About The Cavalier Hotel:

The Virginia Beach icon, **The Cavalier Hotel**, officially opened its doors March of 2018 after a massive four-year renovation nearing \$85MM. Originally completed in 1927, every detail of The Cavalier Hotel has been meticulously restored revealing the glorious architectural elements and design from its

glamorous past while incorporating modern-day luxury amenities. During its heyday, The Cavalier changed the landscape and social scene of Virginia Beach's oceanfront playing host to ten U.S. Presidents, dozens of celebrities, like Elizabeth Taylor, Judy Garland, and Frank Sinatra, and was a major venue for performers in the Big Band era, like Benny Goodman and Glenn Miller. In 2014, Gold Key | PHR began the extensive renovation and restoration of the property overseen by Norfolk-based architecture firm, Hanbury. Today the hotel is enjoying a renaissance, making it a destination for locals and world travelers. Reservations can be made at cavalierhotel.com
