

# “Turning Batters Into Hitters”

## TOUR GUIDELINES

Hoosier Bat Co. offers tours Monday through Friday. We ask that tours are booked ahead of time. Children eight and under are not allowed in the manufacturing area. We prefer doing tours in the morning. 10:00 a.m. is the best time.

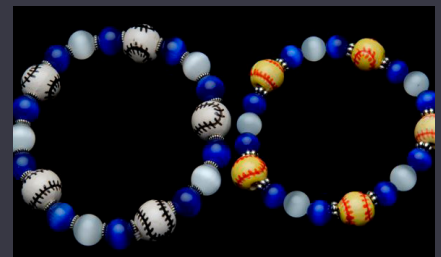

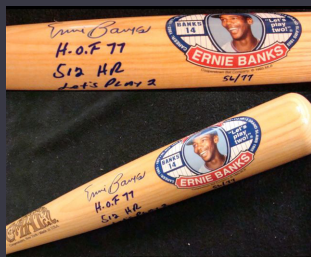

We like to keep the groups no larger than 20 people. We can accommodate a larger group; we just need to know ahead of time. Tours take approximately 30-45 minutes. Exact time depends on the size of the group and how many questions.

The tour begins with a history of our company. We then go in the manufacturing area where you see a bat being made from start to finish. At the end of the tour we visit the gift shop where people can purchase bats, jewelry, souvenir bats, and other sport and non-sport related items.

One thing we offer our tour groups is our 16” souvenir bat. A lot of our tour guides purchase these for everyone in the group. This price of \$10.00 includes lazering a name into the bat. In order to do this we would need a list of names faxed to us at least one week prior to the tour date. These bats can be purchased at the time of the tour but would not include a name being put on them.

If you need more information or would like to book a tour, please let me know.
