The Seward Chamber of Commerce is thrilled to announce a new membership level designed specifically for our vibrant arts community. We deeply value the incredible creativity of our local artisans and are proud to offer new opportunities to showcase their work.

As part of the Maker Membership, we're pleased to provide a rotating display space in the Visitor Center Building. This space allows makers to feature and sell their crafts directly to visitors. Please note that only one display space is available at a time and all sales must be self-serve and self-managed.

For full details on how to maximize the benefits of the Maker Membership, please contact our Member & Visitor Services Coordinator, Malia, at membership@seward.com.

We look forward to supporting and celebrating Seward's talented artisan community!
