

# HELLO!

We are pleased that you have chosen Hamilton County as the destination for your upcoming meeting!

Through our Destination Stewardship program, Hamilton County Tourism focuses on reducing the negative impacts of traditional tourism and caring for the people and nature in our county. We work with local and regional partners to implement sustainable practices that offer lasting benefits to our communities while providing meaningful experiences for all who visit.

Join us in our stewardship of Hamilton County. We know it can be hard finding resources when you're visiting a new place, so we've curated some guides to assist you:

- [Give Back While You Gather Guide](#) - This resource empowers you to create a meaningful experience for your guests. Whether you are interested in donating supplies or volunteering, we can help connect you with the right organizations to ensure a positive impact during your visit.
- [Indianapolis Event Waste Guide](#) - This comprehensive guide outlines actionable steps to minimize waste at your event. It also includes a list of regional vendors who can support your sustainability goals.

Need more help? Please reach out to [Katherine Couch](#), our Senior Sustainability Manager.

We're excited to support you in planning a meaningful and sustainable meeting in Hamilton County.

Sincerely,  
The Hamilton County Tourism Team
