90% value is counted against the program cap. For any years where election has not occurred, the credit value is assumed to be 100%. The certification of these five projects reduced the total awarded Rebuild tax credits by \$264,942.14 and sales tax rebates by \$411,828.00 for a total of \$676,770.14. This reduction is a function of both the certification of final project costs and the election of the 90% redemption option. Those applicants are:

- Ocean State Jobbers, Inc.: first credit award shifted from FY 2018 to FY 2020; applicant has certified for FY 2020 through FY 2022 and not elected the 90% redemption option.
- Virgin Pulse: credits reduced by \$193,442.14; first credit award shifted from FY 2017 to FY 2019; applicant has certified for FY 2019 through FY 2022 and has elected the 90% redemption option for those years.
- Gotham Greens Holdings LLC: credits reduced by \$71,500.00; first credit award shifted from FY 2019 to FY 2021; applicant has certified for FY 2021 and has elected the 90% redemption option for those years.
- Infinity Meat Solutions, LLC: sales tax rebates reduced by \$411,828.00, first credit award shifted from FY 2020 to FY 2022; applicant has certified for FY 2022 and not elected the 90% redemption option.
- Blount Fine Foods Corporation: first credit award shifted from FY 2021 to FY 2022; applicant has certified for FY 2022 and not elected the 90% redemption option.

In the final category of certified projects, there is no change from the initial tax credit award to the final certification. The anticipated award schedule of some of those projects has changed, but these changes do not affect the aggregate credit cap under R.I. Gen. Laws 42-64.20-5(h). Those applicants are:

- WinnDevelopment and Omni Development: first credit award shifted from FY 2018 to FY 2020.
- Urban Smart Growth, LLC: first credit award shifted from FY 2018 to FY 2021.
- Wexford Science & Technology, LLC: first credit award shifted from FY 2019 to FY 2020.
- 110 North Main, LLC and 110 North Main Management, LLC: first credit award shifted from FY 2019 to FY 2020.
- Sprague Street Owner, LLC: first credit award shifted from FY 2019 to FY 2022.
- Farm Fresh: no change to award schedule.

#### Terminated Projects

The next category of updates is projects that have been terminated. All these terminations were undertaken through a documented process by the Commerce Corporation, typically through the issuance of a termination letter to the applicant. These projects cannot be restarted except through Board action, which would require confirmation by OMB pursuant to R.I. Gen. Laws § 42-64.20-6(a)(4). Seven projects have been terminated, with one termination (Agoda Travel Operations USA Inc.) having been addressed in a previous OMB memo. The remaining six terminated applicants, representing \$9,500,972.00 in Rebuild credits and \$1.362,870.00 in sales tax rebates for a total of \$10,863,842.00, are:

- AT Cross Company: previously awarded \$400,000.00 in credits and \$67,000.00 in sales tax rebates.
- Royal Oaks Realty, LLC: previously awarded \$2,517,174.00 in credits and \$404,600.00 in sales tax rebates.

- SAT Development LLC: previously awarded \$995,000.00 in credits and \$166,270.00 in sales tax rebates.
- Case Mead Association, LLC: previously awarded \$1,588,798.00 in credits and \$225,000.00 in sales tax rebates.
- OneMetro, LLC: previously awarded \$3,000,000.00 in credits and \$500,000.00 in sales tax rebates.
- Thread Factory Stables Proprietor, LLC: previously awarded \$1,000,000.00 in credits (building was destroyed in a fire).

#### Changes to Anticipated Redemption Schedules

The final category of updates is for projects where the total tax credit amount has not changed, but the anticipated schedule of credit awards has shifted. These changes do not affect the aggregate credit cap under R.I. Gen. Laws 42-64.20-5(h). Typically, these projects have been shifted back several fiscal years. Those applicants are as follows:

- Finlay Extracts & Ingredients USA, Inc.: first credit award shifted from FY 2018 to FY 2023.
- Cornish Associates LP: first credit award shifted from FY 2020 to FY 2022.
- Infosys Limited: first credit award shifted from FY 2018 to FY 2023.
- Immunex Rhode Island Corporation: first credit award shifted from FY 2020 to FY 2023.
- Electric Boat Corporation: first credit award shifted from FY 2021 to FY 2023.
- Rubius Therapeutics, Inc.: first credit award shifted from FY 2021 to FY 2023.
- Steeple Street RI, LLC: first credit award shifted from FY 2021 to FY 2026.
- BAC CVP Aloft LLC; first credit award shifted from FY 2021 to FY 2023.
- Pawtucket Development Group, LLC: first credit award shifted from FY 2021 to FY 2024.
- Mearthane Products Corporation: first credit award shifted from FY 2022 to FY 2023.
- RCG Armory Park View, LLC: first credit award shifted from FY 2021 to FY 2022.
- 556 Atwells, LLC: first credit award shifted from FY 2022 to FY 2023.

- Arctic Mill Realty Partners, LLC: first credit award shifted from FY 2023 to FY 2024.
- Branch Holdings LLC/Branch Acquisitions LLC: first credit award shifted from FY 2022 to FY 2023.
- 390 Pine Street, LLC: first credit award shifted from FY 2022 to FY 2023.
- Miniature Casting: first credit award shifted from FY 2022 to FY 2023.

#### Conditional Approvals

The last category of projects are two projects that were conditionally approved by the Board on June 22, 2020. These projects have not moved forward despite being scheduled for completion in FY 2021. However, because these conditional approvals have not been rescinded, they are still counted against the total program cap in OMB's assessment. Those projects, representing \$1,750,000.00 of tax credits, are as follows:

- 25 Bough Street, LLC, representing \$750,000.00 in credits.
- Caribbean Integration Community Development, representing \$1,000,000.00 in credits.

#### Revised Project

The most recent project approved by the Board was revised between the time OMB issued its memo on December 20, 2021 and the final Board vote on March 28, 2022. This revision reduced sales tax rebates for the Studley Building from \$500,000 to \$300,000 (a reduction of \$200,000) and shifted the first credit award from FY 2023 to FY 2024.

#### Technical Corrections

One project in the last OMB memo was double counting sales tax rebates and Rebuild tax credits. The project applicant, Pebb 33 Bassett Providence LLC (noted as the Merchant Oversees project in the sales tax rebate table), was awarded \$1,000,000 in total credits, with a subset of that amount (\$173,062.71) expected to be delivered as sales tax rebates. The previous OMB memo added the sales tax rebate amount and the total credit amount together. As a correction, the sales tax rebate amount has been bracketed in Exhibit A so as not to add to the sum of total credits. Finally, current sales tax rebates for were understated by \$0.55 due to rounding for following projects: Urban Smart Growth, LLC (noted as Hope Artiste in the sales tax rebate table), Bourne Ave. Capital Partners (Louttit Laundry), Sprague Street Owner, LLC (R&W Phase II), and SSL Partner, LLC (Wexford). These projects have been corrected in Exhibit A.

#### **Rhode Island Commerce Corporation**

#### Rebuild Rhode Island Tax Credits – Economic Impact Analysis

#### High Rock Westminster LLC Application

#### Introduction

The Rhode Island Commerce Corporation (the "Corporation") may provide Rebuild Rhode Island tax credits and an allocation from the First Wave Closing Fund to High Rock Westminster LLC (the "Sponsor"). The financing would be provided in connection with the Sponsor's proposed investment in redevelopment of a 26-story office building at 111 Westminster Street in Providence (the "Superman Building," which has been vacant since 2013) and its conversion to residential use. When completed, the project would include 285 rental apartments (57 of which would be deed restricted as affordable to Rhode Islanders earning up to 80 percent to 120 percent of area median income and 228 of which would be market-rate), approximately 8,000 square feet of mezzanine-level office space, and approximately 26,000 square feet of ground- floor commercial, event, and community space.

The Sponsor estimates the total cost of the project to be \$223.1 million. High Rock Capital has committed to providing up to \$32 million in cash equity, in addition to contributing the land and building. Expected sources of financing include:

- \$26.2 million in contributions from the state's existing housing and economic development programs
  - o Rebuild RI Tax Credit Program: \$15 million
  - First Wave Closing Fund: \$5.7 million
  - o Acquisition and Revitalization Program: \$1.0 million
  - o Workforce Housing Innovation Challenge: \$4.5 million
- \$22 million in Federal Historic Tax Credits
- \$10 million low-interest loan from the City of Providence's Housing Trust Fund.
- \$5 million in a direct contribution from the City of Providence.
- \$2.1 million in proceeds from federal New Markets Tax Credits.
- The Rhode Island Foundation is also providing bridge financing for the Rebuild Rhode Island Tax Credits which reduces the project's financing costs.

The Developer also intends to seek a Tax Stabilization Agreement from the City of Providence.

This analysis was prepared by Appleseed, a consulting firm with more than 25 years' experience in economic impact analysis.

#### **Jobs Analysis**

#### Construction

As shown in Table 1, the Sponsor's estimate of total project cost is approximately \$223.1 million.

Table 1: Estimated total project cost (\$ millions)

Component	Estimated cost
Land and building contribution	\$10.0
Construction (hard costs)	167.5
Soft costs	25.8
Financing and carrying costs, project contingency	19.8
Total	\$223.1

After excluding certain costs that do not have a direct, current impact on Rhode Island's economy (including interest costs during construction) Appleseed estimates that spending on development of the proposed project would total approximately \$201.4 million.

Using the IMPLAN input-output modeling system (a modeling tool commonly used in economic impact studies), Appleseed estimates that direct expenditures of \$201.4 million would directly and indirectly generate:

- 1,833 jobs in Rhode Island, with \$122.87 million in earnings (in 2023 dollars);
- Approximately \$238.04 million in statewide economic output<sup>1</sup>; and
- A one-time increase of \$166.48 million in Rhode Island's GDP.

These impacts are summarized below in Table 2. The project's *direct impact* is the impact of the Sponsor's direct spending on construction, including both hard and soft costs. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses. (Induced impacts are not included in these estimates.)

Table 2: Direct and indirect impact of construction and related spending (employment in jobyears<sup>2</sup>; income, value-added and output in thousands of 2023 dollars)

Andrew State Company	mployment	Earnings	Value added	Output
Direct Effect	1,594	\$109,199.3	\$144,154.7	\$198,400.2
Indirect Effect	239	13,669.3	22,326.0	39,644.7
Total Effect	1,833	\$122,868.6	\$166,480.7	\$238,044.9

<sup>&</sup>lt;sup>1</sup> Output is a measure of the total sales by Rhode Island companies (including the "sale" of labor by Rhode Island households) generated by the project.

<sup>&</sup>lt;sup>2</sup> A job-year is equivalent to the time worked by one person who is employed full-time for a year. It could represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years.

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$201.4 million would generate a projected one-time increase of approximately \$7.94 million in taxes paid to the State during construction, including:

- \$3.518 million in state sales and use taxes paid on materials used in construction
- \$2.496 million in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project;
- \$1.609 million in state sales taxes paid on those workers' taxable household spending;
   and
- \$315,000 in state business taxes.

The activity reflected in Table 2 will occur primarily from 2022 through 2025.

The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of 2020.

Table 3: Anticipated wages during construction

Occupation RI media	n hourly wage <sup>3</sup>
Architect	\$41.20
Construction manager	\$52.49
Carpenter	\$23.59
Electrician	\$27.54
Operating engineer	\$29.83
Plumber	\$27.39
Painter	\$19.03
Laborer	\$26.49

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

#### Annual operations

111 Westminster Street is assumed to begin operating in 2025, and to stabilize in 2027. Using information provided by the Sponsor and the IMPLAN input-output modeling system, Appleseed estimates that upon stabilization in 2027, ongoing operations would directly employ:

- 12 workers in building operations, maintenance and management
- 33 employees of office-based businesses
- 30 retail and restaurant workers

<sup>&</sup>lt;sup>3</sup> Median wages cited in Table 3 are from Rhode Island Department of Labor and Training, Occupational Employment Statistics, May 2020

As plans for use of the banking hall continue to advance, the number of jobs associated with ongoing operations of 111 Westminster could grow.

For purposes of this analysis, we assume that building operations, maintenance and management, retail and office-based jobs – but only half of all restaurant jobs – are "net new" to Rhode Island.

Based on these assumptions, we estimate (as shown in Table 4) that in 2027, ongoing operations in the building would directly and indirectly support:

- 88 net new jobs in Rhode Island, with nearly \$4.57 million in annual earnings (in 2026 dollars);
- \$12.36 million in annual statewide economic output; and
- An increase of nearly \$6.75 million in Rhode Island's annual GDP.

Table 4: Direct, indirect and total impact of building and tenant business operations, 2026 (earnings, value-added and output in millions of 2026 dollars)

	Jobs	Earnings	Value added	Output
Direct Effect	64	\$3,181.9	\$4,560.9	\$8,347.0
Indirect Effect	24	1,386.2	2,188.5	4,015.6
Total Effect	88	\$4,568.1	\$6,749.4	\$12,362.6

In addition to the impacts on employment, earnings, output and state GDP cited in Table 4, ongoing operations at 111 Westminster would generate a projected gross increase of approximately \$673,000 in net new taxes paid to the state in 2027, including:

- \$275,000 in state personal income taxes paid by tenants residing at 111 Westminster Street<sup>4</sup>
- \$151,000 in state sales taxes paid on household spending by the building's residential tenants<sup>5</sup>
- \$92,000 in state personal income taxes paid by Rhode Island workers employed at 111
   Westminster, or whose jobs are indirectly attributable to building and tenant business operations
- \$60,000 in state sales taxes paid on those workers' taxable household spending
- \$12,000 in state business taxes
- \$83,000 in state sales taxes paid on net new retail and restaurant sales

<sup>&</sup>lt;sup>4</sup> Based on the projected incomes of tenants in at 111 Westminster Street; assumes that 25 percent of all tenants are "net new" residents of Rhode Island. The latter assumption may be conservative; if 50 percent of all tenants are net new to the state, we estimate that the building's tenants would generate \$550,000 in net new state personal income taxes.

<sup>&</sup>lt;sup>5</sup> Based on projected tenant incomes of tenants at 111 Westminster Street, and data on the composition of household spending from the Census Bureau's Consumer Expenditure Survey; assumes; that 25 percent of their household spending is "net new" to the state; and that 60 percent of such spending is taxable.

Workers employed at 111 Westminster would be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

#### **Impact**

The Sponsor has requested financing sources that include Rebuild Rhode Island tax credits and other state incentives totaling \$26.2 million. Direct and indirect economic and fiscal benefits of the proposed project include an estimated increase in annual state GDP (in 2026) of approximately \$6.75 million; the associated job creation; and an increase of approximately \$16.69 million in personal income, sales, and business tax revenues directly and indirectly generated by the project during the construction phase, and by ongoing operations during the twelve years from 2024 through 2035. The estimated personal income, sales, and business tax revenues directly and indirectly generated by the project over the construction period and 30 years of operation would be approximately \$28.13 million.

In addition to the economic and tax revenue impacts cited above, the proposed project would benefit Rhode Island in several other ways:

- · By preserving and returning to productive use a long-vacant historic building
- By increasing the supply of housing available to support the continued growth in the City's and the State's resident population, workforce and tax base
- By increasing the City's supply of housing for workers and households earning between 80 and 120 percent of Area Median Income
- By increasing spendable household income in Downtown Providence by approximately \$15.0 to \$20.0 million per year,<sup>6</sup> leading to an increase in annual household spending within the local area of approximately \$10 to \$11 million, and thus supporting the growth of local retail, restaurant and consumer service businesses
- By strengthening the City's ongoing efforts to reinvigorate the area around Kennedy Plaza

   increasing local foot traffic, supporting local businesses, and attracting additional private investment
- By providing a new venue for a wide variety of events (both public and private) that could draw thousands of out-of-state visitors to (and increase visitor spending in) Providence
- Over time, by increasing local real property tax revenues

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the State's investment tools mitigate other risks to the state. In particular, completion risk (i.e., the risk that the project is not completed) is mitigated by the fact that the requested tax credits would be made available only upon completion of construction.

<sup>&</sup>lt;sup>6</sup> After excluding taxes and housing costs

#### High Rock Westminster LLC Application

#### Introduction

The Rhode Island Commerce Corporation (the "Corporation") may provide Rebuild Rhode Island tax credits and an allocation from the First Wave Closing Fund to High Rock Westminster LLC (the "Sponsor"). The financing would be provided in connection with the Sponsor's proposed investment in redevelopment of a 26-story office building at 111 Westminster Street in Providence (the "Superman Building," which has been vacant since 2013) and its conversion to residential use. When completed, the project would include 285 rental apartments (57 of which would be deed restricted as affordable to Rhode Islanders earning up to 80 percent to 120 percent of area median income and 228 of which would be market-rate), approximately 8,000 square feet of mezzanine-level office space, and approximately 26,000 square feet of ground- floor commercial, event, and community space.

The Sponsor estimates the total cost of the project to be \$223.1 million. High Rock Capital has committed to providing up to \$32 million in cash equity, in addition to contributing the land and building. Expected sources of financing include:

- \$26.2 million in contributions from the state's existing housing and economic development programs
  - o Rebuild RI Tax Credit Program: \$15 million
  - First Wave Closing Fund: \$5.7 million
  - o Acquisition and Revitalization Program: \$1.0 million
  - o Workforce Housing Innovation Challenge: \$4.5 million
- \$22 million in Federal Historic Tax Credits
- \$10 million low-interest loan from the City of Providence's Housing Trust Fund.
- \$5 million in a direct contribution from the City of Providence.
- \$2.1 million in proceeds from federal New Markets Tax Credits.
- The Rhode Island Foundation is also providing bridge financing for the Rebuild Rhode Island Tax Credits which reduces the project's financing costs.

The Developer also intends to seek a Tax Stabilization Agreement from the City of Providence.

This analysis was prepared by Appleseed, a consulting firm with more than 25 years' experience in economic impact analysis.

#### Jobs Analysis

#### Construction

As shown in Table 1, the Sponsor's estimate of total project cost is approximately \$223.1 million.

Table 1: Estimated total project cost (\$ millions)

Component	Estimated cost
Land and building contribution	\$10.0
Construction (hard costs)	167.5
Soft costs	25.8
Financing and carrying costs, project contingency	19.8
Total	\$223.1

After excluding certain costs that do not have a direct, current impact on Rhode Island's economy (including interest costs during construction) Appleseed estimates that spending on development of the proposed project would total approximately \$201.4 million.

Using the IMPLAN input-output modeling system (a modeling tool commonly used in economic impact studies), Appleseed estimates that direct expenditures of \$201.4 million would directly and indirectly generate:

- 1,833 jobs in Rhode Island, with \$122.87 million in earnings (in 2023 dollars);
- Approximately \$238.04 million in statewide economic output<sup>1</sup>; and
- A one-time increase of \$166.48 million in Rhode Island's GDP.

These impacts are summarized below in Table 2. The project's *direct impact* is the impact of the Sponsor's direct spending on construction, including both hard and soft costs. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses. (Induced impacts are not included in these estimates.)

Table 2: Direct and indirect impact of construction and related spending (employment in jobyears<sup>2</sup>; income, value-added and output in thousands of 2023 dollars)

Total Effect	1,833	\$122,868.6	\$166,480.7	\$238,044.9
Indirect Effect	239	13,669.3	22,326.0	39,644.7
Direct Effect	1,594	\$109,199.3	\$144,154.7	\$198,400.2
Ei	nployment	Earnings	Value added	Output

<sup>&</sup>lt;sup>1</sup> Output is a measure of the total sales by Rhode Island companies (including the "sale" of labor by Rhode Island households) generated by the project.

<sup>&</sup>lt;sup>2</sup> A job-year is equivalent to the time worked by one person who is employed full-time for a year. It could represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years.

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$201.4 million would generate a projected one-time increase of approximately \$7.94 million in taxes paid to the State during construction, including:

- \$3.518 million in state sales and use taxes paid on materials used in construction
- \$2.496 million in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project;
- \$1.609 million in state sales taxes paid on those workers' taxable household spending;
   and
- \$315,000 in state business taxes.

The activity reflected in Table 2 will occur primarily from 2022 through 2025.

The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of 2020.

Table 3: Anticipated wages during construction

Occupation RI med	an hourly wage <sup>3</sup>
Architect	\$41.20
Construction manager	\$52.49
Carpenter	\$23.59
Electrician	\$27.54
Operating engineer	\$29.83
Plumber	\$27.39
Painter	\$19.03
Laborer	\$26.49

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

#### Annual operations

111 Westminster Street is assumed to begin operating in 2025, and to stabilize in 2027. Using information provided by the Sponsor and the IMPLAN input-output modeling system, Appleseed estimates that upon stabilization in 2027, ongoing operations would directly employ:

- 12 workers in building operations, maintenance and management
- 33 employees of office-based businesses
- 30 retail and restaurant workers

<sup>&</sup>lt;sup>3</sup> Median wages cited in Table 3 are from Rhode Island Department of Labor and Training, Occupational Employment Statistics, May 2020

As plans for use of the banking hall continue to advance, the number of jobs associated with ongoing operations of 111 Westminster could grow.

For purposes of this analysis, we assume that building operations, maintenance and management, retail and office-based jobs – but only half of all restaurant jobs – are "net new" to Rhode Island.

Based on these assumptions, we estimate (as shown in Table 4) that in 2027, ongoing operations in the building would directly and indirectly support:

- 88 net new jobs in Rhode Island, with nearly \$4.57 million in annual earnings (in 2026 dollars);
- \$12.36 million in annual statewide economic output; and
- An increase of nearly \$6.75 million in Rhode Island's annual GDP.

Table 4: Direct, indirect and total impact of building and tenant business operations, 2026 (earnings, value-added and output in millions of 2026 dollars)

	Jobs	Earnings	Value added	Output
Direct Effect	64	\$3,181.9	\$4,560.9	\$8,347.0
Indirect Effect	24	1,386.2	2,188.5	4,015.6
Total Effect	88	\$4,568.1	\$6,749.4	\$12,362.6

In addition to the impacts on employment, earnings, output and state GDP cited in Table 4, ongoing operations at 111 Westminster would generate a projected gross increase of approximately \$673,000 in net new taxes paid to the state in 2027, including:

- \$275,000 in state personal income taxes paid by tenants residing at 111 Westminster Street<sup>4</sup>
- \$151,000 in state sales taxes paid on household spending by the building's residential tenants<sup>5</sup>
- \$92,000 in state personal income taxes paid by Rhode Island workers employed at 111
   Westminster, or whose jobs are indirectly attributable to building and tenant business operations
- \$60,000 in state sales taxes paid on those workers' taxable household spending
- \$12,000 in state business taxes
- \$83,000 in state sales taxes paid on net new retail and restaurant sales

<sup>&</sup>lt;sup>4</sup> Based on the projected incomes of tenants in at 111 Westminster Street; assumes that 25 percent of all tenants are "net new" residents of Rhode Island. The latter assumption may be conservative; if 50 percent of all tenants are net new to the state, we estimate that the building's tenants would generate \$550,000 in net new state personal income taxes.

<sup>&</sup>lt;sup>5</sup> Based on projected tenant incomes of tenants at 111 Westminster Street, and data on the composition of household spending from the Census Bureau's Consumer Expenditure Survey; assumes; that 25 percent of their household spending is "net new" to the state; and that 60 percent of such spending is taxable.

Workers employed at 111 Westminster would be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

#### **Impact**

The Sponsor has requested financing sources that include Rebuild Rhode Island tax credits and other state incentives totaling \$26.2 million. Direct and indirect economic and fiscal benefits of the proposed project include an estimated increase in annual state GDP (in 2026) of approximately \$6.75 million; the associated job creation; and an increase of approximately \$16.69 million in personal income, sales, and business tax revenues directly and indirectly generated by the project during the construction phase, and by ongoing operations during the twelve years from 2024 through 2035. The estimated personal income, sales, and business tax revenues directly and indirectly generated by the project over the construction period and 30 years of operation would be approximately \$28.13 million.

In addition to the economic and tax revenue impacts cited above, the proposed project would benefit Rhode Island in several other ways:

- By preserving and returning to productive use a long-vacant historic building
- By increasing the supply of housing available to support the continued growth in the City's and the State's resident population, workforce and tax base
- By increasing the City's supply of housing for workers and households earning between 80 and 120 percent of Area Median Income
- By increasing spendable household income in Downtown Providence by approximately \$15.0 to \$20.0 million per year,<sup>6</sup> leading to an increase in annual household spending within the local area of approximately \$10 to \$11 million, and thus supporting the growth of local retail, restaurant and consumer service businesses
- By strengthening the City's ongoing efforts to reinvigorate the area around Kennedy Plaza

   increasing local foot traffic, supporting local businesses, and attracting additional private investment
- By providing a new venue for a wide variety of events (both public and private) that could draw thousands of out-of-state visitors to (and increase visitor spending in) Providence
- · Over time, by increasing local real property tax revenues

Beyond the fiscal impact noted above, there is no anticipated financial exposure to the state. Various features of the State's investment tools mitigate other risks to the state. In particular, completion risk (i.e., the risk that the project is not completed) is mitigated by the fact that the requested tax credits would be made available only upon completion of construction.
