During spring the waterfalls are large, fruit trees in blossom, mountaintops still white with frost and the air is crisp and clear.

Summertime in the fjord brings a variation of experiences, as the cruise in UNESCO World Heritage Nærøfjord, visit the stave churches and let the guides give a hike on the Jostedalsglacier.

In Autumn the Sognefjord is covered with all the strong colours, red and yellow in the mountain area, and later by the fjords. This is the best time for hiking the mountains, and go berry picking.

The Winterfjord gives you fjord experiences, the magical blue ice caves under the glacier, off-piste skiing, fjordlight, snowshoe tours, alpine resorts and guided tours to the steep mountains.

Sognefjord - major national attractions

The longest fjord, the Sognefjord, lies in the heart of Fjord Norway and extends to the foot of the Jotunheimen and Jostedalbreen National Parks. The area is both dramatic and hospitable, with exciting and invigorating activities for the whole family.

The Sognefjord

- and the beautiful fjord arms

UNESCO Nærøfjord ©Håvard Nesbø

Finnafjorden ©Håvard Nesbø

The more than 204 km long Sognefjord lies in the heart of Fjord Norway, and is the longest and deepest fjord in Norway. At its deepest, the fjord plunges to more than 1,300 m and the mountains along the fjord rise to more than 1,700 m.

The Sognefjord has several distinctive fjord arms winding their way between steep mountains to end in small, picturesque villages. One of the most well known branches of the Sognefjord is the narrow Nærøfjord, which is included on UNESCO's World Heritage List. You can choose between different boat trips to experience the beauty of the fjords all year round. Other tempting fjord activities are kayaking, fjord rafting, angling, rowing, swimming and much more.

The Sogn Fjord Museum at Kaupanger tells the story of life beside the fjord, and at the Norwegian Museum of Travel and tourism in Balestrand, the history of Norwegian tourism is presented.

Highlights

The West Norwegian Fjords

Since 2005, the area defined as the West Norwegian Fjords, comprising the Geirangerfjord, Nærøfjord and Aurlandsfjord, has been included on UNESCO's World Heritage List of the world's cultural and natural heritage of outstanding universal value. The world heritage value of the Nærøfjord area can be summed up as follows: a fjord landscape with active geological processes, a rich flora and fauna, and a beautiful natural landscape from fjord to mountains, with glaciers, forests, waterfalls and free-flowing rivers, and a cultural landscape that adds perspective to the natural landscape.

Nærøfjord - narrow and dramatic

The Nærøfjord is the narrowest, wildest and most famous of the fjord arms, and is a UNESCO World Heritage Site. The surrounding mountains rise steeply to reach towering heights and create a unique magical atmosphere. A ferry trip on the Nærøfjord, from Kaupanger to Gudvangen, and a passengerboat from Flåm/Aurland, will take you through some of the most spectacular scenery in Norway.

Lusterfjord - inland towards the Jotunheimen, Breheimen and Jostedalsbreen

The landscape around the Lusterfjord is very picturesque, and many great artists have been inspired by the unique beauty of its scenery. The Lusterfjord extends all the way to the foot of the Jotunheimen and Breheimen mountains and the Jostedalsbreen glacier, and from Skjolden

in the East to Solund in the West the Sognefjord measures an impressive 204 kilometres.

Fjærlandsfjord - inland towards the Jostedalsbreen Glacier

This beautiful fjord arm extends almost all the way up to the glacier tongues that reach down to the village of Fjærland, and most of the year the fjord has a beautiful bright green colour because of the meltwater from the glaciers that flows into the fjord.

Finnafjord - roadless and exotic

At the head of the distinctive Finnafjord, the mountains are steep and the scenery is spectacular. The famous cheese-maker Synnøve Finden was born and brought up beside this lovely fjord.

SCENIC ROUTE AURLANDSFJELLET

You will see snow lying beside the road during most of the summer, which is why the road is often called the 'Snow Road'. The route has attractions such as the artwork 'Den' (Bjørnehiet) and the spectacular Stegastein viewing platform, and it is famous for its breathtaking views. The road from Aurland to the Stegastein viewpoint is open all year.

SCENIC ROUTE GAULARFJELLET

The Gaularfjellet mountains lie to the north of Balestrand, and the road from Balestrand to Moskog (near Førde) and Eldalosen - Sande passes through them. On the Balestrand side, the road twists and turns through nine hairpin bends. There are many beautiful rivers and waterfalls along the route. On the top, the spectacular viewpoint «Utsikten» was opened in 2016.

SCENIC ROUTE SOGNEFJELLET

Route 55 across the Sognefjell mountain area between Luster and Lom is the highest and most impressive mountain pass in Northern Europe (highest point 1430 meters), and it has been awarded the status of National Tourist Route because of the spectacular and wild mountain scenery it passes through in the Jotunheimen National Park.

The Jostedalsbreen National Park

- and the beautiful glacier arms

At 500 square kilometres, Jostedalsbreen is the largest glacier in mainland Europe. This gigantic mass of ice covers mountain peaks and deep valleys in the National Park and its spectacular arms of blue ice extend down to the lush valleys near our fjords. Many people are amazed when they realize how accessible these glacier arms are, and discover that it can be almost as warm by the ice as it is down by the fjord.

In Jostedal, Fjærland and several other places, you can enjoy glacier walks, led by experienced guides who know the area like the palm of their hands. On the Nigardsbreen glacier in Jostedal, daily family walks are among activities organised throughout the summer. Visit the national park centers Norwegian Glacier Museum and the Breheimssenteret (Jostedal Glacier Visitors Centre) to learn more about the Jostedalsbreen National Park and Breheimen National Park.

Highlights

Nigardsbreen Glacier, Jostedal

This is one of the most accessible glaciers, where you can peer into the blue ice at very close range, and everyone above the age of six can join guides on glacier walks. You can also walk alongside the lake. Children above 8 years old can participate.

Flatbreen / Supphellebreen Glacier, Fjærland

The Flatbreen glacier can be seen from the fjord, and can be reached on foot. The beautiful walk up to the glacier and the Flatbrehytta cabin takes about 3 hours. Guided glacier walks on Flatbreen can be ordered. You can drive by car to Supphellebreen.

Bergsetbreen Glacier, Jostedal

The spectacular Bergset glacier, only an hour's easy walk from the road, is one of the most beautiful and impressive glacier arms.

AUSTERDALSBREEN GLACIER, VEITASTROND

"The finest ice scenery in Europe", said the English mountaineer W.C. Slingsby about Austerdalsbreen and the three ice falls called Loke, Odin and Tor.

In 2008, Luster municipality with its three national parks (Jotunheimen, Jostedalsbreen and Breheimen) was designated a national park municipality. This is a hallmark of significance and administrative areas granted this status encompass large and invaluable wilderness areas.

Nigardsbreen Glacier ©Håvard Nesbø

Bøyabreen Glacier, Fjærland

You can see the Bøyabreen at quite close range from the main road in Fjærland, or admire it from the Brævasshytta restaurant, even closer to the ice.

Guided glacier walks

If you join a guided glacier walk you can visit several other beautiful glacier arms, both in Jotunheimen and in Jostedal (for instance the Austdalsbreen and the Tunsbergdalsbreen).

Be aware that the glacial ice is always in motion and blocks of ice can break off from the glacier front. Never hike on the glacier without a local guide or venture past the barriers that have been erected.

The Jotunheimen National Park

- and other beautiful mountain areas

Nordre Skagastølstind, Jotunheimen Nasjonalpark ©Vegard Aasen VERI Media

You can ramble beside the fjord, follow culture trails and historical roads or head for the mountains and enjoy unique views of the fjord, mountains and glaciers. Many places also offer guided treks, walks, glacier walking and climbing

Large network of paths and mountain cabins

The Norwegian Trekking Association (DNT) has many waymarked trails and welcoming staffed lodges and cabins in the mountains around the fjord, and Luster is the municipality in Norway with most DNT cabins. The standard ranges from rather luxurious staffed lodges that serve meals to simple selfservice cabins. You can walk from cabin to cabin or use the cabins as a base for day hikes in the mountains.

Seasons and weather

The Sognefjord is a great area for outdoor pursuits all year round, but July, August and September are the very best months for walking in the mountains. Remember that the weather changes faster in the mountains than in the lowlands and that you may be surprised by sudden storms and mist. The main rules are easy: Be considerate and thoughtful. Don't damage nature and the surroundings.

Aurlandsdalen

The track through the legendary Aurlandsdalen valley is one of the ancient routes between Eastern and Western Norway. Beautiful and wild, rich in flora and fauna, cultural heritage, history, varied geology and good trout fishing. You can go walking for several days and stay overnight in trekking association cabins in

the valley, or go on shorter walks based on travelling by bus or using your own car.

Breheimen National Park

Breheimen is the mountain area between the two national parks of Jotunheimen

and Jostedalsbreen. The walk through the Mørkridsdalen valley is regarded as one of the most beautiful in Norway, and the Norwegian Trekking Association has voted it the walk with the richest flora. There are many summer pasture farms and large fishing lakes in the area, which are used extensively by both the locals and visitors.

Jostedalsbreen National Park – the largest glacier

Almost half of the Jostedalsbreen National Park is covered by the Jostedalsbreen glacier, which is the largest glacier in mainland Europe.

Jotunheimen National Park – the highest mountains in Norway

The whole of the Jotunheimen National Park consists of high mountains and glaciers, and it is here that you find Norway's highest mountains. The three highest peaks are Galdhøpiggen

(2,469 m), Glittertind (2,465 m) and Store Skagastølstind (2,405 m). A drive along the national tourist road over the Sognefjell mountain between Lom in the East and Luster in the West gives you a close up view of Store Skagastølstind (Storen) and many other impressive peaks. In the summer season there is a bus service twice a day across the Sognefjell Road from Otta to Sogndal with correspondence from Oslo and Trondheim.

Kongevegen

Kongevegen, the old King's Road over the Filefjell mountain pass was completed in 1793. It was the first road between Eastern and Western Norway. The road, which is a valuable part of Norway's cultural heritage, runs east from Lærdalsøyri to the village of Vang in the Valdres area and is approximately 80 km long. Here, you can go on short or long walks, and it will be possible to cycle some sections of the road. Along the whole valley from Filefjell down to Lærdal, there are waymarked historical sections of the road that make ideal walks. The best known section is Vindhellavegen, which starts near Borgund Stave Church.

The Utladalen valley

The Utladalen valley is wild and dramatic. It is surrounded by the highest mountain area in Norway, with many summits of more than 2,000 metres. Here, you will find Vettisfossen, which, with a free fall of 275 metres, is the highest waterfall in Northern Europe. Utladalen is one of the deepest valleys in Europe, and visitors find its wild and fertile scenery spellbinding.

Fishing

STØLSHEIMEN

The Stølsheimen landscape preservation area is a mountain area with many summer pasture farms in hilly terrain bordering on a spectacular fjord landscape. Within the protected area you will also find the roadless and exotic Finnafjord in the municipality of Vik.

There are plenty of other attractive mountain areas around the fjord. Contact the tourist information offices for more information.

There is a great variety of lakes, streams and rivers in the Sognefjord region. Most of the lakes are in the mountains, and the region is therefore ideal for visitors who like to combine fishing and hiking. The mountain trout you can catch in these clear, freshwater lakes is considered a delicacy.

There are several rivers along the fjord where you can fish for salmon or sea trout. The area has a long tradition of fishing, and salmon rivers have enjoyed high status among anglers for more than a century. Fishing in the fjord is free throughout the year, and you may catch sea trout, cod, haddock, whiting and more.

There are some organized fishing trips you can join or you can rent a boat or fish from shore. Many accommodation sites along the fjord and lakes also have boats for their guests.

Norwegian fishing licence fee

Before purchasing a permit for a lake or river containing salmon and sea trout, you have to pay the Norwegian fishing licence fee at www.inatur.no Salmon are protected in some places, but you can nevertheless fish for sea trout in these lakes and rivers.

Season

You can normally fish in the mountain lakes as soon as the ice on the lakes has melted in spring, and in most lakes and rivers containing salmon and sea trout the fishing season is from approx. 1 July to 15 September.

Taste world-class traditional ciders

Welcome to one of Norway's oldest fruit-growing regions.

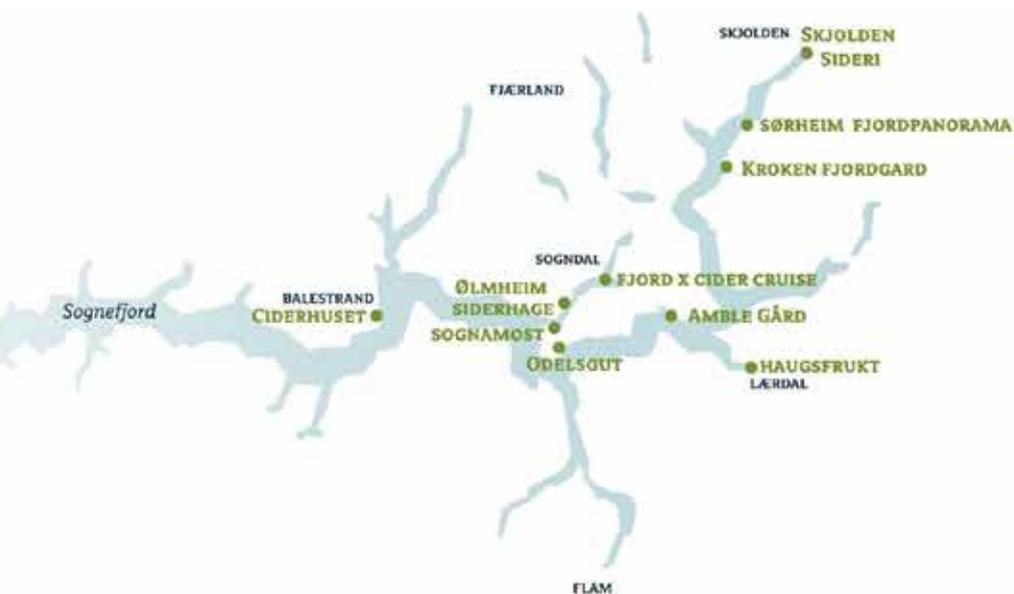

Cider from Sogn has a long history and has won gold and silver in international competitions in recent years.

The producers offer guided tours through the apple orchards, where you can learn about the cultivation and craft of cider-making.

Taste a selection of sparkling ciders or applejuice, and enjoy the view over the orchards and the majestic Sognefjord.

Torvis Hotel

ANNO 1639

Torvis Hotel is nestled in the charming village of Marifjøra, in a unique setting by the Sognefjord. Our hotel is not like most others. It's like a museum – full of stories, creaking wooden floors, and quiet corners where time seems to pause. But more than that, it's a place to slow down. Our concept is simple, yet rare: A retreat into nature. A step away from the noise of everyday life. A chance to reconnect – with yourself, with others, and with the world as it really is. You might wake up to birdsong instead of alarms. You might spend the day on a kayak, exploring the surrounding mountains. Or wrapped in a blanket with a good book and no timeline.
