## Fun Facts

\* The first chairlift in the Eastern U.S. was built at Belknap Mountain, now called Gunstock.

\* The Cannon Tramway, built in 1938, wasn't the first tram in America, but it was the first constructed to carry skiers to the top of ski trails.

\* The Cannon Mountain Ski Patrol, the first professional patrol in the country, was hired in 1938.

\* In the late 1940s an emigrant from Austria, Hubert von Pantz, sold plots of land and chalets at the base of Cannon Mountain. He called this village Mittersill.

\* Sel Hannah, from Berlin, NH helped design trails all over the state in the 1940s. In 1947 he started a business, Sno-Engineering. He, his partners, and his wife, Paulie, designed and planned many ski areas all over the country. Ski area design and engineering is recognized as a profession today because of their work.
