Doctor: 116117
Country code for Norway: +47

Planning your hike

Hiking Etiquette:

Respecting the environment and fellow hikers is paramount in maintaining the pristine beauty of the Sognefjord region. Abide by these guidelines to ensure a harmonious coexistence with nature and fellow explorers:

Dispose of Garbage Responsibly: Carry out all waste and dispose of it properly.

Considerate Camping: If camping in open country, maintain a minimum distance of 150 meters from houses or cottages. Longer stays require owner consent.

Visit the toilet before your hike. There are no toilets along the trail. Do not poop in nature. Use a bag if you have to, and throw it in the nearest trash can.

Fire Safety: The campfires in nature are prohibited from April 15 to September 15. Exercise caution when lighting a campfire and extinguish it completely before departure.

Wildlife Respect: Avoid disrupting birds and animals, particularly during breeding and nesting seasons. Respect grazing livestock and close all gates behind you.

Solitude and Silence: Acknowledge and respect others' desire for solitude and silence.

Preserve Vegetation: Do not harm vegetation, especially endangered and vulnerable species.

Leads are mandatory between April 1st and November 1st. Your dog must not run loose, but must be secured. There are some exemptions, such as service dogs.

Code of conduct

We're delighted to welcome you to our beautiful village of Vik! Thank you for:

- Using marked trash bins and toilets.
- Sticking to marked trails and roads.
- Not approaching or feeding grazing animals.
- Respecting private property.
- Keep left on roads and use sidewalks when walking.
