Safety Tips

- Check river conditions before launching www.nps.gov/sacn/planyourvisit/current-conditions.
- Know your paddling ability. Not all stretches of the Riverway are suitable for beginners.
- Avoid trees that have fallen into the river. They can catch and overturn your vessel.
- Wear sunscreen, sunglasses, and a hat to prevent sunburn.
- Use alcohol responsibly.
- Do not bring glass containers to the Riverway. Broken glass cuts bare feet.
- Protect your feet with river shoes or sandals
- Bring your own drinking water. The water is not safe to drink unless purified.
- Check for ticks.
- Watch for poison ivy.

Namekagon River Map 3:
Trego to Riverside Landing

The Namekagon River is named after an Ojibwe word meaning “place where the sturgeon are.” Look for them resting under overhanging river banks.

In This Stretch

- Downstream of **County Road K Landing** the river is narrow and contains riffles.
- Downstream of **Howell Landing** the river is somewhat rocky until you pass Highway 77, then it becomes sandy.
- **Fritz Landing** can be hard to see. Watch for a small island and use the left channel if taking out there.
- The river widens after **McDowell Bridge Landing**. After **Namekagon Trail Landing** the river becomes rockier with riffles and there are several Class I rapids before the confluence.
- The St. Croix River has a rocky bottom and is shallow, making it challenging during low water conditions. There are more rapids as you approach **Riverside Landing**.
- **ALERT:** Construction of US 53/63 Trego Interchange will occur 2021 through 2022. See map side for further information.
