

## Don't leave your delegates waiting in queues!

See how you can reduce check-in time and improve the attendee experience at your events

### Streamlining the event check-in & badging process to **deliver exceptional delegate experiences**

Integrated into your Eventsforce solution, Eventsforce Kiosk is a self-service badging solution and check-in tool designed to improve the attendee experience and speed up the check-in process. Allow your attendees to quickly check-in using personal details or QR codes, and then print their own badges, making queues a thing of the past. Scalable, secure, with real-time reporting, and ready to go straight out of the box.

## How will Eventsforce Kiosk **help my events?**

#### Speed up the check-in process:

Say goodbye to long queues of frustrated delegates waiting to check-in and collect their badges by letting them check-in quickly and easily via a simple name search or QR code scan. Fully branded badges within seconds and a great first impression of your event.

#### Live Analytics:

See who has checked in and who hasn't, filtered by time, day and attendee category, all in real-time. Share key metrics with stakeholders without them needing to log-in to Eventsforce.

#### Fully integrated with Eventsforce:

Fully compatible with Eventsforce, and the Eventsforce Attendance app for session management, there's no need to separately update your attendance records as this is automatically done at check-in.

#### Safe & Secure:

Keep your data safe and your delegates reassured with secure set-up and access management based on QR codes and pin numbers. Revoke device access to events and event data at any time, useful if an iPad is lost or stolen during an event, for example. Set up new devices in minutes.

1

Register online and receive email confirmation

2

Rapid check-in at the event using a simple name search or QR code

3

Print own badge and enjoy the event

Whether you're running a partner event, stakeholder meeting, or an awards ceremony, **your team can rely on Eventsforce every step of the way.**
