Introduction

Purpose of the Report

This report was commissioned by Wyoming Office of Tourism to assess the economic impact of travel to the state of Wyoming. The travel industry represents an important component of Wyoming's state economy. Spending associated with travel in Wyoming generates earnings, employment and taxes throughout the state. Many counties in Wyoming contain attractive travel destinations and consider the travel industry a primary economic industry in their area. This report describes economic activity associated with travel throughout the state, detailing important trends within the industry.

How to Use the Report

This report brings together data collected from many sources, both public and private, that are relevant to the measurement of travel throughout Wyoming. Our analysis synthesizes the data and generates estimates for the impact of travel to counties in the state. We encourage the reader of this report to use the table of contents to navigate to the section of the report that is relevant to their concerns and to reach out to Dean Runyan Associates with any questions on further detail or clarification.

Spending, Employment, Earnings, and Taxes are the key metrics to measure the economic impacts of travel.

What are travel impacts?

Travel impacts measure the economic impact of travel activity within a region. Because travel is a broad activity that encompasses many other activities (transportation, lodging, eating & drinking, recreational activities, etc.), it is necessary to make economic impact estimates for each travel related activity to determine the total travel impact. Travel impact reports are used by industry stakeholders to benchmark the travel industry against other local industries, understand the makeup of travel activity in their region, and communicate the economic relevance of the regional travel industry.

U.S. Travel Impacts
2025

U.S. Travel Impacts

Direct Travel Spending

Direct Travel Spending 2001-2025

National travel-related spending was \$1.3 trillion in 2025, a **4.2% (4.8% when adjusted for inflation) increase** compared to the previous year.

Source: Dean Runyan Associates

Note: Real spending is in chained 2017 dollars.

Direct Travel Spending by Commodity 2001-2025

Travelers spent \$558.2 billion on Leisure & Hospitality in 2025, accounting for **42.6% of the total direct expenditures**.

Source: Dean Runyan Associates

Note: DRA estimates 2025 national direct spend using Bureau of Economic Analysis (BEA) Travel and Tourism Satellite Account data from 2023 and available annual industry trends for 2024 and 2025.

U.S. Travel Impacts

Direct Spending

International Travel Spending 2019-2025

Sources: Dean Runyan Associates, U.S. Bureau of Economic Analysis

Canada's visitor spending declined in 2025, falling further behind Mexico, which surpassed Canada in international travel spend for the second consecutive year.

U.S. Travel Impacts

Direct Employment

Approximately **41 thousand jobs were gained in 2025, a 0.6% increase** compared to the previous year.

Sources: Dean Runyan Associates, U.S. Bureau of Economic Analysis

Direct Employment by Industry Sector

Travel supported **4.1 million jobs in the Leisure and Hospitality industry** in 2025, approximately level with the previous year.

Sources: Dean Runyan Associates, U.S. Bureau of Economic Analysis

Wyoming Travel Impacts

2025

Wyoming Travel Impacts

Direct Travel Impacts

2025 Summary

2.8% increase in Travel Spending

Direct travel spending in Wyoming increased 2.8% from \$4.9 billion in 2024 to \$5.0 billion in 2025.

No change in jobs

Direct travel-generated employment remained steady in 2025, declining slightly by 0.1% from 33,960 jobs to 33,920 jobs.

2.9% Growth in Earnings

Direct travel-generated earnings grew from \$1.4 billion in 2024 to \$1.5 billion in 2025, an increase of approximately \$41.2 million or 2.9%.

5.2% Increase in Tax Revenue

Tax revenue (local and state) generated by travel spending grew from \$277.3 million in 2024 to \$291.8 million in 2025, a 5.2% increase. In 2025, state and local tax revenue generated approximately \$1.2 thousand per Wyoming household.

Source: Dean Runyan Associates

Note: Estimates are subject to revision when more complete or additional data becomes available.

Wyoming Travel Impacts

Direct Travel Spending

Direct travel spending increased by \$135.0 million in 2025.

Direct travel spending grew from \$4.9 billion in 2024 to \$5.0 billion in 2025, a 2.8% increase.

Direct travel spending increased in most Wyoming regions.

In 2025, direct travel spending increased in most of Wyoming's top 5 counties. The only decline was in Natrona County.

Visitor Spending

Direct Travel Spending

What is direct travel spending?

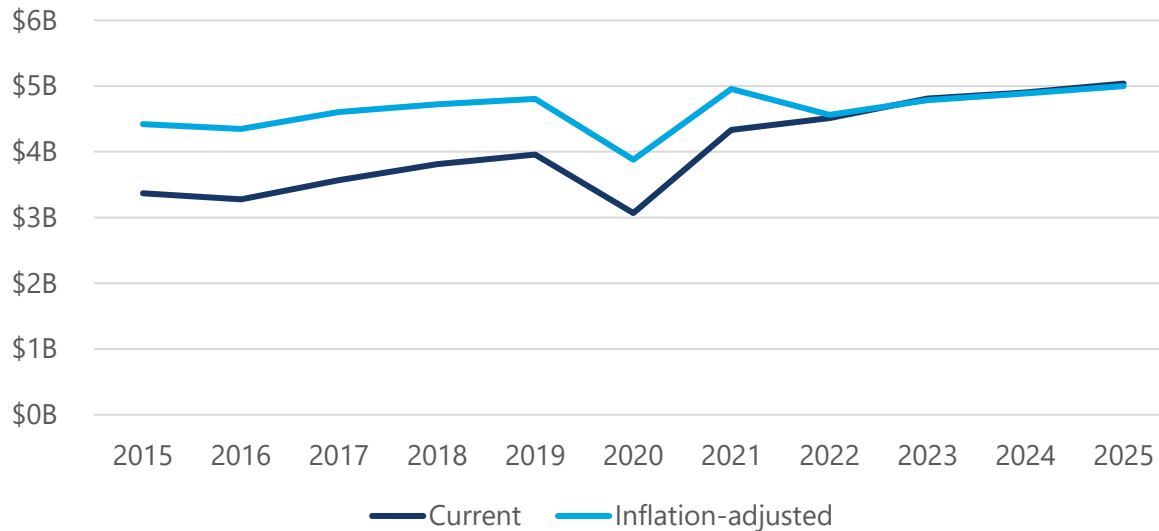

Direct travel spending includes both destination spending and other spending. **Visitor spending** refers to all spending on goods and services by visitors at the destination. **Other travel spending** refers to expenditures at travel arrangement companies located in Wyoming, convention and trade show operations, and spending on air by residents to leave the state for travel elsewhere. These expenditures directly support the travel industry in Wyoming but are not considered visitor spending in our methodology.

Wyoming Travel Impacts

Inflation-Adjusted Spending

Direct travel spending grew from \$4.9 billion in 2024 to \$5.0 billion in 2025, an increase of \$135.2 million in current dollars. However, considering inflation, the true quantity of goods and services purchased by travelers increased 2.2% or \$110.0 million.

Current and Inflation-Adjusted Direct Travel Spending

In 2025, travel spending increased \$135.2 million or 2.8% in current dollars, or \$110.0 million or 2.2% in inflation-adjusted dollars.

Sources: Dean Runyan Associates, U.S. Bureau of Labor Statistics CPI

Note: Inflation-Adjusted values are in 2025 dollars as of February 2026

Inflation is the **rate of increase** in prices of goods and services.

How does inflation affect the travel industry?

Inflation is the rate of increase in prices of goods and services. An increase in the rate of inflation translates into reduced purchasing power for consumers. To track the quantity of goods and services that consumers purchase when they travel, we report the "Inflation Adjusted" travel spending in the chart to the left. This is also known as "real" spending, as it shows the quantity of goods and services that were purchased while keeping the purchasing power constant across time.

U.S. CPI (annual % chg.)

2024: 2.62%

2025: 2.63%

Target: 2% Annually

Wyoming Travel Impacts

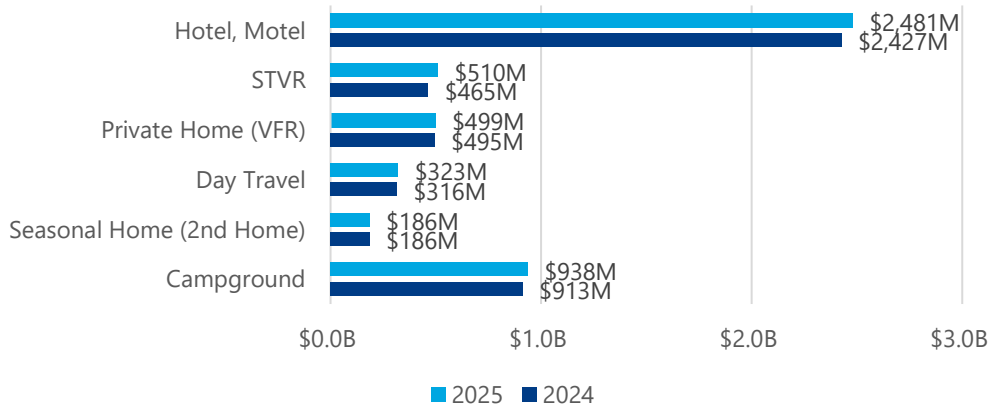

Direct Visitor Spending

Direct Visitor Spending by Commodity Purchased

Spending on accommodations grew to \$1.3 billion in 2025, **an increase of 4.6%**. Spending on food service generated \$1.1 billion, **an increase of 3.8%**.

Direct Visitor Spending by Accommodation Type

Visitors who stayed in a hotel, motel, or short-term vacation rental (STVR) spent a combined \$3.0 billion in 2025, **an increase of 3.4%** compared to 2024.

Sources: Dean Runyan Associates, Omnitrak Group, Energy Information Administration, Bureau of Labor Statistics CPI, STR

Note: Percent change calculated on unrounded figures.

Wyoming Travel Impacts

Direct Visitor Spending

Direct Visitor Spending by Origin, 2025

The majority (75%) of direct visitor spending was generated by international and out of state visitors.

Direct Impacts by Origin, 2025

Category	Wyoming	Other U.S.	International	All Visitors
Spending (\$Millions)	1,236	3,341	461	5,038
Earnings (\$Millions)	378	1,089	2	1,469
Employment (Jobs)	6,614	27,136	170	33,920
Local Tax (\$Millions)	24	97	1	122
State Tax (\$Millions)	44	126	0	169

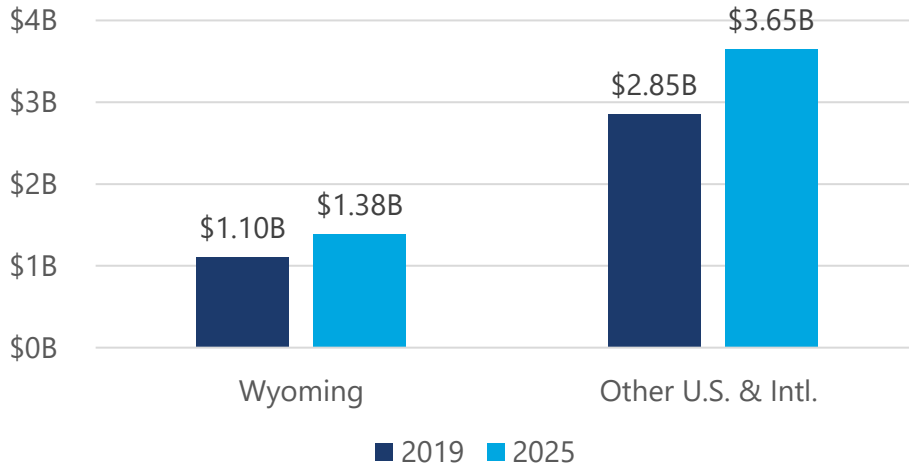

Sources: Xborder Canada, BEA, NTTO, DRA

Note: Estimated with partial annual data.

Wyoming Travel Impacts

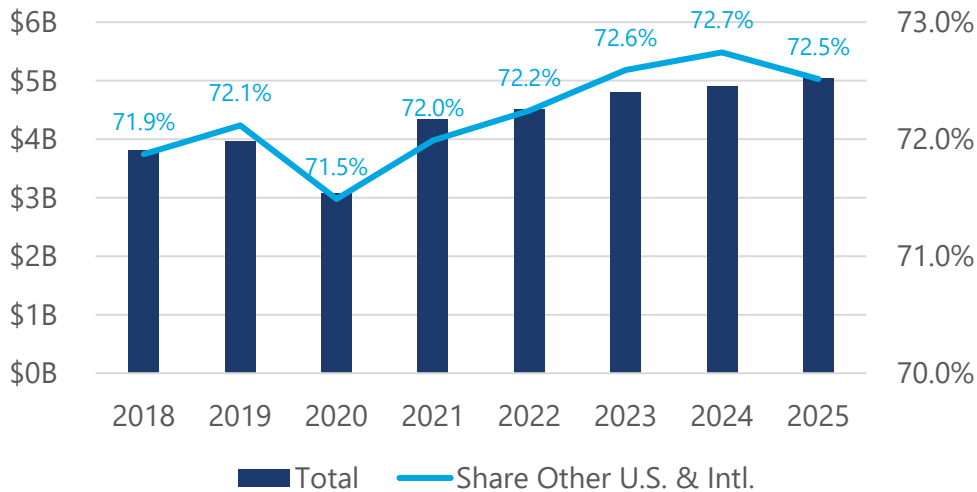

Direct Visitor Spending

Direct Visitor Spending by Origin Trend

Direct spending by Other U.S. and International visitors **increased at an average annual rate of 4.2%** between 2019 and 2025.

Direct Visitor Spending Attributable to Other U.S. and International Visitors

In 2025, **approximately 72.5%** of direct spending was attributable to **Other U.S. and International visitors**.

Sources: Xborder Canada, BEA, NTTO, DRA

Note: Estimated with partial annual data.

Wyoming Travel Impacts

Direct Travel-Generated Earnings

Direct travel-generated earnings increased by \$41.2 million in 2025.

Direct travel-generated earnings grew from \$1.4 billion in 2024 to \$1.5 billion in 2025, an increase of 2.9%.

Component sectors of the travel industry showed mixed growth.

*Other travel includes resident air travel, travel arrangement services, and conventions/trade shows.

Accommodation & Food Services (ACM & FS) earnings reached \$830.9 million contributing 56.9% of state-wide earnings.

(Revenue - Cost of Goods Sold - Expenses - Sales Tax)

Earnings

What are direct travel-generated earnings?

Direct travel-generated earnings represent the total after-point of sale tax income from travel spending. It includes wage and salary disbursements, proprietor income, and other earned income or benefits.

Earnings are an important measure of the benefit of the travel industry that flow to proprietors and employees. Because the travel industry is highly labor intensive, much of visitor-generated earnings flow to workers in the form of wages as opposed to owners of capital and intellectual property assets.

Wyoming Travel Impacts

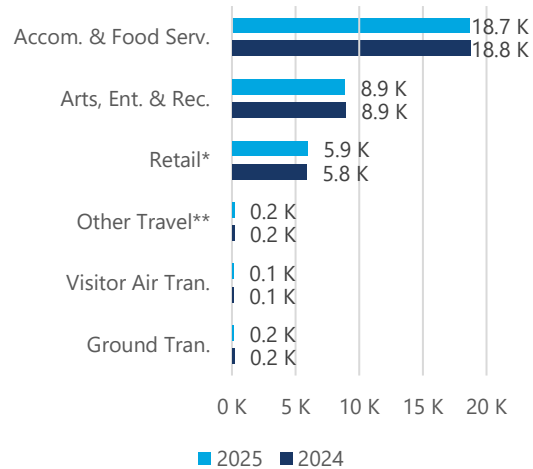

Direct Travel-Generated Employment

Direct travel-generated employment decreased by 40 jobs in 2025.

Direct travel-generated employment shrunk slightly from 33,960 to 33,920 jobs in 2025, a 0.1% decrease from the prior year.

Direct travel-generated employment in the Accom. & Food Serv. Sector decreased 0.4% in 2025.

*Retail includes gas stations
 **Other travel includes resident air travel, travel arrangement services, and conventions/trade shows.

Employment in the Accommodations and Food Services sector totaled 18,700 in 2025, a loss of 80 jobs (-0.4%) from 2024.

In 2025, every \$1 million in travel related spending resulted in 7 jobs for the industry.

What is direct travel-generated employment?

Direct travel-generated employment refers to the total number of full and part-time jobs directly attributable to travel spending. A significant share of many industries' earnings come from visitor-related spending. Part of these earnings are used to pay employees in the form of income and benefits. Based on average salaries for employees in the various travel-related industries in Wyoming, a total employment number attributable to travel can be reached. Employment figures reflect an annual average level of employment.

Wyoming Travel Impacts

Direct Tax Revenue

Direct travel-generated tax revenue increased by \$14.5 million in 2025.

Direct travel-generated tax revenue increased across state and local sources.

State tax + Local tax

Tax Revenue

What is direct travel-generated tax revenue?

Direct travel-generated tax revenue includes federal, state, and local tax revenue generated from visitor spending. **State taxes** primarily include lodging taxes, motor fuel taxes, income, and sales taxes. **Local taxes** primarily take the form of sales taxes imposed by cities, counties, and other tax jurisdictions in Wyoming. They also include a share of property taxes paid by travel industry business and employees.

Wyoming Travel Impacts

Direct Tax Revenue

Direct Tax Revenue Generated by Travel Spending

All tax categories related to travel grew in 2025. Sales tax (local and state) increased 7.3% and made up approximately 58.4% of total tax revenues.

Direct Tax Revenue Generated by Travel Spending, 2025

Approximately **40% of total travel-generated taxes were generated by state sales tax.** Of that total, \$35.1 million was returned to local governments.

Sources: Dean Runyan Associates

Note: Taxes are estimated based on applicable rates and projected figures for incomplete data. These figures may not match other reporting sources and estimates are subject to revision when more complete data becomes available.

Wyoming Travel Impacts

Impact of Direct Visitor Spending	
Amount of Visitor Spending that supports 1 job*	\$146,259
Employee Earnings generated by \$100 of Visitor Spending	\$30
Direct Tax Revenue generated by \$100 of Visitor Spending	\$6
Impact of Travel Industry	
Travel Share of Total Employment	8%
Share of Overnight Visitor Spending	
Hotel, Motel	54%
STVR	11%
Private home (VFR)	11%
Seasonal Home (2nd Home)	4%
Campground	20%

Sources: Dean Runyan Associates, U.S. Bureau of Economic Analysis

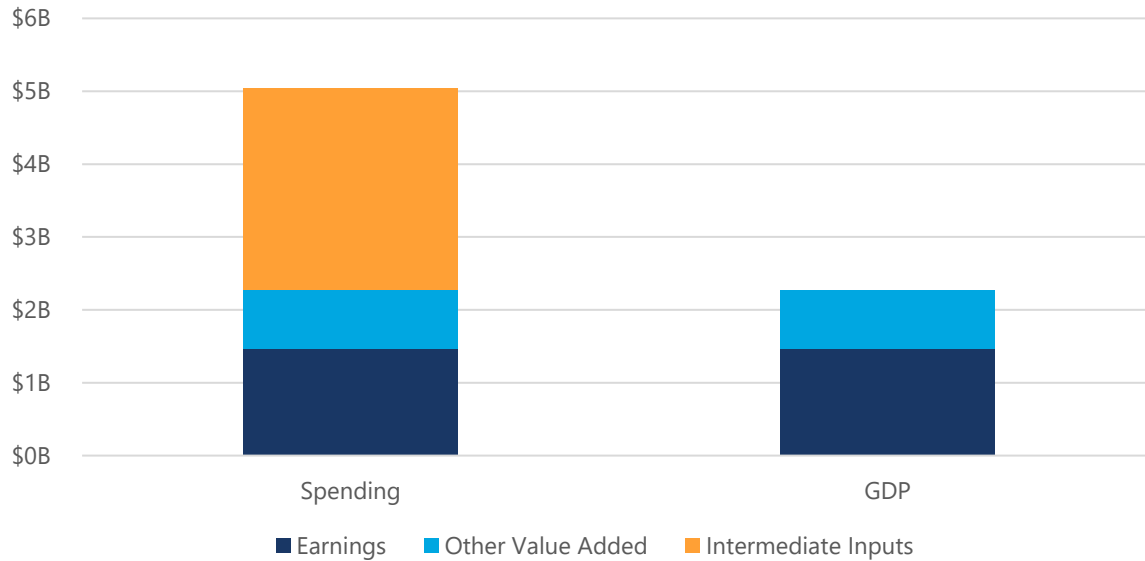

Note: Visitor spending that supports 1 job does not include other travel spending.

Wyoming Travel Impacts

Travel Industry GDP

Direct Travel Spending and GDP of Travel Industry

Note: The estimates represent only the direct impact of travel spending. A portion of the inputs purchased by travel businesses in Wyoming will be delivered by other Wyoming firms that are not strictly part of the travel industry. Restaurants, for example, will purchase agricultural products from other Wyoming businesses. These inputs are sometimes referred to as "indirect" effects.

Wyoming travel industry GDP of \$2.28 billion represents approximately 4.4% of the total Wyoming GDP.

GDP of the Travel Industry is 4.4% of the total state wide GDP

What is Gross Domestic Product (GDP)?

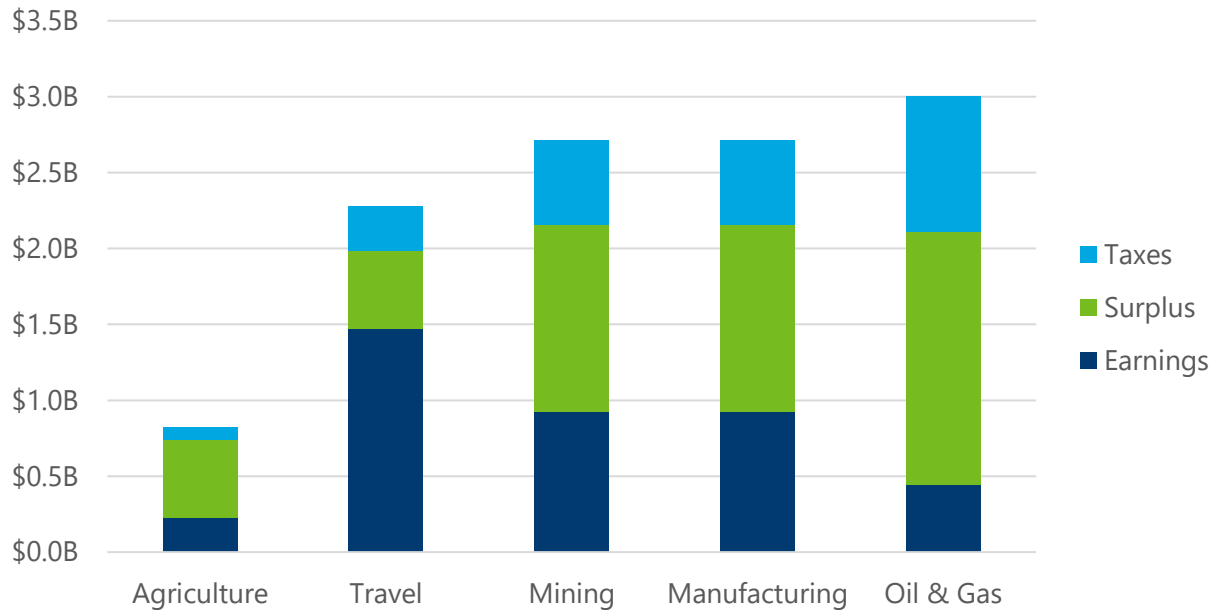

Gross Domestic Product (GDP, also referred to as value-added) is a measure of economic activity that reflects the market value of the labor and capital used to produce goods and services. The GDP for a particular industry within a state excludes the intermediate inputs purchased by businesses from other firms in the production process. It includes payments to individual in the form of earnings, indirect business taxes to government, and other payments to individuals and corporations.

Wyoming Travel Impacts

Export-Oriented Industry GDP Detail

Wyoming's travel industry is projected to add \$64 million in new economic output in 2025, bringing total travel-generated GDP to \$2.28 billion. As an export-oriented sector, travel continues to play a vital role in driving economic activity across the state.

GDP of Export-Oriented Industries in Wyoming, 2025p

Travel ranks among **Wyoming's leading export-oriented industries**, generating significant economic activity by attracting spending from visitors outside the state.

Sources: Dean Runyan Associates, U.S. Bureau of Economic Analysis

Oil & Gas is Wyoming's largest export oriented industry

What are export-oriented industries?

Export-oriented industries are those industries that primarily market their products and services to other regions, states, or nations. Agriculture, extractive industries such as mining, and manufacturing are the best examples of goods-producing export industries. The travel industry is also an export-oriented industry because goods and services are sold to visitors, injecting money into the local economy, as do the exports of other industries. Exports are not necessarily more important than locally traded goods and services. However, diverse export-oriented industries in any economy are a source of strength - in part because they generate income that contributes to development of other local services and amenities.

Wyoming Travel Impacts

Export-Oriented Industry GDP Trend

The table and graph below highlight the historical trend of Wyoming’s export-oriented industries’ GDP. While Manufacturing, Mining, and Oil & Gas contribute the largest overall output, Travel shows the strongest long-term growth, increasing from \$1.6 billion in 2019 to \$2.3 billion in 2025.

GDP of Export-Oriented Industries in Wyoming, 2019-2025

	2019	2020	2021	2022	2023	2024	2025	% Chg. 24-25	CAGR 19-25
GDP (\$Billions)									
Agriculture	0.7	0.6	0.7	1.0	1.0	0.8	0.8	7.9%	4.0%
Oil & Gas	2.4	1.3	2.8	4.0	2.9	2.8	3.0	5.6%	3.6%
Mining	2.6	3.0	3.2	4.0	4.3	2.8	2.7	-1.4%	0.5%
Manufacturing	2.9	1.9	3.1	4.5	4.1	4.0	4.0	-0.1%	5.8%
Travel	1.6	1.5	1.7	1.9	2.1	2.2	2.3	2.9%	6.1%

In 2025, Travel Industry GDP increased 2.9%

Travel achieved the highest compound annual growth rate (6.1%) among these industries, reflecting steady and consistent expansion over time. In contrast, Manufacturing also experienced strong growth (5.8%), while Oil & Gas and Agriculture grew more moderately. Mining remained relatively flat over the period, with minimal overall growth and greater year-to-year volatility. This pattern underscores Travel’s growing role as a stable and increasingly important contributor to Wyoming’s economy relative to other export-oriented industries.

Note: Employment figures represent the annual average number of jobs and are rounded to the nearest 10. Details may not add to totals due to rounding. All dollar figures are reported in nominal terms, not adjusted for inflation. City and county tax revenue are included in 'Local Tax Revenue' include sales tax, state sales tax distributed to local governments, and local lodging taxes. 'State Tax Revenue' includes state lodging tax, state sales tax, and motor fuel taxes paid by visitors.

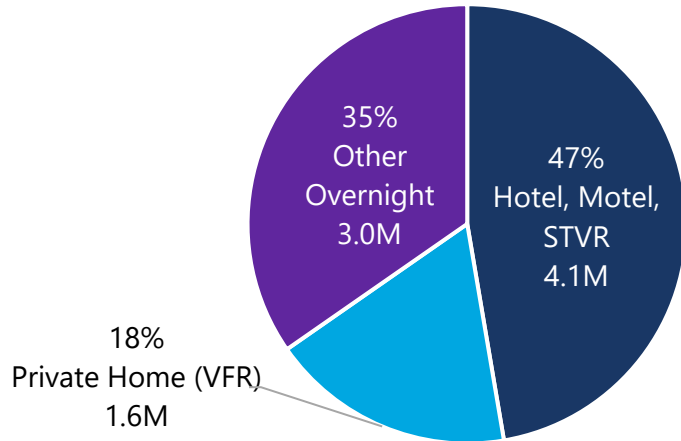

*Retail includes gasoline.

**Other travel includes resident air travel, travel arrangement services, and conventions/trade shows.

Wyoming Travel Impacts

Overnight Visitor Volume

Overnight Person Trips by Accommodation Type, 2025

Wyoming welcomed **8.8 million visitors in 2025, approximately stable** compared to 2024. Most visitors (47%) stayed in a hotel, motel, or STVR.

Wyoming Travel Impacts

Visitor Trip Details

Visitors who stay overnight typically spend more than visitors who come for the day. In 2025, overnight visitors spent between \$96 (private home VFR) to \$270 (Hotel, Motel, STVR) per day. Overnight visitors traveled with an average party of between 2.1 (Private Home) and 2.6 (Hotel, Motel, STVR) persons.

	Person		Party		Party Size	Length of Stay
	Day	Trip	Day	Trip		
Overnight						
Hotel, Motel, STVR	\$270	\$722	\$693	\$1,802	2.6	2.6
Private Home (VFR)	\$96	\$317	\$198	\$653	2.1	3.3
Other Overnight*	\$145	\$370	\$362	\$889	2.5	2.5
All Overnight	\$192	\$527

*Other Overnight includes Seasonal Home (2nd Home) and Camping.

Wyoming Travel Impacts

Total Visitor Impacts

The total visitor impacts—which include direct and secondary spending, earnings, and employment attributable to travel spending—are presented in eleven major industry groups. These industry groups are similar, but not identical to the business categories used to report the direct impacts in this report. The specific industries that comprise these groups are listed in IMPLAN/Secondary Effects. The largest secondary impact industries are reported below.

- **Professional & Business Services** (Secondary impacts include \$324 million spent, 1.7 thousand jobs and \$135 million in earnings) A variety of administrative services (e.g., accounting and advertising) are utilized by travel businesses. Employees of these businesses also purchase professional services.
- **Financial Activities** (Secondary impacts include \$779 million spent, 1.8 thousand jobs, and \$96 million in earnings) Both businesses and individuals make use of banking and insurance institutions.
- **Trade** (Secondary impacts include \$252 million spent, 1.1 thousand jobs and \$81 million in earnings) Employees and travel businesses utilize service providers such as repair shops, laundry, maintenance, and business services.

Note: The total impacts reported here only reflect the impacts attributable to visitor spending. The indirect and induced impact estimates reported here apply to the entire state and do not necessarily reflect economic patterns for individual counties. In general, geographic areas with lower levels of economic activity will have smaller secondary impacts within those same geographic boundaries.

Indirect and induced impacts are the two categories of secondary economic impacts.

What are secondary impacts?

Secondary impacts are the result of re-spending of travel-related revenues. **Indirect** impacts represent effects associated with industries that supply goods and services to the direct businesses. **Induced** impacts represent effects of purchases made by employees in both the direct and indirect businesses.

Wyoming Travel Impacts

Total Spend, 2025

In 2025, 32.9% of total spending was secondary. Secondary spending generated **\$779 million in the Financial Activities industry group.**

Total Spend by Industry Group, 2025

County Travel Impacts

2025

County Travel Impacts

Introduction

This section of the report presents a range of summary and detailed tables illustrating travel impacts by county. Readers should keep the following points in mind when interpreting these estimates:

- All county impacts represent direct impacts and are shown in nominal dollars, without adjustments for inflation.
- Estimates for counties with smaller populations and limited economic activity are generally less reliable than those for larger, more economically diverse counties.
- Total employment figures (U.S. BEA) represent the number of jobs, not the number of employed residents. All job counts reflect total positions and are not adjusted to full-time equivalents. As a result, job increases may reflect shifts from full-time to part-time employment.
- Sales tax distribution figures provided by the Wyoming Department of Revenue are shaped by each county's unique economic profile.
- Visitor volume is expressed using four metrics: person-trips, party-trips, person-nights, and party-nights. These metrics may vary independently due to changes in average party size and length of stay. Direct travel spending is a more consistent indicator of the travel sector's performance than visitor volume alone.
- County-level travel estimates are based on the best available data at the time of publication and may be updated as new information becomes available

Glossary

Term	Definition
2nd Home	Homes under private ownership for personal use as a seasonal property where a lodging tax is not collected.
Day Travel	A trip that involves non-routine travel of greater than 50 miles to the destination and but no overnight stay in the destination.
Destination Spending	Direct spending made by visitors in a destination. Interchangeable with "Visitor Spending."
Direct Earnings	Total after-tax net income from travel. It includes wage and salary disbursements, proprietor income, and other earned income or benefits.
Direct Employment	Employment generated by direct travel spending. It includes full-time employees, part-time employees, seasonal employees, and proprietors.
Direct Spending	Expenditures made by consumers, combination of Visitor Spending and Other Spending.
Hotel, Motel, STVR	Accommodation types that house transient lodging activity.
Local Taxes	City and county taxes generated by travel spending.
Other Overnight	Combination of other overnight visitors who stay in campgrounds or 2nd homes.
Other Spending	Spending by residents on travel arrangement services and/or spending for convention activity.
Private Home (VFR)	Personal residences used to host friends and family visiting overnight in the destination.
State Taxes	State taxes generated by travel spending.
STVR	STVR stands for "short term vacation rental." The category includes private and semi-private lodging rented by owners or property management companies (e.g., Airbnb & VRBO).
Visitor Spending	Spending by visitors in a destination.

Methodology

Travel Impacts Methodology

Primary travel impact analysis will make use of the Regional Travel Impact Model (RTIM), prepared and maintained by Dean Runyan Associates and used for most of our travel impact analysis since 1985. This model was developed to provide robust impact findings at small geography without reliance on annual survey research. This is a “bottom up” approach whereby analysis is conducted at the county level, then aggregated to regions and the state, allowing us to use the most detailed tax, employment, wages, and other data that are available. Our clients have selected this approach to provide particularly detailed and defensible findings for all parts of their constituency.

Because the model does not rely on annual survey research for its primary inputs, we work in other states with a variety of other visitor profile providers, including national panel managers or those making use of intercept or regional web methodology. Analysis is conducted separately by type of visitor lodging, making use of data and modeling appropriate to each. Impact analysis associated with visitors staying in commercial lodging makes use of lodging tax data to calculate lodging sales, then employs expenditure distribution data for these types of visitors to calculate total sales and the distribution among expenditure categories. We maintain our own expenditure distribution database for each state we work in, but also make use of historic and current expenditure data, as available. Rental cabins, condos and other property are included in this category if lodging tax has been applied to sales.

Earnings, employment, and tax receipts are calculated using employment and wage data by business category, for each county, plus the applicable taxes on each type of expenditure. Tax impacts, such as for restaurant, fuel, and retail purchases, are calculated from spending amounts; totals will be checked against data from state sources.

Sales attributed to campers are calculated from campground inventory (separately for public and commercial campgrounds), camping occupancy data and average expenditures for camping parties. Expenditure data will be from expenditure databases that we maintain, augmented by visitor survey data available for Wyoming, as available.

Other impacts are calculated in a manner like those for commercial accommodation travelers. Sales attributable to travelers staying in their own second homes, or in rented condo, cabin, and other accommodations, are calculated from inventories of these types of lodging and the associated utilization and expenditure data. Findings are made consistent if some of these sales have been subject to lodging tax. Second home inventories are from US Census sources and any local/regional data available. Other impacts are calculated in a manner like those for commercial accommodation travelers.

Methodology

Travel Impacts Methodology

Day travel spending is calculated as a factor of overnight spending, with the proportions based on visitor data for Wyoming travelers. This analysis will rely the most on visitor profile data provided by the profile contractor. Other impacts are calculated in a similar way as those for commercial accommodation travelers.

All spending estimates are summed for each county and separately for each business category with applicable data then used to calculate earnings, employment, and tax receipts. County totals will be mapped to regions using address and other location data for lodging, camping, and other rental accommodations using separate methods for each type of lodging.

In all cases, our data and methodology are transparent, allowing for reliable error trapping and effective review of findings. All findings are also checked against available comparable data, such as county-level employment data by industry from the US Bureau of Labor Statistics and lodging sales data from STR and Key Data.

The table below demonstrates how our reported “Travel Industries” translate to the North American Industry Classification System (NAICS) codes.

Travel Impact Industry	NAICS Industry Code
Accommodation & Food Service	Accommodation (721) Food services and drinking places (722) Residential property managers (531311) Breweries, wineries, distilleries (312120, 312130, 312140)
Arts, Entertainment, & Recreation	Arts, entertainment, and recreation (71) Scenic and sightseeing transportation (487) Motion picture and video exhibition (51213) Recreational goods rental (532292) Tour operators (56152)
Retail	Food & beverage stores (445) Gasoline stations (447) Clothing and clothing accessories (448) Sporting goods, hobby, book and music stores (451) General merchandise stores (452) Miscellaneous store retailers (453)
Transportation	Rail transportation (482114) Water transportation (4831) Urban transit systems (4851) Interurban and rural bus transportation (4852) Taxi and limousine service (4853) Charter bus industry (4855) Passenger car rental (532111) Truck, trailer, and RV rental and leasing (53212) Parking lots and garages (812930)
Air Transportation	Scheduled passenger air transportation (481111) Support activities for air transportation (4881)
Others	Travel agencies (56151) Convention and trade show organizers (56192)

Note: Travel spending on breweries (312120), wineries (312130) and distilleries (312140) are included within the Food Service, Retail, Food Stores, and Recreation industries. It is likely that the bulk of travel-related spending on these alcohol-related NAICS codes occurs within the Food Service category. However, because experiences at breweries, wineries, and distilleries often include a significant experiential component, as well as opportunities for retail purchases, we are unable to allocate exact percentages to the above travel impact categories. NAICS codes are based on responses from individual organizations and are not always a perfect 1:1 alignment with our analysis.

Methodology

Secondary Travel Impacts

Secondary (indirect and induced) spending, earnings, and employment were estimated using IMPLAN. IMPLAN is a widely used, nationally recognized economic impact model, first developed by the U.S. Forest Service. IMPLAN provides estimates of the additional economic activity associated with a sale of a good or service to a traveler. This methodology has been packaged, along with the necessary data files, as IMPLAN Pro by the Minnesota IMPLAN Group, Inc. (MIG) of Stillwater, Minnesota.

Multipliers

Each industry that produces goods and services generates demands for other goods and services. These other producers, in turn, purchase goods and services. These indirect purchases (indirect effects) continue until “leakage” from the region (imports, wages, profits, etc.) stop the cycle. The repeating iterations are described by multipliers. Each of the multiplier types can be calculated for output, employment, and income (value added).

Wyoming Data and Analysis

All impact amounts are expressed in current dollars using IMPLAN deflators based on the U.S. Bureau of Labor Statistics’ Consumer Price Index. Through IMPLAN, direct employment from the RTIM model was used to estimate all the associated indirect and induced effects. Employment associated with retail trade was evenly divided between general merchandise stores and miscellaneous retail. Employment associated with ground transportation was divided between auto rental, gasoline service stations, and local transportation based on the expenditure distribution data used for the RTIM model.

Implan Industry Groups

Accommodation & Food Services

- Food services and drinking places
- Hotels and motels, including casino hotels
- Other accommodations

Arts, Entertainment & Recreation

- Bowling centers
- Fitness and recreational sports centers
- Independent artists, writers, and performers
Museums, historical sites, zoos, and parks
- Other amusement, gambling, and recreation industries
Performing arts companies
- Promoters of performing arts and sports and agents for public figures
- Scenic and sightseeing trans and support activities for transportation
- Spectator sports

Wholesale & Retail Trade

- Building material and garden supply stores
- Clothing and clothing accessories stores
- Electronics and appliance stores
- Food and beverage stores
- Furniture and home furnishings stores
- Gasoline stations
- General merchandise stores
- Health and personal care stores
- Miscellaneous store retailers
- Motor vehicle and parts dealers
- Non-store retailers
- Sporting goods, hobby, book and music stores
- Wholesale trade

Transportation

- Air transportation
- Automotive equipment rental and leasing
- Automotive repair and maintenance, except car washes
- Couriers and messengers
- Rail transportation
- Transit and ground passenger transportation
- Travel arrangement and reservation services
- Truck transportation
- Warehousing and storage
- Water transportation

Government

- Federal electric utilities
- Federal Military
- Federal Non-Military
- Other Federal
- Government enterprises
- Other State and local government enterprises
- Postal service
- State & Local Education
- State & Local Non-Education
- State and local government electric utilities
- State and local government passenger transit
- Securities, commodity contracts, investments

Implan Industry Groups

Professional Services

- Accounting and bookkeeping services
- Advertising and related services
- All other miscellaneous professional and technical services
- Architectural and engineering services
- Book publishers
- Cable networks and program distribution
- Child day care services
- Civic, social, professional and similar organizations
- Colleges, universities, and junior colleges
- Computer systems design services
- Custom computer programming services
- Data processing services
- Database, directory, and other publishers
- Elementary and secondary schools
- Environmental and other technical consulting services
- Grantmaking and giving and social advocacy organizations
- Home health care services
- Hospitals Information services
- Legal services
- Management consulting services
- Management of companies and enterprises
- Motion picture and video industries
- Newspaper publishers
- Nursing and residential care facilities
- Offices of physicians, dentists, and other health practitioners
- Other ambulatory health care services
- Other computer related services, including facilities management
- Other educational services
- Periodical publishers
- Photographic services
- Radio and television broadcasting
- Religious organizations
- Scientific research and development services
- Social assistance, except child day care services
- Software publishers
- Sound recording industries
- Specialized design services
- Telecommunications
- Veterinary services

Implan Industry Groups

Other Services

- Business support services
- Car washes
- Commercial machinery repair and maintenance
- Death care services
- Drycleaning and laundry services
- Electronic equipment repair and maintenance
- Employment services
- Facilities support services
- General and consumer goods rental except video tapes and discs
- Household goods repair and maintenance
- Investigation and security services
- Lessors of nonfinancial intangible assets
- Machinery and equipment rental and leasing
- Office administrative services
- Other personal services
- Other support services
- Personal care services
- Private households
- Services to buildings and dwellings
- Video tape and disc rental
- Waste management and remediation services

Mining & Manufacturing

- All mining & manufacturing industries except for food processing

Agriculture & Food Processing

- Farming & manufacturing industries in food processing

Finance, Ins., & Real Estate

- Funds, trusts, and other financial vehicles
- Insurance agencies, brokerages, and related
- Insurance carriers
- Monetary authorities and depository credit intermediation
- Non-depository credit intermediation and related activities
- Real estate
- Securities, commodity contracts, investments

Construction

- Commercial and institutional buildings
- Highway, street, bridge, and tunnel construction
- Maintenance and repair of farm and nonfarm residential structures
- Maintenance and repair of highways, streets, bridges, and tunnels
- Maintenance and repair of nonresidential buildings
- Manufacturing and industrial buildings
- New farm housing units and additions and alterations
- New multifamily housing structures, nonfarm
- New residential 1-unit structures, nonfarm
- New residential additions and alterations, nonfarm
- Other maintenance and repair construction
- Other new construction
- Water, sewer, and pipeline construction
