Mission San Xavier del Bac, the oldest intact European structure in Arizona and one of the finest examples of Spanish mission architecture in the United States. Founded in 1692 by a Jesuit missionary, Father Eusebio Francisco Kino, the mission was created to serve, as it still does, the Tohono O'odham ("Desert People") of the village of Wa:k.

DAY 2 – BISBEE

2 hour drive from Tucson

Founded in 1880, Bisbee was once a booming mining town that thrived on the area's rich reserves of copper and precious metals. Today, Bisbee's extraordinarily well-preserved early-twentieth-century downtown draws visitors who appreciate its historic architecture, creative spirit and cool climates.

Queen Mine Tour - Outfitted in hard hat, miner's headlamp and a yellow slicker, thousands of Bisbee visitors descend into the Queen Mine Tour each year—heading underground and back in time. Tour guides, retired Phelps Dodge employees, lead the group 1,500 feet into the mine and recount mining days, techniques, dangers and drama.

With a history deserving of National Landmark status, it's only fitting that Bisbee's past be captured and reflected in a museum like no other – which is exactly why the **Bisbee Mining & Historical Museum** recently joined forces with the Smithsonian's Affiliation Program.
