Kylee Corliss shared that Film SLO CAL is hosting a CA Film Commission/FAA Drones Workshop on November 13 to update partners on current regulations for drones and aerial filming. Corliss mentioned that she will be attending the AFM and COLA film industry events this fall. Corliss updated the Committee on current film stats for Film SLO CAL.

Burnham reviewed press hits and the group media FAM VSC hosted throughout the county. Upcoming opportunities include Turner Public Relations' immersion trip and a visit from Afar. Carson updated the Committee about the ongoing Clymb partnership and Highway 1 co-op, upcoming blog posts and website stats.

Cuming asked for a representative from the SLO County Regional Airport to come to the VSC Marketing Committee meeting when the RFP for ad opportunities in the new terminal is ready.

6. Marketing Discussions

6a. Final WebDAM Discussion: Burnham noted that VSC is vetting Barberstock as its new asset management system and that the largest change is VSC would have sole access to approving photo requests. Barberstock integrates directly with Chute and Simpleview CMS. For an additional \$2,400, they will manage assets as well as edit and upload b-roll.

Public Comment – None.

Committee Discussion – None.

6b. New Website Review & Discussion: Burnham reviewed the latest Simpleview prototype.

Public Comment – None.

Committee Discussion – Tweedie asked if we would be able to highlight Hearst Castle on the map. Burnham asked the Committee for feedback, and the Committee provided no opposition to the idea.

Little asked why the communities were alphabetized across. Burnham noted VSC can look into changing it. Cuming asked if Arroyo Grande Valley can be included on the list of destinations. Burnham stated that VSC can look into that, as currently the list was based on communities.

Burnham noted VSC will be contracting a photographer to take photos of every lodging property, starting with hotels and motels. Cuming asked if those photos could be cascaded down to the DMOs and lodging partners. Burnham stated that it will depend on the SEO and use rights with the photographer, but VSC will look into it.

Burnham asked the Committee if there were any objections to opening the event calendar up to the public. The Committee unanimously agreed that this would be fine, as long as there is a set approval process.

Cuming asked if Simpleview has a feed that DMO's can implement on their own sites. Burnham noted that Simpleview has an API available for others to display the VSC event calendar on their sites.

Sorgenfrei asked if the "Plan Your Trip" section will have an itinerary builder. Burnham asked if the Committee felt strongly about whether or not the new site should have a trip builder. The Committee unanimously agreed that it should not, but noted that it should still provide itineraries and recommendations. Keller noted that VSC should stay at the top of the funnel and the trip builder is too far down the funnel for VSC's focus.
