RESEARCH OVERVIEW

This report presents the findings from the Visit SLO CAL resident sentiment study conducted by Destination Analysts on behalf of Visit SLO CAL. This study was designed to provide Visit SLO CAL with in-depth insights on San Luis Obispo County residents' current opinions regarding tourism in their communities. The objectives of this research included:

- Assess the current sentiment of residents towards tourism in their communities
- Identify pain points of residents as well as strengths and opportunities
- Provide an expert analysis of tourism sentiment among residents as well as recommendations for future tourism marketing, destination development, and community involvement
- Assess awareness of Visit SLO CAL and understanding of the organization's work to build a vibrant tourism economy
- Contextualize results against state-level metrics for resident sentiment on tourism

RESEARCH METHODOLOGY

Destination Analysts conducted both an online survey and intercept surveys of full-time adult residents of San Luis Obispo County. Full-time students were excluded from the survey.

Respondents must have met the following screening requirements:

- Adults age 18+
- Live in San Luis Obispo County

Online survey responses were collected in partnership with a trusted online panel provider between December 21, 2022 – March 31, 2023. Intercept surveys were collected in San Luis Obispo County from February 23-26, 2023. In total, 2,520 completed surveys were collected, with the data collected and weighted to mirror the population sizes of the 7 cities and the unincorporated area of the county.

The data presented throughout this report is rounded to the first decimal place (e.g., 10.1%). As a result, please note that the sum of values may not add to exactly 100.0 percent due to rounding.

REPORT DEFINITIONS

COMMUNITY SEGMENTS

- **San Luis Obispo** – residents who currently reside in the city of San Luis Obispo
- **Paso Robles** – residents who currently reside in Paso Robles
- **Atascadero** – residents who currently reside in Atascadero
- **Arroyo Grande** – residents who currently reside in Arroyo Grande
- **Grover Beach** – residents who currently reside in Grover Beach
- **Morro Bay** – residents who currently reside in Morro Bay
- **Pismo Beach** – residents who currently reside in Pismo Beach
- **Cambria** – residents who currently reside in Cambria
- **Avila Beach** – residents who currently reside in Avila Beach
- **Unincorporated Area** – residents who currently reside in the unincorporated area of the county, *excluding Cambria and Avila Beach residents*

INDUSTRY SEGMENTS

- **Current Employees** – residents who are currently employed by or own a business that serves San Luis Obispo County's tourism industry
- **Past Employees** – residents who have previously been employed by a business that serves San Luis Obispo County's tourism industry, but no longer work for such a company
- **Non-Employees** – residents who are not currently and have never been employed by a business that serves San Luis Obispo County's tourism industry
- **DMO Aware** – residents who have heard of Visit SLO CAL prior to taking the survey
- **DMO Unaware** – residents who had not heard of Visit SLO CAL prior to taking the survey

DEMOGRAPHIC SEGMENTS

- **Gen Z** – residents who are 18-26 years of age
- **Millennials** – residents who are 27-42 years of age
- **Gen X** – residents who are 43-57 years of age
- **Boomer+** – residents who are over the age of 58
- **White** – residents who self-identify as white/Caucasian
- **Hispanic** – residents who self-identify as Hispanic/Latino
- **Any POC** – residents who self-identify as any ethnicity besides white/Caucasian
- **Transplants** – residents who moved to San Luis Obispo County from elsewhere
- **SLO CAL Natives** – residents who have lived in San Luis Obispo County for their entire life
- **Recent Movers** – residents who have children under 18 living in their household and who moved to San Luis Obispo County within the past 5 years
- **Established Families** – residents who have children under 18 living in their household and who moved to San Luis Obispo County between 6-14 years ago
- **Deep-Rooted Families** – residents who have children under 18 living in their household and who moved to San Luis Obispo County 15 years or more ago.

EXECUTIVE SUMMARY

San Luis Obispo County Community Sentiment

Just over half of residents (52.3%) said their personal quality of life has improved compared to one year ago. One-third (33.9%) said their quality of life has not changed, while only 13.9 percent say it has worsened. Among the resident communities, Avila Beach (80.2%) San Luis Obispo (68.3%) had the highest shares of respondents who said their quality of life is somewhat or much better than one year ago. On the other hand, Paso Robles (35.2%) and Unincorporated Area (33.7%) residents – excepting those in Cambria or Avila Beach – had not only significantly lower likelihood to say their quality of life had improved, but they were also more likely to say that their quality of life had worsened in the past year (23.1% of Paso Robles residents, 22.0% of Unincorporated Area residents). Established Families (76.0%), Recent Movers (72.2%), Current Employees (70.0%), and Millennials (68.4%) were significantly more likely to say that their personal quality of life has improved compared to one year ago.

Figure: One-Year Change in Personal Quality of Life

Figure: Community Sentiment Statements

Over eight in ten (81.2%) of San Luis Obispo County residents said they are proud to live in their local community. Three-fourths agreed that their local community protects its natural resources well (75.6%) and is a welcoming and inclusive place (75.0%). Just over half (57.9%) agreed that their local community is culturally diverse. San Luis Obispo residents (84.5%) were most likely to agree that they are proud to live in their community, while Gen Z (69.2%) had the lowest agreement levels. Avila Beach residents (88.9%) had the highest agreement levels around the statement “My local community does a good job of protecting its natural resources”, while Paso Robles residents (61.0%) were significantly less likely to agree. In terms of whether they agree that their community is welcoming and inclusive, Avila Beach residents (88.1%) ranked highest in agreement, while Paso Robles residents (63.7%) and Gen Z (62.7%) had the lowest agreement levels. Morro Bay residents (43.1%) and Unincorporated Area residents who do not live in Cambria or Avila Beach (42.8%) were the least likely to agree that their communities are culturally diverse, while Avila Beach (84.6%) and San Luis Obispo (68.0%) residents ranked highest in agreement levels.

EXECUTIVE SUMMARY

San Luis Obispo County Community Sentiment (continued)

A solid majority of residents agreed that San Luis Obispo County is a safe place to live (82.5%) and has a variety of family and kid-friendly activities (73.5%), however agreement levels dropped in terms of the availability of a variety of jobs (51.1%), a variety of available housing for all income levels (45.5%), and affordable cost of living (38.6%). San Luis Obispo and Avila Beach residents had higher agreement levels for all statements, whereas Paso Robles residents were significantly less likely to agree on all points. Millennials, Recent Movers, Established Families, Current Employees, and DMO Aware residents had higher agreement levels around the availability of a variety of jobs and housing, and affordable cost of living.

Figure: Community Assets

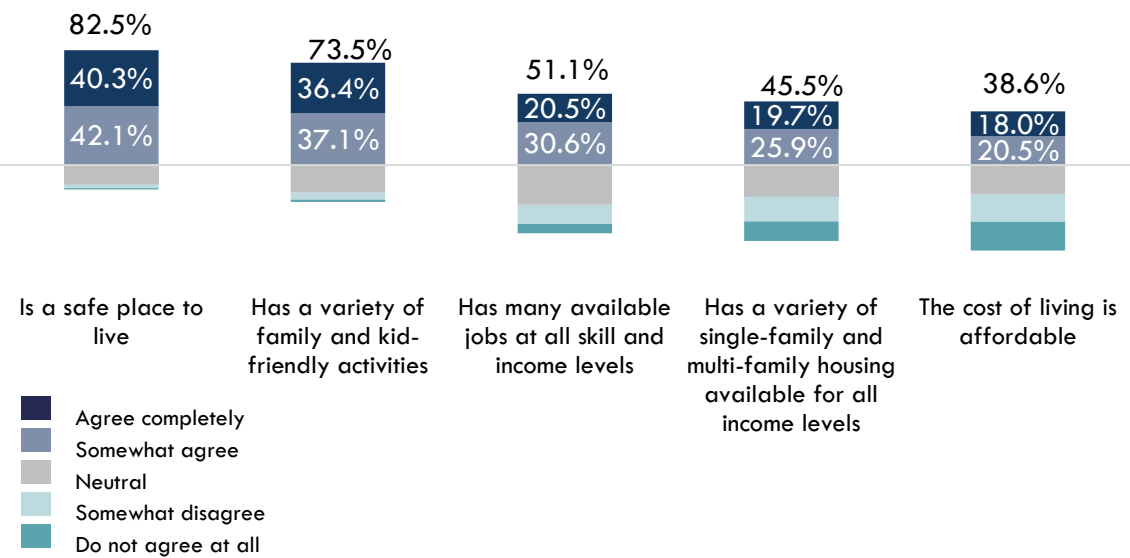

Figure: Satisfaction Levels with the SLO CAL's Direction

When asked how satisfied they are with the direction San Luis Obispo County is headed, two-thirds (65.5%) of residents said they are moderately or very satisfied. Among the individual resident communities, satisfaction levels were highest among Avila Beach (81.3%) and San Luis Obispo (77.6%) residents. Those who live in Paso Robles (43.8%) or the unincorporated area of the county – excepting Avila Beach and Cambria – (51.6%) reported the lowest satisfaction levels. Among the segments, Established Families (80.2%) and Recent Movers (80.0%) reported the highest satisfaction levels with the county's direction. Notably, in the tourism employment segments, Current Employees (74.1%) had a significantly higher satisfaction level compared to Non-Employees (59.0%). Similarly, residents who are DMO Aware (72.6%) were more likely to be satisfied with the direction the county is headed compared to their DMO Unaware counterparts (60.6%).

EXECUTIVE SUMMARY

San Luis Obispo County Community Sentiment (continued)

The quality of the weather/climate (13.6%) was the top characteristic residents love the most about their community, followed closely by the sense of community and the friendliness of the people (12.7%). Among the segments, Grover Beach (14.7%) and Pismo Beach (11.8%) residents were more likely to cite the beach in their community as one of their favorite aspects about living in their local community. The friendly environment was mentioned more by Recent Movers (7.9%) and Established Families (6.9%)

Figure: Top 10 Favorite Aspects of Living in Local Community (unaided)

I love the **weather** and the **peacefulness** of the area I live in. I think it's a great area for a family.

There's a lot of **people** in San Luis Obispo that are **very nice and polite**. Even when walking in the Downtown area, you're very likely to walk past someone with a smile, and **they'll smile back!** I've never had a bad experience with anyone when I'm out.

Figure: Top 10 Challenges Facing Local Community (unaided)

Housing is getting **more and more expensive** every year. I'm afraid I'll **eventually have to move** to another town because of this. I absolutely love it here, so I'm hoping I can figure something out and stay.

It is getting to the point where this is becoming an **unaffordable place to live**. The cost of living has **skyrocketed**, and I think that that has greatly **contributed to our homeless population** growing to ridiculous amounts.

Affordable housing (26.2%) and associated issues such as the cost of living (25.0%), and homelessness (23.3%) rose to the top, and were also tied to concerns about job opportunities (8.0%) that can help support people's cost of living. Affordable housing was of particular concern for Grover Beach residents (42.0%), while Avila Beach residents were more likely to cite the high cost of living (37.2%), and Atascadero residents had the highest share of respondents who mentioned homelessness (33.0%). Residents also voiced concerns about water (13.1%), particularly around supply, possible water shortages, the quality of the water, and conservation efforts. Tourism and tourists was only mentioned by 27 residents. Among those mentions, concerns were mixed; some residents felt that making their county into a tourism destination would make it more unaffordable, while others expressed concerns that there is not enough tourism.

EXECUTIVE SUMMARY

San Luis Obispo County Tourism Sentiment

When considering 21 different statements related to the impact of San Luis Obispo County’s tourism industry, overall resident sentiment stands at 53 points on a 100-point scale. Perceptions of community impact were most positive, at 53 points among San Luis Obispo County residents, while personal impact came in at 51 points. Sentiment around the economic impact of San Luis Obispo County’s tourism industry ranked slightly lower, at 50 points.

Figure: SLO CAL Tourism Industry Sentiment Index

Two-thirds of residents (66.1%) agreed that tourism in their community makes it a better place to live. Of the community segments, Cambria (80.5%) and San Luis Obispo (76.5%) residents had the highest agreement levels, while Paso Robles (51.1%) and non-Cambria/Avila Beach Unincorporated Area (54.3%) residents scored lowest. Among the other segments, Recent Movers (86.2%) and Established Families (80.5%) had the highest share of those who agreed with this statement, followed by Current Employees (75.0%), DMO Aware residents (72.3%), Millennials (72.2%), and Gen X (71.3%).

Money and the economy (29.5%) were by far the top drivers of sentiment around tourism’s impact and whether residents felt that tourism makes their community a better place to live. Tourism is, in one resident’s words, “a necessary evil”, since it brings money and income that is needed for the community but also brings issues such as traffic, littering, and is seen by some to increase the cost of goods and services in their communities. Tourism is also seen as good for business, which in turn helps to maintain the quality of community life. In particular, Pismo Beach residents (47.0%) were more likely to cite the economic/monetary benefits of tourism as the reason for their agreement rating for the statement “I believe tourism in my community makes it a better place in which to live.”

Figure: Agreement Levels with “Tourism Makes My Community a Better Place to Live”

All SLO CAL Residents

Tourism helps local shops with revenue, but tourism also brings ignorant irresponsible people who trash the community.

Yes, tourism brings in income that we appreciate, but at the same time, that income only goes back into the tourist industry, and the town is too focused on that. We’re expanding for the tourists, while the residents keep paying more and more to live here.”

EXECUTIVE SUMMARY

Economic Impact of Tourism in San Luis Obispo County

Over eight in ten (83.7%) residents said that tourism is important or very important to the vitality of San Luis Obispo County's economy. In fact, nearly half (49.7%) said tourism is very important. While across the segments the share of respondents who said tourism is important or very important never dips below 70 percent, sentiment is lowest among Paso Robles (72.2%) and non-Cambria/Avila Beach Unincorporated Area (76.6%) residents, as well as Gen Z (71.3%). On the other hand, Cambria (93.6%) and San Luis Obispo (87.0%) residents had the highest sentiment among the community segments. Additionally, Established Families (90.6%), Recent Movers (89.9%), DMO Aware (88.1%) Gen X (87.4%), and White/Caucasian residents (85.2%) also had significantly higher shares of respondents who rated tourism as important or very important to the county's economic health.

Figure: Tourism's Importance to SLO CAL's Economic Vitality

Figure: Economic Impact Statements

Nearly three-fourths of residents agree that tourism is an important part of San Luis Obispo County's future (72.4%). At the same time, four in ten (41.9%) believe that San Luis Obispo County's economy is too dependent on tourism. Residents are also less likely to perceive the personal economic benefits of tourism, with only 39.9 percent agreeing that tourism reduces the amount of taxes they have to pay, and 35.5 agreeing that tourism decreases the cost of living for residents. Current Employees and DMO Aware residents were significantly more likely to agree that tourism reduces taxes and the cost of living for residents, as were Recent Movers and Established Families and Millennials and Gen X residents, the two generations who comprise the bulk of the workforce age range. In terms of community segments, San Luis Obispo, Cambria, and Avila Beach residents were most likely to agree with these two cost-related statements, while Paso Robles, Arroyo Grande, and non-Cambria/Avila Beach Unincorporated Area residents were least likely.

EXECUTIVE SUMMARY

Short-Term Vacation Home Rentals Sentiment

Nearly six in ten (59.3%) residents agreed that short-term vacation home rental visitors support local businesses and community services, but at the same time half (49.9%) agreed that these rentals increase rent and detract from available housing for residents. Just under one-third (32.5%) agreed that these rentals negatively impact their local community's culture. Over 70 percent of Recent Movers (77.9%), Established Families (74.9%), San Luis Obispo residents (74.0%), and Current Employees (71.7%) agreed that short-term vacation home rental visitors support local businesses and community services, but at least 40 percent of each of those same segments also agreed that rentals have a negative impact on community culture. 58.9 percent of Established Families also agreed that these rentals increase rent and detract from available housing for residents.

Nearly two-thirds (62.1%) of residents have stayed in a short-term vacation home rental in the past. Notably, segments who had the highest agreement that vacation home rentals negatively impact their local community culture also had significantly higher rates of personal past usage of short-term rentals. These include Established Families (83.8%), Recent Movers (79.6%), Millennials (70.0%), and San Luis Obispo residents (69.8%). On the other hand, Avila Beach residents (37.1%) and Boomer+ residents (48.7%) were the least likely to have previously stayed in a short-term rental.

Figure: Residents who have Stayed in a Short-Term Vacation Rental Home when Traveling in the Past

RESIDENCY DRIVEN BY PRIOR VISITATION

Among residents who moved to San Luis Obispo County, over two-thirds (68.9%) said they moved to their community because they had visited and loved the place. This is significantly higher compared to the State of California; only 35.5 percent of California residents said that they moved to their community after visiting and loving the place. Cambria (80.7%) and San Luis Obispo (78.8%) residents had the highest shares of respondents who agreed or strongly agreed with this statement.

Among the other segments, Established Families (81.8%), Recent Movers (80.9%), and Millennials (76.1%) were the most likely to agree that they moved to their communities because of positive impressions made during previous visits to the area.

Question: Please rate how much you agree or disagree with the following statement: "I moved to my local community primarily because I visited and love the place."
Base: Respondents who have not always lived in San Luis Obispo County. 2,132 completed surveys.

REASONS FOR MOVING TO COMMUNITY

Among residents who moved to San Luis Obispo County, the top reasons for moving to their local community were the pace of life (42.2%) and/or the climate (42.0%). Additionally, the landscape/natural features (35.2%), job/career opportunity (34.8%), and/or outdoor recreational activities (34.5%) also ranked highly as draws to moving to San Luis Obispo County’s communities.

The pace of life was a particularly big motivator for Arroyo Grande (54.5%) and Morro Bay (54.1%) residents, as well as Boomer+ residents (52.6%).

A job/career opportunity was the top motivator for Recent Movers (45.4%), San Luis Obispo residents (44.0%), Current Employees of the tourism industry (42.6%), Millennials (40.7%), and Established Families (40.3%) to move to their local community.

REASONS FOR CONTINUING TO LIVE IN SLO CAL

Quality life (57.0%) is the top driver for residents continuing to live in their local San Luis Obispo County community. This is followed by the climate (49.3%) and/or the pace of life (46.1%).

While many residents raised concerns about the cost of living, nevertheless over one in five (21.9%) said that they have continued to live in their community because of the cost of living. This was highest among Avila Beach residents (33.4%), Established Families (31.4%), Millennials (28.4%), San Luis Obispo residents (28.0%), and Current Employees (26.0%).

Figure: Reasons for Continuing to Live in SLO CAL

Question: Which of the following are reasons that have motivated you to continue living in your local community? Select all that apply.
Base: All respondents. 2,520 completed surveys.

SATISFACTION WITH SLO CAL DIRECTION

When asked how satisfied they are with the direct San Luis Obispo County is headed, two-thirds (65.5%) of residents said they are moderately or very satisfied. This is +10.7 percentage points higher than overall California residents (54.8%). Among the individual cities of residence, satisfaction levels were highest among Avila Beach (81.3%) and San Luis Obispo (77.6%) residents. Those who live in the unincorporated area of the county – excepting Avila Beach and Cambria – (51.6%) reported the lowest satisfaction levels

Among the segments, Established Families (80.2%) and Recent Movers (80.0%) reported the highest satisfaction levels with the county’s direction. Notably, in the tourism employment segments, Current Employees (74.1%) had a significantly higher satisfaction level compared to Non-Employees (59.0%). Similarly, residents who are DMO Aware (72.6%) were more likely to be satisfied with the direction the county is headed compared to their DMO Unaware counterparts (60.6%).

Question: All things considered, how satisfied are you with the direction San Luis Obispo County is headed?
Base: All respondents. 2,520 completed surveys.

SLO CAL PERSONAL QUALITY OF LIFE

Just over half of residents (52.2%) say their personal quality of life has improved compared to one year ago.

One-third (33.8%) say their quality of life has not changed, while only 13.9 percent say it has worsened.

Among the cities of residence, Avila Beach (80.2%) San Luis Obispo (68.3%) had the highest shares of respondents who said their quality of life is somewhat or much better than one year ago. On the other hand, Paso Robles (35.2%) and non-Cambria/Avila Beach Unincorporated Area (33.7%) residents had not only significantly lower likelihood to say their quality of life had improved, but they were also more likely to say that their quality of life had worsened in the past year (23.1% of Paso Robles residents, 22.0% of non-Cambria/Avila Beach Unincorporated Area residents).

Established Families (76.0%), Recent Movers (72.2%), Current Employees (70.0%), and Millennials (68.4%) were significantly more likely to say that their personal quality of life has improved compared to one year ago.

Quality of Life Change
Compared to One Year Ago

Question: Compared to one year ago, how would you rate your personal quality of life in San Luis Obispo County?
Base: All respondents. 2,520 completed surveys.

SLO CAL COMMUNITY SENTIMENT

Over eight in ten (81.2%) of San Luis Obispo County residents said they are proud to live in their local community. Three-fourths agreed that their local community protects its natural resources well (75.6%) and is a welcoming and inclusive place (75.0%). Just over half (57.9%) agreed that their local community is culturally diverse. San Luis Obispo residents (84.5%) were most likely to agree that they are proud to live in their community, while Gen Z (69.2%) had the lowest agreement levels. Avila Beach residents (88.9%) had the highest agreement levels around the statement “My local community does a good job of protecting its natural resources”, while Paso Robles residents (61.0%) were significantly less likely to agree. In terms of whether they agree that their community is welcoming and inclusive, Avila Beach residents (88.1%) ranked highest in agreement, while Paso Robles residents (63.7%) and Gen Z (62.7%) had the lowest agreement levels. Morro Bay residents (43.1%) and non-Cambria/Avila Beach Unincorporated Area residents (42.8%) were the least likely to agree that their communities are culturally diverse, while Avila Beach (84.6%) and San Luis Obispo (68.0%) residents ranked highest in agreement levels.

Question: Please rate your level of agreement with the following statements. Base: All respondents. 2,520 completed surveys.

TOP 2 CHALLENGES FACING LOCAL COMMUNITY (UNAIDED)

Affordable housing (26.2%) and associated issues such as the cost of living (25.0%), and homelessness (23.3%) rose to the top, and were also tied to concerns about job opportunities (8.0%) that can help support people's cost of living. Affordable housing was of particular concern for Grover Beach residents (42.0%), while Avila Beach residents were more likely to cite the high cost of living (37.2%), and Atascadero residents had the highest share of respondents who mentioned homelessness (33.0%).

Residents also voiced concerns about water (13.1%), particularly around supply, possible water shortages, the quality of the water, and conservation efforts.

Tourism and tourists were only mentioned by 27 residents. Among those mentions, concerns were mixed; some residents felt that making their county into a tourism destination would make it more unaffordable, while others expressed concerns that there is not enough tourism.

Question: What are the top two (2) biggest issues your local community is currently facing? Base: All respondents. 2,520 completed surveys.

SLO CAL TOURISM IMPACT ON COMMUNITY QUALITY OF LIFE

Two-thirds of residents (66.1%) agreed that tourism in their community makes it a better place to live. Conversely, less than half of total California residents (46.7%) agreed with this statement. Of the community segments, Cambria (80.5%) and San Luis Obispo (76.5%) residents had the highest agreement levels, while Paso Robles (51.1%) and non-Cambria/Avila Beach Unincorporated Area (54.3%) residents scored lowest.

Among the other segments, Recent Movers (86.2%) and Established Families (80.5%) had the highest share of those who agreed with this statement, followed by Current Employees (75.0%), DMO Aware residents (72.3%), Millennials (72.2%), and Gen X (71.3%).

Question: Please rate how much you agree or disagree with the following statement: "I believe tourism in my community makes it a better place in which to live."
Base: All respondents. 2,520 completed surveys.

REASON FOR TOURISM IMPACT AGREEMENT RATING (UNAIDED)

Money and the economy (29.5%) were by far the top drivers of sentiment around tourism’s impact and whether residents felt that tourism makes their community a better place to live. Tourism is, in one resident’s words, “a necessary evil”, since it brings money and income that is needed for the community but also brings issues such as traffic, littering, and is seen by some to increase the cost of goods and services in their communities. Tourism is also seen a good for business, which in terms help to maintain the quality of community life.

In particular, Pismo Beach residents (47.0%) were more likely to cite the economic/monetary benefits of tourism as the reason for their agreement rating for the statement “I believe tourism in my community makes it a better place in which to live.”

Question: In a few brief words, please explain why you gave the rating that you did. Base: All respondents. 2,520 completed surveys.

TOURISM'S IMPORTANCE TO SLO CAL ECONOMIC VITALITY

Over eight in ten (83.8%) residents said that tourism is important or very important to the vitality of San Luis Obispo County's economy. In fact, nearly half (49.7%) said tourism is very important. This is markedly higher than the share of California residents who said that tourism is important to their community's economic vitality (+24.5pp).

While across the segments the share of respondents who said tourism is important or very important never dips below 70 percent, sentiment is lowest among Paso Robles (72.2%) and non-Cambria/Avila Beach Unincorporated Area (76.6%) residents, as well as Gen Z (71.3%).

On the other hand, Cambria (93.6%) and San Luis Obispo (87.0%) residents had the highest sentiment among the community segments. Additionally, Established Families (90.6%), Recent Movers (89.9%), DMO Aware (88.1%), Gen X (87.4%), and White/Caucasian residents (85.2%) also had significantly higher shares of respondents who rated tourism as important or very important to the county's economic health.

Question: In your opinion, how important is the tourism industry to the vitality of San Luis Obispo County's economy?
Base: All respondents. 2,520 completed surveys.

TOURISM INDUSTRY IMPACT ON ECONOMY

Nearly three-fourths of residents agreed that tourism is an important part of San Luis Obispo County's future (72.4%). At the same time, four in ten (41.9%) said San Luis Obispo County's economy is too dependent on tourism. Residents were also less likely to perceive the personal economic benefits of tourism, with only 39.9 percent agreeing that tourism reduces the amount of taxes they have to pay, and 35.5 agreeing that tourism decreases the cost of living for residents. Current Employees and DMO Aware residents were significantly more likely to agree that tourism reduces taxes and the cost of living for residents, as were Recent Movers and Established Families and Millennials and Gen X residents, the two generations who comprise the bulk of the workforce age range. In terms of community segments, San Luis Obispo, Cambria, and Avila Beach residents were most likely to agree with these two cost-related statements, while Paso Robles, Arroyo Grande, and non-Cambria/Avila Beach Unincorporated Area residents were least likely.

Question: Thinking about San Luis Obispo County's tourism industry and its impact on the economy, please rate how much you agree with the following statements. Base: All respondents. 2,520 completed surveys.

ECONOMIC IMPACT AWARENESS

When shown the statement “The taxes generated by tourism in the county save each household more than \$1,700 per year”, the majority of residents (72.6%) agreed or strongly agreed that this increased their appreciation of tourism in the county. Only 7.0 percent disagreed, while one in five (20.5%) remained undecided or uncertain.

Agreement was highest among Recent Movers (84.9%) and Established Families (83.8%), as well as Avila Beach (83.8%) and San Luis Obispo (83.3%) residents. On the other hand, Paso Robles (56.0%) and non-Cambria/Avila Beach Unincorporated Area (57.8%) had the lowest agreement levels. Paso Robles residents were most likely to disagree (16.1%), while non-Cambria/Avila Beach Unincorporated Area residents had the highest share of residents who remained undecided (31.6%).

Knowing the economic impact of tourism increases my appreciation for tourism in SLO CAL

Question: The taxes generated by tourism in the county save each household more than \$1,700 per year. With this piece of information in mind, please share how much you agree with the following statement: “Knowing this fact makes me appreciate tourism in San Luis Obispo County more.” Base: All respondents. 2,520 completed surveys.

TOURISM INDUSTRY PERSONAL IMPACT

In terms of personal impact, over half of residents agreed that they enjoy interacting with visitors to their community (55.8%) and/or often visit local tourism businesses (54.6%). Only one in five (21.5%) agreed that tourists negatively impact their day-to-day life. At the same time, only just over one-third (37.6%) agreed that they have influence as residents on the development or management of tourism in their community, which was slightly below (-3.2pp) the share of California residents who agreed with this statement (40.8%). Established Families (38.7%), Recent Movers (34.4%), Millennials (31.1%), and San Luis Obispo residents (29.7%) were the segments most likely to agree that tourists negatively impact their day-to-day life. That being said, those same segments, as well as Current Employees, had the highest agreement levels for enjoying interacting with visitors to their communities, and were also the most likely to say that they often visit local tourism businesses. They also had a higher agreement levels with the statement around resident influence on tourism development and management in their communities, whereas non-Cambria/Avila Beach Unincorporated Area (20.2%), Paso Robles (23.1%), and Pismo Beach (25.6%) residents had the lowest agreement levels.

Question: Thinking about tourism in your local area and its impact on you personally, please rate how much you agree with the following statements. Base: All respondents. 2,520 completed surveys.

SHORT-TERM RENTALS

SHORT-TERM RENTALS IMPACT ON COMMUNITY

Nearly six in ten (59.3%) residents agreed that short-term vacation home rental visitors support local businesses and community services, but at the same time half (49.9%) agreed that these rentals increase rent and detract from available housing for residents. Just under one-third (32.5%) agreed that these rentals negatively impact their local community’s culture. Over 70 percent of Recent Movers (77.9%), Established Families (74.9%), San Luis Obispo residents (74.0%), and Current Employees (71.7%) agreed that short-term vacation home rental visitors support local businesses and community services, but at least 40 percent of each of those same segments also agreed that rentals have a negative impact on community culture. 58.9 percent of Established Families also agreed that these rentals increase rent and detract from available housing for residents.

Question: Thinking now about short-term vacation home rentals in your community, please rate how much you agree with the following statements using a five-point scale in which “1” represents “Strongly disagree” and “5” represents “Strongly agree.” Base: All respondents. 2,520 completed surveys.

A wide-angle photograph of a beach at sunset. The sky is filled with dramatic, colorful clouds in shades of orange, yellow, and purple. The sun is low on the horizon, casting a warm glow over the scene. In the background, a range of mountains is visible. The ocean is calm with gentle waves lapping at the shore. Two people are walking along the beach in the lower right corner, their silhouettes visible against the bright water. The overall mood is peaceful and scenic.

DMO AWARENESS

DMO AWARENESS

Nearly half of residents (47.6%) had heard of Visit SLO CAL prior to taking the survey, while 40.0 percent had not, and an additional 12.3 percent were not sure. This was over 10 percentage points higher than the share of California residents who had heard of their community's DMO. DMO awareness was highest among Established Families (70.2%), Current Employees (62.5%), Millennials (59.1%), Recent Movers (58.8%), and San Luis Obispo residents (58.2%). Notably, these same segments were also had a higher likelihood to agree that they have some influence on the development and management of tourism in their communities.

Figure: Prior Awareness of Visit SLO CAL

Question: Prior to this survey, have you heard of Visit SLO CAL, the county-level official destination marketing organization (i.e., the organization that promotes travel to your community)?
Base: All respondents. 2,520 completed surveys.

A vibrant scene of a group of people enjoying a drive in a black convertible car on a coastal road. A man with long, curly red hair and a blue denim jacket leans out of the back of the car, smiling. Inside the car, three other people are visible, also smiling. The car is parked on a paved road next to a grassy area. In the background, there is a small, old stone building with arched windows on the left and a white lighthouse on a hill on the right. The sky is a clear, bright blue with a few wispy clouds. The overall mood is cheerful and adventurous.

EMPLOYMENT IN SAN LUIS OBISPO COUNTY

EMPLOYMENT IN SLO CAL'S TOURISM INDUSTRY

One in five residents in San Luis Obispo County (20.5%) currently work in the tourism industry. An additional 14.9 percent of residents have previously worked in the tourism industry. When considering San Luis Obispo County’s population over the age of 18, nearly 90,000 residents either own a business related to the tourism industry or are currently employed within the tourism industry.

	San Luis Obispo County Population (2022)
Total Residents	282,013*
Residents over age 18	232,661*
Currently Works in Tourism Industry	57,813**
Owns a Tourism-Related Business	29,611**

*Source: U.S. Census Bureau, July 1, 2022.

**Calculated from U.S. census data against % of survey respondents who fall into each category

Question: Which of the following best describes you? Base: All respondents. 2,520 completed surveys.

An aerial photograph of a town nestled in a valley, with rolling green hills and mountains in the background. The foreground is filled with white flowers, likely lavender, which are slightly out of focus. The town features various buildings, parking lots, and green spaces. The sky is filled with soft, white clouds, and the overall lighting suggests a late afternoon or early morning setting.

A photograph of a man and a woman kayaking on a body of water. The woman is in the foreground, wearing a blue life vest and a white shirt, holding a paddle. The man is behind her, also wearing a blue life vest and a light green shirt. They are both smiling and looking towards the right. In the background, there are houses and trees on a hillside. The image is split vertically: the left half has a dark blue overlay with white text, and the right half shows the full photograph.
