‘Secret’ Places In The U.S. To See The Perseids, Northern Lights And The Comet

Cape Lookout Lighthouse. THE CRYSTAL COAST TDA

Cape Lookout National Seashore, North Carolina

[Cape Lookout National Seashore](#) on North Carolina’s Southern Outer Banks—or [Crystal Coast](#)—is the first and only certified International Dark Sky Park on the Atlantic Coast. The Crystal Coast Stargazers host seasonal Astronomy Nights as part of its regular [astronomy programming](#), which includes Astronomy Nights and Starlight Cruise from May through August, when the Milky Way can be seen in the early evening.
