## Nature Takes Its Course

### The Preserve at Oak Meadows Golf Course

This is not your typical forest preserve. Nor a typical golf course. This is The Preserve at Oak Meadows Golf Course, and characteristically DuPage. If you're looking to golf one of the biggest destination courses in the Midwest, this one should be on your list. Transformed and reopened in 2017, be prepared for a challenging course, with an award-winning landscape taking you through prairie, wetlands and savannah. This not only makes for great golf, it's also been deemed an engineering marvel — benefitting wildlife and the surrounding community. Come experience what is hailed by golf enthusiasts, landscape architects and environmentalists as a revitalization that elevates the relationship between conservation and recreation.
