BEST OF BOTH KANSAS CITIES

Activity Level: Moderate • Number of Journalists: 10

Explore both sides of the state line during this unforgettable Kansas City adventure. Day 1 begins in Kansas City, MO, where you'll take a tour through history at the Negro Leagues Baseball Museum, marvel at some of the most beautiful fountains in the city and explore KC's Paris of the Plains past at local distilleries. On Day 2, you'll find yourself on the other side of the border, in Kansas City, KS. There, you'll experience behind-the-scenes looks at a NASCAR track, sample hidden gem barbecue, visit a recently designated National Commemorative Site that once operated as a "station" on the Underground Railroad and learn how to make your own pizza. Your final day in Kansas City brings you to Overland Park and Olathe, two of the city's most welcoming residential regions. Highlights include a splendid arboretum, chef-inspired 'cue at Q39—you will be in Kansas City, after all—and craft beer sampling at a local brewery, among many other stops.
