KANSAS MUSEUM OF HISTORY

STEP BACK IN TIME

Step back in time as you get an introduction to the history of the plains. The Kansas Museum of History offers a close-up look at an 1880s locomotive, 1914 biplane, Carry Nation's hatchet and much more. Changing special exhibits keep visitors coming back, offering new artifacts and information regularly. On a sunny day, enjoy a picnic outside on the playground and walk the 2.5 mile nature trail. If you have some extra time or are researching family history, visit the State Archives to examine historic photographs, letters, and more.
