2 VISIT ROCHESTER TOTAL SOLAR ECLIPSE GUIDE

TOTAL SOLAR **ECLIPSE 101**

Answers to some of the most frequently asked eclipse questions, including important information on eclipse viewing safety.

What is a total solar eclipse?

A solar eclipse happens when the moon passes between the sun and the earth. blocking some or all of the sun to earth's surface.

How do you safely view an eclipse?

It is important to never look directly at the sun at any time, including during the partial phases of an eclipse. You also should not look into a mirror at a reflected image of the sun.

During the partial phases before and after totality. you must use ISO-certified solar filter glasses, or project the sun's image onto some surface using a pinhole

projector. It is very important to only use solar filter viewers (e.g. eclipse glasses) ISO-certified and purchased through a reputable source. Many eclipse events in the Rochester area include a pair of glasses with ticket purchase, but it is important to have a plan on how you will be safely viewing the

eclipse before you arrive to an event. It is safe to look directly at the sun without viewing equipment during totality (which here in Rochester will last for approximately three minutes and 38 seconds).

When was the last eclipse in Rochester?

Rochester's last total solar eclipse was on January 24. 1925.

When is the next one?

There will not be another total solar eclipse in Rochester until 2144. So it is safe to say, viewing the eclipse here in Rochester is truly a oncein-a-lifetime experience!

CHEERS! ROCHESTER **BREWERIES TEAM UP FOR ECLIPSE BEER SERIES**

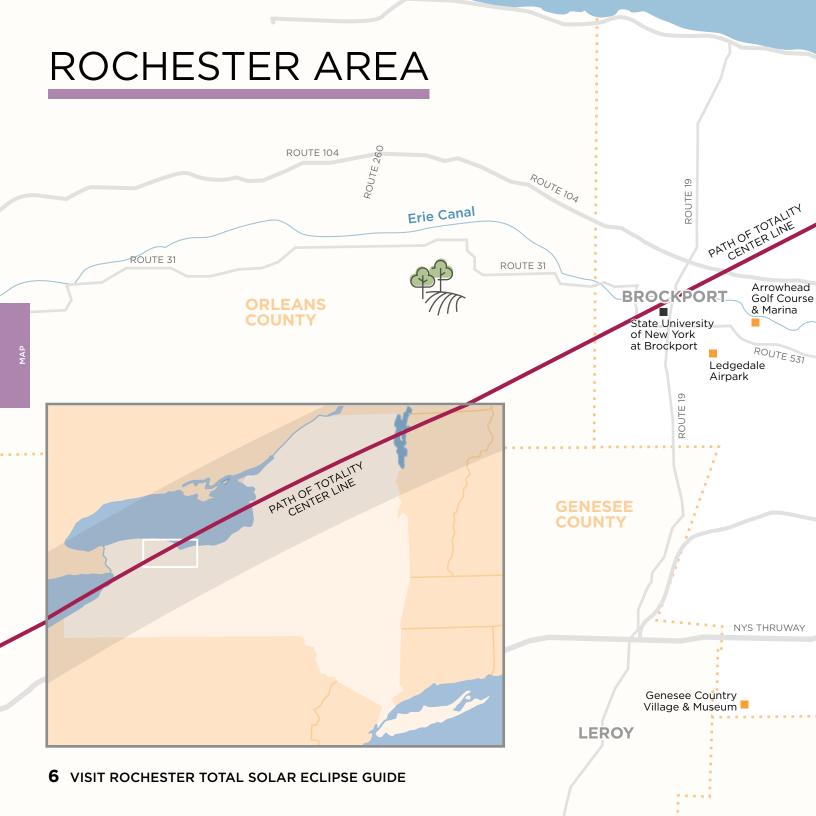

It's no secret that Rochester is a beer town. So, what better way for Rochester to mark the 2024 Total Solar Eclipse than with three of the city's top breweries teaming up for a special eclipse beer series.

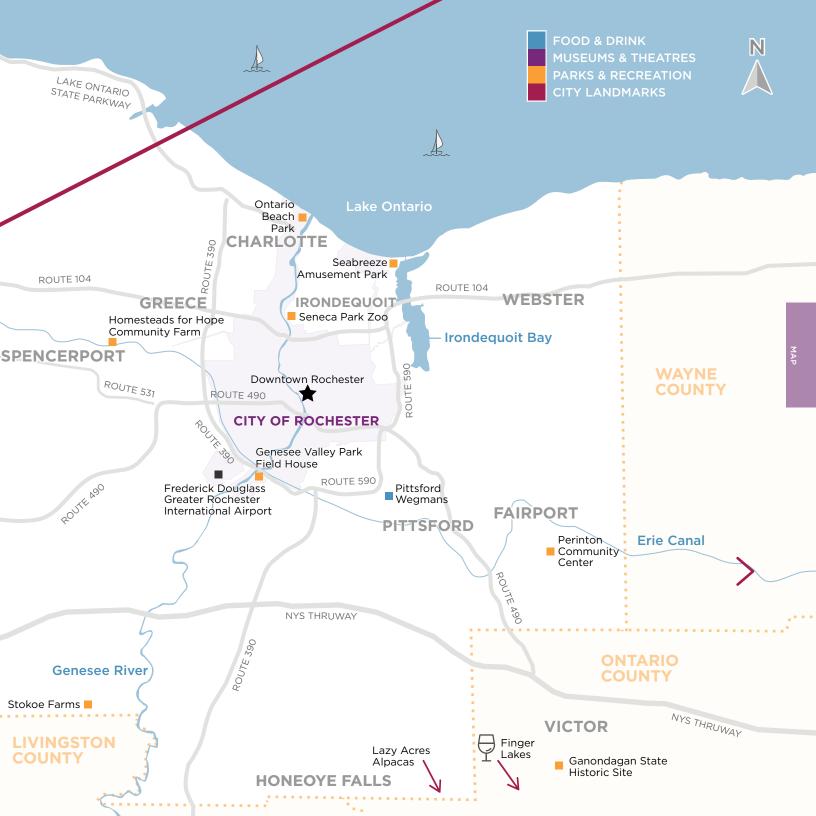

That's exactly what happened when Rohrbach Brewing (Rochester's first craft brewery est. in 1991), approached other Rochester breweries Three Heads and Strangebird Brewing for a celestial collaboration. The end product? A series of three beers crafted iust for the 2024 eclipse: Totality (Rohrbach's, Black Lager), The Lighter Side (Strangebird, Barrel-Lagered Helles) and The Darker Side (Three Heads Brewing, Steam-Style Lager). This unique collaboration explores the phases of a solar eclipse with a "lighter side" helles. "darker side" steam-style lager, and a "totality" black lager.

- All three beers are available at brewery locations and select stores. including Wegmans. Breweries will have some merchandise for purchase such as commemorative glassware and apparel.
- -Rohrbach Brewery Beer Hall (97 Railroad St.) will host an Eclipse Week with all three beers on tap as well as eclipse-inspired food and cocktail specials. The beer hall will be open Wednesday-Saturday (open Monday 2 p.m.-8 p.m. for the eclipse festival at the Rochester Public Market).
