Hiking & Wildlife Viewing - You can't get any closer to the fall color than by taking a hike in the woods of Washburn County. We have over 100 miles of designated hiking trails, so there are plenty of options. Two of our top picks for fall are the Trego Nature Trail which follows a portion of the Namekagon River and Hunt Hill Audubon Sanctuary. You'll find 7 miles of loops at Hunt Hill, plus other great nature programming and activities throughout the fall season.

Namekagon River: Wisconsin's Moving National Park - Roughly 45 miles of the nearly 100, Namekagon River, flow through Washburn County. Canoeing and kayaking are popular fall activities after the summer traffic has headed home. Maps are available at the Washburn County Visitor Center to help you plan your trip.
