WELCOME

Join Grimstad's narrow lanes and hidden alleys, on paths and between flowerbeds, in dark corners and on the glimmering sea.

We offer unique experiences with a guide all year. All our offers can be experienced in big or small groups. Bring your partner, family, good friends or colleagues, or come alone if that fits you best!

Experience Grimstad all year through a cultural historic walk, at museums or the skerries with one of our wonderful guides. We highlight locally produced food and drinks. We offer culture, food and nature experiences for every taste. Choose between 18 different experiences or tell us about your wishes. We can tailor packages to your needs.

Grimstad can boast two important contributors to world literature amongst its numbers – Henrik Ibsen and Knut Hamsun, who both for periods have called Grimstad their home. But there is more to Grimstad than famous writers. Shipping and horticulture have served as important pillars in Grimstad's economic and commercial development for centuries

The programme is a collaboration between Grimstad Tourist Information (Visit Grimstad) and the local travel & tourism industry.

Welcome to Grimstad!

GUIDED TOUR OF THE IBSEN MUSEUM

Who was Henrik Ibsen? He was a writer familiar to most of us, but could it be that the Ibsen we feel we know is not quite identical to the young man struggling to get his first play published?

At the Ibsen museum, we follow Henrik through his years as a young man in Grimstad – his friendships, his romances, and his challenges. Our knowledgeable guides help explore this complex personality who worked at the apothecary, studied for his exams, and started his literary career.

We recommend combining a visit to the museum with a guided town walk exploring other key Ibsen locations in Grimstad.

STORIES FROM THE TOWN OF POETS

Let us bring our stories to you!

A town walk is not always possible to fit in. Perhaps it would be more convenient to listen to stories over a dinner? Or as part of a conference?

We get where you want, and take you on a journey in the poets' footsteps through stories, film sound and images. Grimstad is the town of Henrik Ibsen and Knut Hamsun. It has left its mark on their writing, as they have left their mark on the town. Listen to stories from a time when they called Grimstad their home – stories about love, satirical observations, and overgrown paths. Fascinating excerpts from their works are also included.

Projector and screen for screening of film and images must be available at the venue.

The focus of this walk is Henrik Ibsen's time in Grimstad as a young man, and what may have inspired him to write when he was living here. You get to see three of the town's key Ibsen locations and hear stories about Ibsen's youth.

We recommend combining this walk with a visit to the Ibsen Museum in Grimstad – one of our biggest attractions.

Grimstad has been home to both Henrik Ibsen and Knut Hamsun, and is often referred to as the "town of poets". It has left its mark on their writing, as they have left their mark on the town. Join us on a walk in the footsteps of these literary greats, and listen to stories from when Grimstad was their home – stories about love, satirical observations, and overgrown paths.

To add to the experience, we recommend the "porke" – a Grimstad speciality, and Norway's best pastry – or a delicious fish cake from Fiskernes Salgslag.

WALK IN HAMSUN'S FOOTSTEPS

Put on some sturdy footwear, and join us on a hill walk in Knut Hamsun's footsteps.

We will be exploring the landscape that inspired Hamsun's final book, *On Overgrown Paths*. There are breaks along the way where we listen to the guide read from the book.

The walk also focuses on Hamsun's time in Grimstad, where he lived for over 30 years. You get to hear about the Nobel Prize, Nørholm, the war, the house arrest, and the court case.

HAMSUN AND THE NOBEL PRIZE

Knut Hamsun was awarded the Nobel Laureate in Literature for his novel *Growth of the Soil* in 1920. In collaboration with one of our famous restaurants, Smag & Behag, we have recreated the 7-course meal served at the Nobel Banquet after the award ceremony in Stockholm. During the banquet, you will get better acquainted with the dramatic story behind the award.

Join us on an exclusive journey in words, food, and drink! We can promise a culinary experience out of the ordinary.

THE WRITERS'S COTTAGE OF HAMSUN

Knut Hamsun moved to Nørholm manor farm on the outskirts of Grimstad in 1918. Once settled, he turned one of its crofts into a place in which to work. In order for Hamsun to create characters and build narratives, he needed absolute peace and quiet. This he found in his writer's cottage. During the guided tour, you will learn about Hamsun's use of this creative space and about his vast library.

Nørholm is located some ten minutes by car from Grimstad town centre. Smaller groups may arrive by car, whereas larger groups must travel together to Nørholm in own or hired coach. There is a short walk from the parking to writer's cottage, and the building is reached via stairs without railings. The group will be seated during the talk.

EXPLORE THE DØMMESMOEN PARK

Dømmesmoen is a true gem just outside Grimstad, featuring a large, beautiful park. The walk leads through the stunning garden complex with its roses, pond, oak tree, perennials, and Ibsen's herb garden.

Dømmesmoen farm dates as far back as the 1600s, but its more recent history began in the 1920 when it became Statens gartnerskole Dømmesmoen – a state-run horticultural college. The park is the ideal spot to explore Grimstad's horticultural heritage.

Add to the experience with a waffle, a glass of wine or bubbly, or some locally produced apple juice.

Its exhibitions cover Grimstad's important horticultural heritage, and provide an insight into the wine production at Fuhr, Grimstad's canned food industry, and the ecological interaction between nature, bees, and people.

Why not end the guided tour with a coffee and a treat? The museum is renowned for its delicious, freshly-made waffles!

GUIDED TOUR OF THE MARITIME MUSEUM

The Maritime Museum provides an insight into the region's exciting seafaring history, and is located in Hasseldalen – an area with long shipbuilding traditions.

Join us on a journey through the sailing ship era! Back to a time when ships were built in wood, powered by the wind in their sails, and used for trade on the seven seas. You get to meet the rookie sailor, the shipowner, the prison-ship detainee, and the captain's wife as you explore the days when Cuba's Havana was known as the "sugar port" and sailors were served dried cod and gruel.

EXHIBITION ON WARTIME SAILORS

Get an insight into one of the most brutal chapters in Norwegian history! In the summer of 2020, a new and exciting exhibition on wartime sailors opened at the Maritime Museum. Our guide will take you on a special tour with wartime sailors and ships from Aust-Agder in focus.

The fleet was Norway's most important contribution to the Allied war effort, but its darker side was the loss of human life; 4647 people died on Norwegian ships during the war, either at home along the coast or on the seven seas. Furthermore, many returned home injured for life and deeply affected by the horrors of war.

Although most of the wartime sailors have passed away, they are still remembered by many. They were fathers, uncles and grandfathers, and they were deeply affected by their experiences.

EXPLORING THE TOWN'S MARITIME HERITAGE

Grimstad was once one of the largest shipping centres in the world, relative to its population size. This has made its mark on our little coastal town.

Join us on a cultural history walk through Grimstad and its maritime heritage, and listen to stories about booms and busts in the shipping industry, where sailing ships were built, how the crew spent their time on board, and how seafarers handled the sea. You will discover how shipping has impacted the town's architecture and infrastructure.

BERGSHAV'S MARITIME COLLECTIONS

Join us on a guided tour of Bergshav's maritime collections in Hasseldalen – a maritime hub boasting shipbuilding traditions dating back to 1842. You can choose between a short and a long tour.

The short option is a guided tour of "Navnebua" – a protected building comprising a collection of over a thousand artefacts from the Norwegian, and particularly the local, shipbuilding and shipping industry.

If you opt for the long version, the guided tour continues to "Storbua", which is a covered slipway from 1915. In the upper part is a fully-equipped boat building workshop, with two boats "under construction". The lower section comprises an historical collection of smaller wooden boats from various eras.
