Purpose:

To respond to nonprofit needs and the needs of their participants in response to the COVID-19 pandemic.

Comprised of funders and community leaders who are strategizing and mobilizing the community to assist charitable and faith-based 501(c)(3) organizations faced with service delivery and operational issues.

The team acknowledges that we have much more leverage as a consortium – that collective efforts do more than individual efforts, and coordination will reduce duplication and expedite results.

Two level funding approach:

Level I – **Rapid Response Fund** – responds to the immediate issues of nonprofits organizations to keep critical support services going and meet accelerating needs of the community.

- Natural Disaster Fund of the CFNIL distributed to individuals and families by the City of Rockford Human Resources Department
- Emerging Needs Fund providing support to nonprofit organizations delivering basic needs to vulnerable populations through the United Way of Rock River Valley for 4 county area.

Two level funding approach:

- Level II – **Recovery and Restoration Fund** – will provide assistance with the organizational and sustainability needs of nonprofits adversely effected by the crisis. Funds being generated by convening donors and grantmakers to assist with:
 - Cancellation of programs and events
 - Disruption of services to clients and communities
 - Budgetary implications related to strains on the economy
 - Increased and sustained staff and/or volunteer absences
 - Loss of volunteers

Funds will be available later in the year when safe to return to work and process is in place.
