Mr. David Norman
Regional Sales & Project Manager
Southern Bleacher Company, Inc.
P. O. Box One 801 Fifth St.
Graham, TX 76350

Dear David:

Southern Bleacher Company did a truly outstanding job in constructing the bleachers at Pirate Stadium. The preliminary planning was very detailed and thorough as we considered the needs at our facility. You provided us with excellent suggestions, while also listening carefully to our wants and needs. You were careful to get our approval before moving forward with any aspect of the project.

When the actual construction began, our entire community was thoroughly impressed by your installation crew. You had a large number of workers who were obviously well trained and supervised. The speed with which they worked was amazing. They literally ran up and down the bleachers at times.

The installation of the press box was watched by many of our citizens. The crew who completed that task was very skilled and precise in their handling of this part of the project. It is clearly apparent to anyone that these stands were built by those who know what they are doing from start to finish.

I appreciate the way you kept the construction and staging areas clean and safe. There is no question that Southern Bleachers did an amazing job on our Pirate Stadium Project. Thank you for making this a facility that will be used for generations to come.

Yours truly,

Judy Pollan, Superintendent
