

Mountain Coaster

Mountain Bike Park

Aerial Adventure Park

Overview

Cranmore Mountain Resort has the thrills, challenges, and fun that families keep coming back for. Guests come for the fun of the Mtn Adventure Park, relax on the lift to the summit with its breathtaking views of the Mt Washington Valley, and then take to the trees at the challenges of the Aerial Adventure Park.

There is an entire day's worth of fun at the mountain famed for its history, learn-to-ski program and location. But Cranmore's development has made huge waves with its year-round improvements, spending over \$9 million in additions to its attractions. With all of the excitement in the summer it's no secret why Cranmore is called "North Conway's Playground."

In the Mountain Adventure Park Cranmore's guests can zoom down the mountain coaster, rock on the giant swing, soar down the zip line, and so much more! The Aerial Adventure Park is Mt Washington Valley's most diverse ropes course, with rope bridges, tree ladders, and zip lines.

Cranmore is located in the heart of North Conway, NH; the gateway to the White Mountains. Just 2.5 hours from the Boston area, and within minutes of over 75 of the region's world-class hotels and inns, Cranmore is a vacation destination that must be experienced. Bring some friends and come see for yourselves!
