Presentation

Jake Ingrassia and Victoria Carpenter with Palm Springs International Airport gave an update on the airport renovations.

- We are working on a master plan and that is a federally required document that helps the FAA plan for funding through the airport. It also helps us plan strategically for the projects that we may need over the course of the next 20 years. The most important thing to understand about the master plan is that it is only a plan. It's a flexible guiding document with plenty of

opportunities over the course of these multiple projects. It's for public input as well as each project being individually scoped, funded, and approved. We needed an airport master plan because PSP is rapidly increasing in popularity. Coming out of Covid, we've had two back-to-back record-breaking years.

We had 3.2 million total passengers in 2023, we're on track to have about that or better this year. By 2027, just in the near future, 4 million passengers. And by the end of this airport master plan, the 20-year period (2042), we're expecting over 6.4 million passengers. That's double what we had last year. That means that we need to plan for all of that projected growth starting today so that we're ultimately able to accommodate it.

- There are four phases of the master plan process. First, pre-planning, second, investigation, third, solutions, and fourth, implementation. And so right now we're roughly between phase two and phase three. We are investigating all of the potential solutions and public outreach has been a key component through all the course of this master plan process. We've been at it for about a year now. We've held dozens of community group meetings, really trying to get a feel for what the community wants to see reflected for the vision of our airport's master plan.

The last remaining item that we're working on is the location of the rental car center, and we have three alternatives (all can be found on [Palmsspringsairportmasterplan.com](https://palmsspringsairportmasterplan.com)). Community outreach sessions have all said they want to preserve the current ease of getting from the planes, into the airport and to the rental car areas.

- Alternative one is the rental car center to the north of the airport. Based on community feedback, this option preserves the character of the airport as it is right now, as well as the ease of use that people have come to know and love by allowing people to walk off the plane, grab their bag and walk right into the rental car center to pick up their vehicle.
It's proposed right now as a five-story building with two below grade, two above grade and rooftop parking.
 - Alternative two is a south site rental car center. This option would require a shuttle bus operation. We would have a couple of buses running on a loop throughout the time that we have flights operating. The trip would be roughly a 20-minute round trip and would carry them from the terminal to the rental car center on the south side of Kirk Douglas Way.
That is proposed as a five story above grade building.
 - Alternative three is a hybrid model. This alternative was introduced to address concerns from the community that we heard regarding the size and scope of this rental car center, as well as views that could potentially be obstructed to the north in that north alternative.
This alternative would possibly be two buildings, the first being on the north side with three levels - two below grade, one above grade and rooftop parking. The second building would be on the south side which we would build as demand indicates later in the future.
 - The hybrid alternative is the model that has been recommended by our airport commission and it will now go to City in January. We're continuing to collect these pieces of feedback and that will all be presented to City Council for a vote next month.
- We have changed all of our concessions at the airport, as we've had the same retail and food and beverage concessions for about 20 years. The last three, Trio, Vino Volo, and the Pink Door are all coming in early 2025.
 - FIS is our federal inspection system that we are trying to get at the airport. We recently completed a feasibility study through a consultant, and we are now working with Customs Border Patrol (CBP) so that we can get police or CBP officer allocation to the Palm Springs area. That is a federal mandate for us to work through CBP. They have to be able to have staffing and allocation. So, our next phase is getting letters of support from our airlines that want to come into Palm Springs market and preparing to present our capability study to headquarters and the LA Office. Once approved, we can then have our FIS for international flights. We think
-

we have opportunities for up to four daily flights from cities south of the border, and there are some suggestions for one daily nonstop to the Western Europe region.

- We have installed a new courtyard shade structure just outside the TSA checkpoint, with another being installed at the nine cities restaurant.
- Over the next few months, you're going to see an activation space with a nice seating area and places for you to plug in to use our recently upgraded Wi-Fi.
- The Wi-Fi is being upgraded in three phases. Phase one and two are both completed in the Bono concourse, Agua Caliente concourse, and the center terminal. The third phase is the outdoor areas, and the airport will be completely upgraded.
- A new TSA 7th lane with reconfigured checkpoint installed before Thanksgiving has been successful thus far.
- We will be installing terminal or Terraza flooring throughout the whole terminal within the next year, to year and a half.
- We will be expanding our baggage claim sometime in the next 3-5 years.
- Finally, we will also be replacing the revolving doors from the courtyard to the main lobby with a more state-of-the-art system that will improve the flow of passenger traffic from the courtyard into the baggage claim.
- New grants for emissions vehicles?
Passengers are up by 8-9% from last year – the most the airport has ever had during season.
- The airport was recently awarded a six-million-dollar grant for upgrading our outbound baggage handling system. We've also received a grant to convert our vehicles to zero emission vehicles.
- Air Service Update for December through 2025:
 - We are on track to do about the same as we did last year. 3.2 million passengers in total in 2023. November was slightly down primarily due to the loss of JetBlue, but with the addition of five new routes and two new airlines in December, we are expecting a 1% increase this month.
 - March and April is up about eight to nine percent from last year, and is thanks to all of the new air service that we're bringing in, which is actually the most air service that PSP has ever offered to date.

We just launched a new airline yesterday, Porter, with non-stop service seasonally to Toronto, and today, Frontier is coming in with year-round, nonstop service to SFO and Denver. Some say Palm Springs is more expensive than our competitor airports, so this introduces some pricing competition (a more affordable option) for people who might be looking for a lower price point.

Next week we are launching United non-stop to Washington Dulles, which not only connects us with Washington DC and the nation's capital, but also over 230 connection opportunities for international travel.

Next Saturday, Delta is coming in with another non-stop to JFK.

We launched Alaska's non-stop to JFK this year and so this will be the second non-stop route to New York City.

CEO / PRESIDENT'S REPORT

The complete Board Packet can be viewed on our website [here](#), and a direct link to the presentation also available on our website is [here](#).

Scott White:

1. We are involved with the Jack and Jill Foundation, which is a foundation that works with oncologists around the country to provide the opportunity for terminal cancer patients to have a family vacation of their choice wherever they want to go. They partner with different destinations around the country. We volunteered for that program and have already had a family here about a year and a half ago. The foundation came back to us with another family that's very interested in coming to the destination in early January. The team has put together a nice itinerary for them and thank you to Nusrat and the JW for hosting the rooms for this family. And thank you to a lot of our partners for stepping up as well.
2. As you know, we work with a company called FiredUp! Culture, which is an organization that really tries to help organizations such as ours with coaching, team building, and cultural enhancements.

We have coaching available to our staff throughout the entire year to talk about opportunities or things that help them become better leaders within their departments. It's been widely successful. And then every so often we like to do a cultural survey. So, we're just wrapping up our culture survey for 2024. We have a lot of new employees that have come on board, and we thought it important to hear from them to make sure that what we're doing and how we're managing the day-to-day, the processes, everything that's happening within the organization is spot on. FiredUp! Will be in our office in January to meet with our staff and go over the survey results and continue our team building. We will have a full report to share with you at the January Board Meeting.

3. Update on progress and updated timeline for VGPS Board Priorities with Coraggio, the consultation group hired to facilitate our Board Strategy Sessions to set our 2025-2027 Board Priorities.

We had 31 Board Members and 10 JPA attend our strategy session on November 13th at the Thompson, which went very well, and we received great feedback from everyone. It was clear to us that the priorities continue to really resonate around regional collaboration off peak. You can redefine summer to off peak, which is May through December, and how do we continue to enhance that and stewardship of the industry and the area as well.

Coraggio then did a session with our leadership team on property at Visit Greater Palm Springs.

Afterwards, as they were presenting the deck that would be presented to you during the scheduled virtual meeting, we felt that there wasn't enough substance there that really warranted for you to take time out of your day to essentially be given a recap, which I'm giving

you right now. So, we canceled the virtual session to give them some more time to really distill the information that they received from you all and from our leadership team. We will be going through that with them next week. Our goal is to make sure we have all this wrapped up by the end of January. We will present results at the January 31st Board Meeting.

4. We were in Osaka for IGLTA, where representatives from over 50 countries were in the destination. Mayor Jeffrey Bernstein and Rob Hampton joined us as well. We are very excited for their conference in Palm Springs in October 2025, where we're hearing may have attendance of upwards of 1500 attendees or more.

John Ella is the President & CEO for IGLTA. He's buying a house in our destination, so he's becoming a permanent resident of Palm Springs.

We have our planning committee starting next week on the 17th, with Danny Guerrero as the facilitator of that. We have 20 stakeholders - thank you Rob and the Convention Center for hosting the first meeting. This will really give us an opportunity to work with this committee and to work with the IGLTA staff. There is about 10 IGLTA staff coming in as well, which are remote all over the world, so it's nice if they're coming in to be committed to this destination.

Colleen Pace provided updates on Marketing and Travel Trade:

Marketing:

1. Thank you to the Westin and the City of Rancho Mirage for sponsoring and hosting the LIVE with Kelly and Mark show.

Preliminary numbers are above expectation, but they will be providing us with a full report. We received seventeen million dollars in estimated advertising value from these four shows that ran in November. We had almost nine million unique viewers. One hundred and five million reach from the earned media, four point seven million video views across all of their platforms. Seven point eight million impressions, and two hundred fifty million engagements on social. On our own channels we had one point one million video views, over sixty thousand engagements, and five hundred fifty thousand impressions. So, for that short period of time, that is an incredible amount of engagement.

2. NCAA Acrisure Classic Sponsorship had over 14,455 total attendances. 19 games over 4 days with over 1450 contracted room nights and 1.3 million views.
3. We're promoting all the 2024 Holiday events, including Wild Lights, Magic Lights, and Palm Springs Holidays. These and all the other holiday events are on the VGPS website and consumer newsletter. Holiday blogs are our highest viewed blogs currently, with over 15,000 views in just a very short period of time.
4. We support signature and destination events. Here are a couple of videos showing a few of the events we supported in 2024 and some of the upcoming in 2025.
5. Two new Video Series launching: Your Guide To – Season 3 just launched, and DineGPS will launch in January.
6. PR/Communications participated in two recent media missions with Visit California. One with South Korea, Korea and China, meeting with 40 traditional media, and 30 content creators, engaging with the top social media platforms that we're considering reengaging with. The other was ILTM in Paris, with a lot of great one-on-one meetings. They brought in 20 influencer digital creators as well.

Carolina Viazcan gave the Sales & Events Report Out:

1. We are at 87% of our goal, with plenty in the funnel to achieve it. Future pace 2024-2027 shows: 17% ahead of our pace target for this year and 38% ahead for 2025. 2026 is flat and our focus continues to be for the years 2027 and beyond, which is currently about 20% behind.

-
2. We are hosting two FAMs from December 19, 2024 – January 5, 2025, which include the Inaugural New York Flight FAM, (hosting 15 clients with guests including meeting planners, travel trade and media) thank you to La Quinta Resort for rooms host hotel, and the Palm Springs International Film Festival FAM (hosting 27 clients plus their guests) thank you to Thompson Palm Springs for rooms host hotel.
 3. We are hosting Go West Summit at PSCC and Renaissance Palm Springs, January 6-9, 2025 – where we will see 180 buyers and media representing over 16 countries.
 4. We are also hosting the Airport Roundtable Series at Omni Rancho Las Palmas Resort, January 8-10, 2025 – 65 attendees representing 9 airlines and different representatives from the airports throughout the US.

Sean Smith gave economic development updates:

1. At an October 22nd meeting, the Riverside County Board of Supervisors approved a contract with a consultant, the Natelson Dale Group, for the completion of a countywide economic development strategic plan. As part of the scope of services that the consultant will be working on for the overall region of the county, which is one of the fastest growing regions in all of California, we will be receiving an enhanced plan specific to Greater Palm Springs, which will be a great resource for us moving forward. The county representatives have indicated that those plans should be complete by fall of 2025.
2. As our work with North Star Consultants continues, they completed their initial phase of a significant amount of data collection and research, and we are now moving into the brand creative phase of the work, utilizing all the data collected from that initial phase. This will help identify who we are and reflect who we are as a regional economic development organization.

The creative committee facilitated by the North Star group, have completed two meetings to date. The first was held on October 31st, which was an introduction to the process. The group was shown a number of design elements from other organizations and agencies for feedback. The next meeting was held on December 5th, where we went through some straplines and messaging opportunities for consideration. The next meeting will be in January (date is to be determined), but we're a few months away from being able to actually launch our branding.

3. The Inland Economic Growth & Opportunity and Inland Empire Labor Institute have combined efforts to implement the first California Jobs First initiative on a regional effort. We've been asked to be their backbone organization, which essentially means we will be reaching out to a variety of stakeholders through the Valley to discuss workforce development and job creation. This gives us an opportunity to be a resource to those stakeholders, primarily in areas of sustainability and in populations that are traditionally underserved, to potentially connect them with grant funding as well as resources at the regional and the state level. We've agreed to take on that role, given it's in line with some of the work that we're already doing. This initiative has just started, but we'll certainly be providing updates as we move forward.

Davis Meyer gave partnership updates:

1. The Leadership Institute Certificate program with College of the Desert, previously the Emerging Leaders, schedule has been posted for 2025. There's two series of courses that are going to be available in February and March. This is an incredible opportunity, if you're not familiar with it, for people who are going into their first supervisory roles or new leadership positions in hospitality. It's a seven-part in-person rigorous leadership training course. We've received great feedback from a lot of our hotel partners and people that have participated so far. We are continuing to offer scholarships for this through the Tourism Foundation. If you have staff that you feel would benefit from this training and help advance them in your organization it, it's about a thousand dollars cost. The Tourism Foundation does cover that, and you can apply at goteamgps.com for scholarships. We are also working on the next evolution of this, which is a Visionary Leadership Certificate Program for people who are more seasoned in their hospitality leadership careers. We will be reaching out to a lot of you the first quarter of 2025 to audit that course and give us feedback.

2. Thank you to everyone that helped with and attended the 2024 Champions of Hospitality Awards Gala. This is the largest fundraising event for the Tourism Foundation and our opportunity to recognize our local hospitality industry workers.
3. We made the Green Destinations Top 100 stories competition for the second year with our story, The Power of Inclusion: Amplifying Authentic Experiences and Local Voices. This recognizes our destinations efforts towards responsible tourism and distinctive appeal.
4. VGPS won the Outstanding Organizational Initiative Award from Travel Unity at their inaugural DEI Award Gala. This award acknowledges our commitment to inclusion through the lens of youth engagement and workforce development, honoring our Summer 2024 Youth Leadership (Micro-Internship) Program.

A local CSUSB student, Diego Rendon, and a Tourism Foundation Scholar, was honored with the Travel Unity Youth Award for his exceptional dedication to advancing inclusion in travel and the college experience at CSUSB.

Re: Public Meeting to Modify the Greater Palm Springs Tourism Business Improvement District

RECOMMENDATION:

That the Joint Powers Authority Executive Committee, serving as the governing body of Visit Greater Palm Springs, hold a public meeting to modify the existing Greater Palm Springs Tourism Business Improvement District.

BACKGROUND:

The Greater Palm Springs Tourism Business Improvement District (GPSTBID) is a benefit assessment district that provides a revenue source to help fund marketing and sales promotion efforts, as well as key priority projects for assessed Greater Palm Springs lodging businesses. The GPSTBID currently includes all lodging businesses with fifty (50) rooms or more and all vacation rentals located within the boundaries of the GPSTBID, including the cities of Desert Hot Springs, Palm Springs, Cathedral City, Rancho Mirage, Palm Desert, Indian Wells, La Quinta, and Indio, and portions of the unincorporated area of Riverside County in the Coachella Valley.

The Property and Business Improvement District Law of 1994, Streets and Highways Code §36600 et seq., allows for the Owners' Association to request the JPA Executive Committee to modify the Management District Plan (Plan). Visit Greater Palm Springs is the Owners' Association of the GPSTBID and has requested that the JPA Executive Committee begin proceedings to modify the Plan. The proposed modification will modify the GPSTID boundaries to include the City of Coachella within its existing boundaries, effective July 1, 2025.

Coachella lodging business owners have expressed the desire to join the GPSTBID to increase overnight visitors and other benefits provided by the GPSTBID. Visit Greater Palm Springs now desires to build upon this success by modifying the Plan to include certain lodging businesses in the City of Coachella.

MANAGEMENT DISTRICT PLAN

The Plan (Attachment 1) includes the boundary of the GPSTBID, a service plan, budget and

a means of governance. The modified MDP boundaries include all lodging businesses with fifty (50) rooms or more and all vacation rentals, existing and in the future, located within the boundaries of the cities of Desert Hot Springs, Palm Springs, Cathedral City, Rancho Mirage, Palm Desert, Indian Wells, La Quinta, Coachella, and Indio and portions of the unincorporated area of Riverside County in the Western Coachella Valley. The modified Plan with the addition of Coachella will take effect on July 1, 2025, and will continue until the expiration of the GPSTBID on June 30, 2031.

GPSTBID MODIFICATION PROCESS

December 13, 2024	RESOLUTION OF INTENTION HEARING (Completed) Upon the submission of a written request by the Owners' Association, the JPA Executive Committee may initiate proceedings to modify the Plan by the adoption of a Resolution expressing its intention to modify the Plan.
January 31, 2025	PUBLIC MEETING Allow public testimony on the modification of the Plan. No JPA Executive Committee action required.
No later than February 18, 2025	NOTICE The 94 Law requires the JPA Executive Committee to mail written notice to the owners of all businesses proposed to be assessed within the GPSTBID. Mailing the notice begins a mandatory forty-five (45) day period in which assessed business owners may protest GPSTBID modification.
April 4, 2025	FINAL PUBLIC HEARING If written protests are received from the owners of businesses in the district which will pay more than 50 percent (50%) of the assessments proposed to be levied and protests are not withdrawn so as to reduce the protests to less than 50 percent (50%), no further proceedings to levy the proposed assessment against such businesses shall be taken for a period of one year from the date of the finding of a majority protest by the JPA Executive Committee. The existing GPSTBID would remain in place, unmodified. If the JPA Executive Committee, following the public hearing, decides to modify the Plan and expand the boundaries to include the City of Coachella, the JPA Executive Committee shall adopt a Resolution of Modification.

FISCAL IMPACT:

None immediately. Because the GSPTBID programs are intended to increase visitation to the Greater Palm Springs area, there may be an increase in transient occupancy tax and sales tax collections.

I. OVERVIEW

Developed by Visit Greater Palm Springs (VGPS) and Greater Palm Springs lodging businesses, the Greater Palm Springs Tourism Business Improvement District (TBID) is an assessment district proposed to provide specific benefits to payors, by funding tourism marketing and sales promotion efforts for assessed businesses. This approach has been used successfully in other destination areas throughout the country to provide the benefit of increased overnight visitors and additional room night sales directly to payors. In 2024, the TBID and this Management District Plan were modified to include the City of Coachella in the TBID boundaries, which shall go into effect on July 1, 2025.

Location: The TBID includes all lodging businesses with fifty (50) rooms or more and all vacation rentals located within the boundaries of the cities of Desert Hot Springs, Palm Springs, Cathedral City, Rancho Mirage, Palm Desert, Indian Wells, La Quinta, Coachella, and Indio and portions of the unincorporated area of Riverside County in the Western Coachella Valley, as shown on the map in Section IV. A detailed map series can be found in Appendix 4.

Services: The TBID is designed to provide specific benefits directly to payors by creating sales and marketing programs with the goal of increasing overnight visitation and room night sales. In addition to sales and marketing programs, VGPS Board of Directors will establish key priorities each year. For example: key programs may include air service and rail development, work force development, research and analytics, educational support, and more.

Budget: The total TBID annual assessment budget for the initial year of its ten (10) year operation is anticipated to be approximately \$17,000,000. The assessment funds will be supplemented with non-assessment funds, so that the total budget for the initial year is estimated at \$20,732,000. In 2024, the projected total TBID budget is approximately \$25,000,000 and will continue to fluctuate as room sales do.

Cost: The annual assessment rate is three percent (3%) of hotels' gross short-term room rental revenue, and one percent (1%) of vacation rentals' gross short-term room rental revenue. Based on the benefit received, assessments will not be collected on stays of more than twenty-seven (27) consecutive days.

Collection: VGPS, Cities and/or County will be responsible for collecting the assessment on a monthly basis (including any delinquencies, penalties and interest) from each lodging business with fifty (50) rooms or more and each vacation rental located in the boundaries of the TBID. VGPS, Cities and/or County shall take all reasonable efforts to collect the assessments from each assessed business.

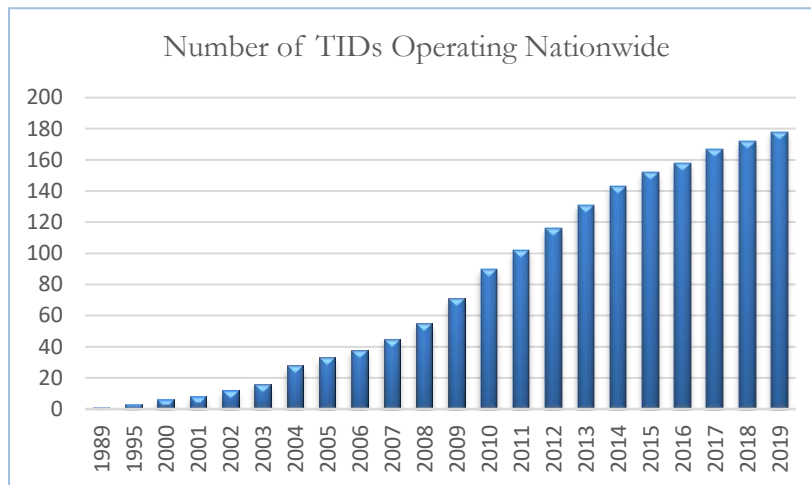

Duration: The renewed TBID will have a ten (10) year life, beginning July 1, 2021 through June 30, 2031. Once per year, beginning on the anniversary of TBID

renewal, there is a thirty (30) day period in which owners paying fifty percent (50%) or more of the assessment may protest and initiate a hearing on TBID termination.

Management: VGPS is charged with managing funds and implementing programs in accordance with this Plan.

II. BACKGROUND

TBIDs are an evolution of the traditional Business Improvement District. The first TBID was formed in West Hollywood, California in 1989. Since then, over 100 California destinations have followed suit. In recent years, other states have begun adopting the California model – Montana, South Dakota, Washington, Colorado, Texas and Louisiana have adopted TBID laws. Several other states are in the process of adopting their own legislation. The cities of Wichita, Kansas and Newark, New Jersey used an existing business improvement district law to form a TBID. And, some cities, like Portland, Oregon and Memphis, Tennessee have utilized their home rule powers to create TBIDs without a state law.

California's TBIDs collectively raise over \$427 million annually for local destination marketing. With competitors raising their budgets, and increasing rivalry for visitor dollars, it is important that Greater Palm Springs lodging businesses and vacation rentals invest in stable, industry-specific programs.

TBIDs utilize the efficiencies of private sector operation in

the market-based promotion of tourism districts. TBIDs allow assessed business owners to organize their efforts to increase demand for overnight visitation and room night sales. Assessed business owners within the TBID pay an assessment and those funds are used to provide services that increase demand for overnight visitation and room night sales.

In California, TBIDs are formed pursuant to the Property and Business Improvement District Law of 1994. This law allows for the creation of a benefit assessment district to raise funds within a specific geographic area. *The key difference between TBIDs and other benefit assessment districts is that funds raised are returned to the private non-profit corporation governing the district.*

There are many benefits to TBIDs:

- Funds must be spent on services and improvements that provide a specific benefit to those who pay;
- Funds cannot be diverted to general government programs;
- They are customized to fit the needs of payors in each destination;
- They allow for a wide range of services;
- They are **designed, created and governed by those who will pay** the assessment; and
- They provide a stable, long-term funding source for tourism promotion.

III. ACCOMPLISHMENTS

The following examples demonstrate how VGPS has utilized Tourism Business Improvement District funds to create ongoing increased demand for overnight visitation and room night sales.

Improved Brand Image - According to SMARI's 2018 Image Awareness Study, significant gains were seen since the 2011 study in perceptions of Greater Palm Springs across all image attributes, from safety and atmosphere to natural beauty and affordability.

Increased Demand for Lodging – In 2009, the annual occupancy was 50%. Since the Tourism Business Improvement District went into effect in 2009, assessed lodging businesses in Greater Palm Springs have seen a steady increase in demand, stimulating sustained economic development and growth. And VGPS-generated lodging revenues grew from \$984 million in 2013 to \$1.735 billion in 2019. Average annual hotel occupancy grew from 58% in 2013 to over 62% in 2019.

Increased Average Daily Rate and RevPAR – The average daily rate grew 27% from \$129.00 in 2013 to over \$165.00 in 2019. RevPAR grew 38% from \$77.43 in 2013 to \$107.04 in 2019.

Growth of Air Service - Air service (number of airlines and flights serving PSP) increased 53% from 2013 to 2019 in Greater Palm Springs. The current 29,096 annual flights into Palm Springs International Airport (PSP) equates to a capacity of 3,274,729 annual passenger seats in and out of PSP. Improved accessibility translates to visitation growth from both nonstop and connecting fly (vacation) markets. There are currently more than 20 cities with nonstop air service to PSP. Notable flight additions in 2019 include Alaska Airlines' Everett (WA) service, Contour Airlines' Sacramento flight and Delta's Atlanta flight offered 4 times per week.

Event Attraction - Tourism Business Improvement District marketing funds enabled VGPS to attract large-scale, high-profile events such as IRONMAN 70.3 Indian Wells-La Quinta, as well as help manage Greater Palm Springs Restaurant Week which is promoted in the Southern California drive markets. Events of this nature help grow overnight visitation in shoulder seasons and increase awareness of the destination.

Convention Sales - VGPS's convention sales team secured 2,269 meetings for assessed lodging businesses between 2013 and 2019, accounting for 1,580,613 room nights and an estimated economic impact of \$1.2 billion.

Tourism Development - Between 2013 and 2019, the Tourism Development team connected with 51,405 travel professionals in the top 15 countries sending the most visitors to California. These agents and tour operators are particularly influential in converting off-peak and shoulder season bookings.

Building Awareness - Paid advertising raised awareness from 1.7 billion annual impressions in 2014 to 43 billion annual impressions in 2019. The Greater Palm Springs brand reached prospective travelers on television, online, out-of-home and in print via regional and national distribution channels.

Media Buzz - VGPS's media relations program secured feature stories to complement paid advertising and content initiatives while amplifying the region's new product developments. Since 2013, the destination benefitted from 2,780 placements yielding more than 8.45 billion impressions in influential editorial outlets, including leading wire services, newspapers, lifestyle magazines, websites, podcasts, broadcast television programs and radio networks.

Social Media - Between 2014 and 2019, VGPS's social media audience grew 350% to over 425,000 followers across Facebook, Instagram and Twitter. Since 2013, destination and attraction videos posted by VGPS received over 20 million views. Seasonal campaigns further increased engagement and drove off-season bookings. New channels have also been introduced, including a Weibo account to reach the lucrative, high-volume China market; a meetings awareness campaign; and Instagram and Twitter accounts dedicated to the culinary scene in Greater Palm Springs.

Website Optimization - In 2018, VGPS relaunched the destination website on a new platform to better optimize SEO, facilitate mobile-first response and ensure the website offers an improved user experience. Organic traffic increased 96% over 2017 and mobile use increased by 171%.

Tourism Ambassador Program - VGPS debuted a Certified Tourism Ambassador (CTA) program with the aim of increasing tourism by providing training for any individual who comes into contact with visitors. These front-line destination ambassadors help to ensure all visitors have a positive experience in the destination. This is critical for driving repeat overnight visitation and word-of-mouth promotion of the destination. As of February 29, 2020, 500 CTAs have been trained.

TOT Growth - VGPS's marketing efforts attract more overnight visitors to the destination, increasing TOT collections for the cities and counties served by the Tourism Business Improvement District. Growing TOT translates to increased budgets for important public services such as police, firefighters, education and more.

IV. BOUNDARY

The TBID will include all lodging businesses with fifty (50) rooms or more and all vacation rentals, existing and in the future, available for public occupancy within the boundaries of the cities of Desert Hot Springs, Palm Springs, Cathedral City, Rancho Mirage, Palm Desert, Indian Wells, La Quinta, Coachella, and Indio and portions of the unincorporated area of Riverside County in the Western Coachella Valley. In 2024, the TBID and this Management District Plan was modified to include the City of Coachella in the TBID boundaries.

Lodging business means: any structure, which is occupied or intended or designed for use or occupancy by transients, including but not limited to hotels, resorts, motels, inns, and time-shares.

Vacation rental means: any privately-owned dwelling, rented for occupancy, lodging, or sleeping purposes and in possession of a valid permit or certificate within its jurisdiction to authorize operation as a vacation rental, vacation rental unit, short-term vacation rental, or short-term rental business.

The boundary is shown in the map below. A complete listing of lodging businesses with fifty (50) rooms or more and all vacation rentals within the modified TBID can be found in Appendix 2. A detailed map series can be found in Appendix 4.

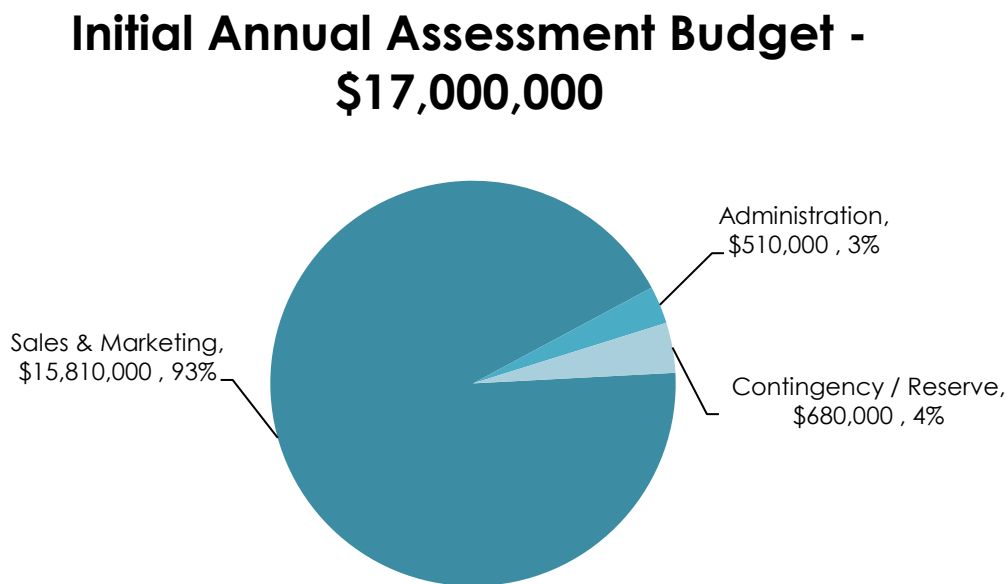

The lodging business list was compiled from records provided by each jurisdiction. The list was developed with the most reliable information provided, however, the list may contain discrepancies due to any of the following reasons: 1) The short-term vacation rentals included in the list are businesses that have obtained a permit or license to operate as a short-term vacation rental at the time of formation, and does not include short-term vacation rentals that are not permitted or licensed to operate as a short-term vacation rental; 2) Vacation rentals may cease operation with little or no notice, and may no longer be operating as a short-term rental; and 3) the short-term vacation rental list was compiled based on the dates shown in Appendix 2, and may not include short-term vacation rentals that began operation after the dates listed.

V. BUDGET AND SERVICES

A. Annual Service Plan

Assessment funds will be spent to provide specific benefits conferred or privileges granted directly to the payors that are not provided to those not charged, and which do not exceed the reasonable cost to VGPS of conferring the benefits or granting the privileges. The privileges and services provided with the TBID funds are sales and marketing programs available only to assessed businesses. The assessment rate for each lodging business type will be commensurate with privileges and services provided to assessed businesses as detailed in Appendix 3.

A service plan budget has been developed to deliver services that benefit the assessed businesses. A detailed annual budget will be developed and approved by VGPS. The table below illustrates the initial annual assessment budget allocations. The total initial assessment budget is \$17,000,000.

Although actual revenues will fluctuate due to market conditions, the proportional allocations of the budget shall remain the same. However, VGPS shall have the authority to adjust budget allocations between the categories by no more than twenty-five percent (25%) of the total budget per year. A description of the proposed improvements and activities for the initial year of operation is below. The same activities are proposed for subsequent years. In the event of a legal challenge against the TBID, any and all assessment funds may be used for the costs of defending the TBID.

Each budget category includes all costs related to providing that service, in accordance with Generally Accepted Accounting Procedures (GAAP). For example, the sales and marketing budget includes the cost of staff time dedicated to overseeing and implementing the sales and marketing program. Staff time dedicated purely to administrative tasks is allocated to the administrative portion of the budget. The costs of an individual staff member may be allocated to multiple budget categories, as

appropriate in accordance with GAAP. The staffing levels necessary to provide the services below will be determined by VGPS on an as- needed basis.

Sales and Marketing

Develop an annual sales and marketing program designed to generate demand for the assessed businesses targeting leisure, meetings and events. Develop marketing programs to attract visitors for the shoulder and summer months. Based on the Strategic Plan, develop programs to support transportation (air service / rail), workforce development and hospitality educational schools. Position the destination as sustainable and relevant to the modern traveler. Assessed businesses will receive services commensurate with the benefit received as shown in Appendix 3. The sales and marketing plan may include, without limitation, the following activities:

- Ongoing development and implementation of a Destination Development Plan. This plan outlines a strategy for attracting visitors to Greater Palm Springs and is implemented through geographic, demographic and behavioral targeting designed to reach the right people at the right time with the right message.
- Free and paid co-op marketing opportunities will be available to assessed business to further support and promote visitation to Greater Palm Springs.
- Destination industry advocacy and communications to educate elected officials, affected stakeholders and the public on initiatives designed to increase overnight visitation and room sales to assessed businesses.
- Internet marketing efforts to increase awareness and optimize internet presence to drive demand for overnight visitation and room sales to assessed businesses.
- Media placement in print, TV, audio, billboard, and digital platforms targeted at potential visitors to drive demand for overnight visitation and room sales to assessed businesses.
- Event and attraction promotion and marketing sponsorship initiatives designed to increase overnight visitation and room sales to assessed businesses.
- Industry research designed to increase the effectiveness of District media and marketing programs.
- Convention sales programs and initiatives designed to increase overnight visitation and room sales to assessed businesses.
- Air and rail service development and strategic marketing partnerships designed to increase demand for overnight visitation and room sales to assessed businesses.
- Attendance of trade shows to promote assessed businesses.
- Sales missions and client events for assessed businesses.
- Familiarization tours and site visits of assessed businesses;
- Preparation and production of collateral promotional materials such as brochures, flyers and maps featuring assessed businesses.
- Attendance of professional industry conferences and affiliation events to promote assessed businesses.
- Lead generation activities designed to attract tourists and group events to assessed businesses.
- Educational meetings to plan and coordinate tourism promotion efforts for assessed businesses.
- Workforce development strategies, research and/or programs designed to improvement the visitor experience and increase demand for overnight visitation and room sales to assessed businesses.
- Hospitality education and training support aimed at improving the visitor experience leading to increased demand for overnight visitation and room sales

to assessed businesses.

- Development and maintenance of a website designed to promote assessed businesses.
- Development and maintenance of a website for visitors or prospective vacation rental home owners with the regulations and education explained for each area within the GPSTBID; and
- Develop media or marketing efforts to educate the public on the guidelines around renting and managing a vacation rental within the GPSTBID.

Administration and Operations

The administration and operations portion of the budget shall be utilized for administrative staffing costs, office costs, and other general administrative costs such as insurance, legal, and accounting fees. A portion of this budget may also be utilized to support tracking and reporting of illegal vacation rentals to the areas within the GPSTBID.

Contingency/Reserve

The budget includes a contingency line item to account for uncollected assessments, if any. If there are contingency funds collected, they may be held in a reserve fund or utilized for other program, administration or renewal costs at the discretion of VGPS. Policies relating to contributions to the reserve fund, the target amount of the reserve fund, and expenditure of monies from the reserve fund shall be set by VGPS. The reserve fund may also be used for the costs of renewing the TBID.

B. Annual Assessment Budget

The total ten (10) year improvement and service plan assessment budget is projected at approximately \$17,000,000 annually, or \$170,000,000 through 2031. This amount may fluctuate as sales and revenue increase at assessed businesses.

C. California Constitutional Compliance

The TBID assessment is not a property-based assessment subject to the requirements of Proposition 218. The Court has found, "Proposition 218 limited the term 'assessments' to levies on real property."¹ Rather, the TBID assessment is a business-based assessment, and is subject to Proposition 26. Pursuant to Proposition 26 all levies are a tax unless they fit one of seven exceptions. Two of these exceptions apply to the TBID, a "specific benefit" and a "specific government service." Both require that the costs of benefits or services do not exceed the reasonable costs to the local government, in this case VGPS, of conferring the benefits or providing the services.

1. Specific Benefit

Proposition 26 requires that assessment funds be expended on, "a specific benefit conferred or privilege granted directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of conferring the benefit or granting the privilege."² The services in this Plan are designed to provide targeted benefits directly to assessed businesses, and are intended only to provide benefits and services directly to those businesses paying the assessment. These services are tailored not to serve the general public, businesses in general, or parcels of land, but rather to serve the specific assessed businesses within the TBID. The activities

¹ *Jarvis v. the City of San Diego* 72 Cal App. 4th 230

² Cal. Const. art XIII C § 1(e)(1)

described in this Plan are specifically targeted to increase room night sales for assessed businesses within the boundaries of the TBID, and are narrowly tailored. TBID funds will be used exclusively to provide the specific benefit of increased demand for overnight visitation and room night sales directly to the assessed businesses. Assessment funds shall not be used to feature non-assessed lodging businesses and non-assessed vacation rentals in TBID programs, or to directly generate sales for non-assessed businesses. The activities paid for from assessment revenues are for business services constituting and providing specific benefits to the assessed businesses.

The assessment imposed by this TBID is for a specific benefit conferred directly to the payors that is not provided to those not charged. The specific benefit conferred directly to the payors is an increase in demand for overnight visitation and room night sales. The specific benefit of an increase in demand for overnight visitation and room night sales for assessed businesses will be provided only to businesses paying the district assessment, with sales and marketing programs promoting businesses paying the district assessment. The sales and marketing programs will be designed to increase demand for overnight visitation and room night sales at each assessed business. Because they are necessary to provide the sales and marketing programs that specifically benefit the assessed businesses, the administration and contingency/reserve services also provide the specific benefit of increased demand for overnight visitation and room night sales to the assessed businesses.

Although the TBID, in providing specific benefits to payors, may produce incidental benefits to non-paying businesses, the incidental benefit does not preclude the services from being considered a specific benefit. The legislature has found that, "A specific benefit is not excluded from classification as a 'specific benefit' merely because an indirect benefit to a nonpayor occurs incidentally and without cost to the payor as a consequence of providing the specific benefit to the payor."³

2. Specific Government Service

The assessment may also be utilized to provide, "a specific government service or product provided directly to the payor that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product."⁴ The legislature has recognized that marketing and promotions services like those to be provided by the TBID are government services within the meaning of Proposition 26⁵. Further, the services provided with TBID funds will be implemented by VGPS which is a California Joint Powers Authority. Further, the legislature has determined that "a specific government service is not excluded from classification as a 'specific government service' merely because an indirect benefit to a nonpayor occurs incidentally and without cost to the payor as a consequence of providing the specific government service to the payor."⁶

3. Reasonable Cost

TBID services will be implemented carefully to ensure they do not exceed the reasonable cost to the local government of such services. The full amount assessed will be used to

³ Government Code § 53758(a)

⁴ Cal. Const. art XIII C § 1(e)(2)

⁵ Government Code § 53758(b)

⁶ Government Code § 53758(b)

provide the services described herein. Only assessed businesses will be featured in marketing materials, receive sales leads generated from district-funded activities, be featured in advertising campaigns, and benefit from other district-funded services. Non-assessed businesses will not receive these, nor any other, district-funded services and benefits.

The TBID-funded programs are all targeted directly at and feature only assessed businesses. It is, however, possible that there will be a spill over benefit to non-assessed businesses. If non-assessed businesses receive incremental room nights, that portion of the promotion or program generating those room nights shall be paid with non-TBID funds. TBID funds shall only be spent to benefit the assessed businesses, and shall not be spent on that portion of any program which directly generates incidental room nights for non-assessed businesses.

4. Benefit to NonPayors

The specific benefits provided by the TBID will only be directly provided to the assessed businesses; they will not be directly provided to non-assessed businesses. Possible indirect benefit does not preclude the TBID services from being considered a specific benefit. The legislature has directly indicated, in the context of tourism business improvement districts, that services are not precluded from classification as a specific benefit merely because an indirect benefit to a nonpayor occurs as a consequence of providing the service and without cost to the payor.⁷

Although the legislature does not require the cost of any incidental benefit to non-payors be separated from the assessment, out of an abundance of caution a study was conducted on benefit generated by the TBID programs. The study is attached as Appendix 5. The study found that eighty-two percent (82%) of marketing programs generate incidental room night sales at non-assessed lodging businesses. Although it is not required, the portion of programs that generate this benefit will be paid for with non-assessment funds. Assessment funds will only fund that portion of the programs (eighty-two percent (82%)) which represents a specific benefit to the assessed businesses. For example, if a program costs \$100,000 total, the TBID will fund \$82,000 and the remaining \$18,000 will be sourced from non-assessment funds.

The amount of the assessment is no more than necessary to cover the reasonable costs of the proposed activities, and the manner in which the costs are allocated to a business owner bear a fair share or reasonable relationship to the businesses' benefits received from the proposed activities. The benefit study in Appendix 5 found that the benefits provided by the TBID do not exceed the reasonable cost.

The programs provided with TBID funding receive additional non-assessment funding in the form of grants, corporate sponsorships, event income, transient occupancy tax, and other funds. These funding sources shall be equal to or exceed the amount of benefit conferred to non-payors annually by the TBID's services. These non-assessment funds will be used to pay for the benefit to non-payors provided by the proposed services, ensuring that assessments will only be used to provide benefits to assessed businesses.

⁷ AB 483 Ting (2014)

D. Assessment

The annual assessment rate is three percent (3%) of gross short-term room rental revenue of all lodging businesses within the boundaries of the TBID with fifty (50) rooms or more, and one percent (1%) of gross short-term room rental revenue of all vacation rentals. Based on the benefit received, assessments will not be collected on stays of more than twenty-seven (27) consecutive days. Every vacation rental, listing a property or room for rent, operating on a Hosting Platform shall be subject to the 1% assessment.

The determination of the assessment rates of 3% on hotels and 1% on vacation rentals was calculated based on benefit received by the payors. The services provided are targeted to benefit payors, however not all programs benefit payors equally. The extensive convention sales and meetings program included in the budget is designed to benefit hotels and not provide benefit to vacation rentals. The marketing program benefits both hotels and vacation rentals. At the time of the renewal, TBID payors include approximately 6,200 vacation rentals and approximately 15,900 hotel rooms. Vacation rental tracking in the TBID area indicates that vacation rentals have approximately 2.8 rooms per rental, totaling 17,360 rooms. Because several of the jurisdictions within the TBID are banning vacation rentals in parts of their communities, we expect the number of vacation rental rooms to decline and parallel the number of hotel rooms. As a result, the approximate ratio of hotel rooms to vacation rental rooms is 1:1.

The detailed funding analysis provide by Tourism Economics in Appendix 5 found that the total revenue raised, because of the TBID programs, for all lodging properties within the TBID is \$458m million per year. Of the \$458 million, \$245 million is raised because of the marketing program and \$213.3m is raised because of the convention sales program. The marketing program benefits vacation rentals and hotels. Based on the 1:1 relationship of room counts, we estimate that the marketing program will benefit hotels and vacation rentals at approximately the same rate. The convention sales program benefits are targeted to hotels only. Based on the nature of the programs and the Tourism Economics calculations, the hotel benefit from the convention sales would be \$213.3 million. The half of the benefit flowing to hotels from the marketing program totals \$122.7 million. These two figures added together total \$336m. The half of the benefit flowing to vacation rentals is \$122.27 million. The ratio of these benefits is approximately 3:1, matching the ratio of the assessment rates.

The term "gross short-term room rental revenue" as used herein means: the consideration charged, whether or not received, for the occupancy of space in a lodging business or vacation rental valued in money, whether to be received in money, goods, labor or otherwise, including all receipts, cash, credits and property and services of any kind or nature, without any deduction therefrom whatsoever. Gross short-term room rental revenue shall not include any federal, state or local taxes collected, including but not limited to transient occupancy taxes.

The assessment revenue collected from hotels and short-term vacation rentals will be tracked separately by VGPS. The funds will be allocated on a percentage basis for each sales and marketing program, VGPS staff, administrative expenses, research and management of the TBID to reflect the separate benefit received by hotels and short-term vacation rentals. Additionally, an advisory group will be established for each lodging business type; hotels and short-term vacation rentals. The advisory group(s) will set priorities, marketing strategies, budgets and metrics for evaluation.

The assessment rate for each lodging business type will be commensurate with privileges and services provided to assessed businesses. Hotels will have the exclusive privilege to participate or be represented in, and receive a specific benefit from, but not limited to, convention sales programs and initiatives, Hotel General Manager and Director of Sales meetings to plan and coordinate tourism promotion efforts, lead generation activities designed to attract group business and events, and sales blitzes, as detailed in Appendix 3.

The assessment is levied upon and is a direct obligation of the assessed business. However, the assessed business may, at its discretion, pass the assessment on to transients. The amount of assessment, if passed on to each transient, shall be disclosed in advance and separately stated from the amount of rent charged and any other applicable taxes, and each transient shall receive a receipt for payment from the business. If the TBID assessment is identified separately, it shall be disclosed as the "Tourism Business Improvement District Assessment." As an alternative, the disclosure may include the amount of the TBID assessment and the amount of the assessment imposed pursuant to the California Tourism Marketing Act, Government Code § 13995 et seq. and shall be disclosed as the "Tourism Assessment." The assessment is imposed solely upon, and is the sole obligation of the assessed business even if it is passed on to transients. The assessment shall not be considered revenue for any purpose, including calculation of transient occupancy taxes.

An assessed business may use a hosting platform to list their vacation rental. "Hosting Platform" means a natural person, joint venture, joint stock company, partnership, association, club, company corporation, business trust, or organization of any kind who participates in the short-term rental business by facilitating a booking transaction using any medium of facilitation. If a hosting platform is used to facilitate a booking transaction, the business owner is still solely responsible for ensuring the assessment is remitted for each short-term stay.

Bonds shall not be issued.

E. Penalties and Interest

The TBID shall reimburse VGPS, Cities and/or County for any costs associated with collecting unpaid assessments. Assessed businesses which are delinquent in paying the assessment shall be responsible for paying:

1. Original Delinquency: Any assessed business which fails to remit any assessment within the time required shall pay a penalty of ten percent (10%) of the amount of the assessment in addition to the amount of the assessment; provided, however, that if such ten percent (10%) penalty should exceed the maximum penalty permitted by law, then the penalty shall be the highest amount permitted by law.
2. Penalty Delinquency: Any assessed business which fails to remit any penalty within ten (10) days after receipt of notice thereof shall pay interest on the penalty at the rate of one percent (1%) per month or fraction thereof on the amount of the penalty from the date on which the penalty first became due until full and complete payment of the outstanding penalty; provided, however, that if such one percent (1%) interest should exceed the maximum rate permitted by law, then the interest rate shall be the highest rate permitted by law.

3. Interest: In addition to the penalties imposed, any assessed business which fails to remit any assessment shall pay interest at the rate of one percent (1%) per month or fraction thereof on the amount of the assessment from the date on which the assessment first became delinquent until paid; provided, however, that if such one percent (1%) interest should exceed the maximum rate permitted by law, then the interest rate shall be the highest rate permitted by law.
4. Costs of Collecting Delinquencies: Any assessed business shall also be subject to the payment of the costs of collecting any delinquent assessment and/or penalty, including but not limited to sending notices and initiating collection actions, which shall become a part of the assessment required to be paid. All delinquent assessments and penalties shall constitute a civil debt to VGPS and shall be subject to collection by VGPS, Cities and/or County by any means permitted by law.
5. Penalties Capped: Notwithstanding anything to the contrary, in no event shall the total penalties, including any original delinquency penalties and interest thereon exceed the maximum amount permitted by law.

F. Time and Manner for Collecting Assessments

The TBID assessment will be implemented beginning July 1, 2021 and will continue for ten (10) years through June 30, 2031. VGPS, Cities and/or County will be responsible for collecting the assessment on a monthly basis (including any delinquencies, penalties and interest) from each assessed business. VGPS, Cities and/or County shall take all reasonable efforts to collect the assessments from each assessed business.

1. VGPS, Cities and/or County shall make all reasonable efforts to enter into an agreement with all Hosting Platforms to collect and remit the TBID assessment on behalf of assessed businesses using the hosting platform.
2. An assessed business, using a Hosting Platform, reserves the right to have the Hosting Platform collect the assessment based on information supplied by the assessed business, and remit such assessment to the assessed business for ultimate reporting and remittance by the assessed business to VGPS, Cities and/or County. In such case, the Hosting Platform, upon request from VGPS, Cities, and/or County, and not more than once per consecutive twelve-month period, shall provide VGPS, Cities and/or County with copies of documentation related to assessed business which have provided acknowledgement of its obligation to collect all assessments owed on a gross short-term room rental revenue and to remit and report any assessments collected directly to VGPS, Cities, and/or County.

VI. GOVERNANCE

A. GPSTBID Management

The JPA, through adoption of this Management District Plan, has determined that Visit Greater Palm Springs (VGPS) shall administer the GPSTBID.

B. Brown Act and California Public Records Act Compliance

VGPS is subject to government regulations relating to transparency, including the Ralph M. Brown Act and the California Public Records Act. These regulations are designed to promote public accountability. VGPS is also subject to the record keeping and disclosure requirements of the California Public Records Act.

- The improvements and activities to be provided for that fiscal year.
- An estimate of the cost of providing the improvements and the activities for that fiscal year.
- The method and basis of levying the assessment in sufficient detail to allow each business owner to estimate the amount of the assessment to be levied against his or her business for that fiscal year.
- The estimated amount of any surplus or deficit revenues to be carried over from a previous fiscal year.
- The estimated amount of any contributions to be made from sources other than assessments levied pursuant to this part.

APPENDIX 1 – LAW

*** THIS DOCUMENT IS CURRENT THROUGH THE 2018 SUPPLEMENT ***
(ALL 2017 LEGISLATION)

STREETS AND HIGHWAYS CODE DIVISION 18. PARKING PART 7. PROPERTY AND BUSINESS IMPROVEMENT DISTRICT LAW OF 1994

CHAPTER 1. General Provisions

ARTICLE 1. Declarations

36600. Citation of part

This part shall be known and may be cited as the “Property and Business Improvement District Law of 1994.”

36601. Legislative findings and declarations; Legislative guidance

The Legislature finds and declares all of the following:

- (a) Businesses located and operating within business districts in some of this state’s communities are economically disadvantaged, are underutilized, and are unable to attract customers due to inadequate facilities, services, and activities in the business districts.
- (b) It is in the public interest to promote the economic revitalization and physical maintenance of business districts in order to create jobs, attract new businesses, and prevent the erosion of the business districts.
- (c) It is of particular local benefit to allow business districts to fund business related improvements, maintenance, and activities through the levy of assessments upon the businesses or real property that receive benefits from those improvements.
- (d) Assessments levied for the purpose of conferring special benefit upon the real property or a specific benefit upon the businesses in a business district are not taxes for the general benefit of a city, even if property, businesses, or persons not assessed receive incidental or collateral effects that benefit them.
- (e) Property and business improvement districts formed throughout this state have conferred special benefits upon properties and businesses within their districts and have made those properties and businesses more useful by providing the following benefits:
 - (1) Crime reduction. A study by the Rand Corporation has confirmed a 12-percent reduction in the incidence of robbery and an 8-percent reduction in the total incidence of violent crimes within the 30 districts studied.
 - (2) Job creation.
 - (3) Business attraction.
 - (4) Business retention.
 - (5) Economic growth.
 - (6) New investments.
- (f) With the dissolution of redevelopment agencies throughout the state, property and business improvement districts have become even more important tools with which communities can combat blight, promote economic opportunities, and create a clean and safe environment.
- (g) Since the enactment of this act, the people of California have adopted Proposition 218, which added Article XIII D to the Constitution in order to place certain requirements and restrictions on the formation of, and activities, expenditures, and assessments by property-based districts. Article XIII D of the Constitution provides that property-based districts may only levy assessments for special benefits.
- (h) The act amending this section is intended to provide the Legislature’s guidance with regard to this act, its interaction with the provisions of Article XIII D of the Constitution, and the determination of special benefits in property-based districts.
 - (1) The lack of legislative guidance has resulted in uncertainty and inconsistent application of this act, which discourages the use of assessments to fund needed improvements, maintenance, and activities in property-based districts, contributing to blight and other underutilization of property.
 - (2) Activities undertaken for the purpose of conferring special benefits upon property to be assessed inherently produce incidental or collateral effects that benefit property or persons not assessed. Therefore, for special benefits to exist as a separate and distinct category from general benefits, the

incidental or collateral effects of those special benefits are inherently part of those special benefits. The mere fact that special benefits produce incidental or collateral effects that benefit property or persons not assessed does not convert any portion of those special benefits or their incidental or collateral effects into general benefits.

(3) It is of the utmost importance that property-based districts created under this act have clarity regarding restrictions on assessments they may levy and the proper determination of special benefits. Legislative clarity with regard to this act will provide districts with clear instructions and courts with legislative intent regarding restrictions on property-based assessments, and the manner in which special benefits should be determined.

36602. Purpose of part

The purpose of this part is to supplement previously enacted provisions of law that authorize cities to levy assessments within property and business improvement districts, to ensure that those assessments conform to all constitutional requirements and are determined and assessed in accordance with the guidance set forth in this act. This part does not affect or limit any other provisions of law authorizing or providing for the furnishing of improvements or activities or the raising of revenue for these purposes.

36603. Preemption of authority or charter city to adopt ordinances levying assessments

Nothing in this part is intended to preempt the authority of a charter city to adopt ordinances providing for a different method of levying assessments for similar or additional purposes from those set forth in this part. A property and business improvement district created pursuant to this part is expressly exempt from the provisions of the Special Assessment Investigation, Limitation and Majority Protest Act of 1931 (Division 4 (commencing with Section 2800)).

36603.5. Part prevails over conflicting provisions

Any provision of this part that conflicts with any other provision of law shall prevail over the other provision of law, as to districts created under this part.

36604. Severability

This part is intended to be construed liberally and, if any provision is held invalid, the remaining provisions shall remain in full force and effect. Assessments levied under this part are not special taxes.

ARTICLE 3. Prior Law

Every improvement area established pursuant to the Parking and Business Improvement Area Law of 1989 (Part 6 (commencing with Section 36500) of this division) is valid and effective and is unaffected by this part.

CHAPTER 2. Establishment

36620. Establishment of property and business improvement district

A property and business improvement district may be established as provided in this chapter.

36620.5. Requirement of consent of city council

A county may not form a district within the territorial jurisdiction of a city without the consent of the city council of that city. A city may not form a district within the unincorporated territory of a county without the consent of the board

of supervisors of that county. A city may not form a district within the territorial jurisdiction of another city without the consent of the city council of the other city.

36621. Initiation of proceedings; Petition of property or business owners in proposed district

- (a) Upon the submission of a written petition, signed by the property or business owners in the proposed district who will pay more than 50 percent of the assessments proposed to be levied, the city council may initiate proceedings to form a district by the adoption of a resolution expressing its intention to form a district. The amount of assessment attributable to property or a business owned by the same property or business owner that is in excess of 40 percent of the amount of all assessments proposed to be levied, shall not be included in determining whether the petition is signed by property or business owners who will pay more than 50 percent of the total amount of assessments proposed to be levied.
- (b) The petition of property or business owners required under subdivision (a) shall include a summary of the management district plan. That summary shall include all of the following:
 - (1) A map showing the boundaries of the district.
 - (2) Information specifying where the complete management district plan can be obtained.
 - (3) Information specifying that the complete management district plan shall be furnished upon request.
- (c) The resolution of intention described in subdivision (a) shall contain all of the following:
 - (1) A brief description of the proposed improvements, maintenance, and activities, the amount of the proposed assessment, a statement as to whether the assessment will be levied on property or businesses within the district, a statement as to whether bonds will be issued, and a description of the exterior boundaries of the proposed district, which may be made by reference to any plan or map that is on file with the clerk. The descriptions and statements do not need to be detailed and shall be sufficient if they enable an owner to generally identify the nature and extent of the improvements, maintenance, and activities, and the location and extent of the proposed district.
 - (2) A time and place for a public hearing on the establishment of the property and business improvement district and the levy of assessments, which shall be consistent with the requirements of Section 36623.

36622. Contents of management district plan

The management district plan shall include, but is not limited to, all of the following:

- (a) If the assessment will be levied on property, a map of the district in sufficient detail to locate each parcel of property and, if businesses are to be assessed, each business within the district. If the assessment will be levied on businesses, a map that identifies the district boundaries in sufficient detail to allow a business owner to reasonably determine whether a business is located within the district boundaries. If the assessment will be levied on property and businesses, a map of the district in sufficient detail to locate each parcel of property and to allow a business owner to reasonably determine whether a business is located within the district boundaries.
- (b) The name of the proposed district.
- (c) A description of the boundaries of the district, including the boundaries of benefit zones, proposed for establishment or extension in a manner sufficient to identify the affected property and businesses included, which may be made by reference to any plan or map that is on file with the clerk. The boundaries of a proposed property assessment district shall not overlap with the boundaries of another existing property assessment district created pursuant to this part. This part does not prohibit the boundaries of a district created pursuant to this part to overlap with other assessment districts established pursuant to other provisions of law, including, but not limited to, the Parking and Business Improvement Area Law of 1989 (Part 6 (commencing with Section 36500)). This part does not prohibit the boundaries of a business assessment district created pursuant to this part to overlap with another business assessment district created pursuant to this part. This part does not prohibit the boundaries of a business assessment district created pursuant to this part to overlap with a property assessment district created pursuant to this part.
- (d) The improvements, maintenance, and activities proposed for each year of operation of the district and the maximum cost thereof. If the improvements, maintenance, and activities proposed for each year of operation are the same, a description of the first year's proposed improvements, maintenance, and activities and a statement that the same improvements, maintenance, and activities are proposed for subsequent years shall satisfy the requirements of this subdivision.

- (e) The total annual amount proposed to be expended for improvements, maintenance, or activities, and debt service in each year of operation of the district. If the assessment is levied on businesses, this amount may be estimated based upon the assessment rate. If the total annual amount proposed to be expended in each year of operation of the district is not significantly different, the amount proposed to be expended in the initial year and a statement that a similar amount applies to subsequent years shall satisfy the requirements of this subdivision.
- (f) The proposed source or sources of financing, including the proposed method and basis of levying the assessment in sufficient detail to allow each property or business owner to calculate the amount of the assessment to be levied against his or her property or business. The plan also shall state whether bonds will be issued to finance improvements.
- (g) The time and manner of collecting the assessments.
- (h) The specific number of years in which assessments will be levied. In a new district, the maximum number of years shall be five. Upon renewal, a district shall have a term not to exceed 10 years. Notwithstanding these limitations, a district created pursuant to this part to finance capital improvements with bonds may levy assessments until the maximum maturity of the bonds. The management district plan may set forth specific increases in assessments for each year of operation of the district.
- (i) The proposed time for implementation and completion of the management district plan.
- (j) Any proposed rules and regulations to be applicable to the district.
- (k)
 - (1) A list of the properties or businesses to be assessed, including the assessor's parcel numbers for properties to be assessed, and a statement of the method or methods by which the expenses of a district will be imposed upon benefited real property or businesses, in proportion to the benefit received by the property or business, to defray the cost thereof.
 - (2) In a property-based district, the proportionate special benefit derived by each identified parcel shall be determined exclusively in relationship to the entirety of the capital cost of a public improvement, the maintenance and operation expenses of a public improvement, or the cost of the activities. An assessment shall not be imposed on any parcel that exceeds the reasonable cost of the proportional special benefit conferred on that parcel. Only special benefits are assessable, and a property-based district shall separate the general benefits, if any, from the special benefits conferred on a parcel. Parcels within a property-based district that are owned or used by any city, public agency, the State of California, or the United States shall not be exempt from assessment unless the governmental entity can demonstrate by clear and convincing evidence that those publicly owned parcels in fact receive no special benefit. The value of any incidental, secondary, or collateral effects that arise from the improvements, maintenance, or activities of a property-based district and that benefit property or persons not assessed shall not be deducted from the entirety of the cost of any special benefit or affect the proportionate special benefit derived by each identified parcel.
- (l) In a property-based district, the total amount of all special benefits to be conferred upon the properties located within the property-based district.
- (m) In a property-based district, the total amount of general benefits, if any.
- (n) In a property-based district, a detailed engineer's report prepared by a registered professional engineer certified by the State of California supporting all assessments contemplated by the management district plan.
- (o) Any other item or matter required to be incorporated therein by the city council.

36623. Procedure to levy assessment

- (a) If a city council proposes to levy a new or increased property assessment, the notice and protest and hearing procedure shall comply with Section 53753 of the Government Code.
- (b) If a city council proposes to levy a new or increased business assessment, the notice and protest and hearing procedure shall comply with Section 54954.6 of the Government Code, except that notice shall be mailed to the owners of the businesses proposed to be assessed. A protest may be made orally or in writing by any interested person. Every written protest shall be filed with the clerk at or before the time fixed for the public hearing. The city council may waive any irregularity in the form or content of any written protest. A written protest may be withdrawn in writing at any time before the conclusion of the public hearing. Each written protest shall contain a description of the business in which the person subscribing the protest is interested sufficient to identify the business and, if a person subscribing is not shown on the official records of the city as the owner of the business, the protest shall contain or be accompanied by written evidence that the person subscribing is the owner of the business or the authorized representative. A written protest that does not comply with this section shall not be counted in determining a majority protest. If written protests are received from the owners or authorized representatives of businesses in the proposed district that will pay

50 percent or more of the assessments proposed to be levied and protests are not withdrawn so as to reduce the protests to less than 50 percent, no further proceedings to levy the proposed assessment against such businesses, as contained in the resolution of intention, shall be taken for a period of one year from the date of the finding of a majority protest by the city council.

(c) If a city council proposes to conduct a single proceeding to levy both a new or increased property assessment and a new or increased business assessment, the notice and protest and hearing procedure for the property assessment shall comply with subdivision (a), and the notice and protest and hearing procedure for the business assessment shall comply with subdivision (b). If a majority protest is received from either the property or business owners, that respective portion of the assessment shall not be levied. The remaining portion of the assessment may be levied unless the improvement or other special benefit was proposed to be funded by assessing both property and business owners.

36624. Changes to proposed assessments

At the conclusion of the public hearing to establish the district, the city council may adopt, revise, change, reduce, or modify the proposed assessment or the type or types of improvements, maintenance, and activities to be funded with the revenues from the assessments. Proposed assessments may only be revised by reducing any or all of them. At the public hearing, the city council may only make changes in, to, or from the boundaries of the proposed property and business improvement district that will exclude territory that will not benefit from the proposed improvements, maintenance, and activities. Any modifications, revisions, reductions, or changes to the proposed assessment district shall be reflected in the notice and map recorded pursuant to Section 36627.

36625. Resolution of formation

(a) If the city council, following the public hearing, decides to establish a proposed property and business improvement district, the city council shall adopt a resolution of formation that shall include, but is not limited to, all of the following:

(1) A brief description of the proposed improvements, maintenance, and activities, the amount of the proposed assessment, a statement as to whether the assessment will be levied on property, businesses, or both within the district, a statement on whether bonds will be issued, and a description of the exterior boundaries of the proposed district, which may be made by reference to any plan or map that is on file with the clerk. The descriptions and statements need not be detailed and shall be sufficient if they enable an owner to generally identify the nature and extent of the improvements, maintenance, and activities and the location and extent of the proposed district.

(2) The number, date of adoption, and title of the resolution of intention.

(3) The time and place where the public hearing was held concerning the establishment of the district.

(4) A determination regarding any protests received. The city shall not establish the district or levy assessments if a majority protest was received.

(5) A statement that the properties, businesses, or properties and businesses in the district established by the resolution shall be subject to any amendments to this part.

(6) A statement that the improvements, maintenance, and activities to be conferred on businesses and properties in the district will be funded by the levy of the assessments. The revenue from the levy of assessments within a district shall not be used to provide improvements, maintenance, or activities outside the district or for any purpose other than the purposes specified in the resolution of intention, as modified by the city council at the hearing concerning establishment of the district. Notwithstanding the foregoing, improvements and activities that must be provided outside the district boundaries to create a special or specific benefit to the assessed parcels or businesses may be provided, but shall be limited to marketing or signage pointing to the district.

(7) A finding that the property or businesses within the area of the property and business improvement district will be benefited by the improvements, maintenance, and activities funded by the proposed assessments, and, for a property-based district, that property within the district will receive a special benefit.

(8) In a property-based district, the total amount of all special benefits to be conferred on the properties within the property-based district.

(b) The adoption of the resolution of formation and, if required, recordation of the notice and map pursuant to Section 36627 shall constitute the levy of an assessment in each of the fiscal years referred to in the management district plan.

36626. Resolution establishing district

If the city council, following the public hearing, desires to establish the proposed property and business improvement district, and the city council has not made changes pursuant to Section 36624, or has made changes that do not substantially change the proposed assessment, the city council shall adopt a resolution establishing the district. The resolution shall contain all of the information specified in Section 36625.

36627. Notice and assessment diagram

Following adoption of the resolution establishing district assessments on properties pursuant to Section 36625 or Section 36626, the clerk shall record a notice and an assessment diagram pursuant to Section 3114. No other provision of Division 4.5 (commencing with Section 3100) applies to an assessment district created pursuant to this part.

36628. Establishment of separate benefit zones within district; Categories of businesses

The city council may establish one or more separate benefit zones within the district based upon the degree of benefit derived from the improvements or activities to be provided within the benefit zone and may impose a different assessment within each benefit zone. If the assessment is to be levied on businesses, the city council may also define categories of businesses based upon the degree of benefit that each will derive from the improvements or activities to be provided within the district and may impose a different assessment or rate of assessment on each category of business, or on each category of business within each zone.

36628.5. Assessments on businesses or property owners

The city council may levy assessments on businesses or on property owners, or a combination of the two, pursuant to this part. The city council shall structure the assessments in whatever manner it determines corresponds with the distribution of benefits from the proposed improvements, maintenance, and activities, provided that any property-based assessment conforms with the requirements set forth in paragraph (2) of subdivision (k) of Section 36622.

36629. Provisions and procedures applicable to benefit zones and business categories

All provisions of this part applicable to the establishment, modification, or disestablishment of a property and business improvement district apply to the establishment, modification, or disestablishment of benefit zones or categories of business. The city council shall, to establish, modify, or disestablish a benefit zone or category of business, follow the procedure to establish, modify, or disestablish a property and business improvement district.

36630. Expiration of district; Creation of new district

If a property and business improvement district expires due to the time limit set pursuant to subdivision (h) of Section 36622, a new management district plan may be created and the district may be renewed pursuant to this part.

CHAPTER 3. Assessments

36631. Time and manner of collection of assessments; Delinquent payments

The collection of the assessments levied pursuant to this part shall be made at the time and in the manner set forth by the city council in the resolution levying the assessment. Assessments levied on real property may be collected at the same time and in the same manner as for the ad valorem property tax, and may provide for the same lien priority and penalties for delinquent payment. All delinquent payments for assessments levied pursuant to this part may be charged interest and penalties.

36632. Assessments to be based on estimated benefit; Classification of real property and businesses; Exclusion of residential and agricultural property

- (a) The assessments levied on real property pursuant to this part shall be levied on the basis of the estimated benefit to the real property within the property and business improvement district. The city council may

classify properties for purposes of determining the benefit to property of the improvements and activities provided pursuant to this part.

(b) Assessments levied on businesses pursuant to this part shall be levied on the basis of the estimated benefit to the businesses within the property and business improvement district. The city council may classify businesses for purposes of determining the benefit to the businesses of the improvements and activities provided pursuant to this part.

(c) Properties zoned solely for residential use, or that are zoned for agricultural use, are conclusively presumed not to benefit from the improvements and service funded through these assessments, and shall not be subject to any assessment pursuant to this part.

36633. Time for contesting validity of assessment

The validity of an assessment levied under this part shall not be contested in any action or proceeding unless the action or proceeding is commenced within 30 days after the resolution levying the assessment is adopted pursuant to Section 36626. Any appeal from a final judgment in an action or proceeding shall be perfected within 30 days after the entry of judgment.

36634. Service contracts authorized to establish levels of city services

The owners' association may, at any time, request that the city council modify the management district plan. Any modification of the management district plan shall be made pursuant to this chapter.

36636. Modification of plan by resolution after public hearing; Adoption of resolution of intention

(a) Upon the written request of the owners' association, the city council may modify the management district plan after conducting one public hearing on the proposed modifications. The city council may modify the improvements and activities to be funded with the revenue derived from the levy of the assessments by adopting a resolution determining to make the modifications after holding a public hearing on the proposed modifications. If the modification includes the levy of a new or increased assessment, the city council shall comply with Section 36623. Notice of all other public hearings pursuant to this section shall comply with both of the following:

- (1) The resolution of intention shall be published in a newspaper of general circulation in the city once at least seven days before the public hearing.
- (2) A complete copy of the resolution of intention shall be mailed by first class mail, at least 10 days before the public hearing, to each business owner or property owner affected by the proposed modification.

(b) The city council shall adopt a resolution of intention which states the proposed modification prior to the public hearing required by this section. The public hearing shall be held not more than 90 days after the adoption of the resolution of intention.

36637. Reflection of modification in notices recorded and maps

Any subsequent modification of the resolution shall be reflected in subsequent notices and maps recorded pursuant to Division 4.5 (commencing with Section 3100), in a manner consistent with the provisions of Section 36627.

CHAPTER 3.5. Financing

36640. Bonds authorized; Procedure; Restriction on reduction or termination of assessments

(a) The city council may, by resolution, determine and declare that bonds shall be issued to finance the estimated cost of some or all of the proposed improvements described in the resolution of formation adopted pursuant to Section 36625, if the resolution of formation adopted pursuant to that section provides for the issuance of bonds, under the Improvement Bond Act of 1915 (Division 10 (commencing with Section 8500))

or in conjunction with Marks-Roos Local Bond Pooling Act of 1985 (Article 4 (commencing with Section 6584) of Chapter 5 of Division 7 of Title 1 of the Government Code). Either act, as the case may be, shall govern the proceedings relating to the issuance of bonds, although proceedings under the Bond Act of 1915 may be modified by the city council as necessary to accommodate assessments levied upon business pursuant to this part.

(b) The resolution adopted pursuant to subdivision (a) shall generally describe the proposed improvements specified in the resolution of formation adopted pursuant to Section 36625, set forth the estimated cost of those improvements, specify the number of annual installments and the fiscal years during which they are to be collected. The amount of debt service to retire the bonds shall not exceed the amount of revenue estimated to be raised from assessments over 30 years.

(c) Notwithstanding any other provision of this part, assessments levied to pay the principal and interest on any bond issued pursuant to this section shall not be reduced or terminated if doing so would interfere with the timely retirement of the debt.

CHAPTER 4. Governance

36650. Report by owners' association; Approval or modification by city council

(a) The owners' association shall cause to be prepared a report for each fiscal year, except the first year, for which assessments are to be levied and collected to pay the costs of the improvements, maintenance, and activities described in the report. The owners' association's first report shall be due after the first year of operation of the district. The report may propose changes, including, but not limited to, the boundaries of the property and business improvement district or any benefit zones within the district, the basis and method of levying the assessments, and any changes in the classification of property, including any categories of business, if a classification is used.

(b) The report shall be filed with the clerk and shall refer to the property and business improvement district by name, specify the fiscal year to which the report applies, and, with respect to that fiscal year, shall contain all of the following information:

(1) Any proposed changes in the boundaries of the property and business improvement district or in any benefit zones or classification of property or businesses within the district.

(2) The improvements, maintenance, and activities to be provided for that fiscal year.

(3) An estimate of the cost of providing the improvements, maintenance, and activities for that fiscal year.

(4) The method and basis of levying the assessment in sufficient detail to allow each real property or business owner, as appropriate, to estimate the amount of the assessment to be levied against his or her property or business for that fiscal year.

(5) The estimated amount of any surplus or deficit revenues to be carried over from a previous fiscal year.

(6) The estimated amount of any contributions to be made from sources other than assessments levied pursuant to this part.

(c) The city council may approve the report as filed by the owners' association or may modify any particular contained in the report and approve it as modified. Any modification shall be made pursuant to Sections 36635 and 36636.

The city council shall not approve a change in the basis and method of levying assessments that would impair an authorized or executed contract to be paid from the revenues derived from the levy of assessments, including any commitment to pay principal and interest on any bonds issued on behalf of the district.

36651. Designation of owners' association to provide improvements, maintenance, and activities

The management district plan may, but is not required to, state that an owners' association will provide the improvements, maintenance, and activities described in the management district plan. If the management district plan designates an owners' association, the city shall contract with the designated nonprofit corporation to provide services.

CHAPTER 5. Renewal

36660. Renewal of district; Transfer or refund of remaining revenues; District term limit

- (a) Any district previously established whose term has expired, or will expire, may be renewed by following the procedures for establishment as provided in this chapter.
- (b) Upon renewal, any remaining revenues derived from the levy of assessments, or any revenues derived from the sale of assets acquired with the revenues, shall be transferred to the renewed district. If the renewed district includes additional parcels or businesses not included in the prior district, the remaining revenues shall be spent to benefit only the parcels or businesses in the prior district. If the renewed district does not include parcels or businesses included in the prior district, the remaining revenues attributable to these parcels shall be refunded to the owners of these parcels or businesses.
- (c) Upon renewal, a district shall have a term not to exceed 10 years, or, if the district is authorized to issue bonds, until the maximum maturity of those bonds. There is no requirement that the boundaries, assessments, improvements, or activities of a renewed district be the same as the original or prior district.

CHAPTER 6. Disestablishment

36670. Circumstances permitting disestablishment of district; Procedure

- (a) Any district established or extended pursuant to the provisions of this part, where there is no indebtedness, outstanding and unpaid, incurred to accomplish any of the purposes of the district, may be disestablished by resolution by the city council in either of the following circumstances:
 - (1) If the city council finds there has been misappropriation of funds, malfeasance, or a violation of law in connection with the management of the district, it shall notice a hearing on disestablishment.
 - (2) During the operation of the district, there shall be a 30-day period each year in which assesseses may request disestablishment of the district. The first such period shall begin one year after the date of establishment of the district and shall continue for 30 days. The next such 30-day period shall begin two years after the date of the establishment of the district. Each successive year of operation of the district shall have such a 30-day period. Upon the written petition of the owners or authorized representatives of real property or the owners or authorized representatives of businesses in the district who pay 50 percent or more of the assessments levied, the city council shall pass a resolution of intention to disestablish the district. The city council shall notice a hearing on disestablishment.
- (b) The city council shall adopt a resolution of intention to disestablish the district prior to the public hearing required by this section. The resolution shall state the reason for the disestablishment, shall state the time and place of the public hearing, and shall contain a proposal to dispose of any assets acquired with the revenues of the assessments levied within the property and business improvement district. The notice of the hearing on disestablishment required by this section shall be given by mail to the property owner of each parcel or to the owner of each business subject to assessment in the district, as appropriate. The city shall conduct the public hearing not less than 30 days after mailing the notice to the property or business owners. The public hearing shall be held not more than 60 days after the adoption of the resolution of intention.

36671. Refund of remaining revenues upon disestablishment or expiration without renewal of district; Calculation of refund; Use of outstanding revenue collected after disestablishment of district

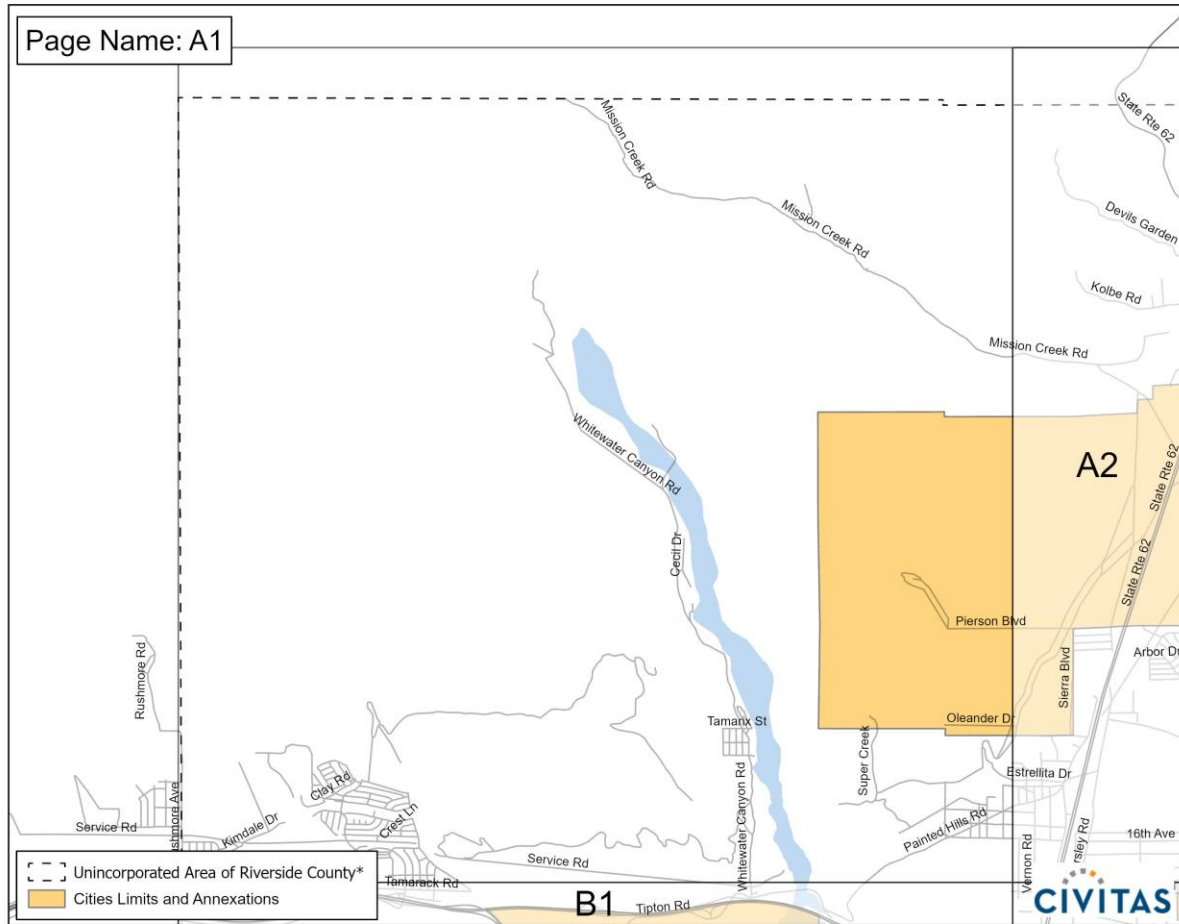

- (a) Upon the disestablishment or expiration without renewal of a district, any remaining revenues, after all outstanding debts are paid, derived from the levy of assessments, or derived from the sale of assets acquired with the revenues, or from bond reserve or construction funds, shall be refunded to the owners of the property or businesses then located and operating within the district in which assessments were levied by applying the same method and basis that was used to calculate the assessments levied in the fiscal year in which the district is disestablished or expires. All outstanding assessment revenue collected after disestablishment shall be spent on improvements and activities specified in the management district plan.
- (b) If the disestablishment occurs before an assessment is levied for the fiscal year, the method and basis that was used to calculate the assessments levied in the immediate prior fiscal year shall be used to calculate the amount of any refund.

NOTICE IS HEREBY GIVEN that on December 13, 2024, the Joint Powers Authority Executive Committee (JPA Executive Committee) of Visit Greater Palm Springs adopted a Resolution of Intention to modify the Management District Plan (Plan) of the Greater Palm Springs Tourism Business Improvement District (GPSTBID) to include the City of Coachella within the GPSTBID boundaries.

NOTICE IS HEREBY FURTHER GIVEN that at 8:30 AM on January 31, 2025, at the Agua Caliente Resort Casino Spa Rancho Mirage, in the Cahuilla Ballroom, 32-250 Bob Hope Dr, Rancho Mirage, CA 92270, a public meeting shall be held pursuant to Government Code section 54954.6 to allow public testimony regarding the modification of the GPSTBID Plan as set forth in the Resolution of Intention and pursuant to Government Code section 54954.6.

NOTICE IS HEREBY FURTHER GIVEN that 8:30 AM on April 4, 2025, at the Ritz-Carlton, Rancho Mirage, in the Ritz-Carlton Ballroom, 68900 Frank Sinatra Dr, Rancho Mirage, CA 92270, has been set as the time and place for a public hearing at which time the JPA Executive Committee proposes to modify the GPSTBID Plan as set forth in the Resolution of Intention.

- Location:** The GPSTBID includes all lodging businesses with fifty (50) rooms or more and all vacation rentals located within the boundaries of the cities of Desert Hot Springs, Palm Springs, Cathedral City, Rancho Mirage, Palm Desert, Indian Wells, La Quinta, Coachella, and Indio and portions of the unincorporated area of Riverside County in the Western Coachella Valley.
- Services:** The GPSTBID is designed to provide specific benefits directly to payors by creating sales and marketing programs with the goal of increasing overnight visitation and room night sales. In addition to sales and marketing programs, the Visit Greater Palm Springs (VGPS) Board of Directors will establish key priorities each year. For example: key programs may include air service and rail development, work force development, research and analytics, educational support, and more.
- Budget:** The estimated GPSTBID assessment budget for FY2025-26 is anticipated to be approximately \$25,000,000. A similar budget is expected to apply to subsequent years, but this budget is expected to fluctuate as room sales do.
- Cost:** The annual assessment rate is three percent (3%) of hotels' gross short-term room rental revenue, and one percent (1%) of vacation rentals' gross short-term room rental revenue. Based on the benefit received, assessments will not be collected on stays of more than twenty-seven (27) consecutive days.
- Collection:** VGPS, the Cities and/or County will be responsible for collecting the assessment on a monthly basis (including any delinquencies, penalties and interest) from each lodging business with fifty (50) rooms or more and each vacation rental located in the boundaries of the GPSTBID. VGPS, the Cities and/or County shall take all reasonable efforts to collect the assessments from each assessed business.
- Duration:** The GPSTBID was renewed for a ten (10) year life, beginning July 1, 2021 through June 30, 2031. Once per year, beginning on the anniversary of TBID renewal, there is a thirty (30)

day period in which owners paying fifty percent (50%) or more of the assessment may protest and initiate a hearing on GPSTBID termination.

Management: VGPS is charged with managing funds and implementing programs.

Protest: Any owner of a lodging business within the modified GPSTBID that will be subject to the assessment may protest the modification of the GPSTBID. If written protests are received from the owners of lodging businesses in the modified GPSTBID who represent fifty percent (50%) or more of the estimated annual assessments to be levied, the GPSTBID shall not be modified and the assessment shall not be imposed.

RE: Executive Summary of 2024 Engagement Survey and onsite Team Summit

Fired Up! Culture was contracted by the Board and Leadership of Visit Greater Palm Springs (VGPS) to complete the process of evaluating the People and Culture activities of the organization. During the month of November 2024, our team completed an Employee Engagement Survey along with updated Birkman Assessments and report debriefs for all new team members. On January 6, Fired Up! Culture Coach Linda John facilitated an onsite Culture Survey Debrief with the VGPS Leadership Team, and a culture shaping strategic session for the Full Team. On January 7, she facilitated an onsite full-day Team Summit for the individual departments and Full Team of VGPS.

This Executive Summary is intended to summarize this work as well as provide key findings and recommendations. Additionally, we have provided detailed reports to the VGPS Leadership for further review.

Employee Engagement Survey

The Engagement Survey process included a foundational data-driven online survey, the **Fired-Up! Culture Index™**. All VGPS team members were invited to participate in the online survey, with 86% (56 of 65) of the VGPS team members completing the online survey process. This high level of engagement reflects the transparent and healthy culture within the organization. Throughout the process, team members demonstrated their commitment by providing candid and transparent feedback to help VGPS continue improving.

VGPS's scores across the 18 core areas measured, which are critical to sustaining a healthy work culture, are considered very strong. The results were extremely impressive, with 100% achieving a Fired Up! Culture best practices benchmark. Notably, the highest scores were in Customer Promise, Organizational Purpose, Teaming & Collaboration, Leadership and Overall Work Environment.

The results of the **Fired-Up! Culture Index™** survey led to VGPS receiving a 2024 Fired Up! Culture Achievement Award. This award is given to organizations that excel and set the standard for workplace culture and engagement through impactful action by leadership to get intentional about their workplace culture, prioritize the development of the team members, and foster a healthy and positive environment in their workplace.

VGPS is setting the standard among its peers when it comes to how engaged their team members are feeling about their workplace culture. Moving forward, it is important to maintain this high level of People and Culture activities, while continuing to move the scores even higher in the areas of Systems and Processes.

See next page for specific recommendations.

Engagement Survey Recommendations:

Our processes are designed to assist leadership in focusing and prioritizing areas for improvement. The recommendations from the engagement survey are as follows:

- Continue to design and implement systems and processes to help team members achieve desired results while fostering stronger communication and efficiency. Of the core six areas, this was the only area with scores slightly lower than the highest possible results.
- Continue to invest in a leadership culture at all levels. This was clearly of critical importance to team members, with 38% ranking it as their number one priority.
- Engage the team in prioritizing the key initiatives identified during the Team Summit, followed by development of action plans and progress tracking of action items.

Overall Summary

The results of both the Engagement Survey and Team Summit processes demonstrate the outstanding health of the VGPS people and culture philosophies, practices, and outcomes. We encourage the senior leadership team to continue their exceptional work, as evidenced by our findings. Should you have any questions or need clarifications, please do not hesitate to contact us.

Thank you for the opportunity to partner with your passionate and dedicated leadership team on this project.

All the best,

Understanding the scoring, symbols and graphs

Your report presents responses using a proprietary scoring system that measures level of engagement on each cultural element. Responses are divided into three engagement categories:

Fired-Up! Index Score™

Each cultural element also receives a *Fired-Up! Index Score™*. Scores fall into one of four ranges. Each represents a different set of attitudes and behaviors. Success is to move the majority of individuals, teams, and the organization as a whole into the Fired-Up! level.

- **Fired-Up!:** Representing responders who are actively engaged.
Score Range = 60 to 100 (Exceptional)

- **Igniting:** Representing responders who are feeling good, leaning in, and hopeful about the future.
Score Range = 20 to 59 (Positive with areas that can be leveraged)

- **Smoldering:** Representing responders who are neutral, passive, and have a ‘wait and see’ attitude.
Score Range = -19 to +19 (Areas needing attention)

- **Burnt-Out:** Representing responders who are actively disengaged, often low performers and considered detractors.
Score Range = -20 to -100 (Poor. Critical areas of concern)

VGPS 2-YEAR PRIORITIES

As we begin the new year, we are excited to share the below collaborative efforts that have shaped our updated priorities for the next two years. These priorities reflect key focus areas critical to driving the success of Greater Palm Springs. While they provide important direction, they do not encompass the full scope of our organizational efforts, which will be further detailed in our comprehensive 2025 goals, incorporating both quantitative metrics and qualitative achievements. - 2024 **sessions** were met at **114%** of goal and **users** were met at **112%** of goal.
- Traditionally, engagement-based metrics have served as a benchmark for understanding user activity. We did not meet the goal for **highly engaged sessions (93.5%)** or **qualified sessions (92.4%)** with the increased cookie declines and updates to platforms like Google Analytics 4 in 2024.
- To address this, we are moving away from composite metrics that attempt to generalize user behavior and instead focusing on specific, measurable interactions that directly correlate to real-world outcomes.
- By tracking key pages and actions rather than qualified and engaged sessions, it will not only showcase the value we provide to our partners and constituents but also allow us to unify measurements across different channels and pages.
- By embracing this shift, we aim to provide a clearer, more accurate picture of how our marketing efforts drive tourism and support the broader community. This approach ensures we remain adaptable and forward-thinking.
