LEAD STATUS DEFINITIONS

On the portal 4.0 you will see 10 different statuses in which a lead can be in. These statuses are:

1. **Closed / No Bid Sent**: These leads can be Tentative, Definite, Lost or Cancelled. The Closed/No Bid Sent status signifies this is business your property did not bid on and the response due date has passed.

2. **Open**: These are leads in a tentative status that your property has not bid on yet and the response due date has not passed.

3. **Open / Bid Sent**: These are leads in a tentative status that your property has already placed a bid on and the response due date has not passed. In this status, you can update your response at any time.

4. **Turned Down**: These leads can be Tentative, Definite, Lost or Cancelled. The Turned Down status signifies you responded to the lead but stated you are not pursuing the business.

5. **Closed / Decision Pending**: These are leads in a tentative status that your property has placed a bid on but the response due date has passed thus you cannot edit your response.

6. **Closed / Lost to Another City**: These are leads you were pursuing but the business has gone lost.

7. **Closed / Cancelled**: These are leads you won the business but the group has cancelled.

8. **Closed / Won**: These are definite leads in which your property was selected.

9. **Closed / Won - Properties TBD**: These are definite leads but the group has not decided on a hotel yet.

10. **Closed / Lost**: These are definite leads in which your property was not selected for the business.
Below the filters section, you will see a data grid with all your leads based upon your chosen filters. You can change these data grid column headings to your preference by clicking the sprocket icon in the top right corner of the data grid. One of the more important column headings is the Group Type. This signifies if you are looking at a Meeting Sales or Tour Lead.

To view the lead, click on the Eyeball icon or the Lead Name.
When viewing the lead, you can skip to different sections by clicking the left navigation. For notes and attachments on the lead these can generally be found in one of two areas, Lead Information and/or Notes section. In the above graphic, this is the lead section; attachments will be found in the Meeting Specs field. For the Notes section, see next slide.
When scrolling to the Notes section, you will see the detailed notes for this piece of business. If an attachment is present, this will be signified with a paperclip icon. After you have reviewed the lead, scroll to the Responses section. Here you will see options to either add or edit your existing response. Note: these options are not available once the Response Due Date has passed. Click the Add Response button or Pencil icon to enter/edit your response.
When editing your response, you will need to tell the CVA if you are pursuing the business by selecting Yes or No to the Pursuing this lead option.
Opportunities – RFPs (cont’d)

If you are pursuing the piece of business, you can enter the number of rooms, by room type, that you can commit to for this lead in the Room Information section of the response page.
Opportunities – RFPs (cont’d)

To attach a proposal to your response, scroll to the File Attachments section of the response page and click the Attach File button to browse your hard drive for the attachments. You can also click and drag your attachment from your computer to the attach file section.

Once you have finished entering all your response information don’t forget to click the save button!
By clicking the RFP icon and then selecting Media Leads, you can view leads sent to your property by the CVA’s Media/PR department. These are usually requests for hosting travel writers. These leads can be responded to by viewing the lead. See next slide for responding.

Note: Media Leads function the same as Sales and Tour Leads including their statuses. See RFP – RFPs section for more details on this.
As with Sales and Tour leads you can also respond or edit an existing response to Media Leads by scrolling to the Responses section and clicking the Pencil icon. Within responses you are also able to specify if you are pursuing the business and add attachments.
Let’s take a moment to discuss settings that you can customize for your own unique experience in the Partner Portal 4.0. Below is a list of a few things you have control to change for yourself. Other colleagues may have different settings.

1. **Filters** – On many pages of the extranet, you will see a Filters section. This section allows you to narrow down the results you may see on the page. You can update your default filters by clicking the Manage Filters option in the top right corner of this section.

2. **Data Grids** - When viewing pages with filter options, just below the filters is a data grid. A data grid displays a list of records matching the criteria you specified in the filters. You can update your default column heading in data grids by clicking the Sprocket icon in the top right corner of the data grid.

3. **Update your Filters and Data Grids** – As just mentioned, you can customize your filters and data grids. When doing so you will have the ability to add or remove filters and column headings as well as choose the default values and ordering.
Here is an example of the RFPs filter page. Once you have entered your filters click the Apply Filters button to see your results. To customize this page, click the Manage Filters option in the top right corner.
Once you have applied your filters, the data grid will update with the matching results. Within each data grid you may see several icons to the left of each record depending upon the page you are viewing. These icons are...

1. **Pencil** – this allows you to edit the record
2. **Eyeball** – this allows you to view the record
3. **Clone** – this allows you to duplicate the record
4. **Add Button** - Depending on the page, you may see an Add button to the top left of the data grid. When this option is available, click the button to add a new record.

- Notice the Sprocket icon in the top right corner. This is to customize your data grids as explained on the next page.
As mentioned above, you can customize your filters and data grids as you prefer. When clicking on the mentioned settings options, you will be presented with a menu on the right. Here is where you can personalize your filters, data grid columns, and ordering. By changing these options, you are only changing them for yourself. A fellow colleague may have different settings.
