

The Report on Commerce Corporation Incentive Programs for
Fiscal Year 2021 (7/1/2020 – 6/30/2021)

The Honorable Daniel J. McKee
Governor of the State of Rhode Island

September 30, 2021

The Honorable K. Joseph Shekarchi
Speaker of the House of Representatives

The Honorable Dominick J. Ruggerio
President of the Senate

RE: Report on Commerce Corporation Incentive Programs for Fiscal Year 2021

Dear Governor McKee, Speaker Shekarchi, and President Ruggerio,

I am pleased to submit the Rhode Island Commerce Corporation's ("Commerce Corporation") Fiscal Year 2021 report on Commerce Corporation incentive programs including the Air Service Development Fund; First Wave Closing Fund; High School, College, and Employer Partnerships; Innovate Rhode Island Small Business Program; Industry Cluster Grants; Innovation Vouchers and Network Matching Grants; Main Street Rhode Island Streetscape Improvement Fund; Qualified Jobs Incentive Tax Credit; Rebuild Rhode Island Tax Credit; Tax Increment Financing; Tax Stabilization Incentive; Stay Invested in RI Wavemaker Fellowship; Small Business Assistance Program; and the I-195 Redevelopment Project Fund. The Commerce Corporation submits the enclosed report pursuant to statutory provisions that direct the Commerce Corporation to report fiscal year activity in these incentive programs to the Governor, General Assembly, Director of the Department of Revenue, and Division of Taxation.¹

Fiscal Year 2021 was an unprecedented one due to the impacts of the COVID-19 pandemic. Throughout the recovery period, we have seen impressive growth in the economy as Rhode Island leads the nation in rebounding from the pandemic, which underlines the need for continued investments like those outlined in this report. The Commerce Corporation is dedicated to further strengthening the state's economic momentum and supporting the growth of Rhode Island businesses of all sizes.

¹ Specifically, the Commerce Corporation submits this report pursuant to the following statutory provisions R.I.G.L. §§ 42-64.32-5; 42-64.23-5(d); 42-64.31-3; 42-64.16-6; 42-64.29-7(a); 42-64.28-9; 42-64.27-4; 44-48.3-13(b), (c); 42-64.20-9(b), (c); 42-64.21-8(a), (c); 42-64.22-14(a); 42-64.26; 42-64.25-12, 42-64.24-4.

As the state looks forward to another year of both continuing recovery and systemic growth, the Commerce Corporation anticipates building on our successes and advancing our investments in Rhode Island's businesses, places, and people.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "J Saglio".

Jesse Saglio
President and Chief Operating Officer

ENDNOTES

1. Anchor Institution Tax Credit. [R.I.G.L. § 42-64.30-10](#). No awards have been made pursuant to the Anchor Institution Tax Credit program and the program sunset in 12/31/2018 and was terminated.
2. Incentive Amount is the dollar value of the incentives awarded by the Commerce Corporation.
3. Includes any modifications, adjustments, claw backs, reallocations, alterations, or other changes, made from the close of the prior fiscal quarter and include comparison data to the reports as defined by R.I.G.L. § 42-64-36(c).
4. Project Cost is the cost incurred in connection with and financed with private investment in addition to costs funded with other sources including incentives and grants.
5. Leveraged Resources are the non-incentive resources committed to the project including cash and in-kind support.
6. The incentive agreement with Agoda Travel Operations USA, Inc was terminated on May 6, 2019.
7. Approved Tax Credit Amount represents the maximum amount authorized by the Commerce Corporation, which will be issued over four or five years beginning with project completion and certificate of occupancy.
8. Authorized Sales Tax Rebate represents the anticipated (estimated) amount of sales and taxes eligible to be rebated to the Applicant based on projected project costs. The final Sales Tax award, which comes in the form of a rebate against actual costs incurred, is based on the actual amount of RI sales and use taxes paid on eligible construction materials. Sales Tax Rebate either reduces Rebuild Tax Credits dollar for dollar by the award of the rebate or reduces Rebuild Tax Credits dollar for dollar more than the rebate, depending on the individual deal's structure.
9. Amount certified to date indicates the Tax Credit amount certified by the Commerce Corporation. The actual amount disbursed is validated by the RI Division of Taxation. Recipients may also redeem the Tax Credit in cash for 90% value.
10. Sales Tax rebate for both Virgin Pulse, Inc. (Phase I) and D'Ambra Warwick Hotel, LLC was rebated directly from the Division of Taxation and not from the Rebuild RI Tax Credit Fund. Subsequently all Sales Tax rebates are paid from the Rebuild RI Tax Credit Fund.
11. Estimated Tax Credit Amount projects the value of the award based on existing state personal income tax rates, committed job creation, and estimated taxable income of those committed jobs as estimated at the time of Board authorization. Actual tax credits earned are based on the actual state income tax withholdings, as permitted in statute, of eligible new full-time jobs created.
12. Commitment term is 20% longer than eligibility term.
13. Wavemaker fellowship cohort was awarded for 2 years (2 service periods) with no extension granted.
14. A Wavemaker fellow may be deemed ineligible to claim an award for reasons including, but not limited to the following: not maintaining full-time employment, leaving the State of Rhode Island, or paying off student debt.

15. Certifications for 2018 and 2019 Cohorts are ongoing. If and where a certification occurs (in a relevant quarter), a value will be represented in the service period column. Any differences between the original conditional award amount and the calculated certification amount will be reflected in the modification's column.

16. Lending Organization is the outside lending organization as defined by [R.I.G.L. § 42-64.25-4](#).

17. Commerce Funds are funds awarded through the Small Business Assistance Program to the Lending Organizations, including disbursement to reserve accounts at lending institutions.

18. Commerce funds are used to cover loans and micro-loans by Small Business Assistance Program lending partners as well as support technical assistance conducted by lending partners for businesses.

Program Descriptions

Air Service Development Fund

The Air Service Development Fund provides funding for marketing expenditures for new domestic and foreign air service routes when the service will have an aggregate economic impact equal to or in excess of the aggregate amount to be provided. The Board of the Rhode Island Commerce Corporation adopted Principles to further program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation staff will undertake the review and approval of awards.

First Wave Closing Fund

The First Wave Closing Fund enables Rhode Island to stimulate business development; retain and attract new business and industry to the state; create good-paying jobs for its residents; assist with business, commercial, and industrial real estate development; and generate revenues for necessary state and local governmental services. The Board of the Rhode Island Commerce Corporation adopted Principles to further program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation will undertake the review and granting of awards. Risk analysis is undertaken at various risk thresholds around Execution, Achievability, and Ability to Return Capital. Rules and Regulations promulgated by the Corporation detail application guidelines and agreement procedures to be followed by the Corporation to further ensure program integrity and transparency.

P-TECH

Rhode Island's P-TECH (Pathways in Technology Early College High School) program awards grants on a competitive basis. P-TECH initiative forges long-term partnerships between high schools, colleges, industry associations, and businesses. Students enrolled in P-TECH programs take college-level courses while in high school, benefit from internships and mentoring, and graduate with a high school diploma and an industry-approved associate degree. The P-TECH initiative creates the opportunity for Rhode Island's students and a steady stream of talented, trained workers for its businesses. The Board of the Rhode Island Commerce Corporation adopted Principles to further program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation staff will undertake the review and granting of awards.

Innovate Rhode Island Small Business Fund

In 2013, to foster job creation, facilitate small business development and enhance the workforce pipeline, the Rhode Island General Assembly created the Innovate Rhode Island Small Business Fund (IRISBF). Eligible Rhode Island small businesses may apply for grants to defray the cost of applying for SBIR/STTR awards, match SBIR/STTR Phase I and Phase II awards, and hire interns.

Industry Cluster Program

Industry Cluster Grants encourage companies to work together to solve problems, exchange ideas, and develop talent. Grants are available to fund planning and organization of the industry-specific cluster. Implementation grants are also available for programs that strengthen the cluster in areas like R&D, tech transfer, workforce development, and marketing. The Board of the Rhode Island Commerce Corporation adopted application review and evaluation Principles to further grant program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation staff and Committee will undertake the review and granting of awards. Rules and Regulations promulgated by the Corporation detail application guidelines and Grant Agreement procedures to be followed by Corporation staff to further ensure program integrity and transparency.

Innovation Voucher Program & Network Matching Grant Program

The Innovation Voucher program: The Board of the Rhode Island Commerce Corporation has adopted application review and evaluation Principles to further grant program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation staff and Committee will undertake the review and granting of awards. Rules and Regulations promulgated by the Corporation detail application guidelines and Voucher Agreement procedures to be followed by Corporation staff to further ensure program integrity and transparency.

The Network Matching Grant program: The Board of the Rhode Island Commerce Corporation adopted application review and evaluation Principles to further grant program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation staff and Committee will undertake the review and granting of awards. Rules and Regulations promulgated by the Corporation detail application guidelines and Grant Agreement procedures to be followed by Corporation staff to further ensure program integrity and transparency.

Main Street Rhode Island Streetscape Improvement Fund

The Main Street Rhode Island Streetscape Improvement Fund awards grants or loans on a competitive basis for improvements to commercial districts, such as enhanced sidewalks, new street furniture, new way-finding signage, upgraded building facades, and improved street lighting. Projects can receive up to \$300,000 in funding. Applicants must have matching funds of at least 30% of the total project cost. The Board of the Rhode Island Commerce Corporation has adopted application review and evaluation Principles to further grant program integrity by establishing accountability standards to be used by the Corporation in evaluating and selecting recipients.

Qualified Jobs Incentive Tax Credit

The Qualified Jobs Incentive Tax Credit program assists companies to expand their workforce in Rhode Island or relocate jobs from out of state, by receiving annual, redeemable tax credits for up to 10 years. The Board of the Rhode Island Commerce Corporation adopted Principles to further program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation will undertake the review and granting of awards. Rules and Regulations promulgated by the Corporation detail application guidelines and agreement procedures to be followed by Corporation staff to further ensure program integrity and transparency.

Rebuild Rhode Island Tax Credit

The Rebuild Rhode Island Tax Credit program provides gap financing for real estate projects with redeemable tax credits in amounts up to 20% – and, under specific circumstances, 30% – of project costs. The Board of the Rhode Island Commerce Corporation adopted Principles to further program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation staff will undertake the review and granting of awards. Risk analysis considering the following categories: Execution, Achievability, Ability to Return Capital, and Ability to Repay Loans. Rules and Regulations promulgated by the Corporation detail application guidelines and agreement procedures to be followed by Corporation staff to further ensure program integrity and transparency.

Tax Increment Financing

Tax increment financing provides capital for eligible project by rebating a portion of the new state tax revenue generated by the project. An eligible project must demonstrate need through a “financing gap.” The tax revenue rebate may not exceed 30% of total project costs or 75% of incremental revenue generated, except for infrastructure projects, in which case the rebate goes up to 100% of project costs. The Board of the Rhode Island Commerce Corporation adopted Principles to further grant program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation will undertake the review and granting of awards. Rules and Regulations promulgated by the Corporation detail application guidelines and

agreement procedures to be followed by the Corporation to further ensure program integrity and transparency.

Tax Stabilization Incentive Program

The Tax Stabilization Incentive program assists qualified and Hope Communities in the state of Rhode Island that grant qualifying tax stabilization agreements, subject to the provisions of § 44-3-9 of the Rhode Island general laws, in connection with a qualifying project, may apply to the Commerce Corporation for certification for partial reimbursement of the amount of real estate taxes and/or personal property taxes that would have otherwise been paid had the qualified and/or hope communities not granted said tax stabilization agreement. The Board of the Rhode Island Commerce Corporation adopted Principles to further program integrity by establishing accountability standards, risk analysis standards and outcome measurement procedures and reporting standards by which the Corporation staff will undertake the review and granting of awards. Rules and Regulations promulgated by the Corporation detail application guidelines and agreement procedures to be followed by the Corporation to further ensure program integrity and transparency.

Wavemaker Fellowship Program

The Wavemaker Fellowship provides a financial incentive for graduates pursuing a career or starting a business in Rhode Island in technology, engineering, design and other key sectors, by defraying student loan payments for up to four years. The Board of the Rhode Island Commerce Corporation has adopted application review and evaluation Principles to further grant program integrity by establishing accountability standards to be used by the Wavemaker Fellowship Committee and staff in evaluating and selecting recipients. Rules and Regulations promulgated by the Corporation detail application guidelines and certification procedures to be followed by Corporation staff to further ensure program integrity and transparency.

Small Business Assistance Program (Small Business Capital Access Fund)

The Small Business Capital Access Fund Program provides greater access to capital to enable the formation and expansion of small business across the state and provide job opportunities to the state's citizens. The purpose of this program is to assist small businesses that encounter difficulty in obtaining adequate credit or adequate terms for such credit. The program focuses on women- and minority-owned enterprises, as well as those in Rhode Island's underserved communities. The Commerce Corporation is authorized, within available appropriations, to provide direct assistance and/or partner with lending organizations to provide funding for loans to small businesses located in Rhode Island. The Commerce Corporation is authorized, from time to time, to establish rules and regulations for the administration of the program.

Rhode Island Commerce Corporation
Rebuild Rhode Island – Economic Impact Analysis
RI Waterfront Enterprise LLC Application

Introduction

The Rhode Island Commerce Corporation (the “Corporation”) may provide Rebuild Rhode Island tax credits to RI Waterfront Enterprise LLC (the “Sponsor”). The credits would be provided in connection with the Sponsor’s proposed investment in new multi-use port improvements at the South Quay Marine Terminal in East Providence. When completed, the proposed new facilities could be used to support development, operations and maintenance of new offshore wind projects such as Revolution Wind.

The proposed improvements would include:

- Construction of a 1,020-foot linear bulkhead
- Development of two deep-water berths along the new bulkhead
- A dock extension to be used for ferry, fire and harbormaster services
- A concrete platform for handling heavy cargo
- A second concrete platform to serve as a high-load-bearing crane lane
- An eight-acre, heavy-load-bearing laydown area, along with additional upland laydown area
- Several small warehouse, office and other support buildings

The Sponsor estimates the total cost of these improvements to be \$103.4 million.

The Sponsor is requesting \$15.0 million in Rebuild Rhode Island Tax Credits, and an exemption from state sales and use taxes on the purchase of materials used in construction, which the Sponsor estimates will be valued at \$2.1 million. The value of the Rebuild Rhode Island tax credits awarded will be reduced dollar-for-dollar by the value of the sales and use tax exemption.

This analysis was prepared by Appleseed, a consulting firm with more than twenty-five years’ experience in economic impact analysis.

Jobs Analysis

Construction

As shown in Table 1, the Sponsor’s estimate of total project cost is approximately \$103.4 million.

Table 1: Estimated total project cost (\$ millions)

Component	Estimated cost
Site work	\$33.1
Construction and demolition	\$44.1
Engineering and architecture	\$12.7
Contingency	\$13.5
Total	\$103.4

Using IMPLAN – a modeling tool commonly used in economic impact studies – Appleseed estimates that direct expenditures of \$103.4 million will directly and indirectly generate:

- 650 person-years² of work in Rhode Island, with \$45.72 million in earnings (in 2022 dollars);
- Approximately \$133.09 million in statewide economic output³; and
- A one-time increase of \$68.95 million in Rhode Island’s GDP.

These impacts are summarized below in Table 2. The project’s *direct impact* is the impact of the company’s direct spending on design and construction. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

Table 2: Direct and indirect impact of construction and related spending (employment in person-years; income, value-added and output in thousands of 2022 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	502	\$36,119.6	\$52,232.8	103,394.7
Indirect Effect	148	9,604.1	16,720.8	29,691.3
Total Effect	650	\$45,723.7	\$68,953.6	\$133,086.0

The activity reflected in Table 2 will occur from the summer of 2020 through the end of 2022.

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$103.4 million would generate a projected one-time increase of approximately \$2.635 million in taxes paid to the State during construction, including:

- \$1.715 million in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project
- \$704,000 in state sales taxes paid by these workers on taxable household spending
- \$216,000 in state business taxes

The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of May 2018.

² A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years. In this case, 502 person-years would equate to an average of 201 direct jobs in construction and related industries each year for two-and-a-half years.

³ Output is a measure of the total sales by Rhode Island companies (including the “sale” of labor by Rhode Island households) generated by the project.

Table 3: Anticipated wages during construction

Occupation	RI median hourly wage ⁴
Architect	\$37.59
Civil engineer	\$39.21
Construction manager	\$54.75
Carpenter	\$22.68
Electrician	\$28.40
Cement mason/concrete finisher	\$22.42
Construction equipment operator	\$29.84
Laborer	\$21.25

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

Annual operations

When completed, the South Quay Marine Terminal would also contribute to Rhode Island's economy through its ongoing operations. In addition to support activities for the development and operations of Revolution Wind, these activities would include management, maintenance and operation of the property by Waterson Terminal Services. As shown in Table 4, Appleseed estimates that in 2023 these functions would directly and indirectly account for:

- 21 jobs in Rhode Island, with approximately \$1.653 million in annual earnings (in 2023 dollars);
- \$7.190 million in annual statewide economic output; and
- An increase of \$2.485 million in Rhode Island's annual GDP.

Table 4: Direct, indirect and total impact of terminal operations, 2023 (employment in jobs; earnings, value-added and output in thousands of 2023 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	6	\$532.4	\$925.3	\$4,382.3
Indirect Effect	15	1,121.0	1,559.4	2,807.2
Total Effect	21	\$1,653.4	\$2,484.7	\$7,189.5

In addition to the terminal's impact on employment, earnings, output and GDP, terminal operations would in 2023 generate approximately \$94,900 in state tax revenues, including:

⁴ Median wages cited in Table 3 are from Rhode Island Department of Labor and Training, Occupational Employment Statistics, May 2018, except for plumbers, which are from May 2017

- \$62,000 in state personal income taxes paid by Rhode Island workers employed in terminal operations and maintenance, or whose jobs are indirectly attributable to operations at the site
- \$25,500 in state sales taxes paid on those workers' taxable household spending;
- \$7,400 in state business taxes

Future offshore development and ongoing operations

Development of the South Quay Marine Terminal as described above would provide the space and facilities needed to support Revolution Wind (and potentially other offshore projects) during its construction phase and after it becomes operational. While Revolution Wind's development and operations are not within the scope of the SQMT project as proposed by the Sponsor, it is important to note that the economic benefits Rhode Island would derive from Revolution Wind depend in part on the availability of on-shore facilities such as those proposed by the Sponsor.

Tables 5 and 6 below are taken from a report on Revolution Wind prepared for Rhode Island Commerce Corporation by Appleseed in 2019.

Table 5 summarizes the projected impact of in-state spending by Revolution Wind on the development of its offshore wind farm during the years 2021-2023. As the Table shows, the project would directly and indirectly account for 2,061 person-years of work in Rhode Island (at SQMT and elsewhere), and average of 687 jobs per year for three years.

Table 5: Direct, indirect and total impact of Revolution Wind construction and related spending (employment in person-years; income, value-added and output in millions of 2022 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	1,592	\$108.6	\$165.5	\$306.1
Indirect Effect	469	30.6	48.2	81.0
Total Effect	2,061	\$139.2	\$213.7	\$387.1

Table 6 summarizes the annual impact of ongoing Revolution Wind operations at SQMT and elsewhere in Rhode Island as of 2024, after the wind farm is completed and operational. As of 2024, we estimate that ongoing operations would directly and indirectly account for 63 job at SBMT and elsewhere in Rhode Island.

Table 5: Direct, indirect and total impact of ongoing operations of Revolution Wind, 2024 (earnings, value-added and output in millions of 2024 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	50	\$3.533	\$4.156	\$7.424
Indirect Effect	13	0.925	1.641	2.341
Total Effect	63	\$4.458	\$5.797	\$9.765

Impact

The state fiscal impact of the requested tax credits and sales tax exemption will be approximately \$15.0 million in forgone state tax revenue. Direct and indirect economic and fiscal benefits of the proposed project include an estimated increase in annual state GDP (in 2023 dollars) of approximately \$2.48 million; the associated job creation; and a cumulative gross increase of approximately \$3.774 million in state personal income, sales and business tax revenues directly and indirectly generated by the project during the construction phase, and by ongoing operations during the twelve years after completion of the project.

In addition to the economic and tax revenue impacts cited above, the proposed project would benefit Rhode Island in several other ways:

- By ensuring the availability of the port facilities needed to secure for the state the anticipated economic development benefits of Revolution Wind
- By providing the Port of Providence with the capacity to support development and operation of additional offshore wind projects
- By providing the Port with facilities that can also support other types of maritime traffic, such as bulk cargo and project cargo

Beyond the fiscal impact noted above, the state's financial exposure will be limited. Various features of the Rebuild Rhode Island program mitigate other risks to the state. In particular, the completion risk (i.e., the risk that the project is not completed) is mitigated by the fact that the tax credits will be issued only upon completion of the development. The risk of project cost overruns is mitigated by the fact that the credits capped at the amount set forth above. In addition, if project costs come in lower than anticipated, the value of the credits will be reduced accordingly.

**Rhode Island Commerce Corporation
Rebuild Rhode Island – Economic Impact Analysis
33 Bassett Street Application**

Economic and tax revenue impacts of redevelopment of 33 Bassett Street, Providence

Impact of construction

- 53 person-years of work in Rhode Island;
- \$3.28 million in earnings (in 2020 dollars);
- \$9.35 million in statewide economic output; and
- A one-time increase of \$5.05 in Rhode Island’s GDP.

Table 1: Direct, indirect and total impact of construction (income, value-added and output in millions of 2020 dollars)

	Jobs	Earnings	Value added	Output
Direct	40	\$2.53	\$3.85	\$7.45
Indirect	13	\$0.75	\$1.20	\$1.90
Total	53	\$3.28	\$5.05	\$9.35

Construction spending would directly and indirectly generate approximately \$192,000 in state tax revenue, including:

- \$123,000 in state personal income taxes paid by workers directly employed on the project, or by Rhode Island workers whose jobs are indirectly attributable to the project;
- \$54,000 in state sales taxes paid on those workers’ taxable household spending; and
- \$15,000 in state business taxes.

Impact of operations⁵

After redevelopment is completed and the building is occupied, ongoing operations at 33 Bassett (including building operations and maintenance and the operations of office tenants) would directly and indirectly account for

- 187 jobs in Rhode Island;
- \$14.32 million in earnings (in 2021 dollars);
- \$53.82 million in statewide economic output; and
- An increase of \$23.29 million in Rhode Island’s annual GDP.

⁵ This analysis includes both the ongoing impact of property management, operations and maintenance, and the ongoing impact of office tenant operations. Creation of new jobs in technology, professional and business services and other office-based sectors is not attributable solely to development of the space needed to accommodate them; but without such development, continued growth in high-value office-based jobs is unlikely to be sustainable the long run.

Table 2: Direct, indirect and total impact of ongoing operations (income, value-added and output in millions of 2021 dollars)

	Jobs	Earnings	Value added	Output
Direct	120	\$10.40	\$12.80	\$23.57
Indirect	67	\$3.92	\$6.30	\$10.26
Total	187	\$14.32	\$19.10	\$33.83

Ongoing operations would directly and indirectly generate approximately \$839,000 annually in state tax revenue, including:

- \$537,000 in state personal income taxes paid by workers directly employed by office tenants, or in management and operation of the property, or by Rhode Island workers whose jobs are indirectly attributable to those operations;
- \$234,000 in state sales taxes paid on those workers' taxable household spending; and
- \$68,000 in state business taxes.

During the construction period and the twelve-year period following construction, the proposed project and its office tenants would directly and indirectly generate approximately \$10.26 million in state tax revenues.

**Rhode Island Commerce Corporation
Rebuild Rhode Island – Economic Impact Analysis
Millrace District II 15 Island Place Application**

Economic and tax revenue impacts of redevelopment of 15 Island Place, Woonsocket

Impact of construction

- 72 person-years of work in Rhode Island;
- \$4.633 million in earnings (in 2021 dollars);
- \$8.305 million in statewide economic output; and
- A one-time increase of \$4.039 million in Rhode Island’s GDP.

Table 1: Direct, indirect and total impact of construction (income, value-added and output in millions of 2021 dollars)

	Jobs	Earnings	Value added	Output
Direct	60	\$3.884	\$2.780	\$6.034
Indirect	12	0.749	1.259	2.271
Total	72	\$4.633	\$4.039	\$8.305

Construction spending would directly and indirectly generate approximately \$272,000 in state tax revenue, including:

- \$174,000 in state personal income taxes paid by workers directly employed on the project, or by Rhode Island workers whose jobs are indirectly attributable to the project;
- \$76,000 in state sales taxes paid on those workers’ taxable household spending; and
- \$22,000 in state business taxes.

Impact of operations

- 67 FTE jobs in Rhode Island;
- \$3.029 million in earnings (in 2023 dollars);
- \$7.368 million in statewide economic output; and
- An increase of \$3.908 million in Rhode Island’s annual GDP.

Table 2: Direct, indirect and total impact of ongoing operations (income, value-added and output in millions of 2023 dollars)

	Jobs	Earnings	Value added	Output
Direct	57	\$2.382	\$2.897	\$5.544
Indirect	10	0.647	1.011	1.824
Total	67	\$3.029	\$3.908	\$7.368

Ongoing operations would directly and indirectly generate approximately \$178,000 annually in state tax revenue, including:

- \$114,000 in state personal income taxes paid by workers directly employed by tenant businesses or in management and maintenance of the property, or by Rhode Island workers whose jobs are indirectly attributable to those operations;
- \$50,000 in state sales taxes paid on those workers' taxable household spending; and
- \$14,000 in state business taxes.

During the construction period and the twelve-year period following construction, the proposed project would generate approximately \$2.408 million in state tax revenues.

**Rhode Island Commerce Corporation
Rebuild Rhode Island – Economic Impact Analysis
404 Broad Street Application**

Economic and tax revenue impacts of redevelopment of 404 Broad Street, Providence

Impact of construction

- 28 person-years of work in Rhode Island;
- \$1.799 million in earnings (in 2021 dollars);
- \$4.271 million in statewide economic output; and
- A one-time increase of \$2.311 million in Rhode Island's GDP.

Table 1: Direct, indirect and total impact of construction (income, value-added and output in thousands of 2021 dollars)

	Jobs	Earnings	Value added	Output
Direct	23	\$1,487.3	\$1,788.7	\$3,310.5
Indirect	5	312.1	522.3	961.0
Total	28	\$1,799.4	\$2,311.0	\$4,271.5

Construction spending would directly and indirectly generate approximately \$105,500 in state tax revenue, including:

- \$67,500 in state personal income taxes paid by workers directly employed on the project, or by Rhode Island workers whose jobs are indirectly attributable to the project;
- \$29,500 in state sales taxes paid on those workers' taxable household spending; and
- \$8,500 in state business taxes.

Impact of operations

- 12 jobs in Rhode Island;
- \$493,000 in earnings (in 2022 dollars);
- \$1.330 in statewide economic output; and
- An increase of \$665,000 in Rhode Island's annual GDP.

Table 2: Direct, indirect and total impact of ongoing operations (income, value-added and output in thousands of 2022 dollars)⁶

	Jobs	Earnings	Value added	Output
Direct	10	\$362.0	\$470.0	\$979.0
Indirect	2	130.7	195.1	351.5
Total	12	\$492.7	\$665.1	\$1,330.5

Ongoing operations would directly and indirectly generate approximately \$45,800 annually in state tax revenue, including:

- \$18,500 in state personal income taxes paid by workers directly employed in management and operations of the property, or by Rhode Island workers whose jobs are indirectly attributable to those operations;
- \$8,100 in state sales taxes paid on those workers' taxable household spending;
- \$16,900 in state sales taxes on food and beverage sales; and
- \$2,300 in state business taxes.

During the construction period and the six-year period following construction, the proposed project would generate approximately \$380,300 in state tax revenues.

⁶ Assumes no increase in SCLT employment directly attributable to the project, but that all jobs with commercial tenants are new to Rhode Island.

**Rhode Island Commerce Corporation
Rebuild Rhode Island – Economic Impact Analysis
401 Tech Bridge Application**

Introduction

The Rhode Island Commerce Corporation (the “Corporation”) may provide Rebuild Rhode Island tax credits to 401 Tech Bridge (the “Sponsor”), a Kingston-based non-profit organization affiliated with the University of Rhode Island Research Foundation that seeks to accelerate the development and commercialization of new materials and technologies. 401 Tech Bridge was the first in what is now a national network of Tech Bridge centers created by the U.S. Navy to promote collaboration in the development of new technologies that can be used for both military and civilian purposes.

The credits would be provided in connection with the Sponsor’s proposed investment in a new Nanomaterials Center of Excellence, to be located in 17,000 square feet of flex space in an existing building in Portsmouth, Rhode Island. Among other activities, this new facility would support 401 Tech Bridge’s collaboration with Graphene Composites USA, the U.S. subsidiary of a U.K. company that has developed a new graphene-silver composite called GC Ink™ that has proven effective in killing the Influenza A virus, and that GC USA plans to test for use against the COVID-19 virus. The Center would provide space for research and development, pilot manufacturing activity, and collaboration with other Rhode Island firms engaged in the development of new applications of GC Ink™ technology.

The Sponsor estimates the total cost of the project to be \$6.6 million. The Sponsor is requesting \$1.0 million in Rebuild Rhode Island tax credits, as well as a First Wave grant of \$500,000. First Wave funds would be used to purchase a Haydale plasma reactor, a specialized tool required for use of graphene in a variety of applications.

This analysis was prepared by Appleseed, a consulting firm with more than twenty years’ experience in economic impact analysis.

Jobs Analysis

Construction

As shown below in Table 1, the Sponsor’s estimate of total project cost is approximately \$6.6 million.

Table 1: Estimated total project cost (\$ millions)

Component	Estimated cost
Architecture and engineering	\$0.01
Construction	2.61
Equipment and furniture	3.98
Total	\$6.60

Using IMPLAN – a modeling tool commonly used in economic impact studies – Appleseed estimates that direct expenditures of \$6.6 million will directly and indirectly generate:

- 20 person-years⁷ of work in Rhode Island, with \$1.40 million in earnings (in 2021 dollars);
- Approximately \$3.61 million in statewide economic output⁸; and
- A one-time increase of \$1.98 million in Rhode Island's GDP.

These impacts are summarized below in Table 2. The project's *direct impact* is the impact of the company's direct spending on design and construction. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

Table 2: Direct, indirect and induced impact of construction and related spending (employment in person-years; income, value-added and output in millions of 2021 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	16	\$1.15	\$1.55	\$2.84
Indirect Effect	4	0.25	0.43	0.77
Total Effect	20	\$1.40	\$1.98	\$3.61

The activity reflected in Table 2 will occur from the spring of 2021 through the spring of 2022.

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$6.60 million would generate a projected one-time increase of approximately \$80,500 in taxes paid to the State during construction, including:

- \$52,400 in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project
- \$21,500 in state sales taxes paid by these workers on taxable household spending
- \$6,600 in state business taxes

The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of May 2018.

⁷ A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years. In this case, 292 person-years would equate to an average of 146 full-time-equivalent jobs in construction and related industries each year for two years.

⁸ Output is a measure of the total sales by Rhode Island companies (including the "sale" of labor by Rhode Island households) generated by the project.

Table 3: Anticipated wages during construction

Occupation	RI median hourly wage⁹
Architect	\$37.59
Construction manager	\$54.75
Carpenter	\$22.68
Electrician	\$28.40
Plumber	\$27.71
Painter	\$19.92
Laborer	\$21.25

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

Annual operations

The office, research and manufacturing space and equipment developed in Plymouth and Kingston are assumed to be occupied and in use by mid-2022. While the precise number and characteristics of those who will be working at the Nanomaterials Center of Excellence have not yet been determined, we assume for purposes of this analysis that in accord with the minimum requirements of First Wave program, 25 people will be engaged in the Center's work, including a mix of scientific research, manufacturing and administrative workers.

Using IMPLAN, Appleseed estimates (Table 4) that in 2022, the Center's ongoing operations would directly and indirectly support:

- 41 jobs in Rhode Island, with approximately \$2.89 million in annual earnings (in 2022 dollars);
- \$9.97 million in annual statewide economic output; and
- An increase of \$4.52 million in Rhode Island's annual GDP.

Table 4: Direct, indirect and total impact of ongoing operations, 2022 (employment in jobs; earnings, value-added and output in millions of 2022 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	25	\$1.91	\$2.95	\$6.98
Indirect Effect	16	0.98	1.57	2.99
Total Effect	41	\$2.89	\$4.52	\$9.97

⁹ Median wages cited in Table 3 are from Rhode Island Department of Labor and Training, Occupational Employment Statistics, May 2018, except for plumbers, which are from May 2017

In addition to the impacts on employment, earnings, output and state GDP cited in Table 4, ongoing operations on Parcel 6 would generate a projected gross increase of approximately \$161,300 in taxes paid to the state in 2023, including:

- \$108,400 in state personal income taxes paid by Rhode Island workers employed in building and tenant business operations at Parcel 6, or whose jobs are indirectly attributable to operations at the site
- \$44,500 in state sales taxes paid on those workers' taxable household spending;
- \$8,400 in state business taxes

Workers employed by the Center, GC USA and other partners would be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

Impact

The state fiscal impact of the requested tax credits and sales tax exemption will be approximately \$1.0 million in forgone state tax revenue. Direct and indirect economic and fiscal benefits of the proposed project include an estimated increase in annual state GDP (in 2022 dollars) of approximately \$4.52 million; the associated job creation; and a cumulative gross increase of approximately \$2.02 million in state personal income, sales and business tax revenues directly and indirectly generated by the project during the construction phase, and by ongoing operations during the twelve years after completion of the project.

In addition to the economic and tax revenue impacts cited above, the proposed project would benefit Rhode Island in several other ways:

- By helping to seed the creation of a cluster of Rhode Island firms engaged in the development and commercialization of new applications of GC USA's GC Ink™ technology.
- By highlighting Rhode Island's attractiveness as a location for other companies engaged in the development and use of new nanomaterials.
- By providing students at URI and other Rhode Island institutions with opportunities to connect with innovative companies in this sector.

Beyond the fiscal impact noted above, the state's financial exposure will be limited. Various features of the Rebuild Rhode Island program mitigate other risks to the state. In particular, the completion risk (i.e., the risk that the project is not completed) is mitigated by the fact that the tax credits will be issued only upon completion of the development. The risk of project cost overruns is mitigated by the fact that the credits capped at the amount set forth above. In addition, if project costs come in lower than anticipated, the value of the credits will be reduced accordingly.

**Rhode Island Commerce Corporation
Streamline Rebuild Rhode Island – Economic Impact Analysis
16 Broad Street Application**

Economic and tax revenue impacts of redevelopment of 16 Broad Street, Westerly

Impact of construction

- 8 person-years of work in Rhode Island;
- \$529,000 in earnings (in 2021 dollars);
- \$1.068 million in statewide economic output; and
- A one-time increase of \$736,000 in Rhode Island’s GDP.

Table 1: Direct, indirect and total impact of construction (income, value-added and output in thousands of 2021 dollars)

	Jobs	Earnings	Value added	Output
Direct	7	\$0.462	\$0.625	\$0.867
Indirect	1	0.067	0.111	0.201
Total	8	\$0.529	\$0.736	\$1.068

Construction spending would directly and indirectly generate approximately \$30,500 in state tax revenue, including:

- \$19,800 in state personal income taxes paid by workers directly employed on the project, or by Rhode Island workers whose jobs are indirectly attributable to the project;
- \$8,200 in state sales taxes paid on those workers’ taxable household spending; and
- \$2,500 in state business taxes.

Impact of operations

- 6 jobs in Rhode Island;
- \$210,400 in earnings (in 2022 dollars);
- \$504,700 in statewide economic output; and
- An increase of \$295,700 in Rhode Island’s annual GDP.

Table 2: Direct, indirect and total impact of ongoing operations (income, value-added and output in 2022 dollars)¹⁰

	Jobs	Earnings	Value added	Output
Direct	5	\$166,600	\$218,300	\$354,300

¹⁰ Direct impacts include both the operations of first-floor retail tenants and building operations and management.

Indirect	1	43,800	77,400	150,400
Total	6	210,400	\$295,700	\$504,700

Ongoing operations would directly and indirectly generate approximately \$36,900 annually in state tax revenue, including:

- \$24,800 in state sales taxes on first-floor retail sales;
- \$7,900 in state personal income taxes paid by workers directly employed by retail tenant or in management and operations of the property, or by Rhode Island workers whose jobs are indirectly attributable to those operations;
- \$3,200 in state sales taxes paid on those workers' taxable household spending; and
- \$1,000 in state business taxes.

During the construction period and the twelve-year period following construction, the proposed project would generate approximately \$473,300 in state tax revenues.

**Rhode Island Commerce Corporation
Rebuild Rhode Island – Economic Impact Analysis
JK Equities LLC Application**

Introduction

The Rhode Island Commerce Corporation (the “Corporation”) may provide Rebuild Rhode Island tax credits to JK Equities LLC (the “Sponsor”). The credits would be provided in connection with the Sponsor’s proposed investment in the development of a new 160,000 square-foot, high-bay distribution center on Moshassuck Street in Pawtucket. The new facility is expected to be leased to a tenant who would use it to provide “last mile” delivery service to customers in Rhode Island and eastern Massachusetts.

The Sponsor estimates the total cost of the project to be \$20.1 million. The Sponsor is requesting approximately \$3.15 million in Rebuild Rhode Island tax credits; and an exemption from state sales and use taxes on materials used in construction, with an estimated value of approximately \$383,000. (The value of the requested tax credit would be reduced by the value of the sales and use tax exemption.)

This analysis was prepared by Appleseed, a consulting firm with twenty-five years’ experience in economic impact analysis.

Jobs Analysis

Construction

As shown in Table 1, the Sponsor’s estimate of total project cost is approximately \$20.1 million. After excluding certain expenditures that do not have a direct, current impact on Rhode Island’s economy (such property acquisition and interest paid during construction), spending on development of the proposed project is estimated to total approximately \$15.8 million.

Table 1: Estimated total project cost (\$ millions)

Component	Estimated cost
Site acquisition	\$3.8
Construction – hard costs	\$12.8
Construction – soft costs	\$3.1
Financing	\$0.4
Total	\$20.1

Using IMPLAN – a modeling tool commonly used in economic impact studies – Appleseed estimates that direct expenditures of \$15.8 million will directly and indirectly generate:

- 136 person-years¹¹ of work in Rhode Island, with \$8.49 million in earnings (in 2021 dollars);

¹¹ A person-year is equivalent to the time worked by one person who is employed full-time for a year. It could represent the work of two people who are each employed full-time for six months; or the work of one person who is employed half-time for two years. In this case, 292 person-years would equate to an average of 146 full-time-equivalent jobs in construction and related industries each year for two years.

- Approximately \$20.51 million in statewide economic output¹²; and
- A one-time increase of \$11.07 million in Rhode Island's GDP.

These impacts are summarized below in Table 2. The project's *direct impact* is the impact of the company's direct spending on design and construction. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

Table 2: Direct, indirect and induced impact of construction and related spending (employment in person-years; income, value-added and output in millions of 2021 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	112	\$7.00	\$8.54	\$15.82
Indirect Effect	24	\$1.49	\$2.53	\$4.69
Total Effect	136	\$8.49	\$11.07	\$20.51

The activity reflected in Table 2 will occur from the first quarter of 2021 through the first quarter of 2022.

In addition to the impacts on employment, earnings, output and state GDP cited in Table 2, direct spending of \$15.8 million would generate a projected one-time increase of approximately \$490,000 in taxes paid to the State during construction, including:

- \$319,000 in state personal income taxes paid by Rhode Island workers employed on the project, or whose jobs are indirectly attributable to the project
- \$131,000 in state sales taxes paid by these workers on taxable household spending
- \$40,000 in state business taxes

The anticipated wage rates for construction jobs are shown below in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of May 2018.

Table 3: Anticipated wages during construction

Occupation	RI median hourly wage ¹³
Architect	\$37.59
Construction manager	\$54.75
Carpenter	\$22.68
Electrician	\$28.40
Plumber	\$27.71
Painter	\$19.92
Laborer	\$21.25

¹² Output is a measure of the total sales by Rhode Island companies (including the "sale" of labor by Rhode Island households) generated by the project.

¹³ Median wages cited in Table 3 are from Rhode Island Department of Labor and Training, Occupational Employment Statistics, May 2018, except for plumbers, which are from May 2017

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

Annual operations

The proposed new distribution center is expected to be fully operational in the spring of 2022. The Sponsor estimates that 130 workers will be employed in the facility’s internal operations, and that 250 as delivery drivers.

Using IMPLAN, Appleseed estimates (Table 4) that in 2022, ongoing distribution center and delivery operations would directly and indirectly support:

- 537 jobs in Rhode Island, with approximately \$35.20 million in annual earnings (in 2022 dollars);
- \$90.18 million in annual statewide economic output; and
- An increase of \$46.06 million in Rhode Island’s annual GDP.

Table 4: Direct, indirect and total incremental impact of distribution center and delivery operations, 2022 (employment in jobs; earnings, value-added and output in millions of 2022 dollars)

	Employment	Earnings	Value added	Output
Direct Effect	380	\$25.98	\$30.24	\$61.82
Indirect Effect	157	9.22	15.82	28.36
Total Effect	537	\$35.20	\$46.06	\$90.18

In addition to the impacts on employment, earnings, output and state GDP cited in Table 4, ongoing distribution and delivery operations would generate a projected gross increase of approximately \$2.029 million in taxes paid to the state in 2022, including:

- \$1.320 million in state personal income taxes paid by Rhode Island workers employed in distribution and delivery operations, or whose jobs are indirectly attributable to these operations
- \$542,000 in state sales taxes paid on those workers’ taxable household spending;
- \$167,000 in state business taxes

Workers employed in distribution and delivery operations are expected to be drawn primarily from the Providence-Warwick RI-MA New England City and Town Area (NECTA).

Impact

The state fiscal impact of the requested tax credits and sales tax exemption will be approximately \$3.15 million in forgone state tax revenue. Direct and indirect economic and fiscal benefits of the proposed project include an estimated increase in annual state GDP (in 2022 dollars) of approximately \$90.2 million; the associated job creation; and a cumulative gross increase of approximately \$24.84 million in state personal

income, sales and business tax revenues directly and indirectly generated by the project during the construction phase, and by ongoing operations during the twelve years after completion of the project.

In addition to the economic and tax revenue impacts cited above, the proposed project would benefit Rhode Island in several other ways:

- By highlighting Rhode Island's attractiveness as a location for regional distribution facilities
- By reactivating a 10-acre industrial property that has been vacant for six years.
- By adding to the local property tax base

Beyond the fiscal impact noted above, the state's financial exposure will be limited. Various features of the Rebuild Rhode Island program mitigate other risks to the state. In particular, the completion risk (i.e., the risk that the project is not completed) is mitigated by the fact that the tax credits will be issued only upon completion of the development. The risk of project cost overruns is mitigated by the fact that the credits capped at the amount set forth above. In addition, if project costs come in lower than anticipated, the value of the credits will be reduced accordingly.

**Rhode Island Commerce Corporation
Tidewater Landing & Division Street Development
Net New Economic and Fiscal Impact Analysis**

Introduction

In April 2019, Fortuitous Partners (“Fortuitous”) submitted a proposal to the Rhode Island Commerce Corporation (the “Corporation”) and the City of Pawtucket (the “City”) to redevelop property along the riverfront in downtown Pawtucket. The proposal includes a Master Plan to redevelop two sites at Tidewater and Division Street with a mixed-use district¹⁴ anchored by a United Soccer League Championship (“USLC”) stadium and indoor event center¹⁵.

The project would be developed across two phases¹⁶ and include:

Phase 1:

- A 7,500-seat USLC stadium
- 60,000 square feet of new office space
- 56,750 square feet of retail and restaurant space
- 435 residential units
- One parking garage with a total of 750 spaces, plus 150 spaces below the residential building at Division Street
- Infrastructure and public space improvements (utility and stormwater improvements, roadway and streetscape improvements, off-site infrastructure improvements, Riverwalk)

Phase 2:

- A 139,500 square-foot indoor events center
- A 120-room hotel
- Infrastructure and public space improvements (pedestrian bridge, Riverwalk, roadway and streetscape improvements)

Fortuitous’ proposal to the Corporation and City included a preliminary project budget, financial operating projections and economic and fiscal impacts estimated to be generated by the proposed development. To assist in evaluating the proposal, the Corporation and City engaged Conventions, Sports & Leisure International (“CSL”) to analyze the information submitted. As part of the analysis, CSL reviewed the Fortuitous Master Plan, evaluated project costs, estimated utilization and projected financial operations related to the stadium and event center and analyzed the net new benefits estimated to be generated to the public for reasonableness. As a point of comparison to the net new benefits included in Fortuitous’ proposal, CSL developed an estimate of the quantifiable benefits of the proposed development based on historical operations of comparable USLC teams, industry data, information

¹⁴ A feasibility study for the mixed-use businesses has not been completed to date.

¹⁵ A feasibility study for the indoor event center has not been completed to date.

¹⁶ Proposed development project budget and operating model submitted by Fortuitous, November 2020.

from Fortuitous and Hunden Strategic Partners (“HSP”)¹⁷, the use of IMPLAN multipliers¹⁸ and CSL’s experience in quantifying the economic and fiscal impacts of similar projects.

This analysis summarizes the estimated economic impacts associated with Phase 1 of the development. Fortuitous estimates the total cost of Phase 1 to be \$246.4 million and is requesting \$41.5 million in public funds toward the project, constituting 17 percent of Phase 1 project costs. The requested public funds would provide \$4.5 million for the office and \$37.0 million for infrastructure, parking and other improvements.

Methodology

Overview of Economic Impacts

Typically, and for purposes of this analysis, quantifiable effects are characterized in terms of economic impacts and fiscal impacts. Economic impacts are conveyed through measures of direct spending, total output, personal earnings, and employment, while fiscal impacts denote changes in tax revenues.

Each of the measures of economic impact is further described below:

DIRECT SPENDING represents spending generated by facility and business operations, including:

- In-Stadium operations and expenditures by patrons and event personnel on admissions, food and beverage, merchandise, etc.;
- Mixed-use business operations;
- Out-of-Stadium spending by patrons, visiting teams and event personnel on hotels, food and beverage, retail, transportation, entertainment and other such expenditures; and,
- Out-of-District spending by district office employees and residents.

TOTAL OUTPUT represents the total **direct, indirect, and induced spending** effects generated by the Pawtucket Riverfront Redevelopment Project. **Indirect** spending consists of the re-spending of the initial direct spending, and **induced** spending effects consists of the positive changes in spending, employment, earnings, and tax collections generated by personal income associated with the operations of the proposed development. *Economic impacts were estimated utilizing multipliers from the IMPLAN system which is an industry leading resource used by various government entities, universities, and private companies.*

PERSONAL EARNINGS represent the wages and salaries earned by employees of businesses impacted by the operations of the Pawtucket Riverfront Redevelopment Project.

EMPLOYMENT is expressed in terms of person years of employment and is based on project spending. Person years are defined as one year of employment, or 2,080 annual hours, and may be full- or part-time.

The ongoing operations of the Pawtucket Riverfront Redevelopment Project would impact the local economy in a variety of ways. As outlined in the following graphic, **GROSS DIRECT SPENDING** is generated during construction on

¹⁷ CSL relied on the mixed-use businesses operating model (office, restaurant/retail, residential and hotel) submitted by Fortuitous, November 2020.

¹⁸ The IMPLAN system is an industry leading resource used by various government entities, universities, and private companies.

materials, supplies, and labor; and annual operations on tickets, concessions, sponsorships, business operations, etc., as well as before and after events at local hotels, restaurants, retail, and other such establishments.

To estimate the incremental economic impact benefits generated to the local economy from these **SPENDING** sources, certain **ADJUSTMENTS** must be made to gross direct spending to reflect the fact that all spending is not likely to impact the local economy. The following graphic also summarizes the adjustments made to gross direct spending in order to determine **NET NEW DIRECT SPENDING** impacting the local economy.

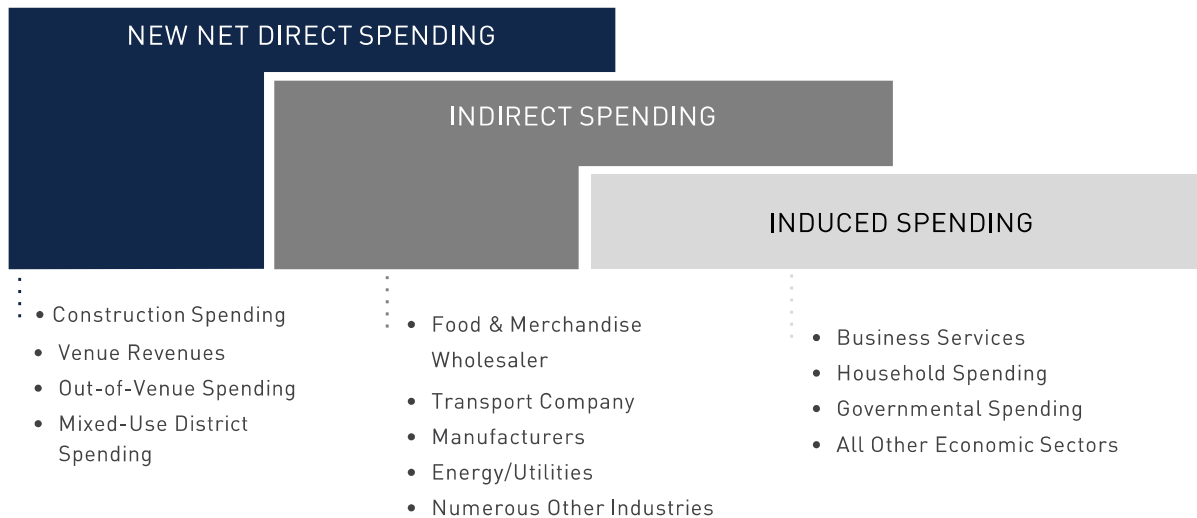

Adjustments must be made to account for the fact that a certain amount of spending associated with the Pawtucket Riverfront Redevelopment Project will be made by local residents and, therefore, likely represents money that could already be spent in the economy in another form. This is called **displacement** and reduces the overall net new impacts. This type of spending is not considered net new to the local economy.

Additionally, not all spending associated with the proposed development would take place in the local economy. A portion of this spending is likely to occur outside the immediate area. This is called **leakage** and similarly reduces the overall impact. The economic impacts presented herein are derived specifically from the net new direct spending estimated to be associated with proposed facility and business operations.

Multiplier Effects

Economic impacts associated with proposed development operations would be further increased through re-spending of the net new direct spending. The total impact is estimated by applying an economic multiplier to initial direct spending to account for the total economic impact. The total output multiplier is used to estimate the aggregate total spending that takes place beginning with the direct spending and continuing through each successive round of re-spending.

Successive rounds of re-spending are generally discussed in terms of their indirect and induced effects on the surrounding economy, as illustrated below.

INDIRECT EFFECTS consist of the re-spending of the initial or direct net new expenditures. These indirect impacts extend further as the dollars constituting the direct expenditures continue to change hands. This process, in principle, could continue indefinitely. However, recipients of these expenditures may spend all or part of it on goods and services outside the market area, put part of these earnings into savings, or use them to pay taxes. This spending halts the process of subsequent expenditure flows and does not generate additional spending or impact within the community after a period of time. This progression is termed **leakage** and reduces the overall economic impact. Indirect impacts occur in a number of areas including the following:

- wholesale industry as purchases of food and merchandise products are made;
- transportation industry as the products are shipped from purchaser to buyer;
- manufacturing industry as products used to service the facility, businesses, vendors, and others are produced;
- utility industry as the power to produce goods and services is consumed; and,
- other such industries.
-

INDUCED EFFECTS consist of the positive changes in spending, employment, earnings and tax collections generated by personal income associated with the operations of the facility and businesses. Specifically, as the economic impact process continues, wages and salaries are earned, increased employment and population are generated, and

spending occurs in virtually all business, household and governmental sectors. This represents the induced spending impacts generated by direct expenditures.

The appropriate multipliers to be used are dependent upon certain regional characteristics and also the nature of the expenditure. An area that is capable of producing a wide range of goods and services within its border will have high multipliers, resulting from an existing positive correlation between the self-sufficiency of an area's economy and the higher probability of re-spending occurring within the region. If a high proportion of the expenditures must be imported from another geographical region, lower multipliers will result.

As an example, say John attends a USLC soccer home game. Before the game, John goes to dinner at a restaurant in downtown Pawtucket. John's spending at the restaurant is **defined as direct spending**. The restaurant John eats at uses that money (and the money spent by those similar to John) to purchase meat, produce and other supplies from a local supplier. The restaurant's spending is **defined as indirect spending**. The local supplier uses the money spent by the restaurant to pay its employees, who then turn around and spend money in the local area on goods and services. The spending by the suppliers' employees is defined as **induced spending**.

Thus, if John had spent \$1.00 directly at the restaurant, that \$1.00 is then multiplied by 1.85 to arrive at \$1.85 of Total Output. In other words, \$1.00 of Direct Spending on food and beverage generates an additional 85 cents of re-spend in the State of Rhode Island.

Tax Revenue Impacts

In addition to the economic impacts generated by the Pawtucket Riverfront Redevelopment Project throughout the local market area, the public sector also benefits from increased tax revenues. In preparing estimates of tax revenue impacts, total tax revenues attributable to the direct spending generated by the proposed development were estimated. In addition, estimates of the effect of total output and earnings on the tax collections have been estimated. Tax revenues are based on the current applicable tax rates. Future changes in these rates would have an impact on the resulting tax collections. The sources of tax revenue focused on in this analysis include:

STATE OF RHODE ISLAND:

- Sales Tax – 7.00%
- Hotel Tax – 5.00%
- F&B Tax – 7.00%
- Corporate Income Tax – 7.00%
- Personal Income Tax – 4.00%

Quantitative Economic & Tax Revenue Impact Analysis

Key Assumptions

The following is a list of key data points and assumptions used to estimate the economic and tax revenue impacts associated with the construction and operations of the Pawtucket Riverfront Redevelopment Project.

- Project costs are estimated to total \$246.4 million throughout construction Phase 1 from early 2021 to 2023.
- The new USLC stadium will host 36 events with paid attendance of approximately 184,000 in a stabilized year of operations (2026), including 20 USLC home matches.
- Based on industry data, 50 percent of stadium attendees are assumed to live outside the State of Rhode Island.
- Spending by visitors for events at the stadium consists of in-facility spending on tickets, concessions, merchandise and parking, as well as out-of-facility spending on hotels, restaurants, shopping, transit, entertainment, services and other such expenditures. Per capita out-of-stadium spending by visitors is estimated to total the following (2026 dollars):
 - In-State Day Trippers: \$10.50
 - Out-of-State Day Trippers: \$14.75
 - Out-of-State Overnighters: \$255.50
- The retail and restaurant space will have a 10 percent vacancy rate and generate \$472 in sales per square foot by a stabilized year of operations (2026)¹⁹.
- The office space will garner a lease rate of \$42.50 by a stabilized year of operations (2026)⁶.
- Out-of-district spending by office employees is estimated based on *International Council of Shopping Centers Office-Worker Retail Spending in a Digital Age* report. The residential buildings will have an eight percent vacancy rate and achieve a lease rate of \$2.40 per square foot by a stabilized year of operations (2026)⁶.
- Ancillary resident spending is based on spending data from the National Association of Home Builders *The Economic Impact of Home Building in a Typical Local Area* report.
- Net new adjustments were applied to each category of spending to account for displacement (estimated amount of spending that would have been spent in the State regardless of the proposed development) and leakage (estimated amount of spending that takes place outside of the State).

¹⁹ CSL relied on the mixed-use businesses operating model (office, restaurant/retail, residential and hotel) submitted by Fortuitous, November 2020.

One-Time Construction Impacts

As shown in Table 1, Fortuitous’s estimate of total Phase 1 project cost is approximately \$246.4 million.

Table 1: Estimated Total Phase 1 Project Cost

Component	Estimated cost
Construction – hard costs	\$204,207,000
Construction – soft costs	\$42,183,000
Total	\$246,390,000

It is assumed that after accounting for contractor profits (assumed at 10 percent of total project cost), 60 percent of the project budget would be spent on materials and 40 percent on labor. Based on industry data, it is assumed that 60 percent of materials spending would occur within the State and 75 percent of labor expenditures would take place in the State.

The one-time net new economic impacts estimated to be associated with the construction of a new USLC stadium and ancillary development include:

- \$140.3 million in direct spending in the State;
- \$231.3 million in total output; and,
- 1,550 full and part-time jobs and that create approximately \$95.1 million in personal earnings.

These impacts are summarized on the following in Table 2. The project’s *direct impact* is the impact of the company’s direct spending on design and construction. Its *indirect impact* is the effect of spending by contractors for goods and services (insurance, construction materials, etc.) purchased from other Rhode Island businesses.

Table 2: Summary of One-Time Phase 1 Construction Impacts

Impact on:	Direct	Indirect & Induced	Total
Jobs (FTEs)	930	620	1,550
Personal Earnings	\$62,043,000	\$33,104,000	\$95,146,000
Total Output	\$140,282,000	\$90,986,000	\$231,267,000

The activity reflected in Table 2 is estimated to occur from early 2021 through 2023.

The anticipated wage rates for construction jobs are shown on the following page in Table 3. Anticipated wage rates are the median hourly wage for these occupations in Rhode Island, as of 2019.

Table 3: Anticipated Wages During Construction

Occupation	RI median hourly wage ²⁰
Architect	\$36.33
Construction manager	\$52.71
Carpenter	\$23.40
Electrician	\$28.06
Plumber	\$24.13
Painter	\$21.68
Laborer	\$24.30

Fringe benefits associated with these jobs are expected to be in accordance with industry norms, with the cost of such benefits generally ranging between 22 and 28 percent of wages. Workers who fill these jobs are expected to be drawn primarily from the State.

Annual Recurring Impacts

In-District Spending

Phase 1 facilities and business are anticipated to begin operating in 2023, reaching a stabilized year of operations by Year 4 (2026). The following table summarizes the annual spending and resulting impacts estimated to be generated from the ongoing operations of the Pawtucket Riverfront Redevelopment Project stadium and businesses.

Table 4: Summary of Annual Recurring Economic Impacts Generated On-Site by the Pawtucket Riverfront Redevelopment Project Phase 1, 2026

Impact on:	Direct	Indirect & Induced	Total
Jobs (FTEs)	538	91	629
Personal Earnings	\$34,179,000	\$5,171,000	\$39,350,000
Total Output	\$17,707,005	\$14,778,000	\$32,485,005

As outlined in the key assumptions, in-district spending consists of in-facility spending by patrons of the stadium on items such as admissions, concessions, merchandise and parking, as well as mixed-use business operations. Table 4 summarizes the net new economic impact to the State from in-district spending estimated to occur within the proposed stadium and businesses annually:

- \$17.7 million in net new direct spending;
- \$32.5 million in total output;
- 629 full and part-time jobs (FTEs); and,
- \$39.4 million in annual personal earnings.

²⁰ Median wages cited in Table 3 are from Rhode Island Department of Labor and Training, Occupational Employment Statistics, 2019

Out-of-District Spending

In addition to the operations of the proposed stadium and businesses, the Rhode Island economy will benefit from the out-of-district spending generated as a result of the Pawtucket Riverfront Redevelopment Project. Out-of-district spending includes all spending by visiting teams and spectators to the new USLC stadium, as well as office workers employed on-site and residents living in the apartment buildings.

As shown below in Table 5, it is estimated that in 2026 out-of-district spending will directly and indirectly support:

- \$5.7 million in net new direct spending;
- \$10.6 million in total output;
- 131 full and part-time jobs; and,
- \$4.8 million in annual earnings.

Table 5: Summary of Annual Recurring Economic Impacts Generated Off-Site by the Pawtucket Riverfront Redevelopment Project Phase 1, 2026

Impact on:	Direct	Indirect & Induced	Total
Jobs (FTEs)	101	31	131
Personal Earnings	\$3,114,000	\$1,713,000	\$4,827,000
Total Output	\$5,709,000	\$4,848,000	\$10,557,000

Impact on State Tax Revenues

The proposed project would generate state tax revenues through spending on construction, through the operations of proposed stadium and businesses, and through out-of-district spending by those patronizing the new USLC stadium and mixed-use businesses. The following table provides a summary of the net new fiscal impacts estimated to be generate to the State on an annual basis by type.

Table 6: Summary of Fiscal Impacts of Construction and Phase 1 Annual Operations Net New to the State, 2026

Impact on:	Direct	Indirect & Induced	Total
Construction Impacts:			
Sales Tax	\$4,631,000	\$2,123,000	\$6,754,000
Personal Income Tax	\$2,205,000	\$883,000	\$3,088,000
Corporate Income Tax	\$1,294,000	--	\$1,294,000
Total	\$8,130,000	\$3,006,000	\$11,136,000

In-District Annual Operations Impacts:

Sales Tax	\$191,000	\$200,000	\$391,000
Hotel Tax	--	--	\$0
F&B Tax	\$648,000	--	\$648,000
Corporate Income Tax	\$504,000	--	\$504,000
Personal Income Tax	\$879,000	\$80,000	\$959,000
Total	\$2,222,000	\$280,000	\$2,502,000

Out-of-District Annual Operations Impacts:

Sales Tax	\$199,000	\$69,000	\$268,000
Hotel Tax	\$25,000	--	\$25,000
F&B Tax	\$87,000	--	\$87,000
Corporate Income Tax	--	--	--
Personal Income Tax	\$99,000	\$28,000	\$127,000
Total	\$410,000	\$97,000	\$507,000

Overall, it is estimated that construction of the new USLC stadium and mixed-use businesses could generate approximately \$11.1 million to the State of Rhode Island. On an annual basis, the operations of the facility and businesses could generate approximately \$2.5 million from in-district activities and \$507,000 from out-of-district activities to the State in 2026.

Non-Quantifiable Impact

In addition to the more quantifiable benefits, some benefits related to the construction and operations of a new USLC stadium and mixed-use businesses on the riverfront in Pawtucket cannot be quantifiably measured. Potential qualitative benefits for the State of Rhode Island include:

- Enhanced activity across two underutilized sites on the riverfront in Pawtucket;
- Modern facility for a new USLC soccer team;
- Enhanced spectator event opportunities for citizens of the State of Rhode Island;
- Enhanced community pride, self-image, exposure and reputation;
- Increased opportunities for charitable programs and community outreach;
- New advertising/sponsorship opportunities for local area businesses;
- Enhanced economic growth and ancillary private sector development;
- Increased supply of office space in the City of Pawtucket;
- Increased supply of apartment units; and,
- Other such benefits.

**Rhode Island Commerce Corporation
Rebuild – Economic Impact Analysis
Arctic Mill Application**

Economic and tax revenue impacts of redevelopment of Arctic Mills, West Warwick

Impact of construction

As shown in Table 1, redevelopment of Arctic Mills will directly and indirectly support:

- 271 person-years of work in Rhode Island, with \$16.8 million in earnings (in 2022 dollars);
- \$36.65 million in statewide economic output; and
- A one-time increase of \$24.39 million in Rhode Island’s GDP.

Table 1: Direct, indirect and total impact of construction (income, value-added and output in millions of 2022 dollars)

	Jobs	Earnings	Value added	Output
Direct	225	\$14.36	\$20.19	\$28.90
Indirect	46	\$2.48	\$4.20	\$7.75
Total	271	\$16.84	\$24.39	\$36.65

Construction spending would directly and indirectly generate approximately \$1.197 million in state tax revenue, including:

- \$477,000 state sales and use taxes paid on materials used in construction;
- \$409,000 in state personal income taxes paid by workers directly employed on the project, or by Rhode Island workers whose jobs are indirectly attributable to the project;
- \$259,000 in state sales taxes paid on those workers’ taxable household spending; and
- \$52,000 in state business taxes.

Impact of operations²¹

In its first fully stabilized year (assumed here to be 2023), operations at Arctic Mills would directly and indirectly account for:

- 78 jobs in Rhode Island, with \$2.91 million in earnings (in 2023 dollars);
- \$6.68 million in statewide economic output; and
- An increase of \$4.02 million in Rhode Island’s annual GDP.

²¹ Our analysis of the impact of ongoing operations includes both the impact of a restaurant/ brew pub that would occupy 10,000 square feet of commercial space; and the impact of building management and maintenance, including both workers employed directly and contractors’ employees.

Table 2: Direct, indirect and total impact of ongoing operations (income, value-added and output in millions of 2023 dollars)

	Jobs	Earnings	Value added	Output
Direct	69	\$2.24	\$3.00	\$4.86
Indirect	9	\$0.67	\$1.02	\$1.82
Total	78	\$2.91	\$4.02	\$6.68

Ongoing operations would directly and indirectly generate approximately \$286,000 annually in state tax revenue, including:

- \$140,000 in state sales taxes on restaurant spending;²²
- \$90,000 in state personal income taxes paid by workers directly employed by tenant businesses or in management and maintenance of the property, or by Rhode Island workers whose jobs are indirectly attributable to those operations;
- \$45,000 in state sales taxes paid on those workers' taxable household spending; and
- \$11,000 in state business taxes.

During the construction period and the twelve-year period following construction, the proposed project would generate approximately \$4.629 million in state tax revenues.

²² For purposes of this analysis, we assume that half of all state taxes collected on restaurant sales at Arctic Mills will represent "net new" revenue to the state.

**Rhode Island Commerce Corporation
Rebuild -Economic Impact Analysis
461 Main Street – Application**

Economic and tax revenue impacts of development of 461 Main Street, East Greenwich

Impact of construction

- 43 person-years of work in Rhode Island;
- \$2.73 million in earnings (in 2021 dollars);
- \$5.72 million in statewide economic output; and
- A one-time increase of \$3.73 million in Rhode Island's GDP.

Table 1: Direct, indirect and total impact of construction (income, value-added and output in millions of 2021 dollars)

	Jobs	Earnings	Value added	Output
Direct	37	\$2.37	\$3.13	\$4.63
Indirect	6	\$0.36	\$0.60	\$1.09
Total	43	\$2.73	\$3.73	\$5.72

Construction spending would directly and indirectly generate approximately \$117,000 in state tax revenue, including:

- \$67,000 in state personal income taxes paid by workers directly employed on the project, or by Rhode Island workers whose jobs are indirectly attributable to the project;
- \$42,000 in state sales taxes paid on those workers' taxable household spending; and
- \$8,000 in state business taxes.

Impact of operations²³

- 36 jobs in Rhode Island;
- \$2.18 million in earnings (in 2022 dollars);
- \$4.65 million in statewide economic output; and
- An increase of \$2.80 in Rhode Island's annual GDP.

²³ Our analysis of the impact of ongoing operations includes both the impact of tenant businesses that would occupy 6,800 square feet of commercial space, and the impact of building management and maintenance.

Table 2: Direct, indirect and total impact of ongoing operations (income, value-added and output in millions of 2022 dollars)

	Jobs	Earnings	Value added	Output
Direct	28	\$1.74	\$2.10	\$3.38
Indirect	8	\$0.44	\$0.70	\$1.27
Total	36	\$2.18	\$2.80	\$4.65

Ongoing operations would directly and indirectly generate approximately \$89,000 annually in state tax revenue, including:

- \$50,000 in state personal income taxes paid by workers directly employed by tenant businesses or in management and maintenance of the property, or by Rhode Island workers whose jobs are indirectly attributable to those operations;
- \$33,000 in state sales taxes paid on those workers' taxable household spending; and
- \$6,000 in state business taxes.

During the construction period and the twelve-year period following construction, the proposed project would generate approximately \$1.185 million in state tax revenues.

**Rhode Island Commerce Corporation
Rebuild -Economic Impact Analysis
Wanskuck Mill – Application**

Economic and tax revenue impacts of redevelopment of Wanskuck Mill, Providence

Impact of construction

As shown in Table 1, redevelopment of Wanskuck Mill directly and indirectly supports:

- 300 person-years of work in Rhode Island, with \$19.56 million in earnings (in 2021 dollars);
- \$36.45 million in statewide economic output; and
- A one-time increase of \$26.18 million in Rhode Island’s GDP.

Table 1: Direct, indirect and total impact of construction (income, value-added and output in millions of 2021 dollars)

	Jobs	Earnings	Value added	Output
Direct	266	\$17.66	\$23.05	\$30.94
Indirect	34	\$1.90	\$3.13	\$5.51
Total	300	\$19.56	\$26.18	\$36.45

Construction spending would directly and indirectly generate approximately \$1.479 million in state tax revenue, including:

- \$631,000 state sales and use taxes paid on materials used in construction;
- \$486,000 in state personal income taxes paid by workers directly employed on the project, or by Rhode Island workers whose jobs are indirectly attributable to the project;
- \$301,000 in state sales taxes paid on those workers’ taxable household spending; and
- \$61,000 in state business taxes.

Impact of operations²⁴

In its first fully stabilized year (assumed here to be 2023), operations at Wanskuck Mill would directly and indirectly account for:

- 83 jobs in Rhode Island, with \$2.68 million in earnings (in 2023 dollars);
- \$6.82 million in statewide economic output; and
- An increase of \$3.83 in Rhode Island’s annual GDP.

²⁴ Our analysis of the impact of ongoing operations includes both the impact of tenant businesses that would occupy 20,000 square feet of commercial space, and the impact of building management and maintenance.

Table 2: Direct, indirect and total impact of ongoing operations (income, value-added and output in millions of 2023 dollars)

	Jobs	Earnings	Value added	Output
Direct	73	\$2.09	\$2.78	\$4.79
Indirect	10	\$0.59	\$1.05	\$2.03
Total	83	\$2.68	\$3.83	\$6.82

Ongoing operations would directly and indirectly generate approximately \$262,000 annually in state tax revenue, including:

- \$156,000 in state sales taxes on restaurant and retail purchases;²⁵
- \$58,000 in state personal income taxes paid by workers directly employed by tenant businesses or in management and maintenance of the property, or by Rhode Island workers whose jobs are indirectly attributable to those operations;
- \$42,000 in state sales taxes paid on those workers' taxable household spending; and
- \$6,000 in state business taxes.

During the construction period and the twelve-year period following construction, the proposed project would generate approximately \$4.885 million in state tax revenues.

²⁵ For purposes of this analysis, we assume that half of all state taxes collected on restaurant and retail sales at Wanskuck Mill will represent "net new" revenue to the state.
