

Welcome to The Woodlands!

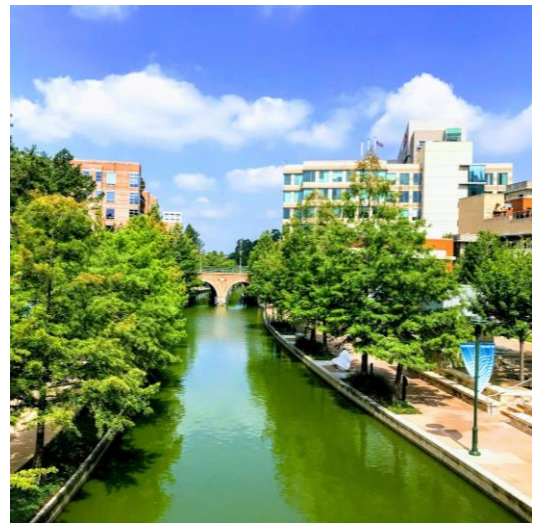

As Chairman of the Visit The Woodlands Board of Directors, it is my honor to welcome you to our destination.

The Woodlands is an escape from the ordinary and it's my hope that you experience a bit of that this week. We are proud to host the 53rd Lunar and Planetary Science Conference in our hometown. The Woodlands has 14 high quality hotels, over 200 award winning restaurants, one of the top amphitheaters in the world, a top 10 arts festival, The Woodlands Children's Museum and over 11 million square feet of shopping, entertainment and more.

We hope you will explore The Woodlands and experience the ease of our destination. From slow paced swan boats to fast paced hikes through The George Mitchell Nature Preserve, there's something for everyone amidst the trees. Whether you're a returning conference attendee or experiencing the Lunar and Science Planetary Conference for the first time, we hope your week in The Woodlands is one to remember. More than anything, we hope you leave The Woodlands already planning your return trip to experience all our community has to offer.

Thank you for visiting The Woodlands and we hope to see you again soon!

Bruce Rieser
