The Shrine of Christ's Passion is an interactive half mile winding pathway that begins with the Last Supper and Garden of Gethsemane. You then journey through the Passion of Christ. There are 40 life size bronze statues, each an exquisite work of art.

Each setting has a listening station narrated by Bill Curtis. Push the button to hear a description of the scene. As you exit the tomb and continue down the path, you will find the apostles looking toward heaven in awe at Jesus' Resurrection and Ascension.
