**York County, the birthplace of American Whiskey<sup>SM</sup>**

York County's distilling history dates all the way back to the 1700s, with as many as 550 distilleries making rye whiskey at one point. Thanks to prohibition, those numbers quickly dwindled. But now distilling is back and thriving along the Keystone Craft Spirits Trail®! York County's distilleries are serving up award-winning and unique flavors which would make their forefathers proud. In fact, Pennsylvania is among the top 10 states by number of craft distilleries, making it a prime location to plug into this emerging trend with the Keystone Craft Spirits Trail®.
