June 2026 Data

Summary

June tourism numbers were comparable to 2025. Several key events, including the Steamboat Marathon and SBT GRVL, helped drive predictable visitation. Total occupancy increased slightly, while paid occupancy fell slightly compared to last year. Average Daily Rate (ADR) increase was on par with inflation.

Owner, or unpaid, stays continue to be consistent with previous months when compared with total occupancy, which is reflected in total (paid & owner) occupancy, but doesn't contribute to accommodations tax or STR collections.

The data in the following tabs reflects the most current data as of August 4, 2026. Some data takes two-three months to populate.
