PREMIERE LOCATION

Located deep in the heart of the White Mountain National Forest, Loon Mountain is surrounded by scenic wonders. The area is home to 48 peaks above 4,000 feet, numerous glacially-carved notches (called "gaps" or "passes" in other parts of the country) and 6,288-foot Mount Washington, the highest peak in the Northeast.

Loon Mountain sits on the western end of the Kancamagus Highway, a federally-designated "Scenic Byway" that is one of the world's premiere fall foliage drives. Loon is conveniently located 3 miles from I-93 in Lincoln, New Hampshire, just 2 hours north of Boston, MA.
