DESTINATIONS NORTH AMERICA

National Wildlife Day takes place Sept. 4. To celebrate, plan a trip to a destination known for its abundance of wildlife sightings.

## **Crystal Coast, North Carolina**

North Carolina's [Crystal Coast](#) is home to a variety of land and aquatic wildlife. The region is known as an excellent scuba diving spot for its more than 2,000 underwater wrecks and for marine life-spotting opportunities. If you'd rather stay on land, visit [Shackleford Banks](#) and walk among the island's wild horses. Go for a stroll along the Crystal Coast's beaches to see a variety of bird species and turtles.
